SUMMARY ANALYSIS

Current law provides that instructional personnel may be awarded probationary contracts upon initial employment and may be awarded annual contracts thereafter; professional service contracts may not be issued to any instructional personnel hired on or after July 1, 2011. Additionally, the Florida Retirement System Act and the Teachers' Retirement System Act provide that retired instructional personnel who retired before July 1, 2010, may be rehired on an annual contractual basis. Although the retirement statute appears to provide for the issuance of annual contracts after retirement, in 2012, the Fifth District Court of Appeals held that the law was only applicable to the first year of reemployment and that retired instructional personnel rehired prior to July 1, 2011, may be awarded professional service contracts.

The bill clarifies that instructional personnel may be reemployed after retirement but only under a 1-year probationary contract. If the instructional personnel successfully complete the probationary contract, such employees may receive an annual contract; reemployed retired instructional personnel may not receive professional service contracts. The bill further provides legislative intent and clarification of applicable law for purposes of pending civil and administrative actions.

The bill does not appear to have a fiscal impact on state government; however, depending on the impact of the legislation on pending litigation, it could have a positive indeterminate fiscal impact on local school districts.

The bill takes effect upon becoming a law.

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Background

Student Success Act

In 2011, the Legislature passed the Student Success Act (act),[1] which requires, among other things, the use of performance evaluations to assess performance. The evaluation system for administrative and instructional personnel differentiates among four levels of performance: highly effective, effective, needs improvement,[2] or unsatisfactory.[3] The Commissioner of Education was required to consult with experts, instructional personnel, school administrators, and education stakeholders in developing the criteria for the performance levels.

Prior to 2011, instructional personnel with as little as three years of service could be granted a professional service contract, which provided for automatic renewal of the contract unless the superintendent charged the employee with unsatisfactory performance.[4] For instructional personnel hired on or after July 1, 2011, the act, in effect, provides that professional service contracts and tenure may no longer be given to any instructional personnel who do not currently have a professional service contract.

Specifically, the act provides that employees hired on or after July 1, 2011, must be awarded probationary contracts for a period of one year upon initial employment in a school district.[5] Probationary contract employees may be dismissed without cause or may resign without breach of contract.[6] The district may not award a probationary contract more than once to the same employee;[7] after the initial year, the school district may award an annual contract upon the successful completion of a probationary contract.[8] An annual contract is an employment contract for a period of no longer than one school year, which the district school board may choose to award or not award at the end of the contract term without cause.[9] Instructional personnel with an annual contract may be suspended or dismissed at any time during the term of the contract for just cause.[10]

In addition, the act ties the renewal of a professional service contract, for those employees who have a professional service contract, to the employee's performance evaluation; the professional service contract is no longer automatically renewed.[11] If an employee who holds a professional service contract is not performing his or her duties in a satisfactory manner, the act requires such an employee to receive notice and be placed on probation.[12] If the employee receives two consecutive annual performance evaluations of unsatisfactory, two annual performance evaluations of unsatisfactory within a three-year period, or three consecutive annual performance evaluations of needs improvement or a combination of needs improvement and unsatisfactory, the district may terminate or not renew the employee's contract.[13]

Florida Retirement System

The Florida Retirement System (FRS) was established in 1970 when the Legislature consolidated the Teachers' Retirement System, the State and County Officers and Employees' Retirement System, and the Highway Patrol Pension Fund. In 1972, the Judicial Retirement System was consolidated into the pension plan and, in 2007, the Institute of Food and Agricultural Sciences Supplemental Retirement Program was consolidated under the Regular Class of the FRS as a closed group.[14] The FRS is a contributory system, with all members contributing 3 percent of their salaries.[15]

The FRS is governed by the Florida Retirement System Act.[16] The FRS, which is a multi-employer, contributory plan, provides retirement income benefits to 621,774 active members,[17] 334,682 retired members and beneficiaries, and 38,724 members of the Deferred Retirement Option Program (DROP).[18] It is the primary retirement plan for employees of state and county government agencies, district school boards, community colleges, and universities. The FRS also serves as the retirement plan for participating employees of the 186 cities and 267 independent hospitals and special districts that have elected to join the system.[19]

Members of the FRS have two primary plan options available for participation:

- The defined benefit plan, also known as the pension plan; and
- The defined contribution plan, also known as the investment plan.

