Representative Chambliss & Senator Randolph Bracy File Law Enforcement Officer Body and Vehicle Dash Cameras

Tallahassee, FL – Representative Kevin Chambliss (D-Homestead) filed **HB 569** Law Enforcement Officer Body and Vehicle Dash Cameras, which will serve as the House companion to **Senator Randolph Bracy (D-Orlando)** **SB 452**. This legislation would require law enforcement officers to wear and use body cameras and require law enforcement vehicles to be equipped with and use dashboards cameras.

“Now, more than ever, it is imperative that there be trust between law enforcement and the community,” **Representative Kevin Chambliss** said. “In order to establish this trust, police body cams and dash cams are crucial in protecting the integrity of LEO, as well as the safety of residents.”

“This legislation would allow transparency between the public and law enforcement which has been a big issue for many of my constituents,” said **Senator Bracy**. “Body and vehicle cameras would also aid the public and law enforcement in acquiring evidence that can help solve cases or lead investigators on the right track. It’s clear that this bill would benefits all parties.”
