**Representative Tracie Davis Issues Statement Calling on Corporations to Fight Restrictive Voting Laws**

**Tallahassee, FL – Representative Tracie Davis (D-Jacksonville)** issued the following statement regarding the wave of restrictive voting bills being advanced by Republicans in at least 43 states, including Florida:

“I want to urge all corporations to take a stand against these racially charged voting suppression proposals going on throughout the United States. We support these companies with our purchasing power, and right now we need their alliance. I call on companies in Florida and beyond to use their voices to protect the democratic process. A healthy democracy is crucial to maintaining a successful, thriving, and profitable nation. Let these state legislatures know that these unwarranted radical changes are a threat to the success of our state and nation.”

Yesterday, dozens of Black business leaders from across the country [sent a letter](#) calling on companies to speak out against this widespread scheme to making voting harder in states across America.
