However, any new amendments must comply with the requirements of this part.

The owner of a parcel of land defined as an agricultural enclave

HB 7129

2011

281 under s. 163.3164~~(33)~~ may apply for an amendment to the local
282 government comprehensive plan pursuant to s. 163.3184 ~~163.3187~~.
283 Such amendment is presumed not to be urban sprawl as defined in

285 ~~Florida Administrative Code, and may include~~ land uses and
286 intensities of use that are consistent with the uses and
287 intensities of use of the industrial, commercial, or residential
288 areas that surround the parcel. This presumption may be rebutted

290 comprehensive plan amendment under this subsection for a parcel
291 larger than 640 acres must include appropriate new urbanism
292 concepts such as clustering, mixed-use development, the creation
293 of rural village and city centers, and the transfer of

305 in writing to a schedule for information submittal, public
306 hearings, negotiations, and final action on the amendment, which
307 schedule may thereafter be altered only with the written consent

2011

309 schedule in the written agreement constitutes good faith
310 negotiations for purposes of paragraph (c).

311 (b) Upon conclusion of good faith negotiations under
312 paragraph (a), regardless of whether the local government and
313 owner reach consensus on the land uses and intensities of use
314 that are consistent with the uses and intensities of use of the
315 industrial, commercial, or residential areas that surround the
316 parcel, the amendment must be transmitted to the state land
317 planning agency for review pursuant to s. 163.3184. If the local
318 government fails to transmit the amendment within 180 days after
319 receipt of a complete application, the amendment must be
320 immediately transferred to the state land planning agency for
321 such review ~~at the first available transmittal cycle~~. A plan
322 amendment transmitted to the state land planning agency
323 submitted under this subsection is presumed not to be urban
324 sprawl as defined in s. 163.3164 ~~consistent with rule 9J-~~
325 ~~5.006(5), Florida Administrative Code~~. This presumption may be
326 rebutted by clear and convincing evidence.

327 (c) If the owner fails to negotiate in good faith, a plan
328 amendment submitted under this subsection is not entitled to the
329 rebuttable presumption under this subsection in the negotiation
330 and amendment process.

331 (d) Nothing within this subsection relating to
332 agricultural enclaves shall preempt or replace any protection

771 ~~Final agency action shall be taken by the state land planning~~

Such collective visions shall apply in each city or county only to the extent that each local government chooses to make them applicable. The state land planning agency shall serve as a clearinghouse for creating a community vision of the future and may utilize the Growth Management Trust Fund, created by s. 186.911, to provide grants to help pay the costs of local visioning programs. When a local vision of the future has been created, a local government should review its comprehensive plan, land development regulations, and capital improvement program to ensure that these instruments will help to move the community toward its vision in a manner consistent with this act and with the state comprehensive plan. A local or regional vision must be consistent with the state vision, when adopted, and be internally consistent with the local or regional plan of which it is a component. The state land planning agency shall not adopt minimum criteria for evaluating or judging the form or content of a local or regional vision.~~

~~(c) This subsection applies retroactively to any development order granted on or after January 1, 2002.~~

Section 8. Section 163.3168, Florida Statutes, is created to read:

planning and development strategies to promote a diverse economy and vibrant rural and urban communities, while protecting environmentally sensitive areas. The Legislature further recognizes the substantial advantages of innovative approaches to development directed to meet the needs of urban, rural, and suburban areas.

(2) Local governments are encouraged to apply innovative planning tools, including, but not limited to, visioning, sector planning, and rural land stewardship area designations to address future new development areas, urban service area designations, urban growth boundaries, and mixed-use, high-density development in urban areas.

(3) The state land planning agency shall help communities find creative solutions to fostering vibrant, healthy communities, while protecting the functions of important state resources and facilities. The state land planning agency and all other appropriate state and regional agencies may use various means to provide direct and indirect technical assistance within available resources. If plan amendments may adversely impact important state resources or facilities, upon request by the local government, the state land planning agency shall coordinate multi-agency assistance, if needed, in developing an amendment to minimize impacts on such resources or facilities.

Section 9. Subsection (4) of section 163.3171, Florida Statutes, is amended to read:

163.3171 Areas of authority under this act.—

(4) The state land planning agency and a Local governments
may government shall have the power to enter into agreements

HB 7129

2011

869 with each other and ~~to agree together to enter into agreements~~
870 with a landowner, developer, or governmental agency as may be
871 necessary or desirable to effectuate the provisions and purposes
872 of ss. 163.3177(6)(h), ~~and (11)(a), (b), and (c), and~~ 163.3245,
873 and 163.3248. It is the Legislature's intent that joint
874 agreements entered into under the authority of this section be
875 liberally, broadly, and flexibly construed to facilitate
876 intergovernmental cooperation between cities and counties and to
877 encourage planning in advance of jurisdictional changes. Joint
878 agreements, executed before or after the effective date of this
879 act, include, but are not limited to, agreements that
880 contemplate municipal adoption of plans or plan amendments for
881 lands in advance of annexation of such lands into the
882 municipality, and may permit municipalities and counties to
883 exercise nonexclusive extrajurisdictional authority within
884 incorporated and unincorporated areas. The state land planning
885 agency shall not have authority to interpret, invalidate, or
886 declare inoperative such joint agreements, and the validity of
887 joint agreements may not be a basis for finding plans or plan
888 amendments not in compliance pursuant to the provisions of
889 chapter law.

890 Section 10. Subsection (1) of section 163.3174, Florida
891 Statutes, is amended to read:

892 163.3174 Local planning agency.—

893 (1) The governing body of each local government,
894 individually or in combination as provided in s. 163.3171, shall
895 designate and by ordinance establish a "local planning agency,"
896 unless the agency is otherwise established by law.

HB 7129

2011

897 Notwithstanding any special act to the contrary, all local
898 planning agencies or equivalent agencies that first review
899 rezoning and comprehensive plan amendments in each municipality
900 and county shall include a representative of the school district
901 appointed by the school board as a nonvoting member of the local
902 planning agency or equivalent agency to attend those meetings at
903 which the agency considers comprehensive plan amendments and
904 rezonings that would, if approved, increase residential density
905 on the property that is the subject of the application. However,
906 this subsection does not prevent the governing body of the local
907 government from granting voting status to the school board
908 member. The governing body may designate itself as the local
909 planning agency pursuant to this subsection with the addition of
910 a nonvoting school board representative. ~~The governing body~~
911 ~~shall notify the state land planning agency of the establishment~~
912 ~~of its local planning agency.~~ All local planning agencies shall
913 provide opportunities for involvement by applicable community
914 college boards, which may be accomplished by formal
915 representation, membership on technical advisory committees, or
916 other appropriate means. The local planning agency shall prepare
917 the comprehensive plan or plan amendment after hearings to be
918 held after public notice and shall make recommendations to the
919 governing body regarding the adoption or amendment of the plan.
920 The agency may be a local planning commission, the planning
921 department of the local government, or other instrumentality,
922 including a countywide planning entity established by special
923 act or a council of local government officials created pursuant
924 to s. 163.02, provided the composition of the council is fairly

HB 7129

2011

representative of all the governing bodies in the county or planning area; however:

(a) If a joint planning entity is in existence on the effective date of this act which authorizes the governing bodies to adopt and enforce a land use plan effective throughout the joint planning area, that entity shall be the agency for those local governments until such time as the authority of the joint planning entity is modified by law.

(b) In the case of chartered counties, the planning responsibility between the county and the several municipalities therein shall be as stipulated in the charter.

Section 11. Section 163.3177, Florida Statutes, is amended to read:

163.3177 Required and optional elements of comprehensive plan; studies and surveys.—

(1) The comprehensive plan shall provide the ~~consist of materials in such descriptive form, written or graphic, as may be appropriate to the prescription of~~ principles, guidelines, ~~and~~ standards, and strategies for the orderly and balanced future economic, social, physical, environmental, and fiscal development of the area that reflects community commitments to implement the plan and its elements. These principles and strategies shall guide future decisions in a consistent manner and shall contain programs and activities to ensure comprehensive plans are implemented. The sections of the comprehensive plan containing the principles and strategies, generally provided as goals, objectives, and policies, shall describe how the local government's programs, activities, and

953 land development regulations will be initiated, modified, or
954 continued to implement the comprehensive plan in a consistent
955 manner. It is not the intent of this part to require the
956 inclusion of implementing regulations in the comprehensive plan
957 but rather to require identification of those programs,
958 activities, and land development regulations that will be part
959 of the strategy for implementing the comprehensive plan and the
960 principles that describe how the programs, activities, and land
961 development regulations will be carried out. The plan shall
962 establish meaningful and predictable standards for the use and
963 development of land and provide meaningful guidelines for the
964 content of more detailed land development and use regulations.

965 (a) The comprehensive plan shall consist of elements as
966 described in this section, and may include optional elements.

967 (b) A local government may include, as part of its adopted
968 plan, documents adopted by reference but not incorporated
969 verbatim into the plan. The adoption by reference must identify
970 the title and author of the document and indicate clearly what
971 provisions and edition of the document is being adopted.

972 (c) The format of these principles and guidelines is at
973 the discretion of the local government, but typically is
974 expressed in goals, objectives, policies, and strategies.

975 (d) Proposed elements shall identify procedures for
976 monitoring, evaluating, and appraising implementation of the
977 plan.

978 (e) When a federal, state, or regional agency has
979 implemented a regulatory program, a local government is not
980 required to duplicate or exceed that regulatory program in its

HB 7129

2011

981 local comprehensive plan.

982 (f) All mandatory and optional elements of the
983 comprehensive plan and plan amendments shall be based upon a
984 justification by the local government that may include, but not
985 be limited to, surveys, studies, community goals and vision, and
986 other data available at the time of adoption of the
987 comprehensive plan or plan amendment. To be based on data means
988 to react to it in an appropriate way and to the extent necessary
989 indicated by the data available on that particular subject at
990 the time of adoption of the plan or plan amendment at issue.

991 1. Surveys, studies, and data utilized in the preparation
992 of the comprehensive plan shall not be deemed a part of the
993 comprehensive plan unless adopted as a part of it. Copies of
994 such studies, surveys, data, and supporting documents shall be
995 made available for public inspection, and copies of such plans
996 shall be made available to the public upon payment of reasonable
997 charges for reproduction. Support data or summaries shall not be
998 subject to the compliance review process, but the comprehensive
999 plan must be clearly based on appropriate data. Support data or
1000 summaries may be used to aid in the determination of compliance
1001 and consistency.

1002 2. Data must be taken from professionally accepted
1003 sources. The application of a methodology utilized in data
1004 collection or whether a particular methodology is professionally
1005 accepted may be evaluated. However, the evaluation shall not
1006 include whether one accepted methodology is better than another.
1007 Original data collection by local governments is not required.
1008 However, local governments may use original data so long as

HB 7129

2011

methodologies are professionally accepted.

3. The comprehensive plan shall be based upon resident and seasonal population estimates and projections, which shall either be those provided by the University of Florida's Bureau of Economic and Business Research or generated by the local government based upon a professionally acceptable methodology. The plan must be based on at least the minimum amount of land required to accommodate the medium projections of the University of Florida's Bureau of Economic and Business Research.

(2) Coordination of the several elements of the local comprehensive plan shall be a major objective of the planning process. The several elements of the comprehensive plan shall be consistent. Where data is relevant to several elements, consistent data shall be used, including population estimates and projections unless alternative data can be justified for a plan amendment through new supporting data and analysis. Each map depicting future conditions must reflect the principles, guidelines, and standards within all elements and each such map must be contained within the comprehensive plan, ~~and the comprehensive plan shall be financially feasible. Financial feasibility shall be determined using professionally accepted methodologies and applies to the 5-year planning period, except in the case of a long-term transportation or school concurrency management system, in which case a 10-year or 15-year period applies.~~

(3) (a) The comprehensive plan shall contain a capital improvements element designed to consider the need for and the location of public facilities in order to encourage the

HB 7129

2011

efficient use of such facilities and set forth:

1. A component that outlines principles for construction, extension, or increase in capacity of public facilities, as well as a component that outlines principles for correcting existing public facility deficiencies, which are necessary to implement the comprehensive plan. The components shall cover at least a 5-year period.

2. Estimated public facility costs, including a delineation of when facilities will be needed, the general location of the facilities, and projected revenue sources to fund the facilities.

3. Standards to ensure the availability of public facilities and the adequacy of those facilities including acceptable levels of service.

~~4. Standards for the management of debt.~~

~~4.5.~~ A schedule of capital improvements which includes any publicly funded projects of federal, state, or local government, and which may include privately funded projects for which the local government has no fiscal responsibility. Projects, necessary to ensure that any adopted level-of-service standards are achieved and maintained for the 5-year period must be identified as either funded or unfunded and given a level of priority for funding. ~~For capital improvements that will be funded by the developer, financial feasibility shall be demonstrated by being guaranteed in an enforceable development agreement or interlocal agreement pursuant to paragraph (10) (h), or other enforceable agreement. These development agreements and interlocal agreements shall be reflected in the schedule of~~

HB 7129

2011

~~capital improvements if the capital improvement is necessary to serve development within the 5-year schedule. If the local government uses planned revenue sources that require referenda or other actions to secure the revenue source, the plan must, in the event the referenda are not passed or actions do not secure the planned revenue source, identify other existing revenue sources that will be used to fund the capital projects or otherwise amend the plan to ensure financial feasibility.~~

5.6. The schedule must include transportation improvements included in the applicable metropolitan planning organization's transportation improvement program adopted pursuant to s. 339.175(8) to the extent that such improvements are relied upon to ensure concurrency and financial feasibility. The schedule must ~~also~~ be coordinated with the applicable metropolitan planning organization's long-range transportation plan adopted pursuant to s. 339.175(7).

~~(b)1.~~ The capital improvements element must be reviewed by the local government on an annual basis. Modifications ~~and modified as necessary in accordance with s. 163.3187 or s. 163.3189 in order to update the~~ maintain a financially feasible 5-year capital improvement schedule ~~of capital improvements. Corrections and modifications concerning costs; revenue sources; or acceptance of facilities pursuant to dedications which are consistent with the plan~~ may be accomplished by ordinance and shall not be deemed to be amendments to the local comprehensive plan. ~~A copy of the ordinance shall be transmitted to the state land planning agency. An amendment to the comprehensive plan is required to update the schedule on an annual basis or to~~

HB 7129

2011

~~eliminate, defer, or delay the construction for any facility listed in the 5-year schedule. All public facilities must be consistent with the capital improvements element. The annual update to the capital improvements element of the comprehensive plan need not comply with the financial feasibility requirement until December 1, 2011. Thereafter, a local government may not amend its future land use map, except for plan amendments to meet new requirements under this part and emergency amendments pursuant to s. 163.3187(1)(a), after December 1, 2011, and every year thereafter, unless and until the local government has adopted the annual update and it has been transmitted to the state land planning agency.~~

~~2. Capital improvements element amendments adopted after the effective date of this act shall require only a single public hearing before the governing board which shall be an adoption hearing as described in s. 163.3184(7). Such amendments are not subject to the requirements of s. 163.3184(3)-(6).~~

~~(c) If the local government does not adopt the required annual update to the schedule of capital improvements, the state land planning agency must notify the Administration Commission. A local government that has a demonstrated lack of commitment to meeting its obligations identified in the capital improvements element may be subject to sanctions by the Administration Commission pursuant to s. 163.3184(11).~~

~~(d) If a local government adopts a long-term concurrency management system pursuant to s. 163.3180(9), it must also adopt a long-term capital improvements schedule covering up to a 10-year or 15-year period, and must update the long-term schedule~~

HB 7129

2011

1121 ~~annually. The long-term schedule of capital improvements must be~~
1122 ~~financially feasible.~~

1123 ~~(c) At the discretion of the local government and~~
1124 ~~notwithstanding the requirements of this subsection, a~~
1125 ~~comprehensive plan, as revised by an amendment to the plan's~~
1126 ~~future land use map, shall be deemed to be financially feasible~~
1127 ~~and to have achieved and maintained level of service standards~~
1128 ~~as required by this section with respect to transportation~~
1129 ~~facilities if the amendment to the future land use map is~~
1130 ~~supported by a:~~

1131 ~~1. Condition in a development order for a development of~~
1132 ~~regional impact or binding agreement that addresses~~
1133 ~~proportionate-share mitigation consistent with s. 163.3180(12);~~
1134 ~~or~~

1135 ~~2. Binding agreement addressing proportionate fair-share~~
1136 ~~mitigation consistent with s. 163.3180(16) (f) and the property~~
1137 ~~subject to the amendment to the future land use map is located~~
1138 ~~within an area designated in a comprehensive plan for urban~~
1139 ~~infill, urban redevelopment, downtown revitalization, urban~~
1140 ~~infill and redevelopment, or an urban service area. The binding~~
1141 ~~agreement must be based on the maximum amount of development~~
1142 ~~identified by the future land use map amendment or as may be~~
1143 ~~otherwise restricted through a special area plan policy or map~~
1144 ~~notation in the comprehensive plan.~~

1145 ~~(f) A local government's comprehensive plan and plan~~
1146 ~~amendments for land uses within all transportation concurrency~~
1147 ~~exception areas that are designated and maintained in accordance~~
1148 ~~with s. 163.3180(5) shall be deemed to meet the requirement to~~

HB 7129

2011

1149 ~~achieve and maintain level of service standards for~~
1150 ~~transportation.~~

1151 (4) (a) Coordination of the local comprehensive plan with
1152 the comprehensive plans of adjacent municipalities, the county,
1153 adjacent counties, or the region; with the appropriate water
1154 management district's regional water supply plans approved
1155 pursuant to s. 373.709; and with adopted rules pertaining to
1156 designated areas of critical state concern; ~~and with the state~~
1157 ~~comprehensive plan~~ shall be a major objective of the local
1158 comprehensive planning process. ~~To that end, in the preparation~~
1159 ~~of a comprehensive plan or element thereof, and in the~~
1160 ~~comprehensive plan or element as adopted, the governing body~~
1161 ~~shall include a specific policy statement indicating the~~
1162 ~~relationship of the proposed development of the area to the~~
1163 ~~comprehensive plans of adjacent municipalities, the county,~~
1164 ~~adjacent counties, or the region and to the state comprehensive~~
1165 ~~plan, as the case may require and as such adopted plans or plans~~
1166 ~~in preparation may exist.~~

1167 (b) When all or a portion of the land in a local
1168 government jurisdiction is or becomes part of a designated area
1169 of critical state concern, the local government shall clearly
1170 identify those portions of the local comprehensive plan that
1171 shall be applicable to the critical area and shall indicate the
1172 relationship of the proposed development of the area to the
1173 rules for the area of critical state concern.

1174 (5) (a) Each local government comprehensive plan must
1175 include at least two planning periods, one covering at least the
1176 first 5-year period occurring after the plan's adoption and one

HB 7129

2011

1177 covering at least a 10-year period. Additional planning periods
1178 for specific components, elements, land use amendments, or
1179 projects shall be permissible and accepted as part of the
1180 planning process.

1181 (b) The comprehensive plan and its elements shall contain
1182 guidelines or policies ~~policy recommendations~~ for the
1183 implementation of the plan and its elements.

1184 (6) In addition to the requirements of subsections (1)-(5)
1185 ~~and (12)~~, the comprehensive plan shall include the following
1186 elements:

1187 (a) A future land use plan element designating proposed
1188 future general distribution, location, and extent of the uses of
1189 land for residential uses, commercial uses, industry,
1190 agriculture, recreation, conservation, education, ~~public~~
1191 ~~buildings and grounds, other~~ public facilities, and other
1192 categories of the public and private uses of land. The
1193 approximate acreage and the general range of density or
1194 intensity of use shall be provided for the gross land area
1195 included in each existing land use category. The element shall
1196 establish the long-term end toward which land use programs and
1197 activities are ultimately directed. ~~Counties are encouraged to~~
1198 ~~designate rural land stewardship areas, pursuant to paragraph~~
1199 ~~(11)(d), as overlays on the future land use map.~~

1200 1. Each future land use category must be defined in terms
1201 of uses included, and must include standards to be followed in
1202 the control and distribution of population densities and
1203 building and structure intensities. The proposed distribution,
1204 location, and extent of the various categories of land use shall

HB 7129

2011

be shown on a land use map or map series which shall be supplemented by goals, policies, and measurable objectives.

2. The future land use plan and plan amendments shall be based upon surveys, studies, and data regarding the area, as applicable, including:

a. The amount of land required to accommodate anticipated growth.~~†~~

b. The projected residential and seasonal population of the area.~~†~~

c. The character of undeveloped land.~~†~~

d. The availability of water supplies, public facilities, and services.~~†~~

e. The need for redevelopment, including the renewal of blighted areas and the elimination of nonconforming uses which are inconsistent with the character of the community.~~†~~

f. The compatibility of uses on lands adjacent to or closely proximate to military installations.~~†~~

g. The compatibility of uses on lands adjacent to an airport as defined in s. 330.35 and consistent with s. 333.02.~~†~~

h. The discouragement of urban sprawl.~~†~~ ~~energy efficient land use patterns accounting for existing and future electric power generation and transmission systems; greenhouse gas reduction strategies; and, in rural communities,~~

i. The need for job creation, capital investment, and economic development that will strengthen and diversify the community's economy.

j. The need to modify land uses and development patterns within antiquated subdivisions. ~~The future land use plan may~~

HB 7129

2011

~~designate areas for future planned development use involving combinations of types of uses for which special regulations may be necessary to ensure development in accord with the principles and standards of the comprehensive plan and this act.~~

3. The future land use plan element shall include criteria to be used to:

a. Achieve the compatibility of lands adjacent or closely proximate to military installations, considering factors identified in s. 163.3175(5). ~~and~~

b. Achieve the compatibility of lands adjacent to an airport as defined in s. 330.35 and consistent with s. 333.02.

c. Encourage preservation of recreational and commercial working waterfronts for water dependent uses in coastal communities.

d. Encourage the location of schools proximate to urban residential areas to the extent possible.

e. Coordinate future land uses with the topography and soil conditions, and the availability of facilities and services.

f. Ensure the protection of natural and historic resources.

g. Provide for the compatibility of adjacent land uses.

h. Provide guidelines for the implementation of mixed use development including the types of uses allowed, the percentage distribution among the mix of uses, or other standards, and the density and intensity of each use.

4. ~~In addition, for rural communities,~~ The amount of land designated for future planned uses ~~industrial use~~ shall provide

HB 7129

2011

1261 a balance of uses that foster vibrant, viable communities and
1262 economic development opportunities and address outdated
1263 development patterns, such as antiquated subdivisions. The
1264 amount of land designated for future land uses should allow the
1265 operation of real estate markets to provide adequate choices for
1266 permanent and seasonal residents and business and ~~be based upon~~
1267 ~~surveys and studies that reflect the need for job creation,~~
1268 ~~capital investment, and the necessity to strengthen and~~
1269 ~~diversify the local economies, and~~ may not be limited solely by
1270 the projected population ~~of the rural community.~~ The element
1271 shall accommodate at least the minimum amount of land required
1272 to accommodate the medium projections of the University of
1273 Florida's Bureau of Economic and Business Research.

1274 5. The future land use plan of a county may ~~also~~ designate
1275 areas for possible future municipal incorporation.

1276 6. The land use maps or map series shall generally
1277 identify and depict historic district boundaries and shall
1278 designate historically significant properties meriting
1279 protection. ~~For coastal counties, the future land use element~~
1280 ~~must include, without limitation, regulatory incentives and~~
1281 ~~criteria that encourage the preservation of recreational and~~
1282 ~~commercial working waterfronts as defined in s. 342.07.~~

1283 7. The future land use element must clearly identify the
1284 land use categories in which public schools are an allowable
1285 use. When delineating the land use categories in which public
1286 schools are an allowable use, a local government shall include
1287 in the categories sufficient land proximate to residential
1288 development to meet the projected needs for schools in

HB 7129

2011

1289 coordination with public school boards and may establish
1290 differing criteria for schools of different type or size. Each
1291 local government shall include lands contiguous to existing
1292 school sites, to the maximum extent possible, within the land
1293 use categories in which public schools are an allowable use. ~~The~~
1294 ~~failure by a local government to comply with these school siting~~
1295 ~~requirements will result in the prohibition of the local~~
1296 ~~government's ability to amend the local comprehensive plan,~~
1297 ~~except for plan amendments described in s. 163.3187(1)(b), until~~
1298 ~~the school siting requirements are met. Amendments proposed by a~~
1299 ~~local government for purposes of identifying the land use~~
1300 ~~categories in which public schools are an allowable use are~~
1301 ~~exempt from the limitation on the frequency of plan amendments~~
1302 ~~contained in s. 163.3187. The future land use element shall~~
1303 ~~include criteria that encourage the location of schools~~
1304 ~~proximate to urban residential areas to the extent possible and~~
1305 ~~shall require that the local government seek to collocate public~~
1306 ~~facilities, such as parks, libraries, and community centers,~~
1307 ~~with schools to the extent possible and to encourage the use of~~
1308 ~~elementary schools as focal points for neighborhoods. For~~
1309 ~~schools serving predominantly rural counties, defined as a~~
1310 ~~county with a population of 100,000 or fewer, an agricultural~~
1311 ~~land use category is eligible for the location of public school~~
1312 ~~facilities if the local comprehensive plan contains school~~
1313 ~~siting criteria and the location is consistent with such~~
1314 ~~criteria.~~

1315 8. Future land use map amendments shall be based upon the
1316 following analyses:

HB 7129

2011

1317 a. An analysis of the availability of facilities and
1318 services.

1319 b. An analysis of the suitability of the plan amendment
1320 for its proposed use considering the character of the
1321 undeveloped land, soils, topography, natural resources, and
1322 historic resources on site.

1323 c. An analysis of the minimum amount of land needed as
1324 determined by the local government.

1325 9. The future land use element and any amendment to the
1326 future land use element shall discourage the proliferation of
1327 urban sprawl.

1328 a. The primary indicators that a plan or plan amendment
1329 does not discourage the proliferation of urban sprawl are listed
1330 below. The evaluation of the presence of these indicators shall
1331 consist of an analysis of the plan or plan amendment within the
1332 context of features and characteristics unique to each locality
1333 in order to determine whether the plan or plan amendment:

1334 (I) Promotes, allows, or designates for development
1335 substantial areas of the jurisdiction to develop as low-
1336 intensity, low-density, or single-use development or uses.

1337 (II) Promotes, allows, or designates significant amounts
1338 of urban development to occur in rural areas at substantial
1339 distances from existing urban areas while not using undeveloped
1340 lands that are available and suitable for development.

1341 (III) Promotes, allows, or designates urban development in
1342 radial, strip, isolated, or ribbon patterns generally emanating
1343 from existing urban developments.

1344 (IV) Fails to adequately protect and conserve natural

HB 7129

2011

resources, such as wetlands, floodplains, native vegetation,
environmentally sensitive areas, natural groundwater aquifer
recharge areas, lakes, rivers, shorelines, beaches, bays,
estuarine systems, and other significant natural systems.

(V) Fails to adequately protect adjacent agricultural
areas and activities, including silviculture, active
agricultural and silvicultural activities, passive agricultural
activities, and dormant, unique, and prime farmlands and soils.

(VI) Fails to maximize use of existing public facilities
and services.

(VII) Fails to maximize use of future public facilities
and services.

(VIII) Allows for land use patterns or timing which
disproportionately increase the cost in time, money, and energy
of providing and maintaining facilities and services, including
roads, potable water, sanitary sewer, stormwater management, law
enforcement, education, health care, fire and emergency
response, and general government.

(IX) Fails to provide a clear separation between rural and
urban uses.

(X) Discourages or inhibits infill development or the
redevelopment of existing neighborhoods and communities.

(XI) Fails to encourage a functional mix of uses.

(XII) Results in poor accessibility among linked or
related land uses.

(XIII) Results in the loss of significant amounts of
functional open space.

b. The future land use element or plan amendment shall be

HB 7129

2011

determined to discourage the proliferation of urban sprawl if it incorporates a development pattern or urban form that achieves four or more of the following:

(I) Directs or locates economic growth and associated land development to geographic areas of the community in a manner that does not have an adverse impact on and protects natural resources and ecosystems.

