Committee/Subcommittee hearing bill: Health & Human Services
Committee

Representative Hudson offered the following:

# Amendment (with title amendment)

Remove everything after the enacting clause and insert: Section 1. Subsection (12) of section 440.13, Florida Statutes, is amended to read:

- 440.13 Medical services and supplies; penalty for violations; limitations.—
- (12) CREATION OF THREE-MEMBER PANEL; GUIDES OF MAXIMUM REIMBURSEMENT ALLOWANCES.—
- (a) A three-member panel is created, consisting of the Chief Financial Officer, or the Chief Financial Officer's designee, and two members to be appointed by the Governor, subject to confirmation by the Senate, one member who, on account of present or previous vocation, employment, or affiliation, shall be classified as a representative of employers, the other member who, on account of previous vocation, employment, or affiliation, shall be classified as a

Bill No. HB 605 (2013)

Amendment No.

representative of employees. The panel shall determine statewide
schedules of maximum reimbursement allowances for medically
necessary treatment, care, and attendance provided by
physicians, hospitals, ambulatory surgical centers, work-
hardening programs, pain programs, and durable medical
equipment. The maximum reimbursement allowances for inpatient
hospital care shall be based on a schedule of per diem rates, to
be approved by the three-member panel no later than March 1,
1994, to be used in conjunction with a precertification manual
as determined by the department, including maximum hours in
which an outpatient may remain in observation status, which
shall not exceed 23 hours. All compensable charges for hospital
outpatient care shall be reimbursed at 75 percent of usual and
customary charges, except as otherwise provided by this
subsection. Annually, the three-member panel shall adopt
schedules of maximum reimbursement allowances for physicians,
hospital inpatient care, hospital outpatient care, ambulatory
surgical centers, work-hardening programs, and pain programs. An
individual physician, hospital, ambulatory surgical center, pain
program, or work-hardening program shall be reimbursed either
the agreed-upon contract price or the maximum reimbursement
allowance in the appropriate schedule.

(b) It is the intent of the Legislature to increase the schedule of maximum reimbursement allowances for selected physicians effective January 1, 2004, and to pay for the increases through reductions in payments to hospitals. Revisions developed pursuant to this subsection are limited to the following:

942753 - h0605-strike.docx Published On: 4/28/2013 6:14:35 PM

Bill No. HB 605 (2013)

Amendment No.

- 1. Payments for outpatient physical, occupational, and speech therapy provided by hospitals shall be reduced to the schedule of maximum reimbursement allowances for these services which applies to nonhospital providers.
- 2. Payments for scheduled outpatient nonemergency radiological and clinical laboratory services that are not provided in conjunction with a surgical procedure shall be reduced to the schedule of maximum reimbursement allowances for these services which applies to nonhospital providers.
- 3. Outpatient reimbursement for scheduled surgeries shall be reduced from 75 percent of charges to 60 percent of charges.
- 4. Maximum reimbursement for a physician licensed under chapter 458 or chapter 459 shall be increased to 110 percent of the reimbursement allowed by Medicare, using appropriate codes and modifiers or the medical reimbursement level adopted by the three-member panel as of January 1, 2003, whichever is greater.
- 5. Maximum reimbursement for surgical procedures shall be increased to 140 percent of the reimbursement allowed by Medicare or the medical reimbursement level adopted by the three-member panel as of January 1, 2003, whichever is greater.
- (c) As to reimbursement for a prescription medication, the reimbursement amount for a prescription shall be the average wholesale price plus \$4.18 for the dispensing fee, except where the carrier has contracted for a lower amount. For repackaged or relabeled prescription medications dispensed by a dispensing practitioner as provided in s. 465.0276, the fee schedule for reimbursement shall be 112.5 percent of the average wholesale price, plus \$8.00 for the dispensing fee. For purposes of this

subsection, the average wholesale price shall be calculated by multiplying the number of units dispensed times the per-unit average wholesale price set by the original manufacturer of the underlying drug dispensed by the practitioner, based upon the published manufacturer's average wholesale price published in the Medi-Span Master Drug Database as of the date of dispensing. All pharmaceutical claims submitted for repackaged or relabeled prescription medications must include the National Drug Code of the original manufacturer. Fees for pharmaceuticals and pharmaceutical services shall be reimbursable at the applicable fee schedule amount except where the employer or carrier, or a service company, third party administrator, or any entity acting on behalf of the employer or carrier directly contracts with the provider seeking reimbursement for a lower amount. Where the employer or carrier has contracted for such services and the employee elects to obtain them through a provider not a party to the contract, the carrier shall reimburse at the schedule, negotiated, or contract price, whichever is lower. No Such contract shall rely on a provider that is not reasonably accessible to the employee.

