

Healthcare Council

**Tuesday, March 11, 2008
11:10 AM – 12:00 PM
212 Knott Building**

Council Meeting Notice

HOUSE OF REPRESENTATIVES

Speaker Marco Rubio

Healthcare Council

Start Date and Time: Tuesday, March 11, 2008 11:10 am

End Date and Time: Tuesday, March 11, 2008 12:00 pm

Location: 212 Knott Building

Duration: 0.83 hrs

Budget Workshop:

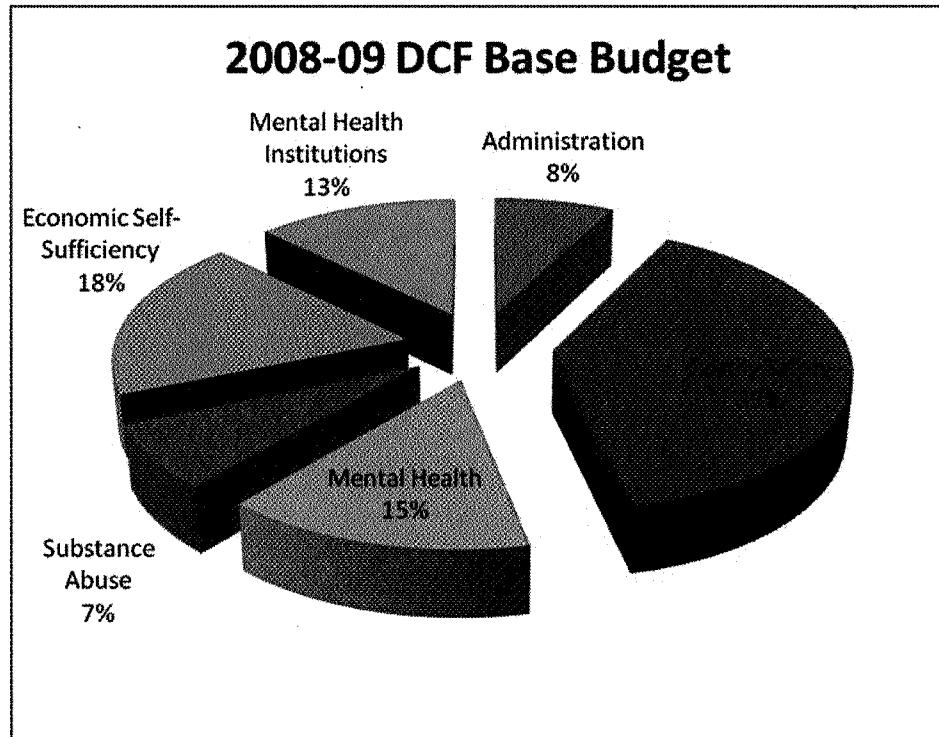

Base Budget Reviews of the Department of Children & Families, the Department of Elder Affairs, the Florida Department of Veterans' Affairs, and the Department of Health

NOTICE FINALIZED on 03/07/2008 15:49 by BAI

**Base Budget Review
Dept. of Children
and Families**

Overview

- The department's mission is to "protect the vulnerable, promote strong and economically self-sufficient families, and advance personal and family recovery and resiliency." The base budget analysis was conducted by reviewing the following:
 - ❖ Agency contractual service agreements
 - ❖ Fiscal Year 2006-07 actual expenditure data
 - ❖ Fiscal Year 2006-07 actual activity data
 - ❖ Fiscal Year 2008-09 Legislative Budget Requests
 - ❖ Auditor General, OPPAGA, and other relevant reports
 - ❖ Face to face meetings with agency staff
 - ❖ Discussion of Department's Schedule VIIIB Reductions
- The Department of Children and Family Services' base budget for Fiscal Year 2008-09 is \$2.9 billion (\$1.7 billion state general revenue and tobacco funds). The budget can be divided into the following areas.

Note: Administration includes the DCF Data Center (2.7%) which provides services to the Agency for Persons with Disabilities, the Department of Revenue, and the Department of Health.

Evaluation of Department-Identified Potential Reductions

- These recommendations were developed using information provided by the department about the approach it used to reducing the budget. The department developed these possible reductions as it was required to do in their Legislative Budget Request submission.
- This approach organized possible reductions into groups of similar types of proposals, including administrative, programmatic, and service reductions. The groupings of items are described below.

Group 1

- Group 1 includes efficiencies, reductions in program areas with surplus funds, shifts from General Revenue to trust fund where fee revenue is available, consolidation of administrative functions, and more efficient use of leased space. A number of these recommendations were accepted and incorporated into the budget by the Legislature during Special Session C in the fall of 2007.

Group 2

- Group 2 includes administrative reductions of 10%, program management reductions of 5% and some other items.
- These administrative reductions of 10% are in Legislative Affairs, Communications, Inspector General, Contract Administration, Human Resources, Financial Services, General Services, Budget Services, and Information Technology.
- The program office administrative reductions include Family Safety, Automated Community Connection to Economic Self-Sufficiency (ACCESS), Mental Health, Florida Abuse Hotline, Child Care, and Adult Protection. Also included in this group are un-obligated and discretionary contract funds in Family Safety, reduction in ACCESS contracts, a reduction in prescribed drug funding, and additional salary lapse in the state-operated mental health hospitals.
- Some administrative reductions and contract reductions were taken by the Legislature during Special Session C in the fall of 2007.

Group 3

- Group 3 includes a reduction in the administrative portion of provider service contracts by 10%.
- These are the outsourced contracts by which the department provides services in Community-Based Care, Mental Health Services, Hospitals (Civil, Forensic, and Violent Sexual Predator), Sheriffs Protective Investigations, Healthy Families, and Child Welfare Legal Services. Administrative costs were estimated at 5% of the contract total for community-based care and 7% of the contract total for all other contracts.
- Also included in this group is a reduction in administration of the three state-operated mental health treatment facilities (Florida State Hospital, Northeast Florida State Hospital, and Treatment Center) and the elimination of the South Florida State Hospital cost of living increase provided in Fiscal Year 2007-08.

Department of Children and Family Services Fiscal Year 2008-09 Base Budget Review

- The support for the Ounce of Prevention Commission on Marriage is eliminated in the group of reductions.
- All recurring special projects in the department's base budget are eliminated in this group of reductions. Most of these projects are in the substance abuse and mental health areas and provide direct services to clients.