(II) Promotes the efficient and cost-effective provision or extension of public infrastructure and services.

(III) Promotes walkable and connected communities and provides for compact development and a mix of uses at densities and intensities that will support a range of housing choices and a multimodal transportation system, including pedestrian, bicycle, and transit, if available.

(IV) Promotes conservation of water and energy.

(V) Preserves agricultural areas and activities, including silviculture, and dormant, unique, and prime farmlands and soils.

(VI) Preserves open space and natural lands and provides for public open space and recreation needs.

(VII) Creates a balance of land uses based upon demands of residential population for the nonresidential needs of an area.

(VIII) Provides uses, densities, and intensities of use and urban form that would remediate an existing or planned development pattern in the vicinity that constitutes sprawl or if it provides for an innovative development pattern such as transit-oriented developments or new towns as defined in s. 163.3164.

HB 7129

2011

1401 10. The future land use element shall include a future
1402 land use map or map series.

1403 a. The proposed distribution, extent, and location of the
1404 following uses shall be shown on the future land use map or map
1405 series:

1406 (I) Residential.

1407 (II) Commercial.

1408 (III) Industrial.

1409 (IV) Agricultural.

1410 (V) Recreational.

1411 (VI) Conservation.

1412 (VII) Educational.

1413 (VIII) Public.

1414 b. The following areas shall also be shown on the future
1415 land use map or map series, if applicable:

1416 (I) Historic district boundaries and designated
1417 historically significant properties.

1418 (II) Transportation concurrency management area boundaries
1419 or transportation concurrency exception area boundaries.

1420 (III) Multimodal transportation district boundaries.

1421 (IV) Mixed use categories.

1422 c. The following natural resources or conditions shall be
1423 shown on the future land use map or map series, if applicable:

1424 (I) Existing and planned public potable waterwells, cones
1425 of influence, and wellhead protection areas.

1426 (II) Beaches and shores, including estuarine systems.

1427 (III) Rivers, bays, lakes, floodplains, and harbors.

1428 (IV) Wetlands.

HB 7129

2011

(V) Minerals and soils.

(VI) Coastal high hazard areas.

11. Local governments required to update or amend their comprehensive plan to include criteria and address compatibility of lands adjacent or closely proximate to existing military installations, or lands adjacent to an airport as defined in s. 330.35 and consistent with s. 333.02, in their future land use plan element shall transmit the update or amendment to the state land planning agency by June 30, 2012.

(b)1. A transportation element addressing mobility issues in relationship to the size and character of the local government. The purpose of the transportation element shall be to plan for a multimodal transportation system that places emphasis on public transportation systems, where feasible. The element shall provide for a safe, convenient multimodal transportation system, coordinated with the future land use map or map series and designed to support all elements of the comprehensive plan. A local government that has all or part of its jurisdiction included within the metropolitan planning area of a metropolitan planning organization (M.P.O.) pursuant to s. 339.175 shall prepare and adopt a transportation element consistent with this subsection. Local governments that are not located within the metropolitan planning area of an M.P.O. shall address traffic circulation, mass transit, and ports, and aviation and related facilities consistent with this subsection, except that local governments with a population of 50,000 or less shall only be required to address transportation circulation. The element shall be coordinated with the plans and

HB 7129

2011

programs of any applicable metropolitan planning organization,
transportation authority, Florida Transportation Plan, and
Department of Transportation's adopted work program. The
transportation element shall address

~~(b)~~—A traffic circulation, including element consisting of
the types, locations, and extent of existing and proposed major
thoroughfares and transportation routes, including bicycle and
pedestrian ways. Transportation corridors, as defined in s.
334.03, may be designated in the transportation ~~traffic~~
~~circulation~~ element pursuant to s. 337.273. If the
transportation corridors are designated, the local government
may adopt a transportation corridor management ordinance. The
element shall reflect the data, analysis, and associated
principles and strategies relating to:

a. The existing transportation system levels of service
and system needs and the availability of transportation
facilities and services.

b. The growth trends and travel patterns and interactions
between land use and transportation.

c. Existing and projected intermodal deficiencies and
needs.

d. The projected transportation system levels of service
and system needs based upon the future land use map and the
projected integrated transportation system.

e. How the local government will correct existing facility
deficiencies, meet the identified needs of the projected
transportation system, and advance the purpose of this paragraph
and the other elements of the comprehensive plan.

HB 7129

2011

1485 2. Local governments within a metropolitan planning area
1486 designated as an M.P.O. pursuant to s. 339.175 shall also
1487 address:

1488 a. All alternative modes of travel, such as public
1489 transportation, pedestrian, and bicycle travel.

1490 b. Aviation, rail, seaport facilities, access to those
1491 facilities, and intermodal terminals.

1492 c. The capability to evacuate the coastal population
1493 before an impending natural disaster.

1494 d. Airports, projected airport and aviation development,
1495 and land use compatibility around airports, which includes areas
1496 defined in ss. 333.01 and 333.02.

1497 e. An identification of land use densities, building
1498 intensities, and transportation management programs to promote
1499 public transportation systems in designated public
1500 transportation corridors so as to encourage population densities
1501 sufficient to support such systems.

1502 3. Mass-transit provisions showing proposed methods for
1503 the moving of people, rights-of-way, terminals, and related
1504 facilities shall address:

1505 a. The provision of efficient public transit services
1506 based upon existing and proposed major trip generators and
1507 attractors, safe and convenient public transit terminals, land
1508 uses, and accommodation of the special needs of the
1509 transportation disadvantaged.

1510 b. Plans for port, aviation, and related facilities
1511 coordinated with the general circulation and transportation
1512 element.

HB 7129

2011

1513 c. Plans for the circulation of recreational traffic,
1514 including bicycle facilities, exercise trails, riding
1515 facilities, and such other matters as may be related to the
1516 improvement and safety of movement of all types of recreational
1517 traffic.

1518 4. An airport master plan, and any subsequent amendments
1519 to the airport master plan, prepared by a licensed publicly
1520 owned and operated airport under s. 333.06 may be incorporated
1521 into the local government comprehensive plan by the local
1522 government having jurisdiction under this act for the area in
1523 which the airport or projected airport development is located by
1524 the adoption of a comprehensive plan amendment. In the amendment
1525 to the local comprehensive plan that integrates the airport
1526 master plan, the comprehensive plan amendment shall address land
1527 use compatibility consistent with chapter 333 regarding airport
1528 zoning; the provision of regional transportation facilities for
1529 the efficient use and operation of the transportation system and
1530 airport; consistency with the local government transportation
1531 circulation element and applicable M.P.O. long-range
1532 transportation plans; the execution of any necessary interlocal
1533 agreements for the purposes of the provision of public
1534 facilities and services to maintain the adopted level-of-service
1535 standards for facilities subject to concurrency; and may address
1536 airport-related or aviation-related development. Development or
1537 expansion of an airport consistent with the adopted airport
1538 master plan that has been incorporated into the local
1539 comprehensive plan in compliance with this part, and airport-
1540 related or aviation-related development that has been addressed

HB 7129

2011

1541 in the comprehensive plan amendment that incorporates the
1542 airport master plan, shall not be a development of regional
1543 impact. Notwithstanding any other general law, an airport that
1544 has received a development-of-regional-impact development order
1545 pursuant to s. 380.06, but which is no longer required to

1568 service within the local government's jurisdiction. Local

HB 7129

2011

1569 governments that provide facilities to serve areas within other
1570 local government jurisdictions shall also address those
1571 facilities in the data and analyses required by this section,
1572 using data from the comprehensive plan for those areas for the

1593 ~~septic tanks.~~

1594 3. Within 18 months after the governing board approves an
1595 updated regional water supply plan, the element must incorporate
1596 the alternative water supply project or projects selected by the

HB 7129

2011

1597 local government from those identified in the regional water
1598 supply plan pursuant to s. 373.709(2)(a) or proposed by the
1599 local government under s. 373.709(8)(b). If a local government
1600 is located within two water management districts, the local
1601 government shall adopt its comprehensive plan amendment within
1602 18 months after the later updated regional water supply plan.
1603 The element must identify such alternative water supply projects
1604 and traditional water supply projects and conservation and reuse

1606 within the local government's jurisdiction and include a work
1607 plan, covering at least a 10-year planning period, for building
1608 public, private, and regional water supply facilities, including
1609 development of alternative water supplies, which are identified
1610 in the element as necessary to serve existing and new
1611 development. The work plan shall be updated, at a minimum, every
1612 5 years within 18 months after the governing board of a water
1613 management district approves an updated regional water supply
1614 plan. ~~Amendments to incorporate the work plan do not count~~
1615 ~~toward the limitation on the frequency of adoption of amendments~~
1616 ~~to the comprehensive plan.~~ Local governments, public and private
1617 utilities, regional water supply authorities, special districts,
1618 and water management districts are encouraged to cooperatively
1619 plan for the development of multijurisdictional water supply
1620 facilities that are sufficient to meet projected demands for
1621 established planning periods, including the development of
1622 alternative water sources to supplement traditional sources of
1623 groundwater and surface water supplies.

a. Protects air quality.

HB 7129

2011

1653 b. Conserves, appropriately uses, and protects the quality
1654 and quantity of current and projected water sources and waters
1655 that flow into estuarine waters or oceanic waters and protect
1656 from activities and land uses known to affect adversely the

2082 ~~recommendations may be available as aids and guides to~~
2083 ~~developers in the future planning and development of land in the~~
2084 ~~area.~~

2085 ~~(g) A general area redevelopment element consisting of~~
2086 ~~plans and programs for the redevelopment of slums and blighted~~
2087 ~~locations in the area and for community redevelopment, including~~
2088 ~~housing sites, business and industrial sites, public buildings~~
2089 ~~sites, recreational facilities, and other purposes authorized by~~

2091 ~~(h) A safety element for the protection of residents and~~
2092 ~~property of the area from fire, hurricane, or manmade or natural~~
2093 ~~catastrophe, including such necessary features for protection as~~
2094 ~~evacuation routes and their control in an emergency, water~~
2095 ~~supply requirements, minimum road widths, clearances around and~~
2096 ~~elevations of structures, and similar matters.~~

2097 ~~(i) An historical and scenic preservation element setting~~
2098 ~~out plans and programs for those structures or lands in the area~~

HB 7129

2011

~~(j) An economic element setting forth principles and guidelines for the commercial and industrial development, if any, and the employment and personnel utilization within the area. The element may detail the type of commercial and industrial development sought, correlated to the present and projected employment needs of the area and to other elements of the plans, and may set forth methods by which a balanced and stable economic base will be pursued.~~

~~(k) Such other elements as may be peculiar to, and necessary for, the area concerned and as are added to the comprehensive plan by the governing body upon the recommendation of the local planning agency.~~

~~(l) Local governments that are not required to prepare coastal management elements under s. 163.3178 are encouraged to adopt hazard mitigation/postdisaster redevelopment plans. These plans should, at a minimum, establish long-term policies regarding redevelopment, infrastructure, densities, nonconforming uses, and future land use patterns. Grants to assist local governments in the preparation of these hazard mitigation/postdisaster redevelopment plans shall be available through the Emergency Management Preparedness and Assistance Account in the Grants and Donations Trust Fund administered by the department, if such account is created by law. The plans must be in compliance with the requirements of this act and chapter 252.~~

~~(8) All elements of the comprehensive plan, whether mandatory or optional, shall be based upon data appropriate to the element involved. Surveys and studies utilized in the~~

HB 7129

2011

~~preparation of the comprehensive plan shall not be deemed a part of the comprehensive plan unless adopted as a part of it. Copies of such studies, surveys, and supporting documents shall be made available to public inspection, and copies of such plans shall be made available to the public upon payment of reasonable charges for reproduction.~~

~~(9) The state land planning agency shall, by February 15, 1986, adopt by rule minimum criteria for the review and determination of compliance of the local government comprehensive plan elements required by this act. Such rules shall not be subject to rule challenges under s. 120.56(2) or to drawout proceedings under s. 120.54(3)(c)2. Such rules shall become effective only after they have been submitted to the President of the Senate and the Speaker of the House of Representatives for review by the Legislature no later than 30 days prior to the next regular session of the Legislature. In its review the Legislature may reject, modify, or take no action relative to the rules. The agency shall conform the rules to the changes made by the Legislature, or, if no action was taken, the agency rules shall become effective. The rule shall include criteria for determining whether:~~

~~(a) Proposed elements are in compliance with the requirements of part II, as amended by this act.~~

~~(b) Other elements of the comprehensive plan are related to and consistent with each other.~~

~~(c) The local government comprehensive plan elements are consistent with the state comprehensive plan and the appropriate regional policy plan pursuant to s. 186.508.~~

HB 7129

2011

~~(d) Certain bays, estuaries, and harbors that fall under the jurisdiction of more than one local government are managed in a consistent and coordinated manner in the case of local governments required to include a coastal management element in their comprehensive plans pursuant to paragraph (6)(g).~~

~~(e) Proposed elements identify the mechanisms and procedures for monitoring, evaluating, and appraising implementation of the plan. Specific measurable objectives are included to provide a basis for evaluating effectiveness as required by s. 163.3191.~~

~~(f) Proposed elements contain policies to guide future decisions in a consistent manner.~~

~~(g) Proposed elements contain programs and activities to ensure that comprehensive plans are implemented.~~

~~(h) Proposed elements identify the need for and the processes and procedures to ensure coordination of all development activities and services with other units of local government, regional planning agencies, water management districts, and state and federal agencies as appropriate.~~

~~The state land planning agency may adopt procedural rules that are consistent with this section and chapter 120 for the review of local government comprehensive plan elements required under this section. The state land planning agency shall provide model plans and ordinances and, upon request, other assistance to local governments in the adoption and implementation of their revised local government comprehensive plans. The review and comment provisions applicable prior to October 1, 1985, shall~~

HB 7129

2011

~~continue in effect until the criteria for review and determination are adopted pursuant to this subsection and the comprehensive plans required by s. 163.3167(2) are due.~~

~~(10) The Legislature recognizes the importance and significance of chapter 9J-5, Florida Administrative Code, the Minimum Criteria for Review of Local Government Comprehensive Plans and Determination of Compliance of the Department of Community Affairs that will be used to determine compliance of local comprehensive plans. The Legislature reserved unto itself the right to review chapter 9J-5, Florida Administrative Code, and to reject, modify, or take no action relative to this rule. Therefore, pursuant to subsection (9), the Legislature hereby has reviewed chapter 9J-5, Florida Administrative Code, and expresses the following legislative intent:~~

~~(a) The Legislature finds that in order for the department to review local comprehensive plans, it is necessary to define the term "consistency." Therefore, for the purpose of determining whether local comprehensive plans are consistent with the state comprehensive plan and the appropriate regional policy plan, a local plan shall be consistent with such plans if the local plan is "compatible with" and "furthers" such plans. The term "compatible with" means that the local plan is not in conflict with the state comprehensive plan or appropriate regional policy plan. The term "furthers" means to take action in the direction of realizing goals or policies of the state or regional plan. For the purposes of determining consistency of the local plan with the state comprehensive plan or the appropriate regional policy plan, the state or regional plan~~

HB 7129

2011

2213 ~~shall be construed as a whole and no specific goal and policy~~
2214 ~~shall be construed or applied in isolation from the other goals~~
2215 ~~and policies in the plans.~~

2216 ~~(b) Each local government shall review all the state~~
2217 ~~comprehensive plan goals and policies and shall address in its~~
2218 ~~comprehensive plan the goals and policies which are relevant to~~
2219 ~~the circumstances or conditions in its jurisdiction. The~~
2220 ~~decision regarding which particular state comprehensive plan~~
2221 ~~goals and policies will be furthered by the expenditure of a~~
2222 ~~local government's financial resources in any given year is a~~
2223 ~~decision which rests solely within the discretion of the local~~
2224 ~~government. Intergovernmental coordination, as set forth in~~
2225 ~~paragraph (6) (h), shall be utilized to the extent required to~~
2226 ~~carry out the provisions of chapter 9J-5, Florida Administrative~~
2227 ~~Code.~~

2228 ~~(c) The Legislature declares that if any portion of~~
2229 ~~chapter 9J-5, Florida Administrative Code, is found to be in~~
2230 ~~conflict with this part, the appropriate statutory provision~~
2231 ~~shall prevail.~~

2232 ~~(d) Chapter 9J-5, Florida Administrative Code, does not~~
2233 ~~mandate the creation, limitation, or elimination of regulatory~~
2234 ~~authority, nor does it authorize the adoption or require the~~
2235 ~~repeal of any rules, criteria, or standards of any local,~~
2236 ~~regional, or state agency.~~

2237 ~~(e) It is the Legislature's intent that support data or~~
2238 ~~summaries thereof shall not be subject to the compliance review~~
2239 ~~process, but the Legislature intends that goals and policies be~~
2240 ~~clearly based on appropriate data. The department may utilize~~

HB 7129

2011

~~support data or summaries thereof to aid in its determination of compliance and consistency. The Legislature intends that the department may evaluate the application of a methodology utilized in data collection or whether a particular methodology is professionally accepted. However, the department shall not evaluate whether one accepted methodology is better than another. Chapter 9J-5, Florida Administrative Code, shall not be construed to require original data collection by local governments; however, Local governments are not to be discouraged from utilizing original data so long as methodologies are professionally accepted.~~

~~(f) The Legislature recognizes that under this section, local governments are charged with setting levels of service for public facilities in their comprehensive plans in accordance with which development orders and permits will be issued pursuant to s. 163.3202(2)(g). Nothing herein shall supersede the authority of state, regional, or local agencies as otherwise provided by law.~~

~~(g) Definitions contained in chapter 9J-5, Florida Administrative Code, are not intended to modify or amend the definitions utilized for purposes of other programs or rules or to establish or limit regulatory authority. Local governments may establish alternative definitions in local comprehensive plans, as long as such definitions accomplish the intent of this chapter, and chapter 9J-5, Florida Administrative Code.~~

~~(h) It is the intent of the Legislature that public facilities and services needed to support development shall be available concurrent with the impacts of such development in~~

HB 7129

2011

2269 ~~accordance with s. 163.3180. In meeting this intent, public~~
2270 ~~facility and service availability shall be deemed sufficient if~~
2271 ~~the public facilities and services for a development are phased,~~
2272 ~~or the development is phased, so that the public facilities and~~
2273 ~~those related services which are deemed necessary by the local~~
2274 ~~government to operate the facilities necessitated by that~~
2275 ~~development are available concurrent with the impacts of the~~
2276 ~~development. The public facilities and services, unless already~~
2277 ~~available, are to be consistent with the capital improvements~~
2278 ~~element of the local comprehensive plan as required by paragraph~~
2279 ~~(3)(a) or guaranteed in an enforceable development agreement.~~
2280 ~~This shall include development agreements pursuant to this~~
2281 ~~chapter or in an agreement or a development order issued~~
2282 ~~pursuant to chapter 380. Nothing herein shall be construed to~~
2283 ~~require a local government to address services in its capital~~
2284 ~~improvements plan or to limit a local government's ability to~~
2285 ~~address any service in its capital improvements plan that it~~
2286 ~~deems necessary.~~

2287 ~~(i) The department shall take into account the factors~~
2288 ~~delineated in rule 9J-5.002(2), Florida Administrative Code, as~~
2289 ~~it provides assistance to local governments and applies the rule~~
2290 ~~in specific situations with regard to the detail of the data and~~
2291 ~~analysis required.~~

2292 ~~(j) Chapter 9J-5, Florida Administrative Code, has become~~
2293 ~~effective pursuant to subsection (9). The Legislature hereby~~
2294 ~~directs the department to adopt amendments as necessary which~~
2295 ~~conform chapter 9J-5, Florida Administrative Code, with the~~
2296 ~~requirements of this legislative intent by October 1, 1986.~~

HB 7129

2011

~~(k) In order for local governments to prepare and adopt comprehensive plans with knowledge of the rules that are applied to determine consistency of the plans with this part, there should be no doubt as to the legal standing of chapter 9J-5, Florida Administrative Code, at the close of the 1986 legislative session. Therefore, the Legislature declares that changes made to chapter 9J-5 before October 1, 1986, are not subject to rule challenges under s. 120.56(2), or to drawout proceedings under s. 120.54(3)(c)2. The entire chapter 9J-5, Florida Administrative Code, as amended, is subject to rule challenges under s. 120.56(3), as nothing herein indicates approval or disapproval of any portion of chapter 9J-5 not specifically addressed herein. Any amendments to chapter 9J-5, Florida Administrative Code, exclusive of the amendments adopted prior to October 1, 1986, pursuant to this act, shall be subject to the full chapter 120 process. All amendments shall have effective dates as provided in chapter 120 and submission to the President of the Senate and Speaker of the House of Representatives shall not be required.~~

~~(l) The state land planning agency shall consider land use compatibility issues in the vicinity of all airports in coordination with the Department of Transportation and adjacent to or in close proximity to all military installations in coordination with the Department of Defense.~~

~~(11)(a) The Legislature recognizes the need for innovative planning and development strategies which will address the anticipated demands of continued urbanization of Florida's coastal and other environmentally sensitive areas, and which~~

HB 7129

2011

2325 ~~will accommodate the development of less populated regions of~~
2326 ~~the state which seek economic development and which have~~
2327 ~~suitable land and water resources to accommodate growth in an~~
2328 ~~environmentally acceptable manner. The Legislature further~~
2329 ~~recognizes the substantial advantages of innovative approaches~~
2330 ~~to development which may better serve to protect environmentally~~
2331 ~~sensitive areas, maintain the economic viability of agricultural~~
2332 ~~and other predominantly rural land uses, and provide for the~~
2333 ~~cost-efficient delivery of public facilities and services.~~

2334 ~~(b) It is the intent of the Legislature that the local~~
2335 ~~government comprehensive plans and plan amendments adopted~~
2336 ~~pursuant to the provisions of this part provide for a planning~~
2337 ~~process which allows for land use efficiencies within existing~~
2338 ~~urban areas and which also allows for the conversion of rural~~
2339 ~~lands to other uses, where appropriate and consistent with the~~
2340 ~~other provisions of this part and the affected local~~
2341 ~~comprehensive plans, through the application of innovative and~~
2342 ~~flexible planning and development strategies and creative land~~
2343 ~~use planning techniques, which may include, but not be limited~~
2344 ~~to, urban villages, new towns, satellite communities, area-based~~
2345 ~~allocations, clustering and open space provisions, mixed-use~~
2346 ~~development, and sector planning.~~

2347 ~~(c) It is the further intent of the Legislature that local~~
2348 ~~government comprehensive plans and implementing land development~~
2349 ~~regulations shall provide strategies which maximize the use of~~
2350 ~~existing facilities and services through redevelopment, urban~~
2351 ~~infill development, and other strategies for urban~~
2352 ~~revitalization.~~

HB 7129

2011

~~(d)1. The department, in cooperation with the Department of Agriculture and Consumer Services, the Department of Environmental Protection, water management districts, and regional planning councils, shall provide assistance to local governments in the implementation of this paragraph and rule 9J-5.006(5)(1), Florida Administrative Code. Implementation of those provisions shall include a process by which the department may authorize local governments to designate all or portions of lands classified in the future land use element as predominantly agricultural, rural, open, open-rural, or a substantively equivalent land use, as a rural land stewardship area within which planning and economic incentives are applied to encourage the implementation of innovative and flexible planning and development strategies and creative land use planning techniques, including those contained herein and in rule 9J-5.006(5)(1), Florida Administrative Code. Assistance may include, but is not limited to:~~

~~a. Assistance from the Department of Environmental Protection and water management districts in creating the geographic information systems land cover database and aerial photogrammetry needed to prepare for a rural land stewardship area;~~

~~b. Support for local government implementation of rural land stewardship concepts by providing information and assistance to local governments regarding land acquisition programs that may be used by the local government or landowners to leverage the protection of greater acreage and maximize the effectiveness of rural land stewardship areas; and~~

HB 7129

2011

2381 ~~e. Expansion of the role of the Department of Community~~
2382 ~~Affairs as a resource agency to facilitate establishment of~~
2383 ~~rural land stewardship areas in smaller rural counties that do~~
2384 ~~not have the staff or planning budgets to create a rural land~~
2385 ~~stewardship area.~~

2386 ~~2. The department shall encourage participation by local~~
2387 ~~governments of different sizes and rural characteristics in~~
2388 ~~establishing and implementing rural land stewardship areas. It~~
2389 ~~is the intent of the Legislature that rural land stewardship~~
2390 ~~areas be used to further the following broad principles of rural~~
2391 ~~sustainability: restoration and maintenance of the economic~~
2392 ~~value of rural land; control of urban sprawl; identification and~~
2393 ~~protection of ecosystems, habitats, and natural resources;~~
2394 ~~promotion of rural economic activity; maintenance of the~~
2395 ~~viability of Florida's agricultural economy; and protection of~~
2396 ~~the character of rural areas of Florida. Rural land stewardship~~
2397 ~~areas may be multicounty in order to encourage coordinated~~
2398 ~~regional stewardship planning.~~

2399 ~~3. A local government, in conjunction with a regional~~
2400 ~~planning council, a stakeholder organization of private land~~
2401 ~~owners, or another local government, shall notify the department~~
2402 ~~in writing of its intent to designate a rural land stewardship~~
2403 ~~area. The written notification shall describe the basis for the~~
2404 ~~designation, including the extent to which the rural land~~
2405 ~~stewardship area enhances rural land values, controls urban~~
2406 ~~sprawl, provides necessary open space for agriculture and~~
2407 ~~protection of the natural environment, promotes rural economic~~
2408 ~~activity, and maintains rural character and the economic~~

HB 7129

2011

2409 ~~viability of agriculture.~~

2410 ~~4. A rural land stewardship area shall be not less than~~
2411 ~~10,000 acres and shall be located outside of municipalities and~~
2412 ~~established urban growth boundaries, and shall be designated by~~
2413 ~~plan amendment. The plan amendment designating a rural land~~
2414 ~~stewardship area shall be subject to review by the Department of~~
2415 ~~Community Affairs pursuant to s. 163.3184 and shall provide for~~
2416 ~~the following:~~

2417 ~~a. Criteria for the designation of receiving areas within~~
2418 ~~rural land stewardship areas in which innovative planning and~~
2419 ~~development strategies may be applied. Criteria shall at a~~
2420 ~~minimum provide for the following: adequacy of suitable land to~~
2421 ~~accommodate development so as to avoid conflict with~~
2422 ~~environmentally sensitive areas, resources, and habitats;~~
2423 ~~compatibility between and transition from higher density uses to~~
2424 ~~lower intensity rural uses; the establishment of receiving area~~
2425 ~~service boundaries which provide for a separation between~~
2426 ~~receiving areas and other land uses within the rural land~~
2427 ~~stewardship area through limitations on the extension of~~
2428 ~~services; and connection of receiving areas with the rest of the~~
2429 ~~rural land stewardship area using rural design and rural road~~
2430 ~~corridors.~~

2431 ~~b. Goals, objectives, and policies setting forth the~~
2432 ~~innovative planning and development strategies to be applied~~
2433 ~~within rural land stewardship areas pursuant to the provisions~~
2434 ~~of this section.~~

2435 ~~c. A process for the implementation of innovative planning~~
2436 ~~and development strategies within the rural land stewardship~~

HB 7129

2011

2437 ~~area, including those described in this subsection and rule 9J-~~
2438 ~~5.006(5)(1), Florida Administrative Code, which provide for a~~
2439 ~~functional mix of land uses, including adequate available~~
2440 ~~workforce housing, including low, very low and moderate income~~
2441 ~~housing for the development anticipated in the receiving area~~
2442 ~~and which are applied through the adoption by the local~~
2443 ~~government of zoning and land development regulations applicable~~
2444 ~~to the rural land stewardship area.~~

2445 ~~d. A process which encourages visioning pursuant to s.~~
2446 ~~163.3167(11) to ensure that innovative planning and development~~
2447 ~~strategies comply with the provisions of this section.~~

