THE DIRECT  
CONNECT  
TO UCF  
Promise:

Connecting to UCF is Easy

Thinking about getting a bachelor's degree from UCF? Then think about this: DirectConnect to UCF guarantees you admission to UCF with an associate's degree from Brevard, Lake-Sumter, Seminole or Valencia Community College.

## What is DirectConnect to UCF?

The DirectConnect to UCF partnership is designed to help you make a smooth transition to UCF and any of its 11 Regional Campuses when you're ready to earn your bachelor's degree. The program will help you start preparing now.

It's not just an easy, worry-free transition to UCF. **It's a guarantee.**

### Do I qualify?

You qualify for DirectConnect to UCF if you are working on or have completed your associate's degree from one of UCF's partner community colleges.\*

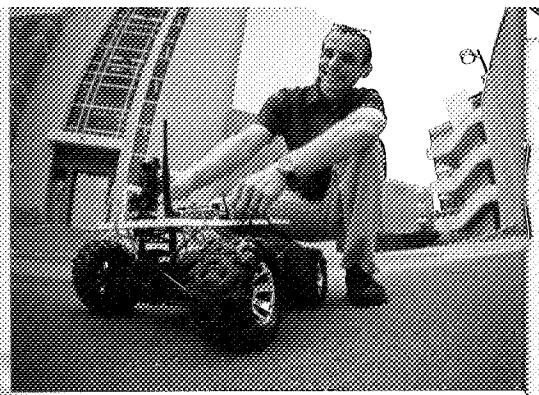

\* Consistent with community college and university policy. Limited-access and restricted-access programs may require an additional admission process.

## Success Can Start Now.

Many successful UCF graduates start their academic careers at a community college. Many go on to successful careers in numerous areas of study and industries.

## **Joint Planning Initiatives**

**Questions?**

## **Charge to the Task Force for the Future of Academic Libraries in Florida**

Determine a vision and develop a strategic plan for the future of academic library access, resources and services in Florida that encompasses emerging trends and changing realities in the areas of instruction, research, technology and public services within the context of the academic mission. The plan needs to assess ramifications of the identified trends and realities on currently utilized tools and organizations and the impact on our students, faculty and academic community.

In addition to including strategies and timelines for accomplishing the goals included in the strategic plan, the plan shall also address the establishment of a library technology organizational structure that will meet the needs of academic libraries in both the Florida College System and the State University System in a manner that is more cost-effective than the current organizational structure. The plan must include the resolution of identified challenges, including, but not limited to, governance, staffing, funding, and logistics.