Group 4

- Group 4 includes service reductions in community-based care, mental health, forensic services, protective investigations, and healthy families. ACCESS services which determine eligibility for Food Stamps, Medicaid and cash assistance is reduced as are Child Welfare Legal Services. Also included is a reduction to the cash assistance to eligible persons and a change to the relative caregiver program benefit.
- The service reductions include a reduction in community-based care services by 4.4% and in mental health services of 5%.
- A reduction in substance abuse services funded by the Temporary Assistance to Needy Families grant was included.
- A reduction in the budget for protective investigations conducted by the department and the sheriffs was included at a 5% level.
- Healthy Families services was reduced by 5%.

Group 5

The last group includes additional administrative and program office reductions, including Adult Protection , ACCESS, Contract Administration of Out-Sourced Legal Services, and Child Welfare Legal Services.

Recommendations

- After evaluation of the information assembled regarding the base budget, and after careful consideration about the functions performed and services provided by the Department of Children and Family Services, the following reductions are offered for consideration.
- These reductions focus on reduction of surplus funds, shifts in funding to existing trust fund revenue or federal dollars, more efficient approaches to operations, and administrative funding reductions.
- These reductions include items primarily in Groups 1 and 2 as well as items in Group 5 which are administrative in nature.
- The intention in making these recommendations is to avoid reductions in critical services provided to the clients of the Department of Children and Family Services.
 - 1. Optional State Supplementation**—Reduce surplus funds beyond program needs for Optional State Supplementation (OSS) services. This program provides payment to supplement the income of indigent elderly and disabled individuals; however, the program

Department of Children and Family Services Fiscal Year 2008-09 Base Budget Review

budget has a surplus beyond the payments to be made, and funds have consistently reverted in recent years. **Recommendation:** *Reduce \$2,900,000 in recurring General Revenue from the base budget.*

2. **Hoteling of Investigator Staff**—Reduce statewide leased space by “hoteling” Adult Protective Investigators and Child Protective Investigators. Investigators would share office space, as they are working in the field and can rotate their use of the space rather than each person maintaining a separate office. **Recommendation:** *Reduce \$3,406,847 in recurring General Revenue from the base budget.*
3. **Eliminate Empty Lease Space**—Reduce unoccupied lease space as office space is vacated due to position reductions and agency consolidations and efficiencies. **Recommendation:** *Reduce \$961,143 in recurring General Revenue from the base budget and consider providing non-recurring funds in this amount to allow the phase-in of this reduction.*
4. **State Hospital Fees**—The collection of client fee revenue by the mental health hospitals is anticipated to be sufficient to use in hospital operations in lieu of a portion of the current General Revenue. A shift from state funds to trust fund revenue is possible due to additional collections by the provider operating the South Florida State Hospital. **Recommendation:** *Fund shift \$1,000,000 from General Revenue to the Operations and Maintenance Trust Fund for hospital operations.*
5. **Reduce DCF Administration by 10%**—Reduce budget in administrative entities, including Executive Direction, Assistant Secretary for Administration (including IT), and District Administration, to be taken in each office based on eliminating or reducing critical processes and staff. **Recommendation:** *Reduce recurring General Revenue in the base budget by \$3,765,216.*
6. **Cover Prescribed Drug Increase with Lapse in Hospitals**—Reduce budget used for prescribed drugs and cover costs with existing budget due to staff turnover. This reduction would use funds available and reverted in past years associated with turnovers and vacancies in hospital staff and redirect these funds to pay for prescribed drugs. **Recommendation:** *Reduce recurring General Revenue in the base budget by \$5,420,351.*
7. **Reduce Family Safety Program Office by 5%**—Reduce the budget in the Family Safety Program Compliance budget entity by 5% by reducing expenditures in the entity. This is the administrative budget entity associated with the Family Safety program. **Recommendation:** *Reduce recurring General Revenue in the base budget by \$1,257,609.*
8. **Reduce Child Protection Permanency Central Office Contracts by 5%**—Reduce current contracts in the central office by 5%. **Recommendation:** *Reduce recurring General Revenue in the base budget by \$356,050.*
9. **Reduce Mental Health Treatment Facility Central Office by 5%**—Reduce staff and expenses associated with central office staffing associated with the department’s mental health treatment facilities. **Recommendation:** *Reduce recurring General Revenue in the base budget by \$79,737.*

Department of Children and Family Services Fiscal Year 2008-09 Base Budget Review

- 10. Reduce Hotline Administration by 5%--Reduce administrative costs in the Family Safety Hotline office by reducing travel and equipment purchases. *Recommendation: Reduce recurring General Revenue in the base budget by \$35,559.***
- 11. Reduce Child Care Administration by 5%--Reduce expenditures in the Child Care administrative area by 5%. *Recommendation: Reduce recurring General Revenue in the base budget by \$33,888.***
- 12. Replace State Mental Health Funds with Federal Dollars—This reduction in state funds is based on the replacement of these funds with federal dollars generated by the Medicaid Administrative Claiming (MAC) Program. This program enables community mental health and substance abuse agencies to receive Medicaid reimbursement for expenses incurred in support of the administration of a state's Medicaid program. Federal guidance on reimbursement under Medicaid allows payment for activities such as Medicaid-related outreach, eligibility determination, information and referral, service coordination, and quality assurance and monitoring. This proposal would reduce state funds and replace them with federal dollars, up to a level which does not affect the state's maintenance of effort (MOE) for receipt of the federal mental health block grant. *Recommendation: Reduce \$5,400,000 in recurring General Revenue in the base budget and replace it with federal funds, without any change to services.***
- 13. Reduce Adult Protection Program Administration by 5%--Reduce administrative costs in the Adult Protection Program by 5%. *Recommendation: Reduce \$174,055 in recurring General Revenue in the base budget.***
- 14. Reduce ACCESS Program Office by 5%--Reduce administrative expenditures in the Automated Community Connection to Economic Self-Sufficiency (ACCESS) program office by 5%. This program handles eligibility determination for food stamps, Medicaid, and cash assistance. *Recommendation: Reduce \$206,997 in recurring General Revenue from the base budget.***

Summary of Recommendations

Group	Issue	State Funds
1 First	Optional State Supplementation	(2,900,000)
2 First	Hoteling of Investigator Staff	(3,406,847)
3 First	Eliminate Empty Lease Space	(961,143)
4 New	State Hospital Fees	(1,000,000)
5 Second	Reduce DCF Administration by 10%	(3,765,216)
6 Second	Cover Prescribed Drug Increase with Lapse in Hospitals	(5,420,351)
7 Second	Reduce Family Safety Program Office by 5%	(1,257,609)
8 Second	Reduce Child Protection & Permanency Central Office Contracts by 5%	(356,050)
9 Second	Reduce MH Treatment Facility Central Office by 5%	(79,737)
10 Second	Reduce Hotline Administration 5%	(35,559)
11 Second	Reduce Child Care Administration 5%	(33,888)
12 New	Replace state mental health funds with Federal - maximum without violating MOE (CBMAC)	(5,400,000)
13 Fifth	Reduce Adult Protection Program Administration 5%	(174,055)
14 Fifth	Reduce ACCESS Program Office by 5%	(206997)
Total		(24,997,452)

Additional Items for Long Term Reviews

- Continue to focus on the mental health program area, as well as the recommendations of the report on Transforming Florida's Mental Health System developed under the leadership of Judge Steven Leifman, to look for opportunities for more effective and efficient care in a redesigned and transformed system of care which provides community-based services and supports to persons in need.
- Look for opportunities to develop creative efficiencies and modifications to the mental health system to most appropriately and efficiently serve those in need.
- Continue to evaluate other areas in the DCF budget for additional efficiencies and reductions.