2448 ~~e. The control of sprawl through the use of innovative~~
2449 ~~strategies and creative land use techniques consistent with the~~
2450 ~~provisions of this subsection and rule 9J-5.006(5)(1), Florida~~
2451 ~~Administrative Code.~~

2452 ~~5. A receiving area shall be designated by the adoption of~~
2453 ~~a land development regulation. Prior to the designation of a~~
2454 ~~receiving area, the local government shall provide the~~
2455 ~~Department of Community Affairs a period of 30 days in which to~~
2456 ~~review a proposed receiving area for consistency with the rural~~
2457 ~~land stewardship area plan amendment and to provide comments to~~
2458 ~~the local government. At the time of designation of a~~
2459 ~~stewardship receiving area, a listed species survey will be~~
2460 ~~performed. If listed species occur on the receiving area site,~~
2461 ~~the developer shall coordinate with each appropriate local,~~
2462 ~~state, or federal agency to determine if adequate provisions~~
2463 ~~have been made to protect those species in accordance with~~
2464 ~~applicable regulations. In determining the adequacy of~~

HB 7129

2011

~~provisions for the protection of listed species and their habitats, the rural land stewardship area shall be considered as a whole, and the impacts to areas to be developed as receiving areas shall be considered together with the environmental benefits of areas protected as sending areas in fulfilling this criteria.~~

~~6. Upon the adoption of a plan amendment creating a rural land stewardship area, the local government shall, by ordinance, establish the methodology for the creation, conveyance, and use of transferable rural land use credits, otherwise referred to as stewardship credits, the application of which shall not constitute a right to develop land, nor increase density of land, except as provided by this section. The total amount of transferable rural land use credits within the rural land stewardship area must enable the realization of the long-term vision and goals for the 25-year or greater projected population of the rural land stewardship area, which may take into consideration the anticipated effect of the proposed receiving areas. Transferable rural land use credits are subject to the following limitations:~~

~~a. Transferable rural land use credits may only exist within a rural land stewardship area.~~

~~b. Transferable rural land use credits may only be used on lands designated as receiving areas and then solely for the purpose of implementing innovative planning and development strategies and creative land use planning techniques adopted by the local government pursuant to this section.~~

~~c. Transferable rural land use credits assigned to a~~

HB 7129

2011

~~parcel of land within a rural land stewardship area shall cease to exist if the parcel of land is removed from the rural land stewardship area by plan amendment.~~

~~d. Neither the creation of the rural land stewardship area by plan amendment nor the assignment of transferable rural land use credits by the local government shall operate to displace the underlying density of land uses assigned to a parcel of land within the rural land stewardship area; however, if transferable rural land use credits are transferred from a parcel for use within a designated receiving area, the underlying density assigned to the parcel of land shall cease to exist.~~

~~e. The underlying density on each parcel of land located within a rural land stewardship area shall not be increased or decreased by the local government, except as a result of the conveyance or use of transferable rural land use credits, as long as the parcel remains within the rural land stewardship area.~~

~~f. Transferable rural land use credits shall cease to exist on a parcel of land where the underlying density assigned to the parcel of land is utilized.~~

~~g. An increase in the density of use on a parcel of land located within a designated receiving area may occur only through the assignment or use of transferable rural land use credits and shall not require a plan amendment.~~

~~h. A change in the density of land use on parcels located within receiving areas shall be specified in a development order which reflects the total number of transferable rural land use credits assigned to the parcel of land and the infrastructure~~

HB 7129

2011

2521 ~~and support services necessary to provide for a functional mix~~
2522 ~~of land uses corresponding to the plan of development.~~

2523 ~~i. Land within a rural land stewardship area may be~~
2524 ~~removed from the rural land stewardship area through a plan~~
2525 ~~amendment.~~

2526 ~~j. Transferable rural land use credits may be assigned at~~
2527 ~~different ratios of credits per acre according to the natural~~
2528 ~~resource or other beneficial use characteristics of the land and~~
2529 ~~according to the land use remaining following the transfer of~~
2530 ~~credits, with the highest number of credits per acre assigned to~~
2531 ~~the most environmentally valuable land or, in locations where~~
2532 ~~the retention of open space and agricultural land is a priority,~~
2533 ~~to such lands.~~

2534 ~~k. The use or conveyance of transferable rural land use~~
2535 ~~credits must be recorded in the public records of the county in~~
2536 ~~which the property is located as a covenant or restrictive~~
2537 ~~easement running with the land in favor of the county and either~~
2538 ~~the Department of Environmental Protection, Department of~~
2539 ~~Agriculture and Consumer Services, a water management district,~~
2540 ~~or a recognized statewide land trust.~~

2541 ~~7. Owners of land within rural land stewardship areas~~
2542 ~~should be provided incentives to enter into rural land~~
2543 ~~stewardship agreements, pursuant to existing law and rules~~
2544 ~~adopted thereto, with state agencies, water management~~
2545 ~~districts, and local governments to achieve mutually agreed upon~~
2546 ~~conservation objectives. Such incentives may include, but not be~~
2547 ~~limited to, the following:~~

2548 ~~a. Opportunity to accumulate transferable mitigation~~

HB 7129

2011

2549 ~~credits.~~

2550 ~~b. Extended permit agreements.~~

2551 ~~c. Opportunities for recreational leases and ecotourism.~~

2552 ~~d. Payment for specified land management services on~~
2553 ~~publicly owned land, or property under covenant or restricted~~
2554 ~~easement in favor of a public entity.~~

2555 ~~e. Option agreements for sale to public entities or~~
2556 ~~private land conservation entities, in either fee or easement,~~
2557 ~~upon achievement of conservation objectives.~~

2558 ~~8. The department shall report to the Legislature on an~~
2559 ~~annual basis on the results of implementation of rural land~~
2560 ~~stewardship areas authorized by the department, including~~
2561 ~~successes and failures in achieving the intent of the~~
2562 ~~Legislature as expressed in this paragraph.~~

2563 ~~(c) The Legislature finds that mixed-use, high-density~~
2564 ~~development is appropriate for urban infill and redevelopment~~
2565 ~~areas. Mixed-use projects accommodate a variety of uses,~~
2566 ~~including residential and commercial, and usually at higher~~
2567 ~~densities that promote pedestrian-friendly, sustainable~~
2568 ~~communities. The Legislature recognizes that mixed-use, high-~~
2569 ~~density development improves the quality of life for residents~~
2570 ~~and businesses in urban areas. The Legislature finds that mixed-~~
2571 ~~use, high-density redevelopment and infill benefits residents by~~
2572 ~~creating a livable community with alternative modes of~~
2573 ~~transportation. Furthermore, the Legislature finds that local~~
2574 ~~zoning ordinances often discourage mixed-use, high-density~~
2575 ~~development in areas that are appropriate for urban infill and~~
2576 ~~redevelopment. The Legislature intends to discourage single-use~~

HB 7129

2011

2577 ~~zoning in urban areas which often leads to lower density, land-~~
2578 ~~intensive development outside an urban service area. Therefore,~~
2579 ~~the Department of Community Affairs shall provide technical~~
2580 ~~assistance to local governments in order to encourage mixed-use,~~
2581 ~~high-density urban infill and redevelopment projects.~~

2582 ~~(f) The Legislature finds that a program for the transfer~~
2583 ~~of development rights is a useful tool to preserve historic~~
2584 ~~buildings and create public open spaces in urban areas. A~~
2585 ~~program for the transfer of development rights allows the~~
2586 ~~transfer of density credits from historic properties and public~~
2587 ~~open spaces to areas designated for high-density development.~~
2588 ~~The Legislature recognizes that high-density development is~~
2589 ~~integral to the success of many urban infill and redevelopment~~
2590 ~~projects. The Legislature intends to encourage high-density~~
2591 ~~urban infill and redevelopment while preserving historic~~
2592 ~~structures and open spaces. Therefore, the Department of~~
2593 ~~Community Affairs shall provide technical assistance to local~~
2594 ~~governments in order to promote the transfer of development~~
2595 ~~rights within urban areas for high-density infill and~~
2596 ~~redevelopment projects.~~

2597 ~~(g) The implementation of this subsection shall be subject~~
2598 ~~to the provisions of this chapter, chapters 186 and 187, and~~
2599 ~~applicable agency rules.~~

2600 ~~(h) The department may adopt rules necessary to implement~~
2601 ~~the provisions of this subsection.~~

2602 ~~(12) A public school facilities element adopted to~~
2603 ~~implement a school concurrency program shall meet the~~
2604 ~~requirements of this subsection. Each county and each~~

HB 7129

2011

2605 ~~municipality within the county, unless exempt or subject to a~~
2606 ~~waiver, must adopt a public school facilities element that is~~
2607 ~~consistent with those adopted by the other local governments~~
2608 ~~within the county and enter the interlocal agreement pursuant to~~
2609 ~~s. 163.31777.~~

2610 ~~(a) The state land planning agency may provide a waiver to~~
2611 ~~a county and to the municipalities within the county if the~~
2612 ~~capacity rate for all schools within the school district is no~~
2613 ~~greater than 100 percent and the projected 5-year capital outlay~~
2614 ~~full-time equivalent student growth rate is less than 10~~
2615 ~~percent. The state land planning agency may allow for a~~
2616 ~~projected 5-year capital outlay full-time equivalent student~~
2617 ~~growth rate to exceed 10 percent when the projected 10-year~~
2618 ~~capital outlay full-time equivalent student enrollment is less~~
2619 ~~than 2,000 students and the capacity rate for all schools within~~
2620 ~~the school district in the tenth year will not exceed the 100-~~
2621 ~~percent limitation. The state land planning agency may allow for~~
2622 ~~a single school to exceed the 100-percent limitation if it can~~
2623 ~~be demonstrated that the capacity rate for that single school is~~
2624 ~~not greater than 105 percent. In making this determination, the~~
2625 ~~state land planning agency shall consider the following~~
2626 ~~criteria:~~

2627 ~~1. Whether the exceedance is due to temporary~~
2628 ~~circumstances;~~

2629 ~~2. Whether the projected 5-year capital outlay full time~~
2630 ~~equivalent student growth rate for the school district is~~
2631 ~~approaching the 10 percent threshold;~~

2632 ~~3. Whether one or more additional schools within the~~

HB 7129

2011

~~school district are at or approaching the 100 percent threshold;~~
~~and~~

~~4. The adequacy of the data and analysis submitted to
support the waiver request.~~

~~(b) A municipality in a nonexempt county is exempt if the
municipality meets all of the following criteria for having no
significant impact on school attendance:~~

~~1. The municipality has issued development orders for
fewer than 50 residential dwelling units during the preceding 5
years, or the municipality has generated fewer than 25
additional public school students during the preceding 5 years.~~

~~2. The municipality has not annexed new land during the
preceding 5 years in land use categories that permit residential
uses that will affect school attendance rates.~~

~~3. The municipality has no public schools located within
its boundaries.~~

~~(c) A public school facilities element shall be based upon
data and analyses that address, among other items, how level-of-
service standards will be achieved and maintained. Such data and
analyses must include, at a minimum, such items as: the
interlocal agreement adopted pursuant to s. 163.31777 and the 5-
year school district facilities work program adopted pursuant to
s. 1013.35; the educational plant survey prepared pursuant to s.
1013.31 and an existing educational and ancillary plant map or
map series; information on existing development and development
anticipated for the next 5 years and the long-term planning
period; an analysis of problems and opportunities for existing
schools and schools anticipated in the future; an analysis of~~

HB 7129

2011

~~opportunities to collocate future schools with other public facilities such as parks, libraries, and community centers; an analysis of the need for supporting public facilities for existing and future schools; an analysis of opportunities to locate schools to serve as community focal points; projected future population and associated demographics, including development patterns year by year for the upcoming 5-year and long-term planning periods; and anticipated educational and ancillary plants with land area requirements.~~

~~(d) The element shall contain one or more goals which establish the long-term end toward which public school programs and activities are ultimately directed.~~

~~(e) The element shall contain one or more objectives for each goal, setting specific, measurable, intermediate ends that are achievable and mark progress toward the goal.~~

~~(f) The element shall contain one or more policies for each objective which establish the way in which programs and activities will be conducted to achieve an identified goal.~~

~~(g) The objectives and policies shall address items such as:~~

- ~~1. The procedure for an annual update process;~~
- ~~2. The procedure for school site selection;~~
- ~~3. The procedure for school permitting;~~
- ~~4. Provision for infrastructure necessary to support proposed schools, including potable water, wastewater, drainage, solid waste, transportation, and means by which to assure safe access to schools, including sidewalks, bicycle paths, turn lanes, and signalization;~~

HB 7129

2011

~~5. Provision for colocation of other public facilities, such as parks, libraries, and community centers, in proximity to public schools;~~

~~6. Provision for location of schools proximate to residential areas and to complement patterns of development, including the location of future school sites so they serve as community focal points;~~

~~7. Measures to ensure compatibility of school sites and surrounding land uses;~~

~~8. Coordination with adjacent local governments and the school district on emergency preparedness issues, including the use of public schools to serve as emergency shelters; and~~

~~9. Coordination with the future land use element.~~

~~(h) The element shall include one or more future conditions maps which depict the anticipated location of educational and ancillary plants, including the general location of improvements to existing schools or new schools anticipated over the 5-year or long-term planning period. The maps will of necessity be general for the long-term planning period and more specific for the 5-year period. Maps indicating general locations of future schools or school improvements may not prescribe a land use on a particular parcel of land.~~

~~(i) The state land planning agency shall establish a phased schedule for adoption of the public school facilities element and the required updates to the public schools interlocal agreement pursuant to s. 163.31777. The schedule shall provide for each county and local government within the county to adopt the element and update to the agreement no later~~

HB 7129

2011

2717 ~~than December 1, 2008. Plan amendments to adopt a public school~~
2718 ~~facilities element are exempt from the provisions of s.~~
2719 ~~163.3187(1).~~

2720 ~~(j) The state land planning agency may issue a notice to~~
2721 ~~the school board and the local government to show cause why~~
2722 ~~sanctions should not be enforced for failure to enter into an~~
2723 ~~approved interlocal agreement as required by s. 163.31777 or for~~
2724 ~~failure to implement provisions relating to public school~~
2725 ~~concurrency. If the state land planning agency finds that~~
2726 ~~insufficient cause exists for the school board's or local~~
2727 ~~government's failure to enter into an approved interlocal~~
2728 ~~agreement as required by s. 163.31777 or for the school board's~~
2729 ~~or local government's failure to implement the provisions~~
2730 ~~relating to public school concurrency, the state land planning~~
2731 ~~agency shall submit its finding to the Administration Commission~~
2732 ~~which may impose on the local government any of the sanctions~~
2733 ~~set forth in s. 163.3184(11)(a) and (b) and may impose on the~~
2734 ~~district school board any of the sanctions set forth in s.~~
2735 ~~1008.32(4).~~

2736 ~~(13) Local governments are encouraged to develop a~~
2737 ~~community vision that provides for sustainable growth,~~
2738 ~~recognizes its fiscal constraints, and protects its natural~~
2739 ~~resources. At the request of a local government, the applicable~~
2740 ~~regional planning council shall provide assistance in the~~
2741 ~~development of a community vision.~~

2742 ~~(a) As part of the process of developing a community~~
2743 ~~vision under this section, the local government must hold two~~
2744 ~~public meetings with at least one of those meetings before the~~

HB 7129

2011

~~local planning agency. Before those public meetings, the local government must hold at least one public workshop with stakeholder groups such as neighborhood associations, community organizations, businesses, private property owners, housing and development interests, and environmental organizations.~~

~~(b) The local government must, at a minimum, discuss five of the following topics as part of the workshops and public meetings required under paragraph (a):~~

~~1. Future growth in the area using population forecasts from the Bureau of Economic and Business Research;~~

~~2. Priorities for economic development;~~

~~3. Preservation of open space, environmentally sensitive lands, and agricultural lands;~~

~~4. Appropriate areas and standards for mixed-use development;~~

~~5. Appropriate areas and standards for high-density commercial and residential development;~~

~~6. Appropriate areas and standards for economic development opportunities and employment centers;~~

~~7. Provisions for adequate workforce housing;~~

~~8. An efficient, interconnected multimodal transportation system; and~~

~~9. Opportunities to create land use patterns that accommodate the issues listed in subparagraphs 1.-8.~~

~~(c) As part of the workshops and public meetings, the local government must discuss strategies for addressing the topics discussed under paragraph (b), including:~~

~~1. Strategies to preserve open space and environmentally~~

HB 7129

2011

~~sensitive lands, and to encourage a healthy agricultural economy, including innovative planning and development strategies, such as the transfer of development rights;~~

~~2. Incentives for mixed-use development, including increased height and intensity standards for buildings that provide residential use in combination with office or commercial space;~~

~~3. Incentives for workforce housing;~~

~~4. Designation of an urban service boundary pursuant to subsection (2); and~~

~~5. Strategies to provide mobility within the community and to protect the Strategic Intermodal System, including the development of a transportation corridor management plan under s. 337.273.~~

~~(d) The community vision must reflect the community's shared concept for growth and development of the community, including visual representations depicting the desired land use patterns and character of the community during a 10-year planning timeframe. The community vision must also take into consideration economic viability of the vision and private property interests.~~

~~(e) After the workshops and public meetings required under paragraph (a) are held, the local government may amend its comprehensive plan to include the community vision as a component in the plan. This plan amendment must be transmitted and adopted pursuant to the procedures in ss. 163.3184 and 163.3189 at public hearings of the governing body other than those identified in paragraph (a).~~

HB 7129

2011

~~(f) Amendments submitted under this subsection are exempt from the limitation on the frequency of plan amendments in s. 163.3187.~~

~~(g) A local government that has developed a community vision or completed a visioning process after July 1, 2000, and before July 1, 2005, which substantially accomplishes the goals set forth in this subsection and the appropriate goals, policies, or objectives have been adopted as part of the comprehensive plan or reflected in subsequently adopted land development regulations and the plan amendment incorporating the community vision as a component has been found in compliance is eligible for the incentives in s. 163.3184(17).~~

~~(14) Local governments are also encouraged to designate an urban service boundary. This area must be appropriate for compact, contiguous urban development within a 10-year planning timeframe. The urban service area boundary must be identified on the future land use map or map series. The local government shall demonstrate that the land included within the urban service boundary is served or is planned to be served with adequate public facilities and services based on the local government's adopted level of service standards by adopting a 10-year facilities plan in the capital improvements element which is financially feasible. The local government shall demonstrate that the amount of land within the urban service boundary does not exceed the amount of land needed to accommodate the projected population growth at densities consistent with the adopted comprehensive plan within the 10-year planning timeframe.~~

HB 7129

2011

~~(a) As part of the process of establishing an urban service boundary, the local government must hold two public meetings with at least one of those meetings before the local planning agency. Before those public meetings, the local government must hold at least one public workshop with stakeholder groups such as neighborhood associations, community organizations, businesses, private property owners, housing and development interests, and environmental organizations.~~

~~(b)1. After the workshops and public meetings required under paragraph (a) are held, the local government may amend its comprehensive plan to include the urban service boundary. This plan amendment must be transmitted and adopted pursuant to the procedures in ss. 163.3184 and 163.3189 at meetings of the governing body other than those required under paragraph (a).~~

~~2. This subsection does not prohibit new development outside an urban service boundary. However, a local government that establishes an urban service boundary under this subsection is encouraged to require a full-cost-accounting analysis for any new development outside the boundary and to consider the results of that analysis when adopting a plan amendment for property outside the established urban service boundary.~~

~~(c) Amendments submitted under this subsection are exempt from the limitation on the frequency of plan amendments in s. 163.3187.~~

~~(d) A local government that has adopted an urban service boundary before July 1, 2005, which substantially accomplishes the goals set forth in this subsection is not required to comply with paragraph (a) or subparagraph 1. of paragraph (b) in order~~

HB 7129

2011

~~to be eligible for the incentives under s. 163.3184(17). In order to satisfy the provisions of this paragraph, the local government must secure a determination from the state land planning agency that the urban service boundary adopted before July 1, 2005, substantially complies with the criteria of this subsection, based on data and analysis submitted by the local government to support this determination. The determination by the state land planning agency is not subject to administrative challenge.~~

(7) ~~(15)~~ (a) The Legislature finds that:

1. There are a number of rural agricultural industrial centers in the state that process, produce, or aid in the production or distribution of a variety of agriculturally based products, including, but not limited to, fruits, vegetables, timber, and other crops, and juices, paper, and building materials. Rural agricultural industrial centers have a significant amount of existing associated infrastructure that is used for processing, producing, or distributing agricultural products.

2. Such rural agricultural industrial centers are often located within or near communities in which the economy is largely dependent upon agriculture and agriculturally based products. The centers significantly enhance the economy of such communities. However, these agriculturally based communities are often socioeconomically challenged and designated as rural areas of critical economic concern. If such rural agricultural industrial centers are lost and not replaced with other job-creating enterprises, the agriculturally based communities will

HB 7129

2011

lose a substantial amount of their economies.

3. The state has a compelling interest in preserving the viability of agriculture and protecting rural agricultural communities and the state from the economic upheaval that would result from short-term or long-term adverse changes in the agricultural economy. To protect these communities and promote viable agriculture for the long term, it is essential to encourage and permit diversification of existing rural agricultural industrial centers by providing for jobs that are not solely dependent upon, but are compatible with and complement, existing agricultural industrial operations and to encourage the creation and expansion of industries that use agricultural products in innovative ways. However, the expansion and diversification of these existing centers must be accomplished in a manner that does not promote urban sprawl into surrounding agricultural and rural areas.

(b) As used in this subsection, the term "rural agricultural industrial center" means a developed parcel of land in an unincorporated area on which there exists an operating agricultural industrial facility or facilities that employ at least 200 full-time employees in the aggregate and process and prepare for transport a farm product, as defined in s. 163.3162, or any biomass material that could be used, directly or indirectly, for the production of fuel, renewable energy, bioenergy, or alternative fuel as defined by law. The center may also include land contiguous to the facility site which is not used for the cultivation of crops, but on which other existing activities essential to the operation of such facility or

HB 7129

2011

2913 facilities are located or conducted. The parcel of land must be
2914 located within, or within 10 miles of, a rural area of critical
2915 economic concern.

2916 (c)1. A landowner whose land is located within a rural
2917 agricultural industrial center may apply for an amendment to the
2918 local government comprehensive plan for the purpose of
2919 designating and expanding the existing agricultural industrial
2920 uses of facilities located within the center or expanding the
2921 existing center to include industrial uses or facilities that
2922 are not dependent upon but are compatible with agriculture and
2923 the existing uses and facilities. A local government
2924 comprehensive plan amendment under this paragraph must:

2925 a. Not increase the physical area of the existing rural
2926 agricultural industrial center by more than 50 percent or 320
2927 acres, whichever is greater.

2928 b. Propose a project that would, upon completion, create
2929 at least 50 new full-time jobs.

2930 c. Demonstrate that sufficient infrastructure capacity
2931 exists or will be provided to support the expanded center at the
2932 level-of-service standards adopted in the local government
2933 comprehensive plan.

2934 d. Contain goals, objectives, and policies that will
2935 ensure that any adverse environmental impacts of the expanded
2936 center will be adequately addressed and mitigation implemented
2937 or demonstrate that the local government comprehensive plan
2938 contains such provisions.

2939 2. Within 6 months after receiving an application as
2940 provided in this paragraph, the local government shall transmit

HB 7129

2011

the application to the state land planning agency for review pursuant to this chapter together with any needed amendments to the applicable sections of its comprehensive plan to include goals, objectives, and policies that provide for the expansion of rural agricultural industrial centers and discourage urban sprawl in the surrounding areas. Such goals, objectives, and policies must promote and be consistent with the findings in this subsection. An amendment that meets the requirements of this subsection is presumed not to be urban sprawl as defined in s. 163.3164 ~~consistent with rule 9J-5.006(5), Florida Administrative Code.~~ This presumption may be rebutted by a preponderance of the evidence.

(d) This subsection does not apply to an optional sector plan adopted pursuant to s. 163.3245, a rural land stewardship area designated pursuant to s. 163.3248 ~~subsection (11)~~, or any comprehensive plan amendment that includes an inland port terminal or affiliated port development.

(e) Nothing in this subsection shall be construed to confer the status of rural area of critical economic concern, or any of the rights or benefits derived from such status, on any land area not otherwise designated as such pursuant to s. 288.0656(7).

Section 12. Section 163.31777, Florida Statutes, is amended to read:

163.31777 Public schools interlocal agreement.—

(1) ~~(a)~~ The county and municipalities located within the geographic area of a school district shall enter into an interlocal agreement with the district school board which

HB 7129

2011

jointly establishes the specific ways in which the plans and processes of the district school board and the local governments are to be coordinated. ~~The interlocal agreements shall be submitted to the state land planning agency and the Office of Educational Facilities in accordance with a schedule published by the state land planning agency.~~

~~(b) The schedule must establish staggered due dates for submission of interlocal agreements that are executed by both the local government and the district school board, commencing on March 1, 2003, and concluding by December 1, 2004, and must set the same date for all governmental entities within a school district. However, if the county where the school district is located contains more than 20 municipalities, the state land planning agency may establish staggered due dates for the submission of interlocal agreements by these municipalities. The schedule must begin with those areas where both the number of districtwide capital outlay full-time equivalent students equals 80 percent or more of the current year's school capacity and the projected 5-year student growth is 1,000 or greater, or where the projected 5-year student growth rate is 10 percent or greater.~~

~~(c) If the student population has declined over the 5-year period preceding the due date for submittal of an interlocal agreement by the local government and the district school board, the local government and the district school board may petition the state land planning agency for a waiver of one or more requirements of subsection (2). The waiver must be granted if the procedures called for in subsection (2) are unnecessary~~

HB 7129

2011

2997 ~~because of the school district's declining school age~~
2998 ~~population, considering the district's 5-year facilities work~~
2999 ~~program prepared pursuant to s. 1013.35. The state land planning~~
3000 ~~agency may modify or revoke the waiver upon a finding that the~~
3001 ~~conditions upon which the waiver was granted no longer exist.~~
3002 ~~The district school board and local governments must submit an~~
3003 ~~interlocal agreement within 1 year after notification by the~~
3004 ~~state land planning agency that the conditions for a waiver no~~
3005 ~~longer exist.~~

3006 ~~(d) Interlocal agreements between local governments and~~
3007 ~~district school boards adopted pursuant to s. 163.3177 before~~
3008 ~~the effective date of this section must be updated and executed~~
3009 ~~pursuant to the requirements of this section, if necessary.~~
3010 ~~Amendments to interlocal agreements adopted pursuant to this~~
3011 ~~section must be submitted to the state land planning agency~~
3012 ~~within 30 days after execution by the parties for review~~
3013 ~~consistent with this section. Local governments and the district~~
3014 ~~school board in each school district are encouraged to adopt a~~
3015 ~~single interlocal agreement to which all join as parties. The~~
3016 ~~state land planning agency shall assemble and make available~~
3017 ~~model interlocal agreements meeting the requirements of this~~
3018 ~~section and notify local governments and, jointly with the~~
3019 ~~Department of Education, the district school boards of the~~
3020 ~~requirements of this section, the dates for compliance, and the~~
3021 ~~sanctions for noncompliance. The state land planning agency~~
3022 ~~shall be available to informally review proposed interlocal~~
3023 ~~agreements. If the state land planning agency has not received a~~
3024 ~~proposed interlocal agreement for informal review, the state~~

HB 7129

2011

~~land planning agency shall, at least 60 days before the deadline for submission of the executed agreement, renotify the local government and the district school board of the upcoming deadline and the potential for sanctions.~~

(2) At a minimum, the interlocal agreement must address ~~interlocal agreement requirements in s. 163.3180(13)(g), except for exempt local governments as provided in s. 163.3177(12), and must address~~ the following issues:

(a) A process by which each local government and the district school board agree and base their plans on consistent projections of the amount, type, and distribution of population growth and student enrollment. The geographic distribution of jurisdiction-wide growth forecasts is a major objective of the process.

(b) A process to coordinate and share information relating to existing and planned public school facilities, including school renovations and closures, and local government plans for development and redevelopment.