The pension plan is administered by the secretary of the Department of Management Services through the Division of Retirement.[20] Investment management is handled by the State Board of Administration (SBA). The SBA is primarily responsible for administering the investment plan.[21] The SBA is compromised of the Governor as chair, the Chief Financial Officer, and the Attorney General.[22]

Employment after Retirement

Section 121.091, F.S., governs the payment of benefits under the FRS. It requires a member of the FRS to terminate employment to begin receiving benefits, or begin participation in DROP to defer and accrue those benefits until termination from DROP. Termination occurs when a member ceases all employment relationships with his or her FRS employer.[23] Termination is void if any FRS-participating employer reemploys a member a specified period of time.[24]

Subsection 121.091(9), F.S., governs employment after retirement. It allows reemployment of FRS retirees by a non-FRS employer and authorizes those retirees to continue receiving retirement benefits.[25]

An FRS retiree may be reemployed by an FRS employer provided certain requirements are met. A member who retired before July 1, 2010, may be reemployed by an FRS employer one calendar month after retiring or after the member's DROP termination date. If the retiree is reemployed during months two through 12 after retiring or terminating DROP, then the retiree may not receive her or his pension benefit until month 13. However, a retiree who retired before July 1, 2010, may be reemployed as instructional personnel on an annual contractual basis after one calendar month without having her or his retirement benefits disrupted.[26]

A member who retires on or after July 1, 2010, may not be reemployed by an FRS employer until month seven after retiring or after the member's DROP termination date. If the retiree is reemployed during months seven through 12 after retiring or terminating DROP, then the retiree may not receive her or his pension benefit until month 13.[27] The reemployment exception for retirees reemployed as instructional personnel no longer applies to members who retire on or after July 1, 2010.

Teachers' Retirement System

The Teachers' Retirement System (TRS), which is closed to new members effective December 1, 1970, is governed by chapter 238, F.S. As of June 2013, there were 18 active members and eight DROP participants.[28] Similar reemployment provisions apply for instructional personnel who retire under the TRS.

Legal Ambiguity for Reemployment of Instructional Personnel

In 2011, two retired reemployed instructional personnel brought suit in Orange County, Florida to determine whether the county was required to issue professional service contracts after the employees' successfully completed three years of employment.[29] The Orange County Public Schools argued that s. 121.091, F.S., required the instructional personnel to be rehired on an annual contractual basis. The issue in the case centered on whether the FRS act required instructional personnel to be reemployed with an annual contract for the rest of the member's career, or whether the FRS act only pertained to the initial year of reemployment and such member may ultimately be given a professional service contract under s. 1012.33, F.S., which provided for such a contract after three years of service.

The circuit court, applying the rules of statutory construction, found that the legislature intended for retired, rehired teachers to be rehired on the same terms as newly hired teachers; at that time, newly hired teachers were placed on an initial annual contract and after serving three years in the district, received a professional service contract. At the time of this lawsuit, professional service contracts were still provided for in law.

The Orange County School Board appealed the final judgment to the Fifth District Court of Appeal arguing that the trial court erred and that s. 121.091, F.S., precludes the school board from ever issuing a contract longer than an annual contract when employing retired instructional personnel.[30] The court, however, agreed with the lower court and found that the limitations in s. 121.091, F.S., only apply at the time of the initial rehire.

According to information supplied by the Orange County Public Schools, approximately 779 instructional personnel were rehired in Florida prior to July 1, 2011; 324 of the reemployed retired instructional personnel have been awarded professional service contracts.[31]

[31] Although 455 instructional personnel were rehired prior to 2011 and have not been issued professional service contracts, it is unclear if such employees qualified for professional service contracts prior to the 2011 changes to the act. Once such changes were made, a teacher not previously provided a professional service contract was ineligible to receive one. A class action lawsuit was filed in 2013 in Orange County; the plaintiffs allege that they were rehired retirees and qualified for professional service contracts prior to the 2011 legislation. A copy of the amended complaint is on file with the Government Operations Subcommittee.

Effect of the Bill

The bill provides that instructional personnel hired after retirement may only be initially hired under a 1-year probationary contract. If the retiree successfully completes the probationary contract, such employee may receive an annual contract. The bill clarifies that reemployed retired instructional personnel may not receive professional service contracts.