CHILD CARE REGULATION/INFO				

Fiscal Year 2008-09 Base Budget Detail

DEPARTMENT OF CHILDREN AND FAMILY SERVICES	GENERAL REVENUE	FTE	TOB Acco	OTHER T/F	DESCRIPTION
Child Care Regulation and Information includes the licensure and registration of licensed child care facilities and homes, and training for child care provider staff mandated by the Legislature. Minimum standards are established to protect the health, safety, and well-being of the children of the state and to promote their intellectual and emotional development while in care. The Child Care Information System captures demographic data on all licensed and registered homes and facilities in the state, provides public information to assist parents in making informed choices about quality child care and tracks statutorily required training for child care provider staff statewide.

DEPARTMENT OF CHILDREN AND FAMILY SERVICES	GENERAL REVENUE	FTE	TOBACCO	OTHER TF	DESCRIPTION
					Funds in this category are to be used to ensure the protection of children in child care through a comprehensive licensing and training program as well as the provision of information to parents regarding available early education resources in the community. Quality improvement funding may be utilized to provide comprehensive consumer education to parents and the public. In addition, funding may also be utilized to provide training and technical assistance in areas such as health and safety, nutrition, first aid, the recognition of communicable diseases, child abuse detection and prevention, and the care of children with special needs. Further, pursuant to 45 Code of Federal Regulation (CFR), Part 98.51. These funds may also be used to support child care providers through assisting them in meeting applicable state and local child care standards, including applicable health and safety requirements.

CHILD CARE REGULATION/INFO					
ADULT PROTECTION					
					Upon receipt of a report of abuse, neglect, or exploitation of a vulnerable adult, an on-site investigation is initiated to determine: if there is an indication of abuse, neglect, or exploitation; the individual(s) apparently responsible for the abuse, neglect, or exploitation; the immediate and long-term risks to the vulnerable adult; and the protective, treatment, and ameliorative services necessary to safeguard and ensure the vulnerable adult's well-being. Protective investigations also include the immediate provision, or arrangement for the provision of, protective services for vulnerable adults that consent to the services, or court ordered services for those lacking the ability to consent to services. The Domestic Violence Office serves as a clearinghouse for information relating to domestic violence and provides supervision, direction, coordination, and administration of statewide activities related to the prevention of domestic violence. (Section 39.903, F.S.).

48 OPERATING CAPITAL OUTLAY	51,251	30,317		The Home Care for Disabled Adults program provides case management services and a small financial subsidy to those families or friends providing in-home care to adult persons with disabilities who would otherwise be placed in nursing homes or institutions. Subsidy payments, though limited in amount, are intended to help offset the cost of housing, food, clothing and incidentals, as well as those expenses related to medical, pharmaceutical and dental services not covered by Medicare, Medicaid or another form of insurance. A special pre-authorized supplemental subsidy is also available for assistance with the purchase of equipment, supplies and/or services when regarded as essential to the health and well-being of the individual. Case Management (provided by agency direct service staff) and three subsidy elements are available through this program. These include: basic support and maintenance; basic medical; and, a special supplemental subsidy.

DEPARTMENT OF CHILDREN AND FAMILY SERVICES	GENERAL REVENUE	FTE	TOBACCO	OTHER TFE	DESCRIPTION
					The Domestic Violence Program certifies and funds Florida's domestic violence centers, which provide emergency shelter, hotline services, counseling, child assessments, case management, information and referral, community education and professional training. In addition, the program manages other state and federal funds for the development and implementation of policy, training, and technical assistance for the public purpose of preventing and responding to domestic violence. In order for a center to receive state funds, a center must obtain certification pursuant to s. 39.905, F.S. Certification does not obligate the department to provide funding. The Florida Coalition Against Domestic Violence is the statewide representative of the certified centers and provides training and technical assistance to its membership.

64 RISK MANAGEMENT INSURANCE		2,948,892		This category covers the costs associated with children in emergency shelter care, family foster care, and residential group care. Payments are made to providers for the children's food, shelter, medical services not covered by Medicaid, clothing, allowances, and respite while the children are in out of home placements. Flexible spending for services which will prevent the removal of a child (in home support services to clients in protective services) or for services, which might facilitate a quicker reunification, are also allowed in this category. The type of expenditures for these purposes might include: housing, essential furniture, transportation services, food, clothing, medical treatment, counseling, parent education, drug screenings, psychological evaluation, and child care. It must be demonstrated, when using family foster care budget for these purposes, that this spending will create a cost savings by either preventing the removal of a child or by enabling a quicker reunification between parent and child. Foster care payments are allowed for a number of foster care arrangements: foster family home, foster family group home, or a therapeutic foster home. The placement selected for a foster child is based on the level of care required and the age of the child. \$3,605,606-Distributions and Transfers \$44,632-Independent Services Not Otherwise Classified

ADULT COMM MENTAL HLTH				
94				Provide appropriate mental health services and supports within person-centered systems of care. Services are provided primarily for adults with serious mental illnesses. These services are designed to reduce the occurrence, severity, duration and disabling aspects of mental, emotional and behavioral disorders. For adults with serious mental illnesses these services support individuals' progress toward recovery and safe and productive community living. Persons with serious mental illnesses are often unable to independently locate safe places to live, access appropriate psychiatric treatment, obtain essential psychootropic medications and other medical care, and take care of their personal needs. Services provided include emergency stabilization, residential services, case management, outpatient services, community support services, and assertive community treatment teams. These services ensure the safety, well being and self-sufficiency of persons with serious mental illness by helping them live successfully in the community and avoid hospitalization. The demand for these services is determined by the number of adults who meet the state's criteria of one of the four target populations: (1) adults with serious and acute episodes of mental illness; (2) adults with mental health problems; (3) adults with forensic involvement; or (4) adults with severe and persistent mental illnesses.