(c) Participation by affected local governments with the district school board in the process of evaluating potential school closures, significant renovations to existing schools, and new school site selection before land acquisition. Local governments shall advise the district school board as to the consistency of the proposed closure, renovation, or new site with the local comprehensive plan, including appropriate circumstances and criteria under which a district school board may request an amendment to the comprehensive plan for school siting.

HB 7129

2011

(d) A process for determining the need for and timing of onsite and offsite improvements to support new, proposed expansion, or redevelopment of existing schools. The process must address identification of the party or parties responsible for the improvements.

(e) A process for the school board to inform the local government regarding the effect of comprehensive plan amendments on school capacity. The capacity reporting must be consistent with laws and rules relating to measurement of school facility capacity and must also identify how the district school board will meet the public school demand based on the facilities work program adopted pursuant to s. 1013.35.

(f) Participation of the local governments in the preparation of the annual update to the district school board's 5-year district facilities work program and educational plant survey prepared pursuant to s. 1013.35.

(g) A process for determining where and how joint use of either school board or local government facilities can be shared for mutual benefit and efficiency.

(h) A procedure for the resolution of disputes between the district school board and local governments, which may include the dispute resolution processes contained in chapters 164 and 186.

(i) An oversight process, including an opportunity for public participation, for the implementation of the interlocal agreement.

~~(3)(a) The Office of Educational Facilities shall submit any comments or concerns regarding the executed interlocal~~

HB 7129

2011

~~agreement to the state land planning agency within 30 days after receipt of the executed interlocal agreement. The state land planning agency shall review the executed interlocal agreement to determine whether it is consistent with the requirements of subsection (2), the adopted local government comprehensive plan, and other requirements of law. Within 60 days after receipt of an executed interlocal agreement, the state land planning agency shall publish a notice of intent in the Florida Administrative Weekly and shall post a copy of the notice on the agency's Internet site. The notice of intent must state whether the interlocal agreement is consistent or inconsistent with the requirements of subsection (2) and this subsection, as appropriate.~~

~~(b) The state land planning agency's notice is subject to challenge under chapter 120; however, an affected person, as defined in s. 163.3184(1)(a), has standing to initiate the administrative proceeding, and this proceeding is the sole means available to challenge the consistency of an interlocal agreement required by this section with the criteria contained in subsection (2) and this subsection. In order to have standing, each person must have submitted oral or written comments, recommendations, or objections to the local government or the school board before the adoption of the interlocal agreement by the school board and local government. The district school board and local governments are parties to any such proceeding. In this proceeding, when the state land planning agency finds the interlocal agreement to be consistent with the criteria in subsection (2) and this subsection, the interlocal~~

HB 7129

2011

3109 ~~agreement shall be determined to be consistent with subsection~~
3110 ~~(2) and this subsection if the local government's and school~~
3111 ~~board's determination of consistency is fairly debatable. When~~
3112 ~~the state planning agency finds the interlocal agreement to be~~
3113 ~~inconsistent with the requirements of subsection (2) and this~~
3114 ~~subsection, the local government's and school board's~~
3115 ~~determination of consistency shall be sustained unless it is~~
3116 ~~shown by a preponderance of the evidence that the interlocal~~
3117 ~~agreement is inconsistent.~~

3118 ~~(c) If the state land planning agency enters a final order~~
3119 ~~that finds that the interlocal agreement is inconsistent with~~
3120 ~~the requirements of subsection (2) or this subsection, it shall~~
3121 ~~forward it to the Administration Commission, which may impose~~
3122 ~~sanctions against the local government pursuant to s.~~
3123 ~~163.3184(11) and may impose sanctions against the district~~
3124 ~~school board by directing the Department of Education to~~
3125 ~~withhold from the district school board an equivalent amount of~~
3126 ~~funds for school construction available pursuant to ss. 1013.65,~~
3127 ~~1013.68, 1013.70, and 1013.72.~~

3128 ~~(4) If an executed interlocal agreement is not timely~~
3129 ~~submitted to the state land planning agency for review, the~~
3130 ~~state land planning agency shall, within 15 working days after~~
3131 ~~the deadline for submittal, issue to the local government and~~
3132 ~~the district school board a Notice to Show Cause why sanctions~~
3133 ~~should not be imposed for failure to submit an executed~~
3134 ~~interlocal agreement by the deadline established by the agency.~~
3135 ~~The agency shall forward the notice and the responses to the~~
3136 ~~Administration Commission, which may enter a final order citing~~

HB 7129

2011

~~the failure to comply and imposing sanctions against the local government and district school board by directing the appropriate agencies to withhold at least 5 percent of state funds pursuant to s. 163.3184(11) and by directing the Department of Education to withhold from the district school board at least 5 percent of funds for school construction available pursuant to ss. 1013.65, 1013.68, 1013.70, and 1013.72.~~

~~(5) Any local government transmitting a public school element to implement school concurrency pursuant to the requirements of s. 163.3180 before the effective date of this section is not required to amend the element or any interlocal agreement to conform with the provisions of this section if the element is adopted prior to or within 1 year after the effective date of this section and remains in effect until the county conducts its evaluation and appraisal report and identifies changes necessary to more fully conform to the provisions of this section.~~

~~(6) Except as provided in subsection (7), municipalities meeting the exemption criteria in s. 163.3177(12) are exempt from the requirements of subsections (1), (2), and (3).~~

~~(7) At the time of the evaluation and appraisal report, each exempt municipality shall assess the extent to which it continues to meet the criteria for exemption under s. 163.3177(12). If the municipality continues to meet these criteria, the municipality shall continue to be exempt from the interlocal agreement requirement. Each municipality exempt under s. 163.3177(12) must comply with the provisions of this section~~

2011

3165 ~~within 1 year after the district school board proposes, in its~~
3166 ~~5-year district facilities work program, a new school within the~~

3168 Section 13. Subsection (9) of section 163.3178, Florida
3169 Statutes, is amended to read:

3170 163.3178 Coastal management.—

3171 (9) (a) ~~Local governments may elect to comply with rule 9J-~~
3172 ~~5.012(3)(b)6. and 7., Florida Administrative Code, through the~~
3173 ~~process provided in this section.~~ A proposed comprehensive plan
3174 amendment shall be found in compliance with state coastal high-
3175 hazard provisions ~~pursuant to rule 9J-5.012(3)(b)6. and 7.,~~
3176 ~~Florida Administrative Code, if:~~

3177 1. The adopted level of service for out-of-county
3178 hurricane evacuation is maintained for a category 5 storm event
3179 as measured on the Saffir-Simpson scale; or

3180 2. A 12-hour evacuation time to shelter is maintained for
3181 a category 5 storm event as measured on the Saffir-Simpson scale
3182 and shelter space reasonably expected to accommodate the
3183 residents of the development contemplated by a proposed
3184 comprehensive plan amendment is available; or

3185 3. Appropriate mitigation is provided that will satisfy
3186 the provisions of subparagraph 1. or subparagraph 2. Appropriate
3187 mitigation shall include, without limitation, payment of money,
3188 contribution of land, and construction of hurricane shelters and
3189 transportation facilities. Required mitigation shall not exceed
3190 the amount required for a developer to accommodate impacts
3191 reasonably attributable to development. A local government and a
3192 developer shall enter into a binding agreement to memorialize

HB 7129

2011

the mitigation plan.

(b) For those local governments that have not established a level of service for out-of-county hurricane evacuation by July 1, 2008, ~~but elect to comply with rule 9J-5.012(3)(b)6. and 7., Florida Administrative Code,~~ by following the process in paragraph (a), the level of service shall be no greater than 16 hours for a category 5 storm event as measured on the Saffir-Simpson scale.

(c) This subsection shall become effective immediately and shall apply to all local governments. No later than July 1, 2008, local governments shall amend their future land use map and coastal management element to include the new definition of coastal high-hazard area and to depict the coastal high-hazard area on the future land use map.

Section 14. Section 163.3180, Florida Statutes, is amended to read:

163.3180 Concurrency.—

(1) ~~(a)~~ Sanitary sewer, solid waste, drainage, and potable water, ~~parks and recreation, schools, and transportation facilities, including mass transit, where applicable,~~ are the only public facilities and services subject to the concurrency requirement on a statewide basis. Additional public facilities and services may not be made subject to concurrency on a statewide basis without ~~appropriate study and~~ approval by the Legislature; however, any local government may extend the concurrency requirement so that it applies to additional public facilities within its jurisdiction. If concurrency is applied to other public facilities, the local government comprehensive plan

HB 7129

2011

3221 must provide the principles, guidelines, standards, and
3222 strategies, including adopted levels of service, to guide its
3223 application. In order for a local government to rescind any
3224 optional concurrency provisions, a comprehensive plan amendment
3225 is required. An amendment rescinding optional concurrency issues
3226 is not subject to state review. The local government
3227 comprehensive plan must demonstrate, for required or optional
3228 concurrency requirements, that the levels of service adopted can
3229 be reasonably met. Infrastructure needed to ensure that adopted
3230 level-of-service standards are achieved and maintained for the
3231 5-year period of the capital improvement schedule must be
3232 identified pursuant to the requirements of s. 163.3177(3).

3233 ~~(b) Local governments shall use professionally accepted~~
3234 ~~techniques for measuring level of service for automobiles,~~
3235 ~~bicycles, pedestrians, transit, and trucks. These techniques may~~
3236 ~~be used to evaluate increased accessibility by multiple modes~~
3237 ~~and reductions in vehicle miles of travel in an area or zone.~~
3238 ~~The Department of Transportation shall develop methodologies to~~
3239 ~~assist local governments in implementing this multimodal level-~~
3240 ~~of-service analysis. The Department of Community Affairs and the~~
3241 ~~Department of Transportation shall provide technical assistance~~
3242 ~~to local governments in applying these methodologies.~~

3243 (2)(a) Consistent with public health and safety, sanitary
3244 sewer, solid waste, drainage, adequate water supplies, and
3245 potable water facilities shall be in place and available to
3246 serve new development no later than the issuance by the local
3247 government of a certificate of occupancy or its functional
3248 equivalent. Prior to approval of a building permit or its

HB 7129

2011

functional equivalent, the local government shall consult with the applicable water supplier to determine whether adequate water supplies to serve the new development will be available no later than the anticipated date of issuance by the local government of a certificate of occupancy or its functional equivalent. A local government may meet the concurrency requirement for sanitary sewer through the use of onsite sewage treatment and disposal systems approved by the Department of Health to serve new development.

~~(b) Consistent with the public welfare, and except as otherwise provided in this section, parks and recreation facilities to serve new development shall be in place or under actual construction no later than 1 year after issuance by the local government of a certificate of occupancy or its functional equivalent. However, the acreage for such facilities shall be dedicated or be acquired by the local government prior to issuance by the local government of a certificate of occupancy or its functional equivalent, or funds in the amount of the developer's fair share shall be committed no later than the local government's approval to commence construction.~~

~~(c) Consistent with the public welfare, and except as otherwise provided in this section, transportation facilities needed to serve new development shall be in place or under actual construction within 3 years after the local government approves a building permit or its functional equivalent that results in traffic generation.~~

(3) Governmental entities that are not responsible for providing, financing, operating, or regulating public facilities

HB 7129

2011

3277 needed to serve development may not establish binding level-of-
3278 service standards on governmental entities that do bear those
3279 responsibilities. ~~This subsection does not limit the authority~~
3280 ~~of any agency to recommend or make objections, recommendations,~~
3281 ~~comments, or determinations during reviews conducted under s.~~
3282 ~~163.3184.~~

3283 (4)(a) The concurrency requirement as implemented in local
3284 comprehensive plans applies to state and other public facilities
3285 and development to the same extent that it applies to all other
3286 facilities and development, as provided by law.

3287 ~~(b) The concurrency requirement as implemented in local~~
3288 ~~comprehensive plans does not apply to public transit facilities.~~
3289 ~~For the purposes of this paragraph, public transit facilities~~
3290 ~~include transit stations and terminals; transit station parking;~~
3291 ~~park and ride lots; intermodal public transit connection or~~
3292 ~~transfer facilities; fixed bus, guideway, and rail stations; and~~
3293 ~~airport passenger terminals and concourses, air cargo~~
3294 ~~facilities, and hangars for the assembly, manufacture,~~
3295 ~~maintenance, or storage of aircraft. As used in this paragraph,~~
3296 ~~the terms "terminals" and "transit facilities" do not include~~
3297 ~~seaports or commercial or residential development constructed in~~
3298 ~~conjunction with a public transit facility.~~

3299 ~~(c) The concurrency requirement, except as it relates to~~
3300 ~~transportation facilities and public schools, as implemented in~~
3301 ~~local government comprehensive plans, may be waived by a local~~
3302 ~~government for urban infill and redevelopment areas designated~~
3303 ~~pursuant to s. 163.2517 if such a waiver does not endanger~~
3304 ~~public health or safety as defined by the local government in~~

HB 7129

2011

~~its local government comprehensive plan. The waiver shall be adopted as a plan amendment pursuant to the process set forth in s. 163.3187(3)(a). A local government may grant a concurrency exception pursuant to subsection (5) for transportation facilities located within these urban infill and redevelopment areas.~~

(5)(a) If concurrency is applied to transportation facilities, the local government comprehensive plan must provide the principles, guidelines, standards, and strategies, including adopted levels of service to guide its application.

(b) Local governments shall use professionally accepted studies to determine appropriate levels of service, which shall be based on a schedule of facilities that will be necessary to meet level of service demands reflected in the capital improvement element.

(c) Local governments shall use professionally accepted techniques for measuring levels of service when evaluating potential impacts of a proposed development.

(d) The premise of concurrency is that the public facilities will be provided in order to achieve and maintain the adopted level of service standard. A comprehensive plan that imposes transportation concurrency shall contain appropriate amendments to the capital improvements element of the comprehensive plan, consistent with the requirements of s. 163.3177(3). The capital improvements element shall identify facilities necessary to meet adopted levels of service during a 5-year period.

(e) If a local government applies transportation

HB 7129

2011

concurrency in its jurisdiction, it is encouraged to develop policy guidelines and techniques to address potential negative impacts on future development:

1. In urban infill and redevelopment, and urban service areas.

2. With special part-time demands on the transportation system.

3. With de minimis impacts.

4. On community desired types of development, such as redevelopment, or job creation projects.

(f) Local governments are encouraged to develop tools and techniques to complement the application of transportation concurrency such as:

1. Adoption of long-term strategies to facilitate development patterns that support multimodal solutions, including urban design, and appropriate land use mixes, including intensity and density.

2. Adoption of an areawide level of service not dependent on any single road segment function.

3. Exempting or discounting impacts of locally desired development, such as development in urban areas, redevelopment, job creation, and mixed use on the transportation system.

4. Assigning secondary priority to vehicle mobility and primary priority to ensuring a safe, comfortable, and attractive pedestrian environment, with convenient interconnection to transit.

5. Establishing multimodal level of service standards that rely primarily on nonvehicular modes of transportation where

HB 7129

2011

existing or planned community design will provide adequate level of mobility.

6. Reducing impact fees or local access fees to promote development within urban areas, multimodal transportation districts, and a balance of mixed use development in certain areas or districts, or for affordable or workforce housing.

(g) Local governments are encouraged to coordinate with adjacent local governments for the purpose of using common methodologies for measuring impacts on transportation facilities.

(h) Local governments that implement transportation concurrency must:

1. Consult with the Department of Transportation when proposed plan amendments affect facilities on the strategic intermodal system.

2. Exempt public transit facilities from concurrency. For the purposes of this subparagraph, public transit facilities include transit stations and terminals; transit station parking; park-and-ride lots; intermodal public transit connection or transfer facilities; fixed bus, guideway, and rail stations; and airport passenger terminals and concourses, air cargo facilities, and hangars for the assembly, manufacture, maintenance, or storage of aircraft. As used in this subparagraph, the terms "terminals" and "transit facilities" do not include seaports or commercial or residential development constructed in conjunction with a public transit facility.

3. Allow an applicant for a development of regional impact development order, a rezoning, or other land use development

HB 7129

2011

3389 permit to satisfy the transportation concurrency requirements of
3390 the local comprehensive plan, the local government's concurrency
3391 management system, and s. 380.06, when applicable, if:

3392 a. The applicant enters into a binding agreement to pay
3393 for or construct its proportionate share of required
3394 improvements.

3395 b. The proportionate share contribution or construction is
3396 sufficient to accomplish one or more mobility improvements that
3397 will benefit a regionally significant transportation facility.

3398 c. The local government has provided a means by which the
3399 landowner will be assessed a proportionate share of the cost of
3400 providing the transportation facilities necessary to serve the
3401 proposed development.

3402
3403 When an applicant contributes or constructs its proportionate
3404 share, pursuant to this subparagraph, a local government may not
3405 require payment or construction of transportation facilities
3406 whose costs would be greater than a development's proportionate
3407 share of the improvements necessary to mitigate the
3408 development's impacts. The proportionate share contribution
3409 shall be calculated based upon the number of trips from the
3410 proposed development expected to reach roadways during the peak
3411 hour from the stage or phase being approved, divided by the
3412 change in the peak hour maximum service volume of roadways
3413 resulting from construction of an improvement necessary to
3414 maintain or achieve the adopted level of service, multiplied by
3415 the construction cost, at the time of development payment, of
3416 the improvement necessary to maintain or achieve the adopted

HB 7129

2011

level of service. When the provisions of this paragraph have
been satisfied for a particular stage or phase of development,
all transportation impacts from that stage or phase shall be
deemed fully mitigated in any cumulative transportation analysis
for a subsequent stage or phase of development. In projecting
the number of trips to be generated by the development under
review, any trips assigned to a toll-financed facility shall be
eliminated from the analysis. The applicant is not responsible
for the cost of reducing or eliminating deficits that exist
prior to the filing of the application and shall receive a
credit on a dollar-for-dollar basis for transportation impact
fees payable in the future for the project. This subparagraph
does not require a local government to approve a development
that is not otherwise qualified for approval pursuant to the
applicable local comprehensive plan and land development
regulations.

~~(a) The Legislature finds that under limited~~
~~circumstances, countervailing planning and public policy goals~~
~~may come into conflict with the requirement that adequate public~~
~~transportation facilities and services be available concurrent~~
~~with the impacts of such development. The Legislature further~~
~~finds that the unintended result of the concurrency requirement~~
~~for transportation facilities is often the discouragement of~~
~~urban infill development and redevelopment. Such unintended~~
~~results directly conflict with the goals and policies of the~~
~~state comprehensive plan and the intent of this part. The~~
~~Legislature also finds that in urban centers transportation~~
~~cannot be effectively managed and mobility cannot be improved~~

HB 7129

2011

~~solely through the expansion of roadway capacity, that the expansion of roadway capacity is not always physically or financially possible, and that a range of transportation alternatives is essential to satisfy mobility needs, reduce congestion, and achieve healthy, vibrant centers.~~

~~(b)1. The following are transportation concurrency exception areas:~~

~~a. A municipality that qualifies as a dense urban land area under s. 163.3164;~~

~~b. An urban service area under s. 163.3164 that has been adopted into the local comprehensive plan and is located within a county that qualifies as a dense urban land area under s. 163.3164; and~~

~~c. A county, including the municipalities located therein, which has a population of at least 900,000 and qualifies as a dense urban land area under s. 163.3164, but does not have an urban service area designated in the local comprehensive plan.~~

~~2. A municipality that does not qualify as a dense urban land area pursuant to s. 163.3164 may designate in its local comprehensive plan the following areas as transportation concurrency exception areas:~~

~~a. Urban infill as defined in s. 163.3164;~~

~~b. Community redevelopment areas as defined in s. 163.340;~~

~~c. Downtown revitalization areas as defined in s. 163.3164;~~

~~d. Urban infill and redevelopment under s. 163.2517; or~~

~~e. Urban service areas as defined in s. 163.3164 or areas within a designated urban service boundary under s.~~

HB 7129

2011

~~163.3177(14).~~

~~3. A county that does not qualify as a dense urban land area pursuant to s. 163.3164 may designate in its local comprehensive plan the following areas as transportation concurrency exception areas:~~

~~a. Urban infill as defined in s. 163.3164;~~

~~b. Urban infill and redevelopment under s. 163.2517; or~~

~~c. Urban service areas as defined in s. 163.3164.~~

~~4. A local government that has a transportation concurrency exception area designated pursuant to subparagraph 1., subparagraph 2., or subparagraph 3. shall, within 2 years after the designated area becomes exempt, adopt into its local comprehensive plan land use and transportation strategies to support and fund mobility within the exception area, including alternative modes of transportation. Local governments are encouraged to adopt complementary land use and transportation strategies that reflect the region's shared vision for its future. If the state land planning agency finds insufficient cause for the failure to adopt into its comprehensive plan land use and transportation strategies to support and fund mobility within the designated exception area after 2 years, it shall submit the finding to the Administration Commission, which may impose any of the sanctions set forth in s. 163.3184(11)(a) and (b) against the local government.~~

~~5. Transportation concurrency exception areas designated pursuant to subparagraph 1., subparagraph 2., or subparagraph 3. do not apply to designated transportation concurrency districts located within a county that has a population of at least 1.5~~

HB 7129

2011

3501 million, has implemented and uses a transportation-related
3502 concurrency assessment to support alternative modes of
3503 transportation, including, but not limited to, mass transit, and
3504 does not levy transportation impact fees within the concurrency
3505 district.

3506 ~~6. Transportation concurrency exception areas designated~~
3507 ~~under subparagraph 1., subparagraph 2., or subparagraph 3. do~~
3508 ~~not apply in any county that has exempted more than 40 percent~~
3509 ~~of the area inside the urban service area from transportation~~
3510 ~~concurrency for the purpose of urban infill.~~

3511 ~~7. A local government that does not have a transportation~~
3512 ~~concurrency exception area designated pursuant to subparagraph~~
3513 ~~1., subparagraph 2., or subparagraph 3. may grant an exception~~
3514 ~~from the concurrency requirement for transportation facilities~~
3515 ~~if the proposed development is otherwise consistent with the~~
3516 ~~adopted local government comprehensive plan and is a project~~
3517 ~~that promotes public transportation or is located within an area~~
3518 ~~designated in the comprehensive plan for:~~

3519 ~~a. Urban infill development;~~
3520 ~~b. Urban redevelopment;~~
3521 ~~c. Downtown revitalization;~~
3522 ~~d. Urban infill and redevelopment under s. 163.2517; or~~
3523 ~~e. An urban service area specifically designated as a~~
3524 ~~transportation concurrency exception area which includes lands~~
3525 ~~appropriate for compact, contiguous urban development, which~~
3526 ~~does not exceed the amount of land needed to accommodate the~~
3527 ~~projected population growth at densities consistent with the~~
3528 ~~adopted comprehensive plan within the 10-year planning period,~~

HB 7129

2011

and which is served or is planned to be served with public facilities and services as provided by the capital improvements element.

~~(c) The Legislature also finds that developments located within urban infill, urban redevelopment, urban service, or downtown revitalization areas or areas designated as urban infill and redevelopment areas under s. 163.2517, which pose only special part-time demands on the transportation system, are exempt from the concurrency requirement for transportation facilities. A special part-time demand is one that does not have more than 200 scheduled events during any calendar year and does not affect the 100 highest traffic volume hours.~~

~~(d) Except for transportation concurrency exception areas designated pursuant to subparagraph (b)1., subparagraph (b)2., or subparagraph (b)3., the following requirements apply:~~

~~1. The local government shall both adopt into the comprehensive plan and implement long-term strategies to support and fund mobility within the designated exception area, including alternative modes of transportation. The plan amendment must also demonstrate how strategies will support the purpose of the exception and how mobility within the designated exception area will be provided.~~

~~2. The strategies must address urban design; appropriate land use mixes, including intensity and density; and network connectivity plans needed to promote urban infill, redevelopment, or downtown revitalization. The comprehensive plan amendment designating the concurrency exception area must be accompanied by data and analysis supporting the local~~

HB 7129

2011

~~government's determination of the boundaries of the transportation concurrency exception area.~~

~~(e) Before designating a concurrency exception area pursuant to subparagraph (b)7., the state land planning agency and the Department of Transportation shall be consulted by the local government to assess the impact that the proposed exception area is expected to have on the adopted level of service standards established for regional transportation facilities identified pursuant to s. 186.507, including the Strategic Intermodal System and roadway facilities funded in accordance with s. 339.2819. Further, the local government shall provide a plan for the mitigation of impacts to the Strategic Intermodal System, including, if appropriate, access management, parallel reliever roads, transportation demand management, and other measures.~~

~~(f) The designation of a transportation concurrency exception area does not limit a local government's home rule power to adopt ordinances or impose fees. This subsection does not affect any contract or agreement entered into or development order rendered before the creation of the transportation concurrency exception area except as provided in s. 380.06(29)(c).~~

~~(g) The Office of Program Policy Analysis and Government Accountability shall submit to the President of the Senate and the Speaker of the House of Representatives by February 1, 2015, a report on transportation concurrency exception areas created pursuant to this subsection. At a minimum, the report shall address the methods that local governments have used to~~

HB 7129

2011

~~implement and fund transportation strategies to achieve the purposes of designated transportation concurrency exception areas, and the effects of the strategies on mobility, congestion, urban design, the density and intensity of land use mixes, and network connectivity plans used to promote urban infill, redevelopment, or downtown revitalization.~~

~~(6) The Legislature finds that a de minimis impact is consistent with this part. A de minimis impact is an impact that would not affect more than 1 percent of the maximum volume at the adopted level of service of the affected transportation facility as determined by the local government. No impact will be de minimis if the sum of existing roadway volumes and the projected volumes from approved projects on a transportation facility would exceed 110 percent of the maximum volume at the adopted level of service of the affected transportation facility; provided however, that an impact of a single family home on an existing lot will constitute a de minimis impact on all roadways regardless of the level of the deficiency of the roadway. Further, no impact will be de minimis if it would exceed the adopted level of service standard of any affected designated hurricane evacuation routes. Each local government shall maintain sufficient records to ensure that the 110-percent criterion is not exceeded. Each local government shall submit annually, with its updated capital improvements element, a summary of the de minimis records. If the state land planning agency determines that the 110-percent criterion has been exceeded, the state land planning agency shall notify the local government of the exceedance and that no further de minimis~~

HB 7129

2011

3613 ~~exceptions for the applicable roadway may be granted until such~~
3614 ~~time as the volume is reduced below the 110 percent. The local~~
3615 ~~government shall provide proof of this reduction to the state~~
3616 ~~land planning agency before issuing further de minimis~~
3617 ~~exceptions.~~

3618 ~~(7) In order to promote infill development and~~
3619 ~~redevelopment, one or more transportation concurrency management~~
3620 ~~areas may be designated in a local government comprehensive~~
3621 ~~plan. A transportation concurrency management area must be a~~
3622 ~~compact geographic area with an existing network of roads where~~
3623 ~~multiple, viable alternative travel paths or modes are available~~
3624 ~~for common trips. A local government may establish an areawide~~
3625 ~~level-of-service standard for such a transportation concurrency~~
3626 ~~management area based upon an analysis that provides for a~~
3627 ~~justification for the areawide level of service, how urban~~
3628 ~~infill development or redevelopment will be promoted, and how~~
3629 ~~mobility will be accomplished within the transportation~~
3630 ~~concurrency management area. Prior to the designation of a~~
3631 ~~concurrency management area, the Department of Transportation~~
3632 ~~shall be consulted by the local government to assess the impact~~
3633 ~~that the proposed concurrency management area is expected to~~
3634 ~~have on the adopted level-of-service standards established for~~
3635 ~~Strategic Intermodal System facilities, as defined in s. 339.64,~~
3636 ~~and roadway facilities funded in accordance with s. 339.2819.~~
3637 ~~Further, the local government shall, in cooperation with the~~
3638 ~~Department of Transportation, develop a plan to mitigate any~~
3639 ~~impacts to the Strategic Intermodal System, including, if~~
3640 ~~appropriate, the development of a long-term concurrency~~

HB 7129

2011

management system pursuant to subsection (9) and s.
163.3177(3)(d). Transportation concurrency management areas
existing prior to July 1, 2005, shall meet, at a minimum, the
provisions of this section by July 1, 2006, or at the time of
the comprehensive plan update pursuant to the evaluation and
appraisal report, whichever occurs last. The state land planning
agency shall amend chapter 9J-5, Florida Administrative Code, to
be consistent with this subsection.

