Read all instructions carefully.

House local bill policy requires that no local bill will be considered by a committee or a subcommittee without an Economic Impact Statement. This form must be prepared by an individual who is qualified to establish fiscal data and impacts and has personal knowledge of the information given (for example, a chief financial officer of a particular local government). Please file this completed, original form with the Clerk of the House as soon as possible after a bill is filed. Additional pages may be attached as necessary.

I. REVENUES:

These figures are new revenues that would not exist but for the passage of the bill. The term "revenue" contemplates, but is not limited to, taxes, fees and special assessments. For example, license plate fees may be a revenue source. If the bill will add or remove property or individuals from the tax base, include this information as well.

II. COST:

Include all costs, both direct and indirect, including start-up costs. If the bill repeals the existence of a certain entity, state the related costs, such as satisfying liabilities and distributing assets.

Please include explanations and calculations regarding how each dollar figure was determined in reaching total cost.

The revenue which funds school construction in Monroe County is largely raised through millage rates that are already set annually by the School Board and enforced via existing means. This bill simply lifts the statutory maximums on ad valorem revenue that may be dedicated to school construction in light of the local conditions that drive up the cost of school construction in Monroe County more than other School Districts in the State.

III. FUNDING SOURCE(S):

State the specific sources from which funding will be received, for example, license plate fees, state funds, borrowed funds, or special assessments.

If certain funding changes are anticipated to occur beyond the following two fiscal years, explain the change and at what rate taxes, fees or assessments will be collected in those years.

V. DESCRIBE THE POTENTIAL IMPACT OF THE BILL ON PRESENT GOVERNMENTAL SERVICES:

Monroe County is currently subject to the statutory limitations on the use of ad valorem revenue for school construction set forth by Florida Statute 1013.64(6)(b). Due to unique local conditions in Monroe County, the cost of school construction is significantly greater for the Monroe County School Board than that experienced by other School Boards in the State. This bill would lift those restrictions for Monroe County, allowing the School Board to dedicate a greater portion of existing local resources to the renovation and construction of schools.

VI. SPECIFIC DATA USED IN REACHING ESTIMATES:

Include the type(s) and source(s) of data used, percentages, dollar figures, all assumptions made, history of the industry/issue affected by the bill, and any audits.