CHILD SUB ABU/PREV/SVC				An array of assessment, detoxification, prevention, treatment and aftercare services are provided to children 17 years of age and younger who are either at-risk of developing substance abuse problems or have been identified as having substance abuse problems. Prevention services, delivered via educational and alternative activities and help to promote early identification of substance abuse problems and improve the abilities of individuals to make appropriate choices. Prevention services are for individuals who do not require treatment for substance abuse. Prevention services are designed to educate and in some cases counsel individuals on substance abuse and promote activities to reduce the risk of future substance abuse. Detoxification services are a critical part of the substance abuse continuum. Individuals who are physically dependent on alcohol or other drugs need medical and counseling assistance to adjust to the absence of alcohol and drugs. Treatment is a critical service in that it provides individuals with the skills they need to ameliorate problems related to substance abuse through counseling, rehabilitation education and ongoing support. The primary focus of these services addresses all elements of the department's mission: to restore well-being and promote self-sufficiency and safety of clients and their family members through reduced rates of substance use/abuse. The Substance Abuse Program Office uses national and state substance abuse surveys to identify prevalence rates and need for substance abuse services. Prevalence rates are then applied against the state's child and adult census populations to determine overall service needs.

DEPARTMENT OF CHILDREN AND FAMILY SERVICES	GENERAL REVENUE	TOBACCO	OTHER FTE	DESCRIPTION
159 Optional State Supplementation is a general revenue public assistance program which provides payments to supplement the income of indigent elderly and disabled individuals who can no longer live by themselves and who live in non-institutional settings, such as assisted living facilities, adult family care homes or mental health residential treatment facilities. Recipients of Optional State Supplementation require assistance with the activities of daily living due to their advanced age, physical and/or mental conditions. The Homelessness Program provides needed assistance to local agencies and individuals to serve both those homeless and those at risk of homelessness to restore them to suitable living conditions and self-sufficiency.				Costs associated with salaries and benefits for 3.00 full time equivalents (FTEs).

ADULT MENTAL HLTH TRMT FAC					
					Persons committed based upon criteria in Chapter 394 or 916, Florida Statutes, and have been determined to present substantial risk in the community due to dangerousness to self or others are provided inpatient services at state treatment facilities. Many have persistent mental illnesses which have typically not responded successfully to community-based treatment. Services include psychiatric assessment and treatment with psychotropic medication, health care services, individual and group therapy, individualized service planning, competency training and assessment, vocational and educational services, addiction services, rehabilitation therapy and enrichment activities. Services are coordinated to fulfill our mission to reduce psychiatric symptoms and enable persons with a mental illness to manage their symptoms and acquire and use the skills and supports necessary to live successful and satisfied lives in the community. The demand for these services is based on persons meeting admission and commitment criteria pursuant to Chapters 394 and 916, F.S.

**Base Budget Review
Dept. of Elder Affairs**

Department of Elder Affairs Fiscal Year 2008-09 Base Budget Review

Overview

- The department's mission is to "create an environment that provides choices, promotes independence and enables older Floridians to remain in their communities for a lifetime." The base budget analysis was conducted by reviewing the following:
 - ❖ Agency contractual service agreements
 - ❖ Fiscal Year 2006-07 actual expenditure data
 - ❖ Fiscal Year 2006-07 actual activity data
 - ❖ Fiscal Year 2008-09 Legislative Budget Requests
 - ❖ Auditor General, OPPAGA, and other relevant reports
 - ❖ Face to face meeting with agency staff
 - ❖ Agency FTE vacancy reports
- Chapter 430, Florida Statutes, designates the Department to serve as the State's primary agency responsible for administering human service programs for the elderly and for developing policy recommendations for long-term care.
- The Department of Elder Affairs (DOEA) base budget for Fiscal Year 2008-09 is \$379.1 million (\$134.9 million of which is state general revenue dollars). The budget can be divided into four areas:

- In terms of an analysis of the department's 2007-08 budget, the following indexes the department's expenditures in terms of labor, overhead, and contracts:

	<u>General Revenue</u>	<u>Trust Funds</u>	<u>Total</u>
Labor	\$7,923,320	\$19,261,060	\$27,184,380
Overhead	\$2,329,535	\$5,647,358	\$7,976,893
Contracts	\$124,915,333	\$222,909,049	\$347,824,382
Total	\$135,168,188	\$247,817,467	\$382,985,655

- Approximately 70% of the department's general revenue expenditures are used to draw down federal match funding.

Department of Elder Affairs Fiscal Year 2008-09 Base Budget Review

- The following is a five-year overview of the population served by the department, as well as its annual budget allocations, adjusted for inflation:

DOEA Annual Budget and Population Served (Fiscal Years 2003-2008)

Year	Population Age 60 and Older*	Population Growth	Budget	Budget Growth	CPI Growth**
2003-04	3,822,760	1.00	\$333,948,001	1.00	1.000
2004-05	3,915,308	1.02	\$343,943,275	1.03	1.031
2005-06	4,007,856	1.05	\$365,786,653	1.10	1.041
2006-07	4,100,404	1.07	\$372,026,151	1.11	1.049
2007-08	4,240,468	1.11	\$392,005,660	1.17	1.066

*Population data from Office of Economic and Demographic Research website (April 2007)

**Inflation data reflects Consumer Price Index figures from Bureau of Labor Statistics

Recommendations and Potential Areas for Review

1. **Eliminate recurring general revenue funding for the Dementia Caregivers Telehealth Support Project “AlzOnline”**
 - The project is 100% general revenue funded; the department allocates this GR funding to the University of Florida for and on behalf of the Florida Board of Regents for the College of Health Professions to carry out program requirements.
 - The goal of the project is to provide “education, information and support to caregivers of elders with dementia by capitalizing on developments in telecommunications technology.”
 - The project emphasizes the use of Web-based services, audiovisual communication and toll-free telephone support to consumers. The project’s website can be accessed at: <http://alzonline.phhp.ufl.edu/>.
 - Appropriation history:

State Fiscal Year	GR funding
2000-2001	\$469,000
2001-2002	\$350,000
2002-2003	\$250,000
2003-2004	\$250,000
2004-2005	\$250,000
2005-2006	\$250,000
2006-2007	\$250,000
2007-2008	\$250,000
TOTAL	\$2,319,000

Department of Elder Affairs Fiscal Year 2008-09 Base Budget Review

- There are several other online sources housing a similar range of information for caregivers of elders with dementia.