~~(8) When assessing the transportation impacts of proposed
urban redevelopment within an established existing urban service
area, 110 percent of the actual transportation impact caused by
the previously existing development must be reserved for the
redevelopment, even if the previously existing development has a
lesser or nonexistent impact pursuant to the calculations of the
local government. Redevelopment requiring less than 110 percent
of the previously existing capacity shall not be prohibited due
to the reduction of transportation levels of service below the
adopted standards. This does not preclude the appropriate
assessment of fees or accounting for the impacts within the
concurrency management system and capital improvements program
of the affected local government. This paragraph does not affect
local government requirements for appropriate development
permits.~~

~~(9)(a) Each local government may adopt as a part of its
plan, long term transportation and school concurrency management
systems with a planning period of up to 10 years for specially
designated districts or areas where significant backlogs exist.
The plan may include interim level of service standards on~~

HB 7129

2011

~~certain facilities and shall rely on the local government's schedule of capital improvements for up to 10 years as a basis for issuing development orders that authorize commencement of construction in these designated districts or areas. The concurrency management system must be designed to correct existing deficiencies and set priorities for addressing backlogged facilities. The concurrency management system must be financially feasible and consistent with other portions of the adopted local plan, including the future land use map.~~

~~(b) If a local government has a transportation or school facility backlog for existing development which cannot be adequately addressed in a 10-year plan, the state land planning agency may allow it to develop a plan and long-term schedule of capital improvements covering up to 15 years for good and sufficient cause, based on a general comparison between that local government and all other similarly situated local jurisdictions, using the following factors:~~

- ~~1. The extent of the backlog.~~
- ~~2. For roads, whether the backlog is on local or state roads.~~
- ~~3. The cost of eliminating the backlog.~~
- ~~4. The local government's tax and other revenue-raising efforts.~~

~~(c) The local government may issue approvals to commence construction notwithstanding this section, consistent with and in areas that are subject to a long-term concurrency management system.~~

~~(d) If the local government adopts a long-term concurrency~~

HB 7129

2011

management system, it must evaluate the system periodically. At a minimum, the local government must assess its progress toward improving levels of service within the long-term concurrency management district or area in the evaluation and appraisal report and determine any changes that are necessary to accelerate progress in meeting acceptable levels of service.

~~(10) Except in transportation concurrency exception areas, with regard to roadway facilities on the Strategic Intermodal System designated in accordance with s. 339.63, local governments shall adopt the level of service standard established by the Department of Transportation by rule. However, if the Office of Tourism, Trade, and Economic Development concurs in writing with the local government that the proposed development is for a qualified job creation project under s. 288.0656 or s. 403.973, the affected local government, after consulting with the Department of Transportation, may provide for a waiver of transportation concurrency for the project. For all other roads on the State Highway System, local governments shall establish an adequate level of service standard that need not be consistent with any level of service standard established by the Department of Transportation. In establishing adequate level of service standards for any arterial roads, or collector roads as appropriate, which traverse multiple jurisdictions, local governments shall consider compatibility with the roadway facility's adopted level of service standards in adjacent jurisdictions. Each local government within a county shall use a professionally accepted methodology for measuring impacts on transportation facilities~~

3731 ~~(11) In order to limit the liability of local governments,~~
3732 ~~a local government may allow a landowner to proceed with~~
3733 ~~development of a specific parcel of land notwithstanding a~~
3734 ~~failure of the development to satisfy transportation~~
3735 ~~concurrency, when all the following factors are shown to exist:~~

3736 ~~(a) The local government with jurisdiction over the~~
3737 ~~property has adopted a local comprehensive plan that is in~~
3738 ~~compliance.~~

3739 ~~(b) The proposed development would be consistent with the~~
3740 ~~future land use designation for the specific property and with~~
3741 ~~pertinent portions of the adopted local plan, as determined by~~
3742 ~~the local government.~~

3743 ~~(c) The local plan includes a financially feasible capital~~
3744 ~~improvements element that provides for transportation facilities~~
3745 ~~adequate to serve the proposed development, and the local~~
3746 ~~government has not implemented that element.~~

3747 ~~(d) The local government has provided a means by which the~~
3748 ~~landowner will be assessed a fair share of the cost of providing~~
3749 ~~the transportation facilities necessary to serve the proposed~~
3750 ~~development.~~

3751 ~~(e) The landowner has made a binding commitment to the~~
3752 ~~local government to pay the fair share of the cost of providing~~

~~the transportation facilities to serve the proposed development.~~

~~(12) (a) A development of regional impact may satisfy the transportation concurrency requirements of the local comprehensive plan, the local government's concurrency management system, and s. 380.06 by payment of a proportionate-share contribution for local and regionally significant traffic impacts, if:~~

~~1. The development of regional impact which, based on its location or mix of land uses, is designed to encourage pedestrian or other nonautomotive modes of transportation;~~

~~2. The proportionate-share contribution for local and regionally significant traffic impacts is sufficient to pay for one or more required mobility improvements that will benefit a regionally significant transportation facility;~~

~~3. The owner and developer of the development of regional impact pays or assures payment of the proportionate-share contribution; and~~

~~4. If the regionally significant transportation facility to be constructed or improved is under the maintenance authority of a governmental entity, as defined by s. 334.03(12), other than the local government with jurisdiction over the development of regional impact, the developer is required to enter into a binding and legally enforceable commitment to transfer funds to the governmental entity having maintenance authority or to otherwise assure construction or improvement of the facility.~~

~~The proportionate-share contribution may be applied to any transportation facility to satisfy the provisions of this~~

HB 7129

2011

3781 ~~subsection and the local comprehensive plan, but, for the~~
3782 ~~purposes of this subsection, the amount of the proportionate-~~
3783 ~~share contribution shall be calculated based upon the cumulative~~
3784 ~~number of trips from the proposed development expected to reach~~
3785 ~~roadways during the peak hour from the complete buildout of a~~
3786 ~~stage or phase being approved, divided by the change in the peak~~
3787 ~~hour maximum service volume of roadways resulting from~~
3788 ~~construction of an improvement necessary to maintain the adopted~~
3789 ~~level of service, multiplied by the construction cost, at the~~
3790 ~~time of developer payment, of the improvement necessary to~~
3791 ~~maintain the adopted level of service. For purposes of this~~
3792 ~~subsection, "construction cost" includes all associated costs of~~
3793 ~~the improvement. Proportionate-share mitigation shall be limited~~
3794 ~~to ensure that a development of regional impact meeting the~~
3795 ~~requirements of this subsection mitigates its impact on the~~
3796 ~~transportation system but is not responsible for the additional~~
3797 ~~cost of reducing or eliminating backlogs. This subsection also~~
3798 ~~applies to Florida Quality Developments pursuant to s. 380.061~~
3799 ~~and to detailed specific area plans implementing optional sector~~
3800 ~~plans pursuant to s. 163.3245.~~

3801 ~~(b) As used in this subsection, the term "backlog" means a~~
3802 ~~facility or facilities on which the adopted level-of-service~~
3803 ~~standard is exceeded by the existing trips, plus additional~~
3804 ~~projected background trips from any source other than the~~
3805 ~~development project under review that are forecast by~~
3806 ~~established traffic standards, including traffic modeling,~~
3807 ~~consistent with the University of Florida Bureau of Economic and~~
3808 ~~Business Research medium population projections. Additional~~

HB 7129

~~projected background trips are to be coincident with the particular stage or phase of development under review.~~

~~(13) School concurrency shall be established on a districtwide basis and shall include all public schools in the district and all portions of the district, whether located in a municipality or an unincorporated area unless exempt from the public school facilities element pursuant to s. 163.3177(12).~~

(6) (a) If concurrency is applied to public education facilities, ~~The application of school concurrency to development shall be based upon the adopted comprehensive plan, as amended.~~ all local governments within a county, except as provided in paragraph ~~(i) (f)~~, shall include principles, guidelines, standards, and strategies, including adopted levels of service, in their comprehensive plans and ~~adopt and transmit to the state land planning agency the necessary plan amendments, along with the interlocal agreements.~~ If the county and one or more municipalities have adopted school concurrency into its comprehensive plan and interlocal agreement that represents at least 80 percent of the total countywide population, the failure of one or more municipalities to adopt the concurrency and enter into the interlocal agreement does not preclude implementation of school concurrency within the school district. ~~agreement, for a compliance review pursuant to s. 163.3184(7) and (8). The minimum requirements for school concurrency are the following:~~

~~(a) Public school facilities element. A local government shall adopt and transmit to the state land planning agency a plan or plan amendment which includes a public school facilities element which is consistent with the requirements of s.~~

HB 7129

2011

3837 ~~163.3177(12) and which is determined to be in compliance as~~
3838 ~~defined in s. 163.3184(1)(b).~~ All local government provisions
3839 included in comprehensive plans regarding school concurrency
3840 ~~public school facilities plan elements~~ within a county must be
3841 consistent with each other as well as the requirements of this
3842 part.

3843 (b) ~~Level of service standards. The Legislature recognizes~~
3844 ~~that an essential requirement for a concurrency management~~
3845 ~~system is the level of service at which a public facility is~~
3846 ~~expected to operate.~~

3847 ~~1.~~ Local governments and school boards imposing school
3848 concurrency shall exercise authority in conjunction with each
3849 other to establish jointly adequate level-of-service standards,
3850 ~~as defined in chapter 9J-5, Florida Administrative Code,~~
3851 necessary to implement the adopted local government
3852 comprehensive plan, based on data and analysis.

3853 (c)2. Public school level-of-service standards shall be
3854 included and adopted into the capital improvements element of
3855 the local comprehensive plan and shall apply districtwide to all
3856 schools of the same type. Types of schools may include
3857 elementary, middle, and high schools as well as special purpose
3858 facilities such as magnet schools.

3859 (d)3. Local governments and school boards may ~~shall have~~
3860 ~~the option to~~ utilize tiered level-of-service standards to allow
3861 time to achieve an adequate and desirable level of service as
3862 circumstances warrant.

3863 (e)4. ~~For the purpose of determining whether levels of~~
3864 ~~service have been achieved, for the first 3 years of school~~

HB 7129

2011

~~concurrency implementation,~~ A school district that includes relocatable facilities in its inventory of student stations shall include the capacity of such relocatable facilities as provided in s. 1013.35(2)(b)2.f., provided the relocatable facilities were purchased after 1998 and the relocatable facilities meet the standards for long-term use pursuant to s. 1013.20.

~~(c) Service areas. The Legislature recognizes that an essential requirement for a concurrency system is a designation of the area within which the level of service will be measured when an application for a residential development permit is reviewed for school concurrency purposes. This delineation is also important for purposes of determining whether the local government has a financially feasible public school capital facilities program that will provide schools which will achieve and maintain the adopted level of service standards.~~

(f)1. In order to balance competing interests, preserve the constitutional concept of uniformity, and avoid disruption of existing educational and growth management processes, local governments are encouraged, if they elect to adopt school concurrency, to ~~initially~~ apply school concurrency to development ~~only~~ on a districtwide basis so that a concurrency determination for a specific development will be based upon the availability of school capacity districtwide. ~~To ensure that development is coordinated with schools having available capacity, within 5 years after adoption of school concurrency,~~

2. If a local government elects to ~~governments shall~~ apply school concurrency on a less than districtwide basis, by ~~such as~~

HB 7129

2011

3893 using school attendance zones or concurrency service areas; ~~as~~
3894 ~~provided in subparagraph 2.~~

3895 ~~a.2. For local governments applying school concurrency on~~
3896 ~~a less than districtwide basis, such as utilizing school~~
3897 ~~attendance zones or larger school concurrency service areas,~~
3898 Local governments and school boards shall have the burden to
3899 demonstrate that the utilization of school capacity is maximized
3900 to the greatest extent possible in the comprehensive plan and
3901 amendment, taking into account transportation costs and court-
3902 approved desegregation plans, as well as other factors. In
3903 addition, in order to achieve concurrency within the service
3904 area boundaries selected by local governments and school boards,
3905 the service area boundaries, together with the standards for
3906 establishing those boundaries, shall be identified and included
3907 as supporting data and analysis for the comprehensive plan.

3908 ~~b.3.~~ Where school capacity is available on a districtwide
3909 basis but school concurrency is applied on a less than
3910 districtwide basis in the form of concurrency service areas, if
3911 the adopted level-of-service standard cannot be met in a
3912 particular service area as applied to an application for a
3913 development permit and if the needed capacity for the particular
3914 service area is available in one or more contiguous service
3915 areas, as adopted by the local government, then the local
3916 government may not deny an application for site plan or final
3917 subdivision approval or the functional equivalent for a
3918 development or phase of a development on the basis of school
3919 concurrency, and if issued, development impacts shall be
3920 subtracted from the ~~shifted to~~ contiguous service area's ~~areas~~

HB 7129

2011

3921 ~~with schools having available capacity totals. Students from the~~
3922 ~~development may not be required to go to the adjacent service~~
3923 ~~area unless the school board rezones the area in which the~~
3924 ~~development occurs.~~

3925 ~~(g)(d) Financial feasibility. The Legislature recognizes~~
3926 ~~that financial feasibility is an important issue because The~~
3927 ~~premise of concurrency is that the public facilities will be~~
3928 ~~provided in order to achieve and maintain the adopted level-of-~~
3929 ~~service standard. This part and chapter 9J-5, Florida~~
3930 ~~Administrative Code, contain specific standards to determine the~~
3931 ~~financial feasibility of capital programs. These standards were~~
3932 ~~adopted to make concurrency more predictable and local~~
3933 ~~governments more accountable.~~

3934 ~~1. A comprehensive plan that imposes amendment seeking to~~
3935 ~~impose school concurrency shall contain appropriate amendments~~
3936 ~~to the capital improvements element of the comprehensive plan,~~
3937 ~~consistent with the requirements of s. 163.3177(3) and rule 9J-~~
3938 ~~5.016, Florida Administrative Code. The capital improvements~~
3939 ~~element shall identify facilities necessary to meet adopted~~
3940 ~~levels of service during a 5-year period consistent with the~~
3941 ~~school board's educational set forth a financially feasible~~
3942 ~~public school capital facilities plan program, established in~~
3943 ~~conjunction with the school board, that demonstrates that the~~
3944 ~~adopted level-of-service standards will be achieved and~~
3945 ~~maintained.~~

3946 ~~(h)1. In order to limit the liability of local~~
3947 ~~governments, a local government may allow a landowner to proceed~~
3948 ~~with development of a specific parcel of land notwithstanding a~~

HB 7129

2011

3949 failure of the development to satisfy school concurrency, if all
3950 the following factors are shown to exist:

3951 a. The proposed development would be consistent with the
3952 future land use designation for the specific property and with
3953 pertinent portions of the adopted local plan, as determined by
3954 the local government.

3955 b. The local government's capital improvements element and
3956 the school board's educational facilities plan provide for
3957 school facilities adequate to serve the proposed development,
3958 and the local government or school board has not implemented
3959 that element or the project includes a plan that demonstrates
3960 that the capital facilities needed as a result of the project
3961 can be reasonably provided.

3962 c. The local government and school board have provided a
3963 means by which the landowner will be assessed a proportionate
3964 share of the cost of providing the school facilities necessary
3965 to serve the proposed development.

3966 ~~2. Such amendments shall demonstrate that the public~~
3967 ~~school capital facilities program meets all of the financial~~
3968 ~~feasibility standards of this part and chapter 9J-5, Florida~~
3969 ~~Administrative Code, that apply to capital programs which~~
3970 ~~provide the basis for mandatory concurrency on other public~~
3971 ~~facilities and services.~~

3972 ~~3. When the financial feasibility of a public school~~
3973 ~~capital facilities program is evaluated by the state land~~
3974 ~~planning agency for purposes of a compliance determination, the~~
3975 ~~evaluation shall be based upon the service areas selected by the~~
3976 ~~local governments and school board.~~

HB 7129

2011

3977 ~~2.(e) Availability standard. Consistent with the public~~
3978 ~~welfare,~~ If a local government applies school concurrency, it
3979 may not deny an application for site plan, final subdivision
3980 approval, or the functional equivalent for a development or
3981 phase of a development authorizing residential development for
3982 failure to achieve and maintain the level-of-service standard
3983 for public school capacity in a local school concurrency
3984 management system where adequate school facilities will be in
3985 place or under actual construction within 3 years after the
3986 issuance of final subdivision or site plan approval, or the
3987 functional equivalent. School concurrency is satisfied if the
3988 developer executes a legally binding commitment to provide
3989 mitigation proportionate to the demand for public school
3990 facilities to be created by actual development of the property,
3991 including, but not limited to, the options described in sub-
3992 subparagraph a. subparagraph 1. Options for proportionate-share
3993 mitigation of impacts on public school facilities must be
3994 established in the comprehensive plan ~~public school facilities~~
3995 ~~element~~ and the interlocal agreement pursuant to s. 163.31777.

3996 a.1. Appropriate mitigation options include the
3997 contribution of land; the construction, expansion, or payment
3998 for land acquisition or construction of a public school
3999 facility; the construction of a charter school that complies
4000 with the requirements of s. 1002.33(18); or the creation of
4001 mitigation banking based on the construction of a public school
4002 facility in exchange for the right to sell capacity credits.
4003 Such options must include execution by the applicant and the
4004 local government of a development agreement that constitutes a

HB 7129

2011

legally binding commitment to pay proportionate-share mitigation for the additional residential units approved by the local government in a development order and actually developed on the property, taking into account residential density allowed on the property prior to the plan amendment that increased the overall residential density. The district school board must be a party to such an agreement. As a condition of its entry into such a development agreement, the local government may require the landowner to agree to continuing renewal of the agreement upon its expiration.

b.2. If the interlocal agreement ~~education facilities plan~~ and the local government comprehensive plan ~~public educational facilities element~~ authorize a contribution of land; the construction, expansion, or payment for land acquisition; the construction or expansion of a public school facility, or a portion thereof; or the construction of a charter school that complies with the requirements of s. 1002.33(18), as proportionate-share mitigation, the local government shall credit such a contribution, construction, expansion, or payment toward any other impact fee or exaction imposed by local ordinance for the same need, on a dollar-for-dollar basis at fair market value.

c.3. Any proportionate-share mitigation must be directed by the school board toward a school capacity improvement identified in the a financially feasible 5-year school board's educational facilities ~~district work~~ plan that satisfies the demands created by the development in accordance with a binding developer's agreement.

HB 7129

2011

~~4. If a development is precluded from commencing because there is inadequate classroom capacity to mitigate the impacts of the development, the development may nevertheless commence if there are accelerated facilities in an approved capital improvement element scheduled for construction in year four or later of such plan which, when built, will mitigate the proposed development, or if such accelerated facilities will be in the next annual update of the capital facilities element, the developer enters into a binding, financially guaranteed agreement with the school district to construct an accelerated facility within the first 3 years of an approved capital improvement plan, and the cost of the school facility is equal to or greater than the development's proportionate share. When the completed school facility is conveyed to the school district, the developer shall receive impact fee credits usable within the zone where the facility is constructed or any attendance zone contiguous with or adjacent to the zone where the facility is constructed.~~

~~3.5.~~ This paragraph does not limit the authority of a local government to deny a development permit or its functional equivalent pursuant to its home rule regulatory powers, except as provided in this part.

~~(i)-(f) Intergovernmental coordination.—~~

~~1. When establishing concurrency requirements for public schools, a local government shall satisfy the requirements for intergovernmental coordination set forth in s. 163.3177(6)(h)1. and 2., except that~~ A municipality is not required to be a signatory to the interlocal agreement required by paragraph (j)

HB 7129

2011

ss. ~~163.3177(6)(h)2. and 163.31777(6)~~, as a prerequisite for imposition of school concurrency, and as a nonsignatory, shall not participate in the adopted local school concurrency system, if the municipality meets all of the following criteria for having no significant impact on school attendance:

1.a. The municipality has issued development orders for fewer than 50 residential dwelling units during the preceding 5 years, or the municipality has generated fewer than 25 additional public school students during the preceding 5 years.

2.b. The municipality has not annexed new land during the preceding 5 years in land use categories which permit residential uses that will affect school attendance rates.

3.e. The municipality has no public schools located within its boundaries.

4.d. At least 80 percent of the developable land within the boundaries of the municipality has been built upon.

~~2. A municipality which qualifies as having no significant impact on school attendance pursuant to the criteria of subparagraph 1. must review and determine at the time of its evaluation and appraisal report pursuant to s. 163.3191 whether it continues to meet the criteria pursuant to s. 163.31777(6). If the municipality determines that it no longer meets the criteria, it must adopt appropriate school concurrency goals, objectives, and policies in its plan amendments based on the evaluation and appraisal report, and enter into the existing interlocal agreement required by ss. 163.3177(6)(h)2. and 163.31777, in order to fully participate in the school concurrency system. If such a municipality fails to do so, it~~

HB 7129

2011

will be subject to the enforcement provisions of s. 163.3191.

~~(j)(g) Interlocal agreement for school concurrency. When~~
establishing concurrency requirements for public schools, a
local government must enter into an interlocal agreement that
satisfies the requirements in ss. 163.3177(6)(h)1. and 2. and
163.31777 and the requirements of this subsection. The
interlocal agreement shall acknowledge both the school board's
constitutional and statutory obligations to provide a uniform
system of free public schools on a countywide basis, and the
land use authority of local governments, including their
authority to approve or deny comprehensive plan amendments and
development orders. ~~The interlocal agreement shall be submitted~~
~~to the state land planning agency by the local government as a~~
~~part of the compliance review, along with the other necessary~~
~~amendments to the comprehensive plan required by this part. In~~
~~addition to the requirements of ss. 163.3177(6)(h) and~~
~~163.31777,~~ The interlocal agreement shall meet the following
requirements:

1. Establish the mechanisms for coordinating the
development, adoption, and amendment of each local government's
school concurrency related provisions of the comprehensive plan
~~public school facilities element~~ with each other and the plans
of the school board to ensure a uniform districtwide school
concurrency system.

~~2. Establish a process for the development of siting~~
~~criteria which encourages the location of public schools~~
~~proximate to urban residential areas to the extent possible and~~
~~seeks to collocate schools with other public facilities such as~~

HB 7129

2011

~~parks, libraries, and community centers to the extent possible.~~

2.3. Specify uniform, districtwide level-of-service standards for public schools of the same type and the process for modifying the adopted level-of-service standards.

~~4. Establish a process for the preparation, amendment, and joint approval by each local government and the school board of a public school capital facilities program which is financially feasible, and a process and schedule for incorporation of the public school capital facilities program into the local government comprehensive plans on an annual basis.~~

3.5. Define the geographic application of school concurrency. If school concurrency is to be applied on a less than districtwide basis in the form of concurrency service areas, the agreement shall establish criteria and standards for the establishment and modification of school concurrency service areas. ~~The agreement shall also establish a process and schedule for the mandatory incorporation of the school concurrency service areas and the criteria and standards for establishment of the service areas into the local government comprehensive plans.~~ The agreement shall ensure maximum utilization of school capacity, taking into account transportation costs and court-approved desegregation plans, as well as other factors. ~~The agreement shall also ensure the achievement and maintenance of the adopted level-of-service standards for the geographic area of application throughout the 5 years covered by the public school capital facilities plan and thereafter by adding a new fifth year during the annual update.~~

4.6. Establish a uniform districtwide procedure for

HB 7129

2011

implementing school concurrency which provides for:

a. The evaluation of development applications for compliance with school concurrency requirements, including information provided by the school board on affected schools, impact on levels of service, and programmed improvements for affected schools and any options to provide sufficient capacity;

b. An opportunity for the school board to review and comment on the effect of comprehensive plan amendments and rezonings on the public school facilities plan; and

c. The monitoring and evaluation of the school concurrency system.

~~7. Include provisions relating to amendment of the agreement.~~

~~5.8.~~ A process and uniform methodology for determining proportionate-share mitigation pursuant to subparagraph (h) ~~(e)~~ 1.

(k) ~~(h)~~ ~~Local government authority.~~ This subsection does not limit the authority of a local government to grant or deny a development permit or its functional equivalent prior to the implementation of school concurrency.

~~(14) The state land planning agency shall, by October 1, 1998, adopt by rule minimum criteria for the review and determination of compliance of a public school facilities element adopted by a local government for purposes of imposition of school concurrency.~~

~~(15) (a) Multimodal transportation districts may be established under a local government comprehensive plan in areas delineated on the future land use map for which the local comprehensive plan assigns secondary priority to vehicle~~

HB 7129

2011

~~mobility and primary priority to assuring a safe, comfortable, and attractive pedestrian environment, with convenient interconnection to transit. Such districts must incorporate community design features that will reduce the number of automobile trips or vehicle miles of travel and will support an integrated, multimodal transportation system. Prior to the designation of multimodal transportation districts, the Department of Transportation shall be consulted by the local government to assess the impact that the proposed multimodal district area is expected to have on the adopted level of service standards established for Strategic Intermodal System facilities, as defined in s. 339.64, and roadway facilities funded in accordance with s. 339.2819. Further, the local government shall, in cooperation with the Department of Transportation, develop a plan to mitigate any impacts to the Strategic Intermodal System, including the development of a long-term concurrency management system pursuant to subsection (9) and s. 163.3177(3)(d). Multimodal transportation districts existing prior to July 1, 2005, shall meet, at a minimum, the provisions of this section by July 1, 2006, or at the time of the comprehensive plan update pursuant to the evaluation and appraisal report, whichever occurs last.~~

~~(b) Community design elements of such a district include: a complementary mix and range of land uses, including educational, recreational, and cultural uses; interconnected networks of streets designed to encourage walking and bicycling, with traffic calming where desirable; appropriate densities and intensities of use within walking distance of transit stops;~~

HB 7129

2011

~~daily activities within walking distance of residences, allowing independence to persons who do not drive; public uses, streets, and squares that are safe, comfortable, and attractive for the pedestrian, with adjoining buildings open to the street and with parking not interfering with pedestrian, transit, automobile, and truck travel modes.~~

~~(c) Local governments may establish multimodal level-of-service standards that rely primarily on nonvehicular modes of transportation within the district, when justified by an analysis demonstrating that the existing and planned community design will provide an adequate level of mobility within the district based upon professionally accepted multimodal level-of-service methodologies. The analysis must also demonstrate that the capital improvements required to promote community design are financially feasible over the development or redevelopment timeframe for the district and that community design features within the district provide convenient interconnection for a multimodal transportation system. Local governments may issue development permits in reliance upon all planned community design capital improvements that are financially feasible over the development or redevelopment timeframe for the district, without regard to the period of time between development or redevelopment and the scheduled construction of the capital improvements. A determination of financial feasibility shall be based upon currently available funding or funding sources that could reasonably be expected to become available over the planning period.~~

~~(d) Local governments may reduce impact fees or local~~

HB 7129

2011

access fees for development within multimodal transportation districts based on the reduction of vehicle trips per household or vehicle miles of travel expected from the development pattern planned for the district.

