**Representative Arrington's HOA Transparency Bill Passes
Florida House of Representatives**

TALLAHASSEE, Fla. - Representative Kristen Arrington's (D- Kissimmee) legislation to require homeowners' associations (HOAs) to provide copies of association rules and covenants to every member and to every new member thereafter by a specified date has passed the Florida House of Representatives today. [HB 59](#) requires HOAs to be more transparent with their residents regarding rules and regulations.

"This legislation is incredibly important to the people of Florida. Homeowners' associations are a big part of our communities and it is vital to ensure that residents in HOAs are well-protected. I am immensely grateful that we are able to deliver this critical legislation back to our communities and to finally see this legislation pass the House floor. I especially want to thank Senator Linda Stewart (D-Orlando) for not only sponsoring the Senate version of the bill ([SB 50](#)), but for bringing me onto this legislation on the ground floor," said **Representative Arrington**.

HB 59 has passed the House floor unanimously and will head to the Senate floor for the final passage vote.