Recommendation: Eliminate \$250,000 in recurring General Revenue from the agency's base budget, and encourage the department to include web-based links to external sources of similar information for caregivers of elders with dementia on its own website.

2. Increase slots for the Nursing Home Diversion program, and transfer the annual appropriations for the Diversion Program from the Agency for Health Care Administration to the department, which has primary responsibility for program administration.

- The Legislature created the Nursing Home Diversion pilot project in 1997 – and the program began operations in 1998 after receiving federal approval – and now operates in 25 counties.
- The Nursing Home Diversion program is designed to provide community-based services to people who would qualify for Medicaid nursing home placement. Services provided include long-term care services, as well as Medicaid-covered medical services.
- The Office of Program Policy Analysis and Government Accountability (OPPAGA) Report No. 06-45 states that the Nursing Home Diversion program has successfully delayed participants' entry into nursing homes. Frail elders participating in the Nursing Home Diversion program were more likely to delay entry into a nursing home than similar frail elders who were not enrolled in any Medicaid community-based waiver programs. Program participants also experienced shorter nursing home stays and were more likely to return to their homes to continue program services.
- Although 11,000 program slots are authorized, and the program is presently closed to enrolling new clients, the department projects an ability to enroll approximately 500 new enrollees monthly, beginning in FY 2008-09.
- Despite administering the program, the budget for the Nursing Home Diversion program is presently appropriated within the Agency for Health Care Administration's budget.

3. Conduct a review of departmental services provided to individuals with Alzheimer's disease and similar memory disorders, as well as services and research conducted through other state agencies, to reveal possible duplication in research, service and program delivery.

- The Alzheimer's Disease Initiative (ADI) was legislatively created in 1985 to provide a continuum of services to meet the changing needs of individuals with Alzheimer's disease (and similar memory disorders) and their families. The department coordinates and develops policy to carry out the statutory requirements for the ADI.
- The initiative includes four program components: 1) supportive services including counseling, consumable medical supplies and respite relief for caregivers; 2) memory disorder clinics intended to provide diagnosis, research, treatment, and referrals; 3) model day care programs to test new care alternatives; and 4) a research database and brain bank to support research.

Department of Elder Affairs Fiscal Year 2008-09 Base Budget Review

- The ADI is funded by General Revenue and Tobacco Settlement funds, and there is no match requirement.
- Other departments might potentially allocate state funds to Alzheimer's disease research. For example, the Department of Health's Biomedical Research program includes a provision authorizing the department to provide grants for Alzheimer's disease research.

Statewide Recommendation #1 – Explore the possibility of single-year freezes on new employee hires and capital purchases, as well as eliminating department FTE positions that have remained vacant for more than 365 days.

Statewide Recommendation #2 – Institute a single-year freeze on out-of-state department travel that is not federally-mandated.

FY 2008-09 BASE BUDGET DETAIL

**Base Budget Review
FL Dept. of Veterans'
Affairs**

Overview

- The department's mission is "veterans' advocacy." The base budget analysis was conducted by reviewing the following:
 - ❖ Agency contractual service agreements
 - ❖ Fiscal Year 2006-07 actual expenditure data
 - ❖ Fiscal Year 2006-07 actual activity data
 - ❖ Fiscal Year 2008-09 Legislative Budget Requests
 - ❖ Auditor General, OPPAGA, and other relevant reports
 - ❖ Face to face meeting with agency staff
 - ❖ Agency FTE vacancy reports
- The Department of Veterans' Affairs base budget for Fiscal Year 2008-09 is \$58.6 million (\$13.9 million of which is state general revenue dollars). The budget can be divided into three areas:

- In terms of an analysis of the department's 2007-08 budget, the following indexes the department's expenditures in terms of labor, overhead, and contracts:

	General Revenue	Trust Funds	Total
Labor	\$11,922,141	\$35,046,779	\$46,968,920
Overhead	\$1,950,145	\$9,561,062	\$11,511,207
Contracts	\$0	\$0	\$0
Total	\$13,872,286	\$44,607,841	\$58,480,127

- Unlike other state agencies, the department's state funds are not used to draw down federal funding. Instead, the state funding is limited to state-mandated activities. For example, the Division of Veterans' Benefits and Claims Assistance is state-funded only, and General

Department of Veterans' Affairs Fiscal Year 2008-09 Base Budget Review

Revenue used to support State Veterans' Nursing Homes and Domiciliary is related to the state-mandated certified nursing assistant staffing ratio.

- The following is a five-year overview of the population served by the department, as well as its annual budget allocations, adjusted for inflation:

DVA Annual Budget and Population Served (Fiscal Years 2003-2008)

Year	Veteran Population*	Population Growth	Budget	Budget Growth	CPI Growth*
2003-04	1,820,417	1.00	\$43,953,849	1.00	1.000
2004-05	1,806,755	1.02	\$52,662,206	1.19	1.031
2005-06	1,792,842	1.03	\$51,821,596	0.98	1.041
2006-07	1,777,596	1.02	\$55,008,908	1.06	1.049
2007-08	1,746,539	1.02	\$61,078,386	1.11	1.066

*Population data from Office of Economic and Demographic Research website (April 2007)

**Inflation data reflects Consumer Price Index figures from Bureau of Labor Statistics

Note: figures do not include FCO expenditures

Recommendations and Potential Areas for Review

1. **Review the functions of state and county veterans' claims examiners to search for duplication in the claims review process, and explore the possibility of outsourcing a portion of the state claims examination process to county examiners.**
- Due to a previous federal backlog of veterans' benefits claims, it became necessary to assign state claims reviewers to perform the claim reviews previously undertaken on a federal level.
- In addition to assisting veterans apply for benefits, state claims examiners also are responsible for reviewing the federal claims appeals process.

Statewide Recommendation #1 – Explore the possibility of single-year freezes on new employee hires and capital purchases, as well as eliminating department FTE positions that have remained vacant for more than 365 days.

Statewide Recommendation #2 – Institute a single-year freeze on out-of-state department travel that is not federally-mandated.

FY 2008-09 BASE BUDGET DETAIL

DEPARTMENT OF VETERANS' AFFAIRS	FTE	GENERAL REVENUE	TRUST FUNDS	DESCRIPTION
VETERANS' HOMES				
Veterans' Homes provides continuing, comprehensive, high quality health care services on a cost-effective basis to eligible Florida veterans who are in need of rehabilitative assistance, 1 other therapeutic measures, and/or long-term nursing home care to include Alzheimer's disease and other senile dementia patients.