~~(16) It is the intent of the Legislature to provide a method by which the impacts of development on transportation facilities can be mitigated by the cooperative efforts of the public and private sectors. The methodology used to calculate proportionate fair-share mitigation under this section shall be as provided for in subsection (12).~~

~~(a) By December 1, 2006, each local government shall adopt by ordinance a methodology for assessing proportionate fair-share mitigation options. By December 1, 2005, the Department of Transportation shall develop a model transportation concurrency management ordinance with methodologies for assessing proportionate fair-share mitigation options.~~

~~(b)1. In its transportation concurrency management system, a local government shall, by December 1, 2006, include methodologies that will be applied to calculate proportionate fair-share mitigation. A developer may choose to satisfy all transportation concurrency requirements by contributing or paying proportionate fair-share mitigation if transportation facilities or facility segments identified as mitigation for traffic impacts are specifically identified for funding in the 5-year schedule of capital improvements in the capital improvements element of the local plan or the long-term concurrency management system or if such contributions or payments to such facilities or segments are reflected in the 5-~~

HB 7129

2011

~~year schedule of capital improvements in the next regularly scheduled update of the capital improvements element. Updates to the 5-year capital improvements element which reflect proportionate fair-share contributions may not be found not in compliance based on ss. 163.3164(32) and 163.3177(3) if additional contributions, payments or funding sources are reasonably anticipated during a period not to exceed 10 years to fully mitigate impacts on the transportation facilities.~~

~~2. Proportionate fair-share mitigation shall be applied as a credit against impact fees to the extent that all or a portion of the proportionate fair-share mitigation is used to address the same capital infrastructure improvements contemplated by the local government's impact fee ordinance.~~

~~(c) Proportionate fair-share mitigation includes, without limitation, separately or collectively, private funds, contributions of land, and construction and contribution of facilities and may include public funds as determined by the local government. Proportionate fair-share mitigation may be directed toward one or more specific transportation improvements reasonably related to the mobility demands created by the development and such improvements may address one or more modes of travel. The fair market value of the proportionate fair-share mitigation shall not differ based on the form of mitigation. A local government may not require a development to pay more than its proportionate fair-share contribution regardless of the method of mitigation. Proportionate fair-share mitigation shall be limited to ensure that a development meeting the requirements of this section mitigates its impact on the transportation~~

HB 7129

2011

4397 ~~backlog~~ authority within the authority's jurisdictional

4403 section.

4404 (c) The Legislature finds and declares that there exist in
4405 many counties and municipalities areas that have significant
4406 transportation deficiencies and inadequate transportation
4407 facilities; that many insufficiencies and inadequacies severely
4408 limit or prohibit the satisfaction of transportation level of
4409 service ~~concurrency~~ standards; that the transportation
4410 insufficiencies and inadequacies affect the health, safety, and
4411 welfare of the residents of these counties and municipalities;
4412 that the transportation insufficiencies and inadequacies
4413 adversely affect economic development and growth of the tax base
4414 for the areas in which these insufficiencies and inadequacies
4415 exist; and that the elimination of transportation deficiencies
4416 and inadequacies and the satisfaction of transportation
4417 concurrency standards are paramount public purposes for the
4418 state and its counties and municipalities.

4419 (3) POWERS OF A TRANSPORTATION DEVELOPMENT ~~CONCURRENCY~~
4420 ~~BACKLOG~~ AUTHORITY.—Each transportation development ~~concurrency~~
4421 ~~backlog~~ authority created pursuant to this section has the

4423 section, including the following powers in addition to others
4424 granted in this section:

HB 7129

2011

(a) To make and execute contracts and other instruments necessary or convenient to the exercise of its powers under this section.

(b) To undertake and carry out transportation ~~concurrency backlog~~ projects for transportation facilities designed to relieve transportation deficiencies ~~that have a concurrency backlog~~ within the authority's jurisdiction. (c) To invest any transportation ~~concurrency backlog~~ funds held in reserve, sinking funds, or any such funds not required for immediate disbursement in property or securities in which savings banks may legally invest funds subject to the control of the authority and to redeem such bonds as have been issued pursuant to this section at the redemption price established therein, or to purchase such bonds at less than redemption price. All such bonds redeemed or purchased shall be canceled.

(d) To borrow money, including, but not limited to, issuing debt obligations such as, but not limited to, bonds, notes, certificates, and similar debt instruments; to apply for and accept advances, loans, grants, contributions, and any other forms of financial assistance from the Federal Government or the state, county, or any other public body or from any sources, public or private, for the purposes of this part; to give such security as may be required; to enter into and carry out contracts or agreements; and to include in any contracts for

HB 7129

2011

(e) To make or have made all surveys and plans necessary to the carrying out of the purposes of this section; to contract with any persons, public or private, in making and carrying out such plans; and to adopt, approve, modify, or amend such transportation sufficiency ~~concurrency backlog~~ plans.

(f) To appropriate such funds and make such expenditures as are necessary to carry out the purposes of this section, and to enter into agreements with other public bodies, which agreements may extend over any period notwithstanding any provision or rule of law to the contrary.

(4) TRANSPORTATION SUFFICIENCY ~~CONCURRENCY BACKLOG~~ PLANS.—

~~(a)~~ Each transportation development ~~concurrency backlog~~ authority shall adopt a transportation sufficiency ~~concurrency backlog~~ plan as a part of the local government comprehensive plan within 6 months after the creation of the authority. The plan must:

(a)1. Identify all transportation facilities that have been designated as deficient and require the expenditure of moneys to upgrade, modify, or mitigate the deficiency.

(b)2. Include a priority listing of all transportation facilities that have been designated as deficient and do not satisfy ~~concurrency~~ requirements pursuant to s. 163.3180, and

HB 7129

2011

the applicable local government comprehensive plan.

~~(c)3-~~ Establish a schedule for financing and construction of transportation ~~concurrency backlog~~ projects that will eliminate transportation deficiencies ~~concurrency backlogs~~ within the jurisdiction of the authority within 10 years after the transportation sufficiency ~~concurrency backlog~~ plan adoption. The schedule shall be adopted as part of the local government comprehensive plan.

~~(b) The adoption of the transportation concurrency backlog plan shall be exempt from the provisions of s. 163.3187(1).~~

Notwithstanding such schedule requirements, as long as the schedule provides for the elimination of all transportation deficiencies ~~concurrency backlogs~~ within 10 years after the adoption of the transportation sufficiency ~~concurrency backlog~~ plan, the final maturity date of any debt incurred to finance or refinance the related projects may be no later than 40 years after the date the debt is incurred and the authority may continue operations and administer the trust fund established as provided in subsection (5) for as long as the debt remains outstanding.

(5) ESTABLISHMENT OF LOCAL TRUST FUND.—The transportation development ~~concurrency backlog~~ authority shall establish a local transportation ~~concurrency backlog~~ trust fund upon creation of the authority. Each local trust fund shall be administered by the transportation development ~~concurrency backlog~~ authority within which a transportation deficiencies ~~have concurrency backlog~~ has been identified. Each local trust

HB 7129

2011

4509 fund must continue to be funded under this section for as long
4510 as the projects set forth in the related transportation
4511 sufficiency ~~concurrency backlog~~ plan remain to be completed or
4512 until any debt incurred to finance or refinance the related
4513 projects is no longer outstanding, whichever occurs later.
4514 Beginning in the first fiscal year after the creation of the
4515 authority, each local trust fund shall be funded by the proceeds
4516 of an ad valorem tax increment collected within each
4517 transportation deficiency ~~concurrency backlog~~ area to be
4518 determined annually and shall be a minimum of 25 percent of the
4519 difference between the amounts set forth in paragraphs (a) and
4520 (b), except that if all of the affected taxing authorities agree
4521 under an interlocal agreement, a particular local trust fund may
4522 be funded by the proceeds of an ad valorem tax increment greater
4523 than 25 percent of the difference between the amounts set forth
4524 in paragraphs (a) and (b):

4525 (a) The amount of ad valorem tax levied each year by each
4526 taxing authority, exclusive of any amount from any debt service
4527 millage, on taxable real property contained within the
4528 jurisdiction of the transportation development ~~concurrency~~
4529 ~~backlog~~ authority and within the transportation deficiency
4530 ~~backlog~~ area; and

4531 (b) The amount of ad valorem taxes which would have been
4532 produced by the rate upon which the tax is levied each year by
4533 or for each taxing authority, exclusive of any debt service
4534 millage, upon the total of the assessed value of the taxable
4535 real property within the transportation deficiency ~~concurrency~~
4536 ~~backlog~~ area as shown on the most recent assessment roll used in

HB 7129

2011

connection with the taxation of such property of each taxing authority prior to the effective date of the ordinance funding the trust fund.

2. A special district for which the sole available source of revenue is the authority to levy ad valorem taxes at the time an ordinance is adopted under this section. However, revenues or aid that may be dispensed or appropriated to a district as defined in s. 388.011 at the discretion of an entity other than such district shall not be deemed available.

(7) TRANSPORTATION CONCURRENCY SATISFACTION.—Upon adoption of a transportation sufficiency ~~concurrency backlog~~ plan as a part of the local government comprehensive plan, and the plan

HB 7129

2011

going into effect, the area subject to the plan shall be deemed to have achieved and maintained transportation level-of-service standards, ~~and to have met requirements for financial feasibility for transportation facilities, and for the purpose of proposed development transportation concurrency has been satisfied.~~ Proportionate fair-share mitigation shall be limited to ensure that a development inside a transportation deficiency concurrency backlog area is not responsible for the additional costs of eliminating deficiencies backlogs.

(8) DISSOLUTION.—Upon completion of all transportation ~~concurrency backlog~~ projects identified in the transportation sufficiency plan and repayment or defeasance of all debt issued to finance or refinance such projects, a transportation development concurrency backlog authority shall be dissolved, and its assets and liabilities transferred to the county or municipality within which the authority is located. All remaining assets of the authority must be used for implementation of transportation projects within the jurisdiction of the authority. The local government comprehensive plan shall be amended to remove the transportation concurrency backlog plan.

~~(d) In cases in which a local government transmits multiple individual amendments that can be clearly and legally separated and distinguished for the purpose of determining whether to review the proposed amendment, and the state land planning agency elects to review several or a portion of the amendments and the local government chooses to immediately adopt the remaining amendments not reviewed, the amendments immediately adopted and any reviewed amendments that the local government subsequently adopts together constitute one amendment cycle in accordance with s. 163.3187(1).~~

~~(e) At the request of an applicant, a local government shall consider an application for zoning changes that would be required to properly enact the provisions of any proposed plan~~

relationship and effect on the municipal plan.

(d) ~~(6)~~ State land planning agency review.—

~~(a) The state land planning agency shall review a proposed plan amendment upon request of a regional planning council, affected person, or local government transmitting the plan amendment. The request from the regional planning council or affected person must be received within 30 days after transmittal of the proposed plan amendment pursuant to subsection (3). A regional planning council or affected person requesting a review shall do so by submitting a written request to the agency with a notice of the request to the local government and any other person who has requested notice.~~

~~(b) The state land planning agency may review any proposed plan amendment regardless of whether a request for review has been made, if the agency gives notice to the local government, and any other person who has requested notice, of its intention to conduct such a review within 35 days after receipt of the complete proposed plan amendment.~~

1. ~~(c)~~ The state land planning agency shall establish by rule a schedule for receipt of comments from the various government agencies, as well as written public comments, pursuant to subsection (4). If the state land planning agency elects to review a plan or plan the amendment ~~or the agency is required to review the amendment~~ as specified in paragraph (2) ~~(c)~~ (a), the agency shall issue a report giving its objections, recommendations, and comments regarding the proposed plan or plan amendment within 60 days after receipt of the complete proposed plan or plan amendment ~~by the state land~~

4930 sub-subparagraph (3) (b) 4.g., the state land planning agency may
4931 make objections, recommendations, and comments in its report
4932 regarding whether the plan or plan amendment is in compliance
4933 and whether the plan or plan amendment will adversely impact
4934 important state resources and facilities. In making objections
4935 as to whether a plan or plan amendment is in compliance, the
4936 state land planning agency shall consider the plan or plan
4937 amendment as a whole and whether the intent of this part is
4938 furthered by the plan or plan amendment. In making objections
4939 regarding an important state resource or facility that will be
4940 adversely impacted by the adopted plan or plan amendment, the
4941 state land planning agency shall only make an objection if on
4942 the whole the plan or plan amendment's adverse impacts to the
4943 important state resource or facility outweigh the plan or plan
4944 amendment's benefits to the affected local community or the
4945 amendment's furtherance of the intent of this part. Any
4946 objection regarding an important state resource or facility that
4947 will be adversely impacted by the adopted plan or plan amendment
4948 shall also state with specificity how the plan or plan amendment
4949 will adversely impact the important state resource or facility
4950 and shall identify measures the local government may take to
4951 eliminate, reduce, or mitigate the adverse impacts. When a
4952 federal, state, or regional agency has implemented a permitting
4953 program, the state land planning agency shall not require a

4956 such a permitting program in its land development regulations.

2011

Nothing contained herein shall prohibit the state land planning agency in conducting its review of local plans or plan amendments from making objections, recommendations, and comments ~~or making compliance determinations~~ regarding densities and intensities consistent with the provisions of this part. In preparing its comments, the state land planning agency shall only base its considerations on written, and not oral, comments, ~~from any source.~~

2. ~~(d)~~ The state land planning agency review shall identify all written communications with the agency regarding the proposed plan amendment. ~~If the state land planning agency does not issue such a review, it shall identify in writing to the local government all written communications received 30 days after transmittal.~~ The written identification must include a list of all documents received or generated by the agency, which list must be of sufficient specificity to enable the documents to be identified and copies requested, if desired, and the name of the person to be contacted to request copies of any identified document. ~~The list of documents must be made a part of the public records of the state land planning agency.~~

(e) ~~(7)~~ Local government review of comments; adoption of plan or amendments and transmittal.—

~~(a)~~ The local government shall review the report ~~written~~ ~~comments~~ submitted to it by the state land planning agency, if any, and written comments submitted to it by any other person, agency, or government. ~~Any comments, recommendations, or objections and any reply to them shall be public documents, a part of the permanent record in the matter, and admissible in~~

4993 ~~the local government shall have 60 days to adopt the amendment,~~
4994 ~~adopt the amendment with changes, or determine that it will not~~
4995 ~~adopt the amendment. The adoption of the proposed plan or plan~~
4996 ~~amendment or the determination not to adopt a plan amendment,~~
4997 ~~other than a plan amendment proposed pursuant to s. 163.3191,~~
4998 ~~shall be made in the course of a public hearing pursuant to~~

5001 ~~the names and addresses of persons compiled pursuant to~~
5002 ~~paragraph (15)(c), to the state land planning agency as~~
5003 ~~specified in the agency's procedural rules within 10 working~~
5004 ~~days after adoption. The local governing body shall also~~

5009 ~~the plan or plan amendment.~~

5010 ~~(b) If the adopted plan amendment is unchanged from the~~

2011

~~raise any objection, the state land planning agency did not review the proposed plan amendment, and the state land planning agency did not raise any objections during its review pursuant to subsection (6), the local government may state in the transmittal letter that the plan amendment is unchanged and was not the subject of objections.~~

~~(8) NOTICE OF INTENT.~~

~~(a) If the transmittal letter correctly states that the plan amendment is unchanged and was not the subject of review or objections pursuant to paragraph (7)(b), the state land planning agency has 20 days after receipt of the transmittal letter within which to issue a notice of intent that the plan amendment is in compliance.~~

~~(b) Except as provided in paragraph (a) or in s. 163.3187(3), the state land planning agency, upon receipt of a local government's complete adopted comprehensive plan or plan amendment, shall have 45 days for review and to determine if the plan or plan amendment is in compliance with this act, unless the amendment is the result of a compliance agreement entered into under subsection (16), in which case the time period for review and determination shall be 30 days. If review was not conducted under subsection (6), the agency's determination must be based upon the plan amendment as adopted. If review was conducted under subsection (6), the agency's determination of compliance must be based only upon one or both of the following:~~

- ~~1. The state land planning agency's written comments to the local government pursuant to subsection (6); or~~
- ~~2. Any changes made by the local government to the~~

HB 7129

~~comprehensive plan or plan amendment as adopted.~~

~~(c)1. During the time period provided for in this subsection, the state land planning agency shall issue, through a senior administrator or the secretary, as specified in the agency's procedural rules, a notice of intent to find that the plan or plan amendment is in compliance or not in compliance. A notice of intent shall be issued by publication in the manner provided by this paragraph and by mailing a copy to the local government. The advertisement shall be placed in that portion of the newspaper where legal notices appear. The advertisement shall be published in a newspaper that meets the size and circulation requirements set forth in paragraph (15)(c) and that has been designated in writing by the affected local government at the time of transmittal of the amendment. Publication by the state land planning agency of a notice of intent in the newspaper designated by the local government shall be prima facie evidence of compliance with the publication requirements of this section. The state land planning agency shall post a copy of the notice of intent on the agency's Internet site. The agency shall, no later than the date the notice of intent is transmitted to the newspaper, send by regular mail a courtesy informational statement to persons who provide their names and addresses to the local government at the transmittal hearing or at the adoption hearing where the local government has provided the names and addresses of such persons to the department at the time of transmittal of the adopted amendment. The informational statements shall include the name of the newspaper in which the notice of intent will appear, the approximate date of~~

HB 7129

2011

publication, the ordinance number of the plan or plan amendment, and a statement that affected persons have 21 days after the actual date of publication of the notice to file a petition.

2. A local government that has an Internet site shall post a copy of the state land planning agency's notice of intent on the site within 5 days after receipt of the mailed copy of the agency's notice of intent.

~~(9) PROCESS IF LOCAL PLAN OR AMENDMENT IS IN COMPLIANCE.~~

~~(a) If the state land planning agency issues a notice of intent to find that the comprehensive plan or plan amendment transmitted pursuant to s. 163.3167, s. 163.3187, s. 163.3189, or s. 163.3191 is in compliance with this act, any affected person may file a petition with the agency pursuant to ss. 120.569 and 120.57 within 21 days after the publication of notice. In this proceeding, the local plan or plan amendment shall be determined to be in compliance if the local government's determination of compliance is fairly debatable.~~

~~(b) The hearing shall be conducted by an administrative law judge of the Division of Administrative Hearings of the Department of Management Services, who shall hold the hearing in the county of and convenient to the affected local jurisdiction and submit a recommended order to the state land planning agency. The state land planning agency shall allow for the filing of exceptions to the recommended order and shall issue a final order after receipt of the recommended order if the state land planning agency determines that the plan or plan amendment is in compliance. If the state land planning agency determines that the plan or plan amendment is not in compliance, the agency~~

HB 7129

2011

5097 ~~shall submit the recommended order to the Administration~~
5098 ~~Commission for final agency action.~~

5099 ~~(10) PROCESS IF LOCAL PLAN OR AMENDMENT IS NOT IN~~
5100 ~~COMPLIANCE.—~~

5101 ~~(a) If the state land planning agency issues a notice of~~
5102 ~~intent to find the comprehensive plan or plan amendment not in~~
5103 ~~compliance with this act, the notice of intent shall be~~
5104 ~~forwarded to the Division of Administrative Hearings of the~~
5105 ~~Department of Management Services, which shall conduct a~~
5106 ~~proceeding under ss. 120.569 and 120.57 in the county of and~~
5107 ~~convenient to the affected local jurisdiction. The parties to~~
5108 ~~the proceeding shall be the state land planning agency, the~~
5109 ~~affected local government, and any affected person who~~
5110 ~~intervenes. No new issue may be alleged as a reason to find a~~
5111 ~~plan or plan amendment not in compliance in an administrative~~
5112 ~~pleading filed more than 21 days after publication of notice~~
5113 ~~unless the party seeking that issue establishes good cause for~~
5114 ~~not alleging the issue within that time period. Good cause shall~~
5115 ~~not include excusable neglect. In the proceeding, the local~~
5116 ~~government's determination that the comprehensive plan or plan~~
5117 ~~amendment is in compliance is presumed to be correct. The local~~
5118 ~~government's determination shall be sustained unless it is shown~~
5119 ~~by a preponderance of the evidence that the comprehensive plan~~
5120 ~~or plan amendment is not in compliance. The local government's~~
5121 ~~determination that elements of its plans are related to and~~
5122 ~~consistent with each other shall be sustained if the~~
5123 ~~determination is fairly debatable.~~

5124 ~~(b) The administrative law judge assigned by the division~~

HB 7129

2011

shall submit a recommended order to the Administration
Commission for final agency action.

~~(c) Prior to the hearing, the state land planning agency
shall afford an opportunity to mediate or otherwise resolve the
dispute. If a party to the proceeding requests mediation or
other alternative dispute resolution, the hearing may not be
held until the state land planning agency advises the
administrative law judge in writing of the results of the
mediation or other alternative dispute resolution. However, the
hearing may not be delayed for longer than 90 days for mediation
or other alternative dispute resolution unless a longer delay is
agreed to by the parties to the proceeding. The costs of the
mediation or other alternative dispute resolution shall be borne
equally by all of the parties to the proceeding.~~

(5) ADMINISTRATIVE CHALLENGES TO PLANS AND PLAN
AMENDMENTS.—

(a) Any affected person as defined in paragraph (1)(a) may
file a petition with the Division of Administrative Hearings
pursuant to ss. 120.569 and 120.57, with a copy served on the
affected local government, to request a formal hearing to
challenge whether the plan or plan amendments are in compliance
as defined in paragraph (1)(b). This petition must be filed with
the division within 30 days after the local government adopts
the amendment. The state land planning agency may not intervene
in a proceeding initiated by an affected person.

(b) The state land planning agency may file a petition
with the Division of Administrative Hearings pursuant to ss.
120.569 and 120.57, with a copy served on the affected local

HB 7129

2011

5153 government, to request a formal hearing to challenge whether the
5154 plan or plan amendment is in compliance as defined in paragraph
5155 (1) (b). The state land planning agency's petition must clearly
5156 state the reasons for the challenge. This petition must be filed
5157 with the division within 30 days after the state land planning
5158 agency notifies the local government that the plan amendment
5159 package is complete according to subparagraph (3) (c)3.

5160 1. The state land planning agency's challenge to plan
5161 amendments adopted under the expedited state review process
5162 shall be limited to the comments provided by the reviewing
5163 agencies pursuant to subparagraphs (3) (b)2.-4., upon a
5164 determination by the state land planning agency that an
5165 important state resource or facility will be adversely impacted
5166 by the adopted plan amendment. The state land planning agency's
5167 petition shall state with specificity how the plan amendment
5168 will adversely impact the important state resource or facility.
5169 The state land planning agency shall only make such a
5170 determination if on the whole the amendment's adverse impacts to
5171 the important state resource or facility outweigh the
5172 amendment's benefits to the affected local community or the
5173 amendment's furtherance of the intent of this part. The state
5174 land planning agency may challenge a plan amendment that has
5175 substantially changed from the version on which the agencies
5176 provided comments but only upon a determination by the state
5177 land planning agency that an important state resource or
5178 facility will be adversely impacted.

5179 2. The state land planning agency's challenge to plans and
5180 plan amendments pursuant to paragraph (2) (c) adopted under the

HB 7129

2011

5181 state coordinated review process, unless the plan or plan
5182 amendment is substantially changed from the one commented on, is
5183 limited to objections raised in the objections, recommendations,
5184 and comments report. Any state land planning agency challenge to
5185 a plan amendment that updates a comprehensive plan based on an
5186 evaluation and appraisal pursuant to s. 163.3191, unless the
5187 amendment has substantially changed from the one commented on,
5188 is limited to objections raised in the objections,
5189 recommendations, and comments report where the state land
5190 planning agency has made a determination that the plan amendment
5191 will adversely impact an important state resource or facility.

5192 (c) An administrative law judge shall hold a hearing in
5193 the affected local jurisdiction on whether the plan or plan
5194 amendment is in compliance.

5195 1. In challenges filed by an affected person, the
5196 comprehensive plan or plan amendment shall be determined to be
5197 in compliance if the local government's determination of
5198 compliance is fairly debatable.

5199 2.a. In challenges filed by the state land planning
5200 agency, the local government's determination that the
5201 comprehensive plan or plan amendment is in compliance is
5202 presumed to be correct, and the local government's determination
5203 shall be sustained unless it is shown by a preponderance of the
5204 evidence that the comprehensive plan or plan amendment is not in
5205 compliance.

5206 b. In challenges filed by the state land planning agency,
5207 the local government's determination that elements of its plan
5208 are related to and consistent with each other shall be sustained

HB 7129

2011

if the determination is fairly debatable.

3. In challenges filed by the state land planning agency that require a determination by the agency that an important state resource or facility will be adversely impacted by the adopted plan or plan amendment, the local government may contest the agency's determination that the amendment would adversely impact an important state resource or facility. The state land planning agency shall prove its determination by clear and convincing evidence.

(d) If the administrative law judge recommends that the amendment be found not in compliance, the judge shall submit the recommended order to the Administration Commission for final agency action. The Administration Commission shall enter a final order within 45 days after its receipt of the recommended order.

(e) If the administrative law judge recommends that the amendment be found in compliance, the judge shall submit the recommended order to the state land planning agency.

1. If the state land planning agency determines that the plan amendment should be found not in compliance, the agency shall refer, within 30 days after receipt of the recommended order, the recommended order and its determination to the Administration Commission for final agency action.

2. If the state land planning agency determines that the plan amendment should be found in compliance, the agency shall enter its final order not later than 30 days after receipt of the recommended order.

(f)1. In all challenges under this subsection, when a determination of compliance as defined in paragraph (1)(b) is

HB 7129

2011

5237 made, consideration shall be given to the plan or plan amendment
5238 as a whole and whether the plan or plan amendment furthers the
5239 intent of this part.

5240 2. In challenges that require the state land planning
5241 agency to make a determination that an important state resource
5242 or facility will be adversely impacted by the adopted plan or
5243 plan amendment, the plan or plan amendment shall be found to be
5244 in compliance unless it is determined that on the whole the plan
5245 or plan amendment's adverse impacts to the important state
5246 resource or facility outweigh the plan or plan amendment's
5247 benefits to the affected local community or the plan or plan
5248 amendment's furtherance of the intent of this part.

5249 (g) Parties to a proceeding under this subsection may
5250 enter into compliance agreements using the process in subsection
5251 (6).

5252 (6) COMPLIANCE AGREEMENT.—

5253 (a) At any time after the filing of a challenge, the state
5254 land planning agency and the local government may voluntarily
5255 enter into a compliance agreement to resolve one or more of the
5256 issues raised in the proceedings. Affected persons who have
5257 initiated a formal proceeding or have intervened in a formal
5258 proceeding may also enter into a compliance agreement with the
5259 local government. All parties granted intervenor status shall be
5260 provided reasonable notice of the commencement of a compliance
5261 agreement negotiation process and a reasonable opportunity to
5262 participate in such negotiation process. Negotiation meetings
5263 with local governments or intervenors shall be open to the
5264 public. The state land planning agency shall provide each party

HB 7129

2011

granted intervenor status with a copy of the compliance agreement within 10 days after the agreement is executed. The compliance agreement shall list each portion of the plan or plan amendment that has been challenged, and shall specify remedial actions that the local government has agreed to complete within a specified time in order to resolve the challenge, including adoption of all necessary plan amendments. The compliance agreement may also establish monitoring requirements and incentives to ensure that the conditions of the compliance agreement are met.

(b) Upon the filing of a compliance agreement executed by the parties to a challenge and the local government with the Division of Administrative Hearings, any administrative proceeding under ss. 120.569 and 120.57 regarding the plan or plan amendment covered by the compliance agreement shall be stayed.

(c) Before its execution of a compliance agreement, the local government must approve the compliance agreement at a public hearing advertised at least 10 days before the public hearing in a newspaper of general circulation in the area in accordance with the advertisement requirements of chapter 125 or 166, as applicable.

(d) The local government shall hold a single adoption public hearing for remedial amendments.

(e) If the local government adopts a comprehensive plan amendment pursuant to a compliance agreement, an affected person or the state land planning agency may file a revised challenge with the Division of Administrative Hearings within 15 days

HB 7129

2011

after the adoption of the amendment.

(f) This subsection does not prohibit a local government from amending portions of its comprehensive plan other than those that are the subject of a challenge. However, such amendments to the plan may not be inconsistent with the compliance agreement.

(g) Nothing in this subsection is intended to require settlement by any party against its will or to preclude the use of other informal dispute resolution methods, in the course of or in addition to the method described in this subsection.

(7) MEDIATION AND EXPEDITIOUS RESOLUTION.-

(a) At any time after the matter has been forwarded to the Division of Administrative Hearings, the local government proposing the amendment may demand formal mediation or the local government proposing the amendment or an affected person who is a party to the proceeding may demand informal mediation or expeditious resolution of the amendment proceedings by serving written notice on the state land planning agency if a party to the proceeding, all other parties to the proceeding, and the administrative law judge.

