6 Remove lines 34-77 and insert:

7 (3) For purposes of this section, the term "additional
 8 costs" means the expenditures which are necessary to build a
 9 complete school to LEED silver-level or better building
 10 certification standards and which exceed the expenditures
 11 necessary to build a complete school in compliance with chapter
 12 1013. Such additional costs may include, but are not limited to,
 13 registration and certification fees charged for certification of
 14 the school to LEED silver-level or better building certification
 15 standards.

16 (4) (a) The Department of Education in consultation with the
 17 Florida Energy Office shall develop by August 1, 2007, an
 18 application process for school districts to participate in the
 19 pilot project. Three school districts shall be selected by the
 20 State Board of Education by January 1, 2008, to participate in
 21 the pilot project. One school district shall be in a county with
 22 a population of 1 million or more residents; one school district

23 shall be in a county with a population of 250,000 to 999,999
24 residents; and one school district shall be in a county with a
25 population under 250,000 residents. School districts selected to
26 participate in the pilot project shall, to the greatest extent
27 possible, represent geographically different regions of the
28 state.

29 (b) At a minimum, each school district selected by the
30 State Board of Education to participate in the pilot project
31 must:

32 1. Demonstrate that it implements sound financial
33 management practices by producing documentation that indicates
34 that the school district for the preceding 3 years has had no
35 material weaknesses or instances of material noncompliance noted
36 in its annual audits required under s. 218.39.

37 2. Engage a design team with demonstrated knowledge and
38 experience in high-performance green building construction.

39 3. Commit to building at least one complete school to the
40 LEED silver-level or better building certification standards.
41 Schools built to such building certification standards shall be
42 designated as "Green Schools."

43 (c) When selecting school districts to participate in the
44 pilot project, evaluation criteria implemented by the State
45 Board of Education may include, but are not limited to,
46 targeting school districts that demonstrate a high percentage of
47 environmentally inefficient schools or school districts that
48 propose innovative methods to improve water savings, energy
49 efficiency, or indoor environmental quality.

50 (5) (a) From funds appropriated for the Green Schools Pilot
51 Program, the department shall distribute to each participating
52 school district an amount sufficient to fund the additional
53 costs required to build one complete school to LEED silver-level

54 or better building certification standards. If appropriated
55 funds:

56 1. Are insufficient to fund the total of additional costs
57 required to build three complete schools to LEED silver-level or
58 better building certification standards, the department shall
59 prorate funds available and make distributions based on the
60 ratio of each school's additional costs relative to the total of
61 additional costs for the three schools.

62 2. Remain after the distribution, such funds may be
63 distributed by the department to one or more of the
64 participating school districts to fund the additional costs
65 required to build other new schools or to renovate existing
66 schools to LEED silver-level or better building certification
67 standards.

68 (b) Participating school districts must annually report to
69 the department the expenditure of funds received under paragraph
70 (a). The reports shall be open to inspection and examination by
71 the Auditor General. A participating school district must return
72 to the department:

73 1. Any funds found by the Auditor General to have been
74 improperly expended.

75 2. Funds received under paragraph (a) for the construction
76 or renovation of a school if LEED silver-level certification or
77 better is not obtained for the school within one year after its
78 completion.

79 (c) Notwithstanding s. 216.301 and pursuant to s. 216.351,
80 undisbursed balances of appropriations for the Green Schools
81 Pilot Program shall not revert to the General Revenue Fund but
82 shall be retained by the department to be used for purposes of
83 this section.

HOUSE AMENDMENT FOR COUNCIL/COMMITTEE PURPOSES

Amendment No. 2 (for drafter's use only)

84 (6) Each participating school district shall deliver to
85 the Governor, the President of the Senate, the Speaker of the
86 House of Representatives, and the Commissioner of Education a
87 report on the effects Green Schools have had on student
88 performance and health, operational costs, energy consumption,
89 and the environment in the district. This report shall be
90 submitted by July 1 of the year after a Green School has been in
91 full operation for a period of 3 years.

92 Section 2. For fiscal year 2007-2008, the sum of
93 \$3,500,000 in nonrecurring funds is appropriated from the Public
94 Education Capital Outlay and Debt Service Trust Fund to the
95 Department of Education to fund the additional costs required
96 for the new construction of three complete schools to LEED
97 silver-level or better building certification standards under
98 the Green Schools Pilot Project.