**Base Budget Review
Dept. of Health**

Overview

The department's mission is to "promote, protect and improve the health of all people in Florida." The base budget analysis was conducted by reviewing the following:

- ❖ Department contractual service agreements
 - ❖ Fiscal Year 2006-07 actual expenditure data
 - ❖ Fiscal Year 2006-07 actual activity data
 - ❖ Fiscal Year 2008-09 Legislative Budget Requests
 - ❖ Auditor General, OPPAGA, and other relevant reports
 - ❖ Face to Face meeting with agency staff
- DOH base budget for Fiscal Year 2008-09 is \$2.7 billion (\$681 million state general revenue or tobacco funds). The budget can be divided into five areas:

The duties of the department are very broad. Generally, these duties can be grouped in the following areas:

Public Health

❖ Primary duties:

- Assessing the public health status and needs of the state through statewide data collection and other appropriate means;
- Administering and enforcing laws and rules relating to sanitation, control of communicable diseases, illnesses and hazards to health among humans and from animals to humans, and the general health of the people of the state.
- Cooperating with federal, state, and local officials for the prevention and suppression of communicable and other diseases, illnesses, injuries, and hazards to human health.
- Declaring, enforcing, modifying, and abolishing quarantine of persons, animals, and premises as the circumstances indicate for controlling communicable diseases or providing protection from unsafe conditions that pose a threat to public health.

- Providing for a thorough investigation and study of the incidence, causes, modes of propagation and transmission, and means of prevention, control, and cure of diseases, illnesses, and hazards to human health.
 - Providing for the dissemination of information to the public relative to the prevention, control, and cure of diseases, illnesses, and hazards to human health.
 - Acting as registrar of vital statistics.
 - Maintaining a statewide injury-prevention program.
- ❖ Examples: Disease control initiatives (e.g., HIV/AIDS and Tuberculosis); inspection of public food service establishments; regulation of water supplies and waste disposal; and maintenance of vital statistics (birth, death, marriage, and divorce records).

Primary Care

- ❖ Primary duties: Provision of primary care for Medicaid recipients and low-income persons through county health departments; examination, hospitalization, and treatment of persons with tuberculosis; and provision of primary care for children with special health care needs.
- ❖ Examples: Operation of county health departments in all 67 counties; the A.G. Holley State Hospital for tuberculosis patients; the CMS Network and the Early Steps program for children with special health care needs; and the Newborn Screening Program.

Maternal and Infant Health Care

- ❖ Primary duties: Administering or providing for maternal and child health services to provide periodic prenatal care for patients who are at low or medium risk of complications during pregnancy; administering or providing for periodic medical examinations, nursing appraisals, and nutrition counseling for infant and child patients to assess developmental progress and general health conditions; administering and providing for the expansion of the maternal and child health services to include pediatric primary care programs; establishing a Healthy Start Care Coordination Program in each county health department; and administering the federal WIC program.
- ❖ Examples: The Healthy Start program, which identifies newborns at risk of poor birth, health, and developmental outcomes; the WIC program, which provides food and counseling for pregnant women and women with children under the age of 5; and the regional perinatal intensive care centers, which provide obstetric care for high-risk pregnancies and low-birth infants.

Chronic Diseases

- ❖ Primary duties: Operating a comprehensive program dealing with the early detection and prevention of chronic diseases, including providing services to individuals with chronic diseases.
- ❖ Examples: Assisting county health departments in developing and operating community intervention programs to address chronic diseases, including cancer, diabetes, heart disease, stroke, hypertension, renal disease, and chronic obstructive lung disease.

Vital Statistics

- ❖ Primary duties: Procure the complete registration of all vital records in each registration district and in the Office of Vital Statistics; approve all forms used in recording vital statistics; establish registration districts; and appoint local registrars to each registration district.

- ❖ Examples: Operating the Office of Vital Statistics under the direction of the State Registrar (s. 382.003), including collection of certificates for birth, stillbirth, death, fetal death, and presumptive death.

Emergency Medical Services

- ❖ Primary Duties: Maintenance of a comprehensive state plan for life support services, emergency medical services grants, trauma centers, injury control, and emergency preparedness; operation of a statewide injury-prevention program; regulation of emergency medical services providers and personnel; and conducting EMS quality assurance reviews.
- ❖ Examples: Regulation of basic and advanced life support services, air ambulances, and paramedics and EMTs.

Biomedical Research

- ❖ Primary duties: Award grants and fellowships for research relating to the prevention, diagnosis, treatment, and cure of diseases related to tobacco use, including cancer, cardiovascular disease, stroke, and pulmonary disease. Provide grants for cancer research to further the search for cures for cancer.

Facilities: Health Care and Non-Health Care

- ❖ Primary duties: Regulation of a wide variety of facilities that may or may not provide health care services. Standards enforced include facility, equipment, staffing, sanitation, and food safety standards.
- ❖ Examples: Regulating various health care and non-health care facilities, including body-piercing salons; migrant-labor camps; tanning facilities; birth centers; mobile home parks, lodging parks, recreational vehicle parks, and recreational camps; pharmacies; and entities that manufacture and distribute drugs, devices, and cosmetics.

Professions: Health Care and Non-Health Care

- ❖ Primary duties: Licensing and regulation of numerous health care and non-health care practitioners, including processing applications, determining probable cause for disciplinary purposes, and maintaining practitioner profiles.
- ❖ Examples: Licensing and regulation of physicians; nurses; dentists; environmental health professionals, insect sting administrators, septic tank contractors and master septic tank contractors; swimming instructors; and public pool service technicians.

Recommendations for Fiscal Year 2008-09

- 1. Adopt the Schedule 8B Reductions submitted by the department for FY 07-08.**
 - In 2007, the department was requested by the Governor to submit a 10% reduction plan.
 - The department submitted a reduction plan, referred to as the Schedule 8B, that reduces expenditures with a goal of minimizing the impact on services. The reduction plan was submitted in multiple phases.
 - The department adjusted their reduction recommendations to exclude \$666.4 million for programs that receive local funds, have a state match or maintenance of effort requirement, or are constitutionally mandated.
 - In Special Session C (2007) the department's budget was reduced by \$2.8 million in recurring General Revenue.
 - HB 7009 reduces the department's budget by \$10.4 million in recurring General Revenue.
 - This recommendation excludes reductions already taken in Special Session C and in HB 7009.

Recommendation: Eliminate approximately \$16.8 million in recurring General Revenue and \$3.7 million Tobacco Settlement Trust Fund funding from the base budget.

