**Representative Allison Tant Celebrates Florida State
Parks License Plate Available for Preorder**

TALLAHASSEE, Fla. – During the 2021 Legislative Session, **Representative Allison Tant (D-Tallahassee)** filed **HB 249**, which created several new specialty license plates including the new Florida State Parks Specialty License Plate. The bill goes into effect today, allowing for Floridians to now preorder the new plates.

“I am excited that this plate is now available for Floridians to order. This plate will provide the funding for much needed updates to our state parks to bring them up to ADA standards and to make our parks more accessible for everyone,” said **Representative Tant**. “In order for the plate to go into production, it has to receive 3,000 preorders. I encourage everyone to go out and get one of these plates. It is a great way to show your pride for our award-winning state parks.”

Floridians can order the new Florida State Parks Specialty License Plate at bit.ly/stateparksplate.