(d) Reimbursement for all fees and other charges for such treatment, care, and attendance, including treatment, care, and attendance provided by any hospital or other health care provider, ambulatory surgical center, work-hardening program, or pain program, must not exceed the amounts provided by the uniform schedule of maximum reimbursement allowances as determined by the panel or as otherwise provided in this section. This subsection also applies to independent medical

examinations performed by health care providers under this chapter. In determining the uniform schedule, the panel shall first approve the data which it finds representative of prevailing charges in the state for similar treatment, care, and attendance of injured persons. Each health care provider, health care facility, ambulatory surgical center, work-hardening program, or pain program receiving workers' compensation payments shall maintain records verifying their usual charges. In establishing the uniform schedule of maximum reimbursement allowances, the panel must consider:

- 1. The levels of reimbursement for similar treatment, care, and attendance made by other health care programs or third-party providers;
- 2. The impact upon cost to employers for providing a level of reimbursement for treatment, care, and attendance which will ensure the availability of treatment, care, and attendance required by injured workers;
- 3. The financial impact of the reimbursement allowances upon health care providers and health care facilities, including trauma centers as defined in s. 395.4001, and its effect upon their ability to make available to injured workers such medically necessary remedial treatment, care, and attendance. The uniform schedule of maximum reimbursement allowances must be reasonable, must promote health care cost containment and efficiency with respect to the workers' compensation health care delivery system, and must be sufficient to ensure availability of such medically necessary remedial treatment, care, and attendance to injured workers; and

Bill No. HB 605 (2013)

Amendment No.

- 4. The most recent average maximum allowable rate of increase for hospitals determined by the Health Care Board under chapter 408.
- (e) In addition to establishing the uniform schedule of maximum reimbursement allowances, the panel shall:
- 1. Take testimony, receive records, and collect data to evaluate the adequacy of the workers' compensation fee schedule, nationally recognized fee schedules and alternative methods of reimbursement to certified health care providers and health care facilities for inpatient and outpatient treatment and care.
- 2. Survey certified health care providers and health care facilities to determine the availability and accessibility of workers' compensation health care delivery systems for injured workers.
- 3. Survey carriers to determine the estimated impact on carrier costs and workers' compensation premium rates by implementing changes to the carrier reimbursement schedule or implementing alternative reimbursement methods.
- 4. Submit recommendations on or before January 1, 2003, and biennially thereafter, to the President of the Senate and the Speaker of the House of Representatives on methods to improve the workers' compensation health care delivery system.

The department, as requested, shall provide data to the panel, including, but not limited to, utilization trends in the workers' compensation health care delivery system. The department shall provide the panel with an annual report regarding the resolution of medical reimbursement disputes and

Amendment No.

any actions pursuant to subsection (8). The department shall provide administrative support and service to the panel to the extent requested by the panel. For prescription medication purchased under the requirements of this subsection, a dispensing practitioner shall not possess such medication unless payment has been made by the practitioner, the practitioner's professional practice, or the practitioner's practice management company or employer to the supplying manufacturer, wholesaler, distributor, or drug repackager within 60 days of the dispensing practitioner taking possession of that medication.

Section 2. This act shall take effect July 1, 2013.

#### TITLE AMENDMENT

Remove everything before the enacting clause and insert:

A bill to be entitled

An act relating to workers' compensation; amending s. 440.13, F.S.; revising requirements for determining the amount of a reimbursement for repackaged or relabeled prescription medication; providing an exception; prohibiting a dispensing manufacturer from possession of a medicinal drug until certain persons are paid; providing an effective date.