- 2. Eliminate funding and positions within the department that have been vacant for more than a year.**
 - Executive Direction & Support-1.00 FTE, Vacant 526 days, Annual Salary \$28,844
 - Information Technology-2.00 FTE, Vacant 372 days, Annual Salary \$69,384
 - Family Health Services-2.00 FTE, Vacant 386 days, Annual Salary \$86,071
 - Infectious Disease Control-5.00 FTE, Vacant between 451-1781 days, Annual Salary \$267,994
 - County Health Department-101.00 FTE, Vacant between 366-4,049 days, Annual Salary \$4,921,127 (*positions are not included in the General Appropriations Act*)
 - Statewide Public Health-12.00 FTE, Vacant between 399-861 days, Annual Salary \$617,218
 - Children's Special Health Care-1.00 FTE, Vacant 645 days, Annual Salary \$15,725
 - Community Health Resources-1.00 FTE, Vacant 372 days, Annual Salary \$52,594

Recommendation: Eliminate the 23.50 FTE and \$6,058,957 from the department's base budget.

3. Reduce or Eliminate General Revenue funding for programs that can receive tobacco funding to implement the Comprehensive Tobacco Education and Use Prevention Program.

- Article X of the Florida Constitution requires that the State use a portion of the Tobacco Settlement to fund a Comprehensive Statewide Tobacco Education and Prevention Program that is consistent with the CDC Best Practices, as periodically amended.
- In October 2007, the CDC released an update to the 1999 Best Practices for Comprehensive Tobacco Control Programs. The update describes an integrated structure for implementing interventions that are proven to be effective by consolidating nine program components into five and provides information on the recommended level of state funding needed to reduce tobacco use.
- In accordance with the provisions in the constitution, in FY 2008-2009 the state must appropriate \$59.5 million in Tobacco Settlement Payments to the program.
- Area Health Education Centers currently receive \$11.6 million in recurring General Revenue.
- In FY 2007-2008 the Area Health Education Centers received \$10 million in Tobacco Settlement Trust Funds to assist in the implementation of the Comprehensive Tobacco Education and Use Prevention Program.

Recommendation: Eliminate \$80,422 recurring General Revenue for the Florida Indoor Air Act Program within the Tobacco Prevention Program and direct the department to compensate for the reduction of general revenue with Tobacco Settlement Trust Fund funds. Furthermore, eliminate \$6 million recurring General Revenue for the Area Health Education Centers.

4. Leverage federal funding for the Cystic Fibrosis Medicaid Waiver and reduce General Revenue appropriation.

- The Adult Cystic Fibrosis Medicaid Waiver Program in the Department of Health was approved by the Centers for Medicare and Medicaid in July 2004.
- The waiver provides an array of services, such as nutritional counseling, respiratory therapy, personal care, personal emergency response service, skilled nursing, specialized medical equipment, transportation, vitamins, and nutritional supplements.
- The program targets cystic fibrosis patients, age 18 or older, who are determined to be at risk of hospitalization and meet certain disability and income tests. This program is designed to provide services for approximately 75 individuals at a cost of approximately \$10,000 per recipient per year when fully implemented.

- Currently funded with \$1,025,419 in state general revenue and no Medicaid funding.
- The department may contribute \$761,577 in state match to earn \$948,294 in federal funds.

Recommendation: Eliminate \$77,125 in recurring General Revenue from the department's base budget and direct the department to obtain federal Medicaid funding funds to compensate for the reduction in state funding.

5. Reduce funding for the Healthy Start Coalitions.

- In 1991, the Legislature gave statutory authority for the Florida Healthy Start Program. The program assists pregnant women and infants to obtain the health care and social support needed to reduce the risks for poor maternal and infant health outcomes including infant mortality, and to promote good health and developmental outcomes.
- In FY 07-08, a new allocation methodology was introduced and is the product of almost 4 years of working with the Coalitions and County Health Departments that creates a more equitable distribution of funds. In addition, department staff looked at a performance-based system rather than the historical method of distribution.
- In creating a new allocation methodology, the Coalitions acknowledged that some would gain and some who lose funding under a change in methodology, so they began by looking at the components of the methodology prior to looking at the dollar amounts. It was also agreement that a phased-in approach would be adopted and will change at 20 percent per year over 5 years and to re-look at the allocations every 2 or so years to see if it is performing appropriately.
- However, once the actual numbers were placed into the spread sheet the actual losses were noted and folks became concerned so there was a request to look at what it would take to bring all up to a certain base to prevent loss of funds--some places with high need but low numbers of folks served were going to experience substantial reductions. For this reason, the Healthy Start Coalition Association sought a "parity" funding of \$3.2 Million in FY 07-08, plus an additional \$3 million to increase services.

Recommendation: Eliminate \$3 million in recurring General Revenue from the department's base budget.

6. Reduce or consolidate funding for Information Technology Services.

- Total state government spending on information technology (IT) is estimated to be at least \$2.25 billion annually. More and more, citizens expect information and many services to be available on the Internet, which increases the importance of IT in government service delivery. We need to be smart about how we deploy our IT resources to meet this challenge.
- Right now, each state agency has its own separate IT infrastructure, including data center facilities to provide common, utility IT services, such as e-mail, help desk, and PCs/laptops, as well as strategic IT services to enable agencies to provide direct services for citizens.

- Like other “utilities” (phone, electricity), these services need to work *well enough* to support the state’s business needs; spending more for identical utility IT services doesn’t provide additional value.
- By consolidating resources, especially in those areas where the IT services are similar / identical among agencies, the state may be able to decrease duplication, cut costs, and increase service delivery capabilities and improve efficiency through shared services.

Recommendation: We are asking staff to look at opportunities to save money in IT, to explore consolidation where appropriate, and to reduce duplication of IT resources in each agency without adversely affecting government services to citizens. A four percent cut in IT related expenditures would result in a reduction of \$1.2 million recurring General Revenue from the department’s base budget.

7. Eliminate funding for Crisis Counseling and Pregnancy Support Program.

- The Pregnancy Support Services Program was created in FY 2005-06 to increase the awareness, availability, and quality of services provided by local organizations to women in crisis pregnancies by creating a single, statewide point of contact for women who want help, directing them to the appropriate local resources. In addition, the program regularly provides standardized training and audits using measurable outcomes.
- According to the department the program will be self-sustaining in the event funding is eliminated; the program existed for many years prior to receiving state financial assistance.
- In addition the department has pointed Healthy Start provides similar services to clients statewide.

Recommendation: Eliminate \$2,000,000 in recurring General Revenue from the department’s base budget.

8. Reduce General Revenue to programs that receive substantial federal funding.

- For example, the HIV/AIDS program within the department receives \$38 million in General Revenue of which \$32 million is used as match and \$43.6 million in Federal Grants. Therefore, funding could be reduced by \$6 million.
- The Communicable Disease Surveillance and Investigations Program within the department receives \$1.5 million in General Revenue and \$10.4 million in Federal Grants. There are no state match requirements. Therefore, funding could be reduced by \$1.5 million.