(b) Upon receipt of a notice pursuant to paragraph (a), the administrative law judge shall set the matter for final hearing no more than 30 days after receipt of the notice. Once a final hearing has been set, no continuance in the hearing, and no additional time for post-hearing submittals, may be granted without the written agreement of the parties absent a finding by the administrative law judge of extraordinary circumstances. Extraordinary circumstances do not include matters relating to

HB 7129

2011

workload or need for additional time for preparation,
negotiation, or mediation.

(c) Absent a showing of extraordinary circumstances, the administrative law judge shall issue a recommended order, in a case proceeding under subsection (5), within 30 days after filing of the transcript, unless the parties agree in writing to a longer time.

(d) Absent a showing of extraordinary circumstances, the Administration Commission shall issue a final order, in a case proceeding under subsection (5), within 45 days after the issuance of the recommended order, unless the parties agree in writing to a longer time.

(8)-(11) ADMINISTRATION COMMISSION.—

(a) If the Administration Commission, upon a hearing pursuant to subsection (5)-(9) or subsection (10), finds that the comprehensive plan or plan amendment is not in compliance with this act, the commission shall specify remedial actions that ~~which~~ would bring the comprehensive plan or plan amendment into compliance.

(b) The commission may specify the sanctions provided in subparagraphs 1. and 2. to which the local government will be subject if it elects to make the amendment effective notwithstanding the determination of noncompliance.

1. The commission may direct state agencies not to provide funds to increase the capacity of roads, bridges, or water and sewer systems within the boundaries of those local governmental entities which have comprehensive plans or plan elements that are determined not to be in compliance. The commission order may

HB 7129

2011

also specify that the local government shall not be eligible for grants administered under the following programs:

~~a.1.~~ The Florida Small Cities Community Development Block Grant Program, as authorized by ss. 290.0401-290.049.

~~b.2.~~ The Florida Recreation Development Assistance Program, as authorized by chapter 375.

~~c.3.~~ Revenue sharing pursuant to ss. 206.60, 210.20, and 218.61 and chapter 212, to the extent not pledged to pay back bonds.

~~2.(b)~~ If the local government is one which is required to include a coastal management element in its comprehensive plan pursuant to s. 163.3177(6)(g), the commission order may also specify that the local government is not eligible for funding pursuant to s. 161.091. The commission order may also specify that the fact that the coastal management element has been determined to be not in compliance shall be a consideration when the department considers permits under s. 161.053 and when the Board of Trustees of the Internal Improvement Trust Fund considers whether to sell, convey any interest in, or lease any sovereignty lands or submerged lands until the element is brought into compliance.

~~3.(c)~~ The sanctions provided by subparagraphs ~~paragraphs~~ ~~1.(a)~~ and ~~2.(b)~~ shall not apply to a local government regarding any plan amendment, except for plan amendments that amend plans that have not been finally determined to be in compliance with this part, and except as provided in paragraph (b) ~~s.~~ ~~163.3189(2) or s. 163.3191(11).~~

~~(9)(12)~~ GOOD FAITH FILING.—The signature of an attorney or

HB 7129

2011

party constitutes a certificate that he or she has read the pleading, motion, or other paper and that, to the best of his or her knowledge, information, and belief formed after reasonable inquiry, it is not interposed for any improper purpose, such as to harass or to cause unnecessary delay, or for economic advantage, competitive reasons, or frivolous purposes or needless increase in the cost of litigation. If a pleading, motion, or other paper is signed in violation of these requirements, the administrative law judge, upon motion or his or her own initiative, shall impose upon the person who signed it, a represented party, or both, an appropriate sanction, which may include an order to pay to the other party or parties the amount of reasonable expenses incurred because of the filing of the pleading, motion, or other paper, including a reasonable attorney's fee.

(10) ~~(13)~~ EXCLUSIVE PROCEEDINGS.—The proceedings under this section shall be the sole proceeding or action for a determination of whether a local government's plan, element, or amendment is in compliance with this act.

~~(14) AREAS OF CRITICAL STATE CONCERN.—No proposed local government comprehensive plan or plan amendment which is applicable to a designated area of critical state concern shall be effective until a final order is issued finding the plan or amendment to be in compliance as defined in this section.~~

(11) ~~(15)~~ PUBLIC HEARINGS.—

(a) The procedure for transmittal of a complete proposed comprehensive plan or plan amendment pursuant to subparagraphs ~~subsection~~ (3) (b)1. and (4) (b) and for adoption of a

HB 7129

2011

comprehensive plan or plan amendment pursuant to subparagraphs (3)(c)1. and (4)(e)1. ~~subsection (7)~~ shall be by affirmative vote of not less than a majority of the members of the governing body present at the hearing. The adoption of a comprehensive plan or plan amendment shall be by ordinance. For the purposes of transmitting or adopting a comprehensive plan or plan amendment, the notice requirements in chapters 125 and 166 are superseded by this subsection, except as provided in this part.

(b) The local governing body shall hold at least two advertised public hearings on the proposed comprehensive plan or plan amendment as follows:

1. The first public hearing shall be held at the transmittal stage ~~pursuant to subsection (3)~~. It shall be held on a weekday at least 7 days after the day that the first advertisement is published pursuant to the requirements of chapter 125 or chapter 166.

2. The second public hearing shall be held at the adoption stage ~~pursuant to subsection (7)~~. It shall be held on a weekday at least 5 days after the day that the second advertisement is published pursuant to the requirements of chapter 125 or chapter 166.

(c) Nothing in this part is intended to prohibit or limit the authority of local governments to require a person requesting an amendment to pay some or all of the cost of the public notice.

(12) CONCURRENT ZONING.—At the request of an applicant, a local government shall consider an application for zoning

HB 7129

2011

5433 changes that would be required to properly enact the provisions
5434 of any proposed plan amendment transmitted pursuant to this
5435 subsection. Zoning changes approved by the local government are

5881 ~~unless it is shown by a preponderance of the evidence that the~~
5882 ~~amendment is not in compliance with the requirements of this~~
5883 ~~act. In any proceeding initiated pursuant to this subsection,~~
5884 The state land planning agency may not intervene in any
5885 proceeding initiated pursuant to this section.

5886 (b)1. If the administrative law judge recommends that the
5887 small scale development amendment be found not in compliance,
5888 the administrative law judge shall submit the recommended order
5889 to the Administration Commission for final agency action. If the
5890 administrative law judge recommends that the small scale
5891 development amendment be found in compliance, the administrative
5892 law judge shall submit the recommended order to the state land
5893 planning agency.

5894 2. If the state land planning agency determines that the
5895 plan amendment is not in compliance, the agency shall submit,
5896 within 30 days following its receipt, the recommended order to
5897 the Administration Commission for final agency action. If the
5898 state land planning agency determines that the plan amendment is
5899 in compliance, the agency shall enter a final order within 30
5900 days following its receipt of the recommended order.

5901 (c) Small scale development amendments shall not become
5902 effective until 31 days after adoption. If challenged within 30
5903 days after adoption, small scale development amendments shall
5904 not become effective until the state land planning agency or the
5905 Administration Commission, respectively, issues a final order
5906 determining that the adopted small scale development amendment
5907 is in compliance.

5908 (d) In all challenges under this subsection, when a

HB 7129

2011

determination of compliance as defined in s. 163.3184(1)(b) is
made, consideration shall be given to the plan amendment as a
whole and whether the plan amendment furthers the intent of this
part.

~~(4) Each governing body shall transmit to the state land
planning agency a current copy of its comprehensive plan not
later than December 1, 1985. Each governing body shall also
transmit copies of any amendments it adopts to its comprehensive
plan so as to continually update the plans on file with the
state land planning agency.~~

~~(5) Nothing in this part is intended to prohibit or limit
the authority of local governments to require that a person
requesting an amendment pay some or all of the cost of public
notice.~~

~~(6)(a) No local government may amend its comprehensive
plan after the date established by the state land planning
agency for adoption of its evaluation and appraisal report
unless it has submitted its report or addendum to the state land
planning agency as prescribed by s. 163.3191, except for plan
amendments described in paragraph (1)(b) or paragraph (1)(h).~~

~~(b) A local government may amend its comprehensive plan
after it has submitted its adopted evaluation and appraisal
report and for a period of 1 year after the initial
determination of sufficiency regardless of whether the report
has been determined to be insufficient.~~

~~(c) A local government may not amend its comprehensive
plan, except for plan amendments described in paragraph (1)(b),
if the 1-year period after the initial sufficiency determination~~

HB 7129

2011

~~of the report has expired and the report has not been determined to be sufficient.~~

~~(d) When the state land planning agency has determined that the report has sufficiently addressed all pertinent provisions of s. 163.3191, the local government may amend its comprehensive plan without the limitations imposed by paragraph (a) or paragraph (c).~~

~~(e) Any plan amendment which a local government attempts to adopt in violation of paragraph (a) or paragraph (c) is invalid, but such invalidity may be overcome if the local government readopts the amendment and transmits the amendment to the state land planning agency pursuant to s. 163.3184(7) after the report is determined to be sufficient.~~

Section 18. Section 163.3189, Florida Statutes, is repealed.

Section 19. Section 163.3191, Florida Statutes, is amended to read:

163.3191 Evaluation and appraisal of comprehensive plan.—

(1) At least once every 7 years, each local government shall evaluate its comprehensive plan to determine if plan amendments are necessary to reflect changes in state requirements in this part since the last update of the comprehensive plan, and notify the state land planning agency as to its determination.

(2) If the local government determines amendments to its comprehensive plan are necessary to reflect changes in state requirements, the local government shall prepare and transmit within 1 year such plan amendment or amendments for review

HB 7129

2011

5965 pursuant to s. 163.3184.

5966 (3) Local governments are encouraged to comprehensively
5967 evaluate and, as necessary, update comprehensive plans to
5968 reflect changes in local conditions. Plan amendments transmitted
5969 pursuant to this section shall be reviewed in accordance with s.
5970 163.3184.

5971 (4) If a local government fails to submit its letter
5972 prescribed by subsection (1) or update its plan pursuant to
5973 subsection (2), it may not amend its comprehensive plan until
5974 such time as it complies with this section.

5975 ~~(1) The planning program shall be a continuous and ongoing~~
5976 ~~process. Each local government shall adopt an evaluation and~~
5977 ~~appraisal report once every 7 years assessing the progress in~~
5978 ~~implementing the local government's comprehensive plan.~~
5979 ~~Furthermore, it is the intent of this section that:~~

5980 ~~(a) Adopted comprehensive plans be reviewed through such~~
5981 ~~evaluation process to respond to changes in state, regional, and~~
5982 ~~local policies on planning and growth management and changing~~
5983 ~~conditions and trends, to ensure effective intergovernmental~~
5984 ~~coordination, and to identify major issues regarding the~~
5985 ~~community's achievement of its goals.~~

5986 ~~(b) After completion of the initial evaluation and~~
5987 ~~appraisal report and any supporting plan amendments, each~~
5988 ~~subsequent evaluation and appraisal report must evaluate the~~
5989 ~~comprehensive plan in effect at the time of the initiation of~~
5990 ~~the evaluation and appraisal report process.~~

5991 ~~(c) Local governments identify the major issues, if~~
5992 ~~applicable, with input from state agencies, regional agencies,~~

HB 7129

2011

~~adjacent local governments, and the public in the evaluation and appraisal report process. It is also the intent of this section to establish minimum requirements for information to ensure predictability, certainty, and integrity in the growth management process. The report is intended to serve as a summary audit of the actions that a local government has undertaken and identify changes that it may need to make. The report should be based on the local government's analysis of major issues to further the community's goals consistent with statewide minimum standards. The report is not intended to require a comprehensive rewrite of the elements within the local plan, unless a local government chooses to do so.~~

~~(2) The report shall present an evaluation and assessment of the comprehensive plan and shall contain appropriate statements to update the comprehensive plan, including, but not limited to, words, maps, illustrations, or other media, related to:~~

~~(a) Population growth and changes in land area, including annexation, since the adoption of the original plan or the most recent update amendments.~~

~~(b) The extent of vacant and developable land.~~

~~(c) The financial feasibility of implementing the comprehensive plan and of providing needed infrastructure to achieve and maintain adopted level-of-service standards and sustain concurrency management systems through the capital improvements element, as well as the ability to address infrastructure backlogs and meet the demands of growth on public services and facilities.~~

~~(d) The location of existing development in relation to the location of development as anticipated in the original plan, or in the plan as amended by the most recent evaluation and appraisal report update amendments, such as within areas designated for urban growth.~~

~~(e) An identification of the major issues for the jurisdiction and, where pertinent, the potential social, economic, and environmental impacts.~~

~~(f) Relevant changes to the state comprehensive plan, the requirements of this part, the minimum criteria contained in chapter 9J-5, Florida Administrative Code, and the appropriate strategic regional policy plan since the adoption of the original plan or the most recent evaluation and appraisal report update amendments.~~

~~(g) An assessment of whether the plan objectives within each element, as they relate to major issues, have been achieved. The report shall include, as appropriate, an identification as to whether unforeseen or unanticipated changes in circumstances have resulted in problems or opportunities with respect to major issues identified in each element and the social, economic, and environmental impacts of the issue.~~

~~(h) A brief assessment of successes and shortcomings related to each element of the plan.~~

~~(i) The identification of any actions or corrective measures, including whether plan amendments are anticipated to address the major issues identified and analyzed in the report. Such identification shall include, as appropriate, new population projections, new revised planning timeframes, a~~

HB 7129

2011

6049 ~~revised future conditions map or map series, an updated capital~~
6050 ~~improvements element, and any new and revised goals, objectives,~~
6051 ~~and policies for major issues identified within each element.~~
6052 ~~This paragraph shall not require the submittal of the plan~~
6053 ~~amendments with the evaluation and appraisal report.~~

6054 ~~(j) A summary of the public participation program and~~
6055 ~~activities undertaken by the local government in preparing the~~
6056 ~~report.~~

6057 ~~(k) The coordination of the comprehensive plan with~~
6058 ~~existing public schools and those identified in the applicable~~
6059 ~~educational facilities plan adopted pursuant to s. 1013.35. The~~
6060 ~~assessment shall address, where relevant, the success or failure~~
6061 ~~of the coordination of the future land use map and associated~~
6062 ~~planned residential development with public schools and their~~
6063 ~~capacities, as well as the joint decisionmaking processes~~
6064 ~~engaged in by the local government and the school board in~~
6065 ~~regard to establishing appropriate population projections and~~
6066 ~~the planning and siting of public school facilities. For those~~
6067 ~~counties or municipalities that do not have a public schools~~
6068 ~~interlocal agreement or public school facilities element, the~~
6069 ~~assessment shall determine whether the local government~~
6070 ~~continues to meet the criteria of s. 163.3177(12). If the county~~
6071 ~~or municipality determines that it no longer meets the criteria,~~
6072 ~~it must adopt appropriate school concurrency goals, objectives,~~
6073 ~~and policies in its plan amendments pursuant to the requirements~~
6074 ~~of the public school facilities element, and enter into the~~
6075 ~~existing interlocal agreement required by ss. 163.3177(6)(h)2.~~
6076 ~~and 163.31777 in order to fully participate in the school~~

HB 7129

2011

6077 ~~concurrency system.~~

6078 ~~(1) The extent to which the local government has been~~
6079 ~~successful in identifying alternative water supply projects and~~
6080 ~~traditional water supply projects, including conservation and~~
6081 ~~reuse, necessary to meet the water needs identified in s.~~
6082 ~~373.709(2)(a) within the local government's jurisdiction. The~~
6083 ~~report must evaluate the degree to which the local government~~
6084 ~~has implemented the work plan for building public, private, and~~
6085 ~~regional water supply facilities, including development of~~
6086 ~~alternative water supplies, identified in the element as~~
6087 ~~necessary to serve existing and new development.~~

6088 ~~(m) If any of the jurisdiction of the local government is~~
6089 ~~located within the coastal high-hazard area, an evaluation of~~
6090 ~~whether any past reduction in land use density impairs the~~
6091 ~~property rights of current residents when redevelopment occurs,~~
6092 ~~including, but not limited to, redevelopment following a natural~~
6093 ~~disaster. The property rights of current residents shall be~~
6094 ~~balanced with public safety considerations. The local government~~
6095 ~~must identify strategies to address redevelopment feasibility~~
6096 ~~and the property rights of affected residents. These strategies~~
6097 ~~may include the authorization of redevelopment up to the actual~~
6098 ~~built density in existence on the property prior to the natural~~
6099 ~~disaster or redevelopment.~~

6100 ~~(n) An assessment of whether the criteria adopted pursuant~~
6101 ~~to s. 163.3177(6)(a) were successful in achieving compatibility~~
6102 ~~with military installations.~~

6103 ~~(o) The extent to which a concurrency exception area~~
6104 ~~designated pursuant to s. 163.3180(5), a concurrency management~~

HB 7129

2011

6105 ~~area designated pursuant to s. 163.3180(7), or a multimodal~~
6106 ~~transportation district designated pursuant to s. 163.3180(15)~~
6107 ~~has achieved the purpose for which it was created and otherwise~~
6108 ~~complies with the provisions of s. 163.3180.~~

6109 ~~(p) An assessment of the extent to which changes are~~
6110 ~~needed to develop a common methodology for measuring impacts on~~
6111 ~~transportation facilities for the purpose of implementing its~~
6112 ~~concurrency management system in coordination with the~~
6113 ~~municipalities and counties, as appropriate pursuant to s.~~
6114 ~~163.3180(10).~~

6115 ~~(3) Voluntary scoping meetings may be conducted by each~~
6116 ~~local government or several local governments within the same~~
6117 ~~county that agree to meet together. Joint meetings among all~~
6118 ~~local governments in a county are encouraged. All scoping~~
6119 ~~meetings shall be completed at least 1 year prior to the~~
6120 ~~established adoption date of the report. The purpose of the~~
6121 ~~meetings shall be to distribute data and resources available to~~
6122 ~~assist in the preparation of the report, to provide input on~~
6123 ~~major issues in each community that should be addressed in the~~
6124 ~~report, and to advise on the extent of the effort for the~~
6125 ~~components of subsection (2). If scoping meetings are held, the~~
6126 ~~local government shall invite each state and regional reviewing~~
6127 ~~agency, as well as adjacent and other affected local~~
6128 ~~governments. A preliminary list of new data and major issues~~
6129 ~~that have emerged since the adoption of the original plan, or~~
6130 ~~the most recent evaluation and appraisal report-based update~~
6131 ~~amendments, should be developed by state and regional entities~~
6132 ~~and involved local governments for distribution at the scoping~~

HB 7129

2011

6133 ~~meeting. For purposes of this subsection, a "scoping meeting" is~~
6134 ~~a meeting conducted to determine the scope of review of the~~
6135 ~~evaluation and appraisal report by parties to which the report~~
6136 ~~relates.~~

6137 ~~(4) The local planning agency shall prepare the evaluation~~
6138 ~~and appraisal report and shall make recommendations to the~~
6139 ~~governing body regarding adoption of the proposed report. The~~
6140 ~~local planning agency shall prepare the report in conformity~~
6141 ~~with its public participation procedures adopted as required by~~
6142 ~~s. 163.3181. During the preparation of the proposed report and~~
6143 ~~prior to making any recommendation to the governing body, the~~
6144 ~~local planning agency shall hold at least one public hearing,~~
6145 ~~with public notice, on the proposed report. At a minimum, the~~
6146 ~~format and content of the proposed report shall include a table~~
6147 ~~of contents; numbered pages; element headings; section headings~~
6148 ~~within elements; a list of included tables, maps, and figures; a~~
6149 ~~title and sources for all included tables; a preparation date;~~
6150 ~~and the name of the preparer. Where applicable, maps shall~~
6151 ~~include major natural and artificial geographic features; city,~~
6152 ~~county, and state lines; and a legend indicating a north arrow,~~
6153 ~~map scale, and the date.~~

6154 ~~(5) Ninety days prior to the scheduled adoption date, the~~
6155 ~~local government may provide a proposed evaluation and appraisal~~
6156 ~~report to the state land planning agency and distribute copies~~
6157 ~~to state and regional commenting agencies as prescribed by rule,~~
6158 ~~adjacent jurisdictions, and interested citizens for review. All~~
6159 ~~review comments, including comments by the state land planning~~
6160 ~~agency, shall be transmitted to the local government and state~~

HB 7129

2011

land planning agency within 30 days after receipt of the proposed report.

~~(6) The governing body, after considering the review comments and recommended changes, if any, shall adopt the evaluation and appraisal report by resolution or ordinance at a public hearing with public notice. The governing body shall adopt the report in conformity with its public participation procedures adopted as required by s. 163.3181. The local government shall submit to the state land planning agency three copies of the report, a transmittal letter indicating the dates of public hearings, and a copy of the adoption resolution or ordinance. The local government shall provide a copy of the report to the reviewing agencies which provided comments for the proposed report, or to all the reviewing agencies if a proposed report was not provided pursuant to subsection (5), including the adjacent local governments. Within 60 days after receipt, the state land planning agency shall review the adopted report and make a preliminary sufficiency determination that shall be forwarded by the agency to the local government for its consideration. The state land planning agency shall issue a final sufficiency determination within 90 days after receipt of the adopted evaluation and appraisal report.~~

~~(7) The intent of the evaluation and appraisal process is the preparation of a plan update that clearly and concisely achieves the purpose of this section. Toward this end, the sufficiency review of the state land planning agency shall concentrate on whether the evaluation and appraisal report sufficiently fulfills the components of subsection (2). If the~~

HB 7129

2011

6189 ~~state land planning agency determines that the report is~~
6190 ~~insufficient, the governing body shall adopt a revision of the~~
6191 ~~report and submit the revised report for review pursuant to~~
6192 ~~subsection (6).~~

6193 ~~(8) The state land planning agency may delegate the review~~
6194 ~~of evaluation and appraisal reports, including all state land~~
6195 ~~planning agency duties under subsections (4)-(7), to the~~
6196 ~~appropriate regional planning council. When the review has been~~
6197 ~~delegated to a regional planning council, any local government~~
6198 ~~in the region may elect to have its report reviewed by the~~
6199 ~~regional planning council rather than the state land planning~~
6200 ~~agency. The state land planning agency shall by agreement~~
6201 ~~provide for uniform and adequate review of reports and shall~~
6202 ~~retain oversight for any delegation of review to a regional~~
6203 ~~planning council.~~

6204 ~~(9) The state land planning agency may establish a phased~~
6205 ~~schedule for adoption of reports. The schedule shall provide~~
6206 ~~each local government at least 7 years from plan adoption or~~
6207 ~~last established adoption date for a report and shall allot~~
6208 ~~approximately one-seventh of the reports to any 1 year. In order~~
6209 ~~to allow the municipalities to use data and analyses gathered by~~
6210 ~~the counties, the state land planning agency shall schedule~~
6211 ~~municipal report adoption dates between 1 year and 18 months~~
6212 ~~later than the report adoption date for the county in which~~
6213 ~~those municipalities are located. A local government may adopt~~
6214 ~~its report no earlier than 90 days prior to the established~~
6215 ~~adoption date. Small municipalities which were scheduled by~~
6216 ~~chapter 9J-33, Florida Administrative Code, to adopt their~~

HB 7129

2011

6217 ~~evaluation and appraisal report after February 2, 1999, shall be~~
6218 ~~rescheduled to adopt their report together with the other~~
6219 ~~municipalities in their county as provided in this subsection.~~

6220 ~~(10) The governing body shall amend its comprehensive plan~~
6221 ~~based on the recommendations in the report and shall update the~~
6222 ~~comprehensive plan based on the components of subsection (2),~~
6223 ~~pursuant to the provisions of ss. 163.3184, 163.3187, and~~
6224 ~~163.3189. Amendments to update a comprehensive plan based on the~~
6225 ~~evaluation and appraisal report shall be adopted during a single~~
6226 ~~amendment cycle within 18 months after the report is determined~~
6227 ~~to be sufficient by the state land planning agency, except the~~
6228 ~~state land planning agency may grant an extension for adoption~~
6229 ~~of a portion of such amendments. The state land planning agency~~
6230 ~~may grant a 6-month extension for the adoption of such~~
6231 ~~amendments if the request is justified by good and sufficient~~
6232 ~~cause as determined by the agency. An additional extension may~~
6233 ~~also be granted if the request will result in greater~~
6234 ~~coordination between transportation and land use, for the~~
6235 ~~purposes of improving Florida's transportation system, as~~
6236 ~~determined by the agency in coordination with the Metropolitan~~
6237 ~~Planning Organization program. Beginning July 1, 2006, failure~~
6238 ~~to timely adopt and transmit update amendments to the~~
6239 ~~comprehensive plan based on the evaluation and appraisal report~~
6240 ~~shall result in a local government being prohibited from~~
6241 ~~adopting amendments to the comprehensive plan until the~~
6242 ~~evaluation and appraisal report update amendments have been~~
6243 ~~adopted and transmitted to the state land planning agency. The~~
6244 ~~prohibition on plan amendments shall commence when the update~~

HB 7129

2011

6245 ~~amendments to the comprehensive plan are past due. The~~
6246 ~~comprehensive plan as amended shall be in compliance as defined~~
6247 ~~in s. 163.3184(1)(b). Within 6 months after the effective date~~
6248 ~~of the update amendments to the comprehensive plan, the local~~
6249 ~~government shall provide to the state land planning agency and~~
6250 ~~to all agencies designated by rule a complete copy of the~~
6251 ~~updated comprehensive plan.~~

6252 ~~(11) The Administration Commission may impose the~~
6253 ~~sanctions provided by s. 163.3184(11) against any local~~
6254 ~~government that fails to adopt and submit a report, or that~~
6255 ~~fails to implement its report through timely and sufficient~~
6256 ~~amendments to its local plan, except for reasons of excusable~~
6257 ~~delay or valid planning reasons agreed to by the state land~~
6258 ~~planning agency or found present by the Administration~~
6259 ~~Commission. Sanctions for untimely or insufficient plan~~
6260 ~~amendments shall be prospective only and shall begin after a~~
6261 ~~final order has been issued by the Administration Commission and~~
6262 ~~a reasonable period of time has been allowed for the local~~
6263 ~~government to comply with an adverse determination by the~~
6264 ~~Administration Commission through adoption of plan amendments~~
6265 ~~that are in compliance. The state land planning agency may~~
6266 ~~initiate, and an affected person may intervene in, such a~~
6267 ~~proceeding by filing a petition with the Division of~~
6268 ~~Administrative Hearings, which shall appoint an administrative~~
6269 ~~law judge and conduct a hearing pursuant to ss. 120.569 and~~
6270 ~~120.57(1) and shall submit a recommended order to the~~
6271 ~~Administration Commission. The affected local government shall~~
6272 ~~be a party to any such proceeding. The commission may implement~~

HB 7129

2011

~~this subsection by rule.~~

(5)~~(12)~~ The state land planning agency shall not adopt rules to implement this section, other than procedural rules.

~~(13) The state land planning agency shall regularly review the evaluation and appraisal report process and submit a report to the Governor, the Administration Commission, the Speaker of the House of Representatives, the President of the Senate, and the respective community affairs committees of the Senate and the House of Representatives. The first report shall be submitted by December 31, 2004, and subsequent reports shall be submitted every 5 years thereafter. At least 9 months before the due date of each report, the Secretary of Community Affairs shall appoint a technical committee of at least 15 members to assist in the preparation of the report. The membership of the technical committee shall consist of representatives of local governments, regional planning councils, the private sector, and environmental organizations. The report shall assess the effectiveness of the evaluation and appraisal report process.~~

~~(14) The requirement of subsection (10) prohibiting a local government from adopting amendments to the local comprehensive plan until the evaluation and appraisal report update amendments have been adopted and transmitted to the state land planning agency does not apply to a plan amendment proposed for adoption by the appropriate local government as defined in s. 163.3178(2)(k) in order to integrate a port comprehensive master plan with the coastal management element of the local comprehensive plan as required by s. 163.3178(2)(k) if the port comprehensive master plan or the proposed plan amendment does~~

HB 7129

2011

~~not cause or contribute to the failure of the local government to comply with the requirements of the evaluation and appraisal report.~~

Section 20. Paragraph (b) of subsection (2) of section 163.3217, Florida Statutes, is amended to read:

163.3217 Municipal overlay for municipal incorporation.—

(2) PREPARATION, ADOPTION, AND AMENDMENT OF THE MUNICIPAL OVERLAY.—

(b)~~1.~~ A municipal overlay shall be adopted as an amendment to the local government comprehensive plan as prescribed by s. 163.3184.

