Language from State Representative Kevin Chambliss' Enterprise Zone Boundaries Bill in CS/CS/SB 912 Passes the Florida House

TALLAHASSEE, Fla. Yesterday, State **Senator Ben Albritton's (R-Bartow)** Commercial Tolling and Extension of Permits and Other Authorization During States of Emergency bill ([CS/CS/SB 912](#)), included language of State **Representative Kevin Chambliss' (D-Homestead)** Enterprise Zone Boundaries Bill ([HB 285](#)) and passed on the Florida House floor.

Representative Chambliss' bill extends the previous boundaries of enterprise zone boundaries which will give local governments more time to administer local incentive programs for projects. Many small businesses in the City of Homestead have been greatly affected in the past year by the pandemic and the added amendment will support economic development in the community.

"The extension of the Enterprise Zone designation for our area will be helpful in attracting an even wider array of job producers who are now flocking to South Florida from throughout the world. We are positioned to create thousands of new jobs due to the tenacity of freshman **Representative Chambliss,**" said **City of Homestead Mayor Steven D. Losner** .

Representative Chambliss thanks **Senator Albritton (R-Bartow)** and **Representative Michael Grant (R-Port Charlotte)** for their work towards the bill and their support in uplifting businesses in a post-pandemic economy.

CS/CS/SB 912 is now headed to the Governor's desk.
