Representative Dianne Hart issued the following statement:

“I am so excited to announce that East Tampa can begin to receive the COVID-19 vaccine from a locally known pharmacist. It is my hope that this will help the community feel at ease about receiving the vaccine. African-Americans have been hit hard by this virus and it is important that our communities have access to this life-saving vaccine.”

Dr. Vondalyn Wright issued the following statement:

“As a pharmacist in the East Tampa Community I’m happy to be a part of the solution. Our patients are happy to know their local pharmacist whom they trust is giving out vaccines. We are willing and ready to vaccinate the most vulnerable in our community, we’re even offering mobile services. It is our hope that this is a step forward to ending the COVID-19 pandemic.”