~~2. A county may consider the adoption of a municipal overlay without regard to the provisions of s. 163.3187(1) regarding the frequency of adoption of amendments to the local comprehensive plan.~~

Section 21. Subsection (3) of section 163.3220, Florida Statutes, is amended to read:

163.3220 Short title; legislative intent.—

(3) In conformity with, in furtherance of, and to implement the Community ~~Local Government Comprehensive Planning and Land Development Regulation~~ Act and the Florida State Comprehensive Planning Act of 1972, it is the intent of the Legislature to encourage a stronger commitment to comprehensive and capital facilities planning, ensure the provision of adequate public facilities for development, encourage the efficient use of resources, and reduce the economic cost of development.

Section 22. Subsections (2) and (11) of section 163.3221,

HB 7129

2011

Florida Statutes, are amended to read:

163.3221 Florida Local Government Development Agreement Act; definitions.—As used in ss. 163.3220-163.3243:

(2) "Comprehensive plan" means a plan adopted pursuant to the Community ~~"Local Government Comprehensive Planning and Land Development Regulation Act."~~

(11) "Local planning agency" means the agency designated to prepare a comprehensive plan or plan amendment pursuant to the Community ~~"Florida Local Government Comprehensive Planning and Land Development Regulation Act."~~

Section 23. Section 163.3229, Florida Statutes, is amended to read:

163.3229 Duration of a development agreement and relationship to local comprehensive plan.—The duration of a development agreement may ~~shall~~ not exceed 20 years, unless it is. ~~It may be~~ extended by mutual consent of the governing body and the developer, subject to a public hearing in accordance with s. 163.3225. No development agreement shall be effective or be implemented by a local government unless the local government's comprehensive plan and plan amendments implementing or related to the agreement are ~~found~~ in compliance ~~by the state land planning agency~~ in accordance with s. 163.3184, ~~s. 163.3187, or s. 163.3189.~~

Section 24. Section 163.3235, Florida Statutes, is amended to read:

163.3235 Periodic review of a development agreement.—A local government shall review land subject to a development agreement at least once every 12 months to determine if there

2011

6357 has been demonstrated good faith compliance with the terms of
6358 the development agreement. ~~For each annual review conducted~~
6359 ~~during years 6 through 10 of a development agreement, the review~~
6360 ~~shall be incorporated into a written report which shall be~~
6361 ~~submitted to the parties to the agreement and the state land~~
6362 ~~planning agency. The state land planning agency shall adopt~~
6363 ~~rules regarding the contents of the report, provided that the~~
6364 ~~report shall be limited to the information sufficient to~~
6365 ~~determine the extent to which the parties are proceeding in good~~
6366 ~~faith to comply with the terms of the development agreement. If~~
6367 the local government finds, on the basis of substantial
6368 competent evidence, that there has been a failure to comply with
6369 the terms of the development agreement, the agreement may be
6370 revoked or modified by the local government.

6371 Section 25. Section 163.3239, Florida Statutes, is amended
6372 to read:

6373 163.3239 Recording and effectiveness of a development
6374 agreement.—Within 14 days after a local government enters into a
6375 development agreement, the local government shall record the
6376 agreement with the clerk of the circuit court in the county
6377 where the local government is located. ~~A copy of the recorded~~
6378 ~~development agreement shall be submitted to the state land~~
6379 ~~planning agency within 14 days after the agreement is recorded.~~
6380 A development agreement shall not be effective until it is
6381 properly recorded in the public records of the county ~~and until~~
6382 ~~30 days after having been received by the state land planning~~
6383 ~~agency pursuant to this section.~~ The burdens of the development
6384 agreement shall be binding upon, and the benefits of the

HB 7129

2011

agreement shall inure to, all successors in interest to the parties to the agreement.

Section 26. Section 163.3243, Florida Statutes, is amended to read:

163.3243 Enforcement.—Any party or, ~~any~~ aggrieved or adversely affected person as defined in s. 163.3215(2), ~~or the state land planning agency~~ may file an action for injunctive relief in the circuit court where the local government is located to enforce the terms of a development agreement or to challenge compliance of the agreement with the provisions of ss. 163.3220-163.3243.

Section 27. Section 163.3245, Florida Statutes, is amended to read:

163.3245 ~~Optional~~ Sector plans.—

(1) In recognition of the benefits of ~~conceptual~~ long-range planning for ~~the buildout of an area, and detailed planning for specific areas, as a demonstration project, the requirements of s. 380.06 may be addressed as identified by this section for up to five~~ local governments or combinations of local governments may ~~which~~ adopt into their ~~the~~ comprehensive plans ~~plan~~ an ~~optional~~ sector plan in accordance with this section. This section is intended to promote and encourage long-term planning for conservation, development, and agriculture on a landscape scale; to further the intent of s. 163.3168 ~~163.3177(11)~~, which supports innovative and flexible planning and development strategies, and the purposes of this part, and part I of chapter 380 to facilitate protection of regionally significant natural resources, including water courses and

6413 wildlife corridors; and to avoid duplication of effort in terms
6414 of the level of data and analysis required for a development of
6415 regional impact, while ensuring the adequate mitigation of
6416 impacts to applicable state and regional resources and
6417 facilities, including those within the jurisdiction of other
6418 local governments, as would otherwise be provided. ~~Optional~~
6419 Sector plans are intended for substantial geographic areas that
6420 include ~~including~~ at least 15,000 ~~5,000~~ acres of one or more
6421 local governmental jurisdictions and are to emphasize urban form
6422 and protection of state and regionally significant resources and
6423 public facilities. ~~The state land planning agency may approve~~
6424 ~~optional sector plans of less than 5,000 acres based on local~~
6425 ~~circumstances if it is determined that the plan would further~~
6426 ~~the purposes of this part and part I of chapter 380. Preparation~~
6427 ~~of an optional sector plan is authorized by agreement between~~
6428 ~~the state land planning agency and the applicable local~~
6429 ~~governments under s. 163.3171(4). An optional sector plan may be~~
6430 ~~adopted through one or more comprehensive plan amendments under~~
6431 ~~s. 163.3184. However, an optional~~ A sector plan may not be
6432 adopted ~~authorized~~ in an area of critical state concern.

6433 (2) Upon the request of a local government with
6434 jurisdiction, ~~The state land planning agency may enter into an~~
6435 ~~agreement to authorize preparation of an optional sector plan~~
6436 ~~upon the request of one or more local governments based on~~
6437 ~~consideration of problems and opportunities presented by~~
6438 ~~existing development trends; the effectiveness of current~~
6439 ~~comprehensive plan provisions; the potential to further the~~
6440 ~~state comprehensive plan, applicable strategic regional policy~~

2011

6441 ~~plans, this part, and part I of chapter 380; and those factors~~
6442 ~~identified by s. 163.3177(10)(i).~~ the applicable regional
6443 planning council shall conduct a scoping meeting with affected
6444 local governments and those agencies identified in s.
6445 163.3184(1)(c)(4) before preparation of the sector plan
6446 ~~execution of the agreement authorized by this section.~~ The
6447 purpose of this meeting is to assist the state land planning
6448 agency and the local government in the identification of the
6449 relevant planning issues to be addressed and the data and
6450 resources available to assist in the preparation of the sector
6451 plan subsequent plan amendments. In the event that a scoping
6452 meeting is conducted, the regional planning council shall make
6453 written recommendations to the state land planning agency and
6454 affected local governments, on the issues requested by the local
6455 government. The scoping meeting shall be noticed and open to the
6456 public. In the event that the entire planning area proposed for
6457 the sector plan is within the jurisdiction of two or more local
6458 governments, some or all of them may enter into a joint planning
6459 agreement pursuant to s. 163.3171 with respect to including
6460 ~~whether a sustainable sector plan would be appropriate.~~ The
6461 ~~agreement must define~~ the geographic area to be subject to the
6462 sector plan, the planning issues that will be emphasized,
6463 procedures ~~requirements~~ for intergovernmental coordination to
6464 address extrajurisdictional impacts, supporting application
6465 materials including data and analysis, ~~and~~ procedures for public
6466 participation, or other issues. ~~An agreement may address~~
6467 ~~previously adopted sector plans that are consistent with the~~
6468 ~~standards in this section. Before executing an agreement under~~

HB 7129

2011

~~this subsection, the local government shall hold a duly noticed public workshop to review and explain to the public the optional sector planning process and the terms and conditions of the proposed agreement. The local government shall hold a duly noticed public hearing to execute the agreement. All meetings between the department and the local government must be open to the public.~~

(3) ~~Optional~~ Sector planning encompasses two levels: adoption pursuant to ~~under~~ s. 163.3184 of a ~~conceptual~~ long-term master plan for the entire planning area as part of the comprehensive plan, and adoption by local development order of two or more buildout overlay to the comprehensive plan, having no immediate effect on the issuance of development orders or the applicability of s. 380.06, and adoption under s. 163.3184 of detailed specific area plans that implement the ~~conceptual~~ long-term master plan buildout overlay and authorize issuance of development orders, and within which s. 380.06 is waived. ~~Until such time as a detailed specific area plan is adopted, the underlying future land use designations apply.~~

(a) In addition to the other requirements of this chapter, a long-term master plan pursuant to this section ~~conceptual long-term buildout overlay~~ must include maps, illustrations, and text supported by data and analysis to address the following:

1. A ~~long-range conceptual~~ framework map that, at a minimum, generally depicts ~~identifies~~ anticipated areas of urban, agricultural, rural, and conservation land use; identifies allowed uses in various parts of the planning area; specifies maximum and minimum densities and intensities of use;

HB 7129

2011

and provides the conceptual framework for the development pattern in developed areas with graphic illustrations based on a hierarchy of places and functional place-making components.

2. A general identification of the water supplies needed and available sources of water, including water resource development and water supply development projects, and water conservation measures needed to meet the projected demand of the future land uses in the long-term master plan.

3. A general identification of the transportation facilities to serve the future land uses in the long-term master plan, including guidelines to be used to establish each modal component intended to optimize mobility.

4.2. A general identification of other state or regionally significant public facilities ~~consistent with chapter 9J-2, Florida Administrative Code, irrespective of local governmental jurisdiction~~ necessary to support buildout of the anticipated future land uses, which may include central utilities provided on-site within the planning area, and policies setting forth the procedures to be used to mitigate the impacts of future land uses on public facilities.

5.3. A general identification of state or regionally significant natural resources within the planning area and policies setting forth the procedures for protection or conservation of specific resources consistent with the overall conservation and development strategy for the planning area ~~consistent with chapter 9J-2, Florida Administrative Code.~~

6.4. General principles and guidelines addressing that ~~address~~ the urban form and the interrelationships of anticipated

6525 future land uses; the protection and, as appropriate,
6526 restoration and management of lands identified for permanent
6527 preservation; conservation easements pursuant to s. 704.06; and
6528 ~~a discussion, at the applicant's option, of the extent, if any,~~
6529 ~~to which the plan will address restoring key ecosystems,~~
6530 achieving a more clean, healthy environment; limiting urban
6531 sprawl; providing a range of housing types; ~~protecting wildlife~~
6532 ~~and natural areas;~~ advancing the efficient use of land and
6533 other resources; ~~and creating quality communities of a design~~
6534 that promotes travel by multiple transportation modes; and
6535 enhancing the prospects for the creation of jobs.

6536 ~~7.5.~~ Identification of general procedures and policies to
6537 facilitate ~~ensure~~ intergovernmental coordination to address
6538 extrajurisdictional impacts from the future land uses ~~long-range~~

6540
6541 A long-term master plan adopted pursuant to this paragraph may
6542 be based upon a planning period longer than the generally
6543 applicable planning period of the local comprehensive plan,
6544 shall specify the projected population within the planning area
6545 during the chosen planning period, and may include a phasing or
6546 staging schedule that allocates a portion of the local
6547 government's future growth to the planning area through the
6548 planning period. It shall not be a requirement for a long-term
6549 master plan adopted pursuant to this section to demonstrate need
6550 based upon projected population growth or on any other basis.

6551 (b) In addition to the other requirements of this chapter,
6552 ~~including those in paragraph (a),~~ the detailed specific area

plans shall be consistent with and implement the long-term master plan and must include conditions and commitments which provide for:

1. Development or conservation of an area of ~~adequate size~~ to ~~accommodate a level of development which achieves a functional relationship between a full range of land uses within the area and to encompass~~ at least 1,000 acres consistent with the long-term master plan. The local government ~~state land planning agency~~ may approve detailed specific area plans of less than 1,000 acres based on local circumstances if it is determined that the detailed specific area plan furthers the purposes of this part and part I of chapter 380.

2. Detailed identification and analysis of the maximum and minimum densities and intensities of use and the distribution, extent, and location of future land uses.

3. Detailed identification of water resource development and water supply development projects and related infrastructure and water conservation measures to address water needs of development in the detailed specific area plan.

4. Detailed identification of the transportation facilities to serve the future land uses in the detailed specific area plan.

~~5.3.~~ Detailed identification of other state or regionally significant public facilities, including public facilities outside the jurisdiction of the host local government, ~~anticipated~~ impacts of future land uses on those facilities, and required improvements consistent with the long-term master plan ~~chapter 9J-2, Florida Administrative Code.~~

6581 ~~6.4.~~ Public facilities necessary to serve development in
6582 the detailed specific area plan for the short term, including
6583 developer contributions in a ~~financially feasible~~ 5-year capital
6584 improvement schedule of the affected local government.

6585 ~~7.5.~~ Detailed analysis and identification of specific
6586 measures to assure the protection or conservation of lands
6587 identified in the long-term master plan to be permanently
6588 preserved and, as appropriate, restored or managed, ~~of~~
6589 ~~regionally significant natural resources~~ and other important
6590 resources both within and outside the host jurisdiction,
6591 ~~including those regionally significant resources identified in~~
6592 ~~chapter 9J-2, Florida Administrative Code.~~

6593 ~~8.6.~~ Detailed principles and guidelines addressing that
6594 ~~address~~ the urban form and the interrelationships of ~~anticipated~~

6596 ~~of the extent, if any, to which the plan will address restoring~~
6597 ~~key ecosystems~~, achieving a cleaner, healthier ~~more clean,~~
6598 ~~healthy~~ environment; limiting urban sprawl; providing a range
6599 of housing types; protecting wildlife and natural areas;
6600 ~~advancing the efficient use of land and other resources;~~ and
6601 creating quality communities of a design that promotes travel by
6602 multiple transportation modes; and enhancing the prospects for
6603 the creation of jobs.

6604 ~~9.7.~~ Identification of specific procedures to facilitate

6606 extrajurisdictional impacts from ~~of~~ the detailed specific area

6608

HB 7129

2011

6609 A detailed specific area plan adopted by local development order
6610 pursuant to this paragraph may be based upon a planning period
6611 longer than the generally applicable planning period of the
6612 local comprehensive plan and shall specify the projected
6613 population within the specific planning area during the chosen
6614 planning period. It shall not be a requirement for a long-term
6615 master plan adopted pursuant to this section to demonstrate need
6616 based upon projected population growth or on any other basis.

6617 (c) Notwithstanding the limitations on comments of
6618 agencies in s. 163.3184, in its review of a long-term master
6619 plan, the state land planning agency shall consult with the
6620 Department of Agriculture and Consumer Services, the Department
6621 of Environmental Protection, the Fish and Wildlife Conservation
6622 Commission, and the applicable water management district may
6623 comment on the design of areas for protection and conservation
6624 of state or regionally significant natural resources and for the
6625 protection by conservation easements pursuant to s. 704.06, or
6626 other methods and, as appropriate, restoration and management of
6627 lands identified for permanent preservation.

6628 (d) Notwithstanding the limitations on comments of
6629 agencies in s. 163.3184, in its review of a long-term master
6630 plan, the state land planning agency shall consult with the
6631 Department of Transportation, the applicable metropolitan
6632 planning organization, and any urban transit agency regarding
6633 the location, capacity, design, and phasing or staging of major
6634 transportation facilities in the planning area.

6635 (e) The local government must transmit the detail specific
6636 area plan development order to the state land planning agency.

HB 7129

2011

The state land planning agency may initiate a civil action pursuant to s. 163.3215 with respect to a detailed specific area plan that is not consistent with a long-term master plan adopted pursuant to this section. For purposes of such a proceeding, the state land planning agency shall be deemed an aggrieved and adversely affected party. Regardless of whether the local government has adopted an ordinance that establishes a local process which meets the requirements of s. 163.3215(4), judicial review of a detailed specific area plan initiated by the state land planning agency shall be de novo pursuant to s. 163.3215(3) and not by petition for writ of certiorari pursuant to s. 163.3215(4). Any other aggrieved or adversely affected party shall be subject to s. 163.3215 in all respects when initiating a consistency challenge to a detailed specific area plan.

(f)~~(e)~~ This subsection does ~~may not be construed to~~ prevent preparation and approval of the ~~optional~~ sector plan and detailed specific area plan concurrently or in the same submission.

(4) Upon the long-term master plan becoming legally effective:

(a) Any long-range transportation plan developed by a metropolitan planning organization pursuant to s. 339.175(7) must be consistent, to the maximum extent feasible, with the long-term master plan, including but not limited to the projected population, the approved use and densities and intensities of use and their distribution within the planning area. The transportation facilities identified in adopted plans pursuant to subparagraphs (3)(a)3. and (3)(b)4. must be

HB 7129

2011

developed in coordination with the adopted metropolitan planning organization long-range transportation plan.

(b) The water needs, sources, and water resource development and water supply development projects identified in adopted plans pursuant to sub-subparagraphs (3)(a)2. and (3)(b)3. shall be incorporated into the applicable district and regional water supply plans adopted in accordance with ss. 373.036 and 373.079. Accordingly, and notwithstanding the permit durations stated in s. 373.236, an applicant may request and the applicable district may issue consumptive use permits for durations commensurate with the long-term master plan. The permitting criteria in s. 373.223 shall be applied based upon the projected population and the approved densities and intensities of use and their distribution in the long-term master plan. However, nothing in this paragraph shall be interpreted to supersede the public interest test set forth in s. 373.223. ~~The host local government shall submit a monitoring report to the state land planning agency and applicable regional planning council on an annual basis after adoption of a detailed specific area plan. The annual monitoring report must provide summarized information on development orders issued, development that has occurred, public facility improvements made, and public facility improvements anticipated over the upcoming 5 years.~~

(5) ~~When a plan amendment adopting a detailed specific area plan has become effective for a portion of the planning area governed by a long-term master plan adopted pursuant to this section under ss. 163.3184 and 163.3189(2), the provisions of s. 380.06 do not apply to development within the geographic~~

HB 7129

2011

area of the detailed specific area plan. However, any development-of-regional-impact development order that is vested from the detailed specific area plan may be enforced pursuant to ~~under~~ s. 380.11.

(a) The local government adopting the detailed specific area plan is primarily responsible for monitoring and enforcing the detailed specific area plan. Local governments shall not issue any permits or approvals or provide any extensions of services to development that are not consistent with the detailed specific ~~sector~~ area plan.

(b) If the state land planning agency has reason to believe that a violation of any detailed specific area plan, ~~or of any agreement entered into under this section,~~ has occurred or is about to occur, it may institute an administrative or judicial proceeding to prevent, abate, or control the conditions or activity creating the violation, using the procedures in s. 380.11.

(c) In instituting an administrative or judicial proceeding involving an ~~optional~~ sector plan or detailed specific area plan, including a proceeding pursuant to paragraph (b), the complaining party shall comply with the requirements of s. 163.3215(4), (5), (6), and (7), except as provided by paragraph (3)(e).

(d) The detailed specific area plan shall establish a buildout date until which the approved development shall not be subject to downzoning, unit density reduction, or intensity reduction, unless the local government can demonstrate that implementation of the plan is not continuing in good faith based

HB 7129

2011

on standards established by plan policy, or that substantial changes in the conditions underlying the approval of the detailed specific area plan have occurred, or that the detailed specific area plan was based on substantially inaccurate information provided by the applicant, or that the change is clearly established to be essential to the public health, safety, or welfare.

(6) Concurrent with or subsequent to review and adoption of a long-term master plan pursuant to paragraph (3)(a), an applicant may apply for master development approval pursuant to s. 380.06(21) for the entire planning area in order to establish a buildout date until which the approved uses and densities and intensities of use of the master plan shall not be subject to downzoning, unit density reduction, or intensity reduction, unless the local government can demonstrate that implementation of the master plan is not continuing in good faith based on standards established by plan policy, or that substantial changes in the conditions underlying the approval of the master plan have occurred, or that the master plan was based on substantially inaccurate information provided by the applicant, or that change is clearly established to be essential to the public health, safety, or welfare. Review of the application for master development approval shall be at a level of detail appropriate for the long-term and conceptual nature of the long-term master plan and, to the maximum extent possible, shall only consider information provided in the application for a long-term master plan. Notwithstanding any provision of s. 380.06 to the contrary, an increment of development in such an approved master

HB 7129

2011

development plan shall be approved by a detailed specific area plan pursuant to paragraph (3) (b) and shall be exempt from review pursuant to s 380.06.

~~(6) Beginning December 1, 1999, and each year thereafter, the department shall provide a status report to the Legislative Committee on Intergovernmental Relations regarding each optional sector plan authorized under this section.~~

(7) A developer within an area subject to a long-term master plan that meets the requirements of paragraph (3) (a) and subsection (6) or a detailed specific area plan which meets the requirements of paragraph (3) (b) may enter into a development agreement with a local government pursuant to ss. 163.3220-163.3243. The duration of such a development agreement may be through the planning period of the long-term master plan or the detailed specific area plan, as the case may be, notwithstanding the limit on the duration of a development agreement pursuant to s. 163.3229.

(8) Any owner of property within the planning area of a proposed long-term master plan may withdraw his consent to the master plan at any time prior to local government adoption, and the local government shall exclude such parcels from the adopted master plan. Thereafter, the long-term master plan, any detailed specific area plan, and the exemption from development-of-regional-impact review under this section shall not apply to the subject parcels. After adoption of a long-term master plan, an owner may withdraw his or her property from the master plan only with the approval of the local government by plan amendment.

(9) The adoption of a long-term master plan or a detailed

HB 7129

2011

specific area plan pursuant to this section shall not limit the right to continue existing agricultural or silvicultural uses or other natural resource-based operations or to establish similar new uses that are consistent with the plans approved pursuant to this section.

(10) Notwithstanding any provision to the contrary of s. 380.06, part II of chapter 163, or any planning agreement or plan policy, a landowner or developer who has received approval of a master development of regional impact development order pursuant to s. 380.06(21) may apply to implement this order by filing one or more applications to approve a detailed specific area plan pursuant to paragraph (3) (b).

(11) Notwithstanding the provisions of this act, a detailed specific area plan to implement a conceptual long-term buildout overlay, adopted by a local government and found in compliance before July 1, 2011, shall be governed by the provisions of this section.

(12) ~~(7)~~ This section may not be construed to abrogate the rights of any person under this chapter.

Section 28. Sections 163.3246, 163.32465, and 163.3247, Florida Statutes, are repealed.

Section 29. Section 163.3248, Florida Statutes, is created to read:

163.3248 Rural land stewardship areas.—

(1) Rural land stewardship areas are designed to establish a long-term incentive based strategy to balance and guide the allocation of land so as to accommodate future land uses in a manner that protects the natural environment, stimulate economic

HB 7129

6805 growth and diversification, and encourage the retention of land
6806 for agriculture and other traditional rural land uses.

6807 (2) Upon written request by one or more landowners to
6808 designate lands as a rural land stewardship area, or pursuant to
6809 a private sector initiated comprehensive plan amendment local
6810 governments may adopt a future land use overlay to designate all
6811 or portions of lands classified in the future land use element
6812 as predominantly agricultural, rural, open, open-rural, or a
6813 substantively equivalent land use, as a rural land stewardship
6814 area within which planning and economic incentives are applied
6815 to encourage the implementation of innovative and flexible
6816 planning and development strategies and creative land use
6817 planning techniques to support a diverse economic and employment
6818 base.

6819 (3) Rural land stewardship areas may be used to further
6820 the following broad principles of rural sustainability:
6821 restoration and maintenance of the economic value of rural land;
6822 control of urban sprawl; identification and protection of
6823 ecosystems, habitats, and natural resources; promotion and
6824 diversification of economic activity and employment
6825 opportunities within the rural areas; maintenance of the
6826 viability of the state's agricultural economy; and protection of
6827 private property rights in rural areas of the state. Rural land
6828 stewardship areas may be multicounty in order to encourage
6829 coordinated regional stewardship planning.

6830 (4) A local government or one or more property owners may
6831 request assistance in participation of the development of a plan
6832 for the rural land stewardship area from the state land planning

HB 7129

2011

6833 agency, the Department of Agriculture and Consumer Services, the
6834 Fish and Wildlife Conservation Commission, the Department of
6835 Environmental Protection, the appropriate water management
6836 district, the Department of Transportation, the regional
6837 planning council, private land owners, and stakeholders.

6838 (5) A rural land stewardship area shall be not less than
6839 10,000 acres and shall be located outside of municipalities and
6840 established urban service areas, and shall be designated by plan
6841 amendment by each local government with jurisdiction over the
6842 rural land stewardship area. The plan amendment or amendments
6843 designating a rural land stewardship area shall be subject to
6844 review pursuant to s. 163.3184 and shall provide for the
6845 following:

6846 (a) Criteria for the designation of receiving areas which
6847 shall at a minimum provide for the following: adequacy of
6848 suitable land to accommodate development so as to avoid conflict
6849 with significant environmentally sensitive areas, resources, and
6850 habitats; compatibility between and transition from higher
6851 density uses to lower intensity rural uses; and the
6852 establishment of receiving area service boundaries which provide
6853 for a transition from receiving areas and other land uses within
6854 the rural land stewardship area through limitations on the
6855 extension of services.

6856 (b) Innovative planning and development strategies to be
6857 applied within rural land stewardship areas pursuant to the
6858 provisions of this section.

6859 (c) A process for the implementation of innovative
6860 planning and development strategies within the rural land

HB 7129

2011

stewardship area, including those described in this subsection,
which provide for a functional mix of land uses through the
adoption by the local government of zoning and land development
regulations applicable to the rural land stewardship area.

(d) A mix of densities and intensities that would not be
characterized as urban sprawl through the use of innovative
strategies and creative land use techniques.

(6) A receiving area may only be designated pursuant to
procedures established in the local government's land
development regulations. At the time of designation of a
stewardship receiving area, a listed species survey will be
performed. If listed species occur on the receiving area site,
the applicant shall coordinate with each appropriate local,
state, or federal agency to determine if adequate provisions
have been made to protect those species in accordance with
applicable regulations. In determining the adequacy of
provisions for the protection of listed species and their
habitats, the rural land stewardship area shall be considered as
a whole, and the potential impacts and protective measures taken
within areas to be developed as receiving areas shall be
considered in conjunction with the substantial benefits derived
from lands set aside and protective measures taken outside of
the designation of receiving areas.

(7) Upon the adoption of a plan amendment creating a rural
land stewardship area, the local government shall, by ordinance,
establish a rural land stewardship overlay zoning district,
which shall provide the methodology for the creation,
conveyance, and use of transferable rural land use credits,

HB 7129

2011

hereinafter referred to as stewardship credits, the assignment and application of which shall not constitute a right to develop land, nor increase density of land, except as provided by this section. The total amount of stewardship credits within the rural land stewardship area must enable the realization of the long-term vision and goals for the rural land stewardship area, which may take into consideration the anticipated effect of the proposed receiving areas. The estimated amount of receiving area shall be projected based on available data and the development potential represented by the stewardship credits created within the rural land stewardship area must correlate to that amount.

(8) Stewardship credits are subject to the following limitations:

(a) Stewardship credits may only exist within a rural land stewardship area.
