---

# Environmental Policy Unit Office of Policy and Budget

Department of Agriculture & Consumer Services

Department of Environmental Protection

Department of Citrus

Fish & Wildlife Conservation Commission

---

---

## Major Reforms At a Glance

### Biennial Budget/Transparency/Accountability

- Long-term planning allows more time for in-depth program review and evaluation;
- Through the consolidated process of preparing a biennial budget, costs for the executive branch can be reduced;
- Encourage accountability through outcome measures rather than focus on budget controls;
- The budget structure is simplified and presented to the tax-payers in a common sense fashion.

# Major Reforms At a Glance

## Trust Fund Consolidation

- The Governor's Proposed Budget moves the general purpose revenue portion from 124 funds into the General Revenue Fund so that the pot of money available to fund the state's most critical needs is broader and that all expenditures are subject to the same accountability standards.
- This results in almost \$9 billion more revenue available for Florida's highest priorities.
- Funding required to be segregated due to constitutional issues, bond covenants, federal or other grant restrictions or money owed to non-state entities was not changed.
- Issues previously funded from money that was moved will now be funded from the General Revenue Fund at a level justified by the priority in state needs.

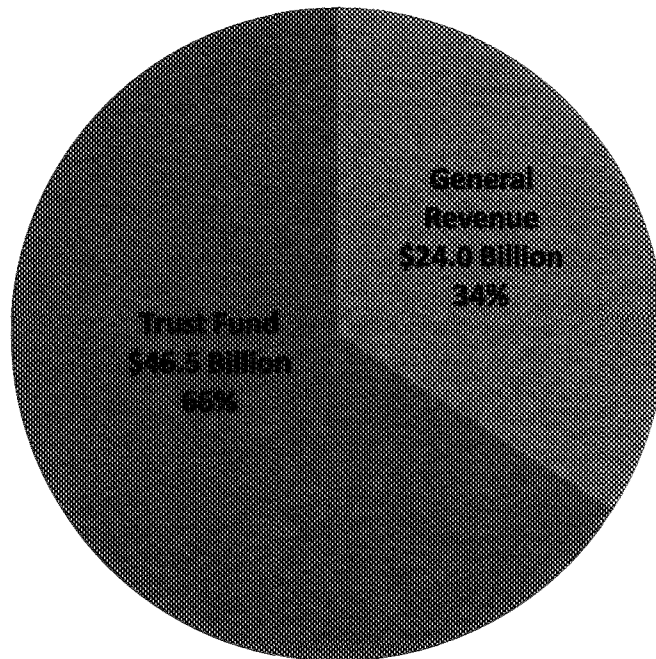

# Major Reforms At a Glance

## Trust Fund Consolidation

### Competing for General Revenue

**Current**  
**Total \$70.5 Billion**

**Proposed for 2011-12**  
**Total \$65.9 Billion**

# Governor Scott's Solution

*1. Accountability Budgeting*

*2. Reduce Government Spending*

*3. Regulatory Reform*

*4. Focus on Job Growth and Retention*

*5. World Class Education*

*6. Reduce Property Taxes*

*7. Eliminate Florida's Corporate Income Tax*

## *1. Accountability Budgeting*

Governor Scott's budget recommendations for environmental programs include:

- A streamlined transparent budget aimed at performance and effectiveness.
- A focus on “services” each with accountable and measureable performance “outcomes.”
- Greater flexibility for agency leadership to apply appropriated funding to meet these performance measures.
- A realignment of budget authority tied to anticipated revenues, resulting in a budget authority reduction of \$11.4 million.
- Increased Governor oversight of water management districts budgets.

## ***2. Reduce Government Spending***

### ***Paving the Way to a Smaller, More Efficient Government***

#### **Department Agriculture & Consumer Services**

- \$8.5 million by eliminating 168.5 vacant positions and 23 filled positions
- \$956,600 by reducing the Mosquito Control Program
- \$285,028 by reducing the Office of Water Policy
- \$200,000 by eliminating State Forest Receipts to Fiscally Constrained Counties
- \$70,000 by reducing the Off Highway Vehicle Program

#### **Department of Environmental Protection**

- \$6.3 million by eliminating 120 vacant positions.
- \$4 million and 48 positions as a result of transferring the Community Planning Program from the Department of Community Affairs
- \$2.3 million and 22 positions by reducing and merging the Office of Greenways and Trails, the Recreational Assistance to Local Governments service, and the Florida Communities Trust with State Park Operations.
- \$2 million by shifting the expenditures for operations associated with the Federal Clean Water Revolving Loan Program to pay those costs from service fees already collected as authorized under federal law instead of state General Revenue.

## ***2. Reduce Government Spending***

### ***Paving the Way to a Smaller, More Efficient Government***

#### **Fish & Wildlife Conservation Commission**

- \$4.5 million by eliminating 85 vacant (61 law enforcement) positions
- \$2.7 million by reducing Invasive Plant Management
- \$1.3 million by eliminating the Office of Recreation Services and 12 positions
- \$ .6 million by reducing Red Tide Research and Monitoring
- \$ .5 million by reducing Lake and Habitat Restoration

#### **Department of Citrus**

- \$4 million by realigning budget authority with available revenues
- \$978,837 by eliminating 15 vacant positions

## ***2. Reduce Government Spending***

### *Paving the Way to a Smaller, More Efficient Government*

#### **Water Management Districts**

- \$178 million Ad Valorem Tax Reduction for Fiscal Year 2011-12 and 2012-13

#### **Department of Environmental Protection**

- \$46.8 million and 23 positions for the Energy Office from the Florida Energy and Climate Commission; and for the Public Service and Energy Initiatives from the Department of Community Affairs (DCA).
- \$5.3 million and 58 positions for Community Planning from DCA

### ***3. Regulatory Reform***

**Governor Scott's budget recommendations anticipate streamlining and expediting the review of local comprehensive plans.**

- Eliminates state oversight of local comprehensive planning by expanding existing Alternative State Review Process Program to ALL local governments.
- Repeals the administrative rule (ch. 9J-5, F.A.C.) pertaining to state review of local comprehensive plans; and incorporates revised state minimum standards into the statutes.
- Local governments will solicit comments from limited state agencies regarding only issues of regional or statewide importance (comments provided within 30 days).
- State and 3<sup>rd</sup> parties will continue to have rights to appeal local action (state's challenge is limited to those issues of regional or statewide importance as raised by commenting agencies).

## *6. Reduce Property Taxes*

### **Water Management Districts**

- Governor Scott's budget recommendation reduces taxes by \$178 million dollars for each of the next two years
- Provides a 25 percent reduction in ad valorem taxation by water management districts
- Reduces property taxes levied by water management districts by an average of about 0.15 mills

# ***Agency Budgets at a Glance***

---

---

# Agriculture & Consumer Services

\$300 Million

- \$12.4 million – Federal Grants
  - \$75,000 Replacement Equipment for Agricultural Environmental Services
  - \$875,000 Increased Funding for Emergency Food Distribution