Recommendation: Reduce a percentage of General Revenue, while trying to limit the impact to programs that receive state match or meet maintenance of effort requirements.

Subcommittee members could not come to consensus on the following recommendation:

9. Eliminate Community Budget Issues that have been appropriated in previous years which remain in the department's base budget.

- These issues impact local areas of the state and do not provide statewide impact or broad public benefit as discussed at the outset of this review in the Healthcare Council.

Recommendation: Eliminate \$5.5 million in recurring General Revenue from the department's base budget.

Summary of Recommendations

	Issue	General Revenue	Tobacco	Trust Funds	Total
1	Schedule 8B Reductions	(\$16,828,917)	(\$3,734,365)		(\$20,563,282)
2	Eliminate funding for Vacant Positions	(\$3,844,450)		(\$2,214,507)	(\$6,058,957)
3	Eliminate funding for the Florida Indoor Air Act and reduce funding for the Area Health Education Centers	(\$6,099,531)			(\$6,099,531)
4	Reduce funding to Cystic Fibrosis Program	(\$77,125)			(\$77,125)
5	Reduce funding for the Healthy Start Coalitions	(\$3,000,000)			(\$3,000,000)
6	IT Consolidation or Reduction	(\$1,283,639)			(\$1,283,639)
7	Eliminate funding for Crisis Counseling and Pregnancy Support Program	(\$2,000,000)			(\$2,000,000)
8	Reduce General Revenue for Programs that receive substantial federal funding	TBD			TBD
9	Eliminate funding for Community Budget Issue Requests	(\$5,540,190)			(\$5,540,190)
	Total	(\$38,673,852)	(\$3,734,365)	(\$2,214,507)	(\$44,622,724)

Additional Items for Long-term Review

1. Simplify the duties and responsibilities of the Department of Health.

- Review programs within the department and determine whether specific programs should be repealed or transferred to more relevant agencies.
- For example, the Department of Children and Families administers the Cash Assistance Program for Temporary Assistance for Needy Families eligible recipients and inspects child care facilities. The Department of Health administers a Special Supplemental Nutritional Program for Women, Infant, and Children and inspects child care facilities for sanitary conditions.

- Additionally, the Department of Business and Professional Regulation conducts inspections of private sector food establishments and the Department of Health inspects public food establishments.
- The Legislature should request the Office of Program Policy Analysis & Government Accountability to conduct a study on how to simplify the duties and responsibilities of the department.

2. A decision should be made on whether to outsource A.G. Holley Hospital.

- The hospital currently runs in a deficit of approximately \$1 million annually.
- The hospital is located on prime real estate in the city of Lantana. Based on the May 11, 2007 appraisal, the entire 134 acre plot is worth \$34,145,000.
- The hospital is not operating to full capacity and only utilizes a portion of the available space. The facility was built to hold approximately 400 beds and is currently licensed to operate 50 beds.
- The department proposed developing the facility into a Florida Center for Public Health at a cost of approximately \$10 million.
- The state has had some success with other outsourcing initiatives, notably the South Florida Evaluation and Treatment Center. In this case a replacement facility was built by bonding operational revenues.

3. Conduct a cost-benefit analysis to determine if it would be beneficial to outsource the State Laboratory and Statewide Pharmacy.

- The State Laboratory receives \$9.9 million in General Revenue and \$17.9 million in Trust Funds. Of this \$6.3 million in General Revenue is used for match.
- The Statewide Pharmacy receives \$15.1 million in General Revenue and \$104.8 million in Trust Funds. Of this \$8 million in General Revenue is used for match.
- Currently the department has a culminated total of approximately \$8.9 million tied up in multi-year contracts with vendors to process laboratory tests or provide pharmacy services.
- The Legislature should request the Office of Program Policy Analysis & Government Accountability to perform a cost-benefit analysis to determine whether to outsource these services or allocate the funding that is currently being spent on contracts to support the state infrastructure.
- The analysis should take into consideration how the County Health Departments pay for pharmacy and laboratory services and how they recoup costs associated with providing these services.

4. Consolidate contracts with similar purposes and ensure funding is allocated in an efficient manner.

- Currently the department manages approximately 1300 contracts with vendors who provide services throughout the state.
- There are 84 multi-year contracts that provide AIDS/HIV services for approximately \$39.2 million, of which; \$22.1 million is General Revenue.
- There are 24 multi-year contracts that provide research funding for approximately \$24.6 million. For projects such as: Environmental Public Health Tracking; Remote Sensing of Onsite Sewage Systems Impacts; Genetics Program; Florida Passive Nitrogen Removal Study; and Department of Environmental Protection Beach Study. At this point in time the statutory authority for this is unknown at this time. This is in addition to the biomedical research grants that are funded by the James and Ester King Biomedical Research Program and William G. "Bill" Bankhead, Jr. and David Coley Cancer Research Program.

5. Develop a pilot program that consolidates need assessments, planning, and resource management for community resources such as maternal and child health, HIV/AIDS, and health disparities.

- From a preliminary analysis it appears that the department has multiple contracts that provide the same type of services in the same geographical area. Duplication of effort does not effectively maximize the limited funding available in healthcare.
- It is not clear whether programs are able to achieve efficiency and utilize integrated data sharing to ascertain what is needed. Programs should be directed to persons whose behaviors or personal circumstances place them at risk.
- There should be a way to more effectively get specific outcomes such as creating medical homes for clients, so outcomes can be monitored long-term.
- There should be consistency of program/project goals, objectives and measured outcomes.

FY 2008-09 Base Budget Detail

DEPARTMENT OF HEALTH	FTE	GENERAL REVENUE	TOBACCO	OTHER TF	DESCRIPTION
CHILDREN'S SPECIAL HEALTH CARE					
Statewide integrated system of care for children 0 to 21 years of age who have special health care needs. As Florida's Title V Program under the Maternal and Child Health State Plan, CMS provides a comprehensive continuum of medical and supporting services to eligible children who are medically involved, complex or fragile, or who are delayed in their development. The services include: prevention and early intervention programs, primary care, medical and therapeutic care and long-term care. CMS operates as a public/private partnership where medical and medically related services are purchased and delivered through a network of private sector providers. CMS staff monitors utilization, quality of care, premiums and capitation rates as well as provide case management services to coordinate the delivery of care from multiple providers.					
Salaries And Benefits	751.00	20,304,875		19,882,025	Costs associated with salaries and benefits for 751 full time equivalents (FTEs).