The bill provides that the holding in *Orange County School Board v. Rachman and Shuman*[32] was contrary to legislative intent at the time the statutes were enacted and that retirees were never entitled to professional service contracts. The bill directs the judge in a civil action or administrative proceeding to rule against a classroom teacher on any claim or cause of action against the district school board, district superintendent, or district school board employee for not awarding such a teacher a professional service contract.

The bill provides that it does not void and is not intended to void or in any way impair any professional service contract inadvertently awarded by a district school board to a retiree before the effective date of the act.

B. SECTION DIRECTORY:

Section 1. amends s. 1012.33, F.S., revising provisions relating to reemployment of retirees as instructional personnel on a contract basis; providing legislative intent and findings to clarify authorization to award contracts; providing requirements for a judge in certain civil actions or administrative proceedings.

Section 2. directs the Division of Law Revision and Information to replace the phrase "the effective date of this act" wherever it occurs in this act with such date.

Section 3. provides an effective date of upon becoming a law.

IV. AMENDMENTS/ COMMITTEE SUBSTITUTE CHANGES

On March 18, 2014, the Government Operations Subcommittee adopted a strike-all amendment and reported the bill favorably with committee substitute. The amendment:

- Removed from the bill changes related to the FRS and TRS; and
- Clarified that the bill does not void, and is not intended to void, any professional service contract already awarded by a district school board to a retiree.

A bill to be entitled

An act relating to employment after retirement of school district personnel; amending s. 1012.33, F.S.; revising provisions relating to reemployment of retirees as instructional personnel on a contract basis; providing legislative intent and findings to clarify authorization to award contracts; providing requirements for a judgment in certain civil actions or administrative proceedings; providing a directive to the Division of Law Revision and Information; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (8) of section 1012.33, Florida Statutes, is amended to read:

1012.33 Contracts with instructional staff, supervisors, and school principals.—

(8) Notwithstanding any other provision of law, a district school board may reemploy a retiree as instructional personnel, as defined in s. 1012.01(2)(a), under a 1-year probationary contract as defined in s. 1012.335(1). If the retiree successfully completes the probationary contract, the district school board may reemploy the retiree under an annual contract as defined in s. 1012.335(1).

(a) Neither this subsection nor any other law enacted before the effective date of this act allows, or was intended to allow, a retiree to be awarded a professional service contract. The Legislature finds that the holding in Orange County School Board v. Rachman and Schuman, 87 So. 3d 48 (Fla. 5th DCA 2012), which found that retirees under s. 121.091(9)(b)1.a. and this subsection as enacted before the effective date of this act were entitled to a professional service contract, was contrary to legislative intent at the time the statutes were enacted. The Legislature finds that retirees under s. 121.091(9), regardless of the retiree's date of retirement, and this subsection are not eligible, and were never eligible, to receive a professional service contract under this section or any other law. In a civil action or administrative proceeding, if a classroom teacher was formerly retired and then reemployed by the district school board pursuant to s. 121.091(9) and this section as enacted before the effective date of this act, the Legislature intends, in accordance with the findings expressed in this subsection, that a judgment be entered against that classroom teacher on any claim or cause of action against the district school board, the district school superintendent, or a district school board employee for not awarding that teacher a professional service contract.

(b) This subsection does not void and is not intended to void or in any way impair any professional service contract inadvertently awarded by a district school board to a retiree

before the effective date of this act ~~Notwithstanding any other provision of law, a retired member may interrupt retirement and be reemployed in any public school. A member reemployed by the same district from which he or she retired may be employed on a probationary contractual basis as provided in subsection (1).~~

Section 2. The Division of Law Revision and Information is directed to replace the phrase "the effective date of this act" wherever it occurs in this act with such date.

Section 3. This act shall take effect upon becoming a law.

SUMMARY ANALYSIS

Section 212.0606(1), F.S., provides that a surcharge of $2 per day, or part of a day, is imposed upon the lease or rental of a motor vehicle for hire and designed to carry less than nine passengers regardless of whether the motor vehicle is licensed in Florida. The surcharge applies to the first 30 days of the term of any lease or rental and is subject to all taxes imposed by ch. 212, F.S.

The bill creates s. 212.0606(2), F.S., providing that if a member of a car-sharing service uses a motor vehicle pursuant to an agreement with a car-sharing service for less than 24 hours, in lieu of the daily rental car surcharge, a surcharge of 50 cents per use is imposed.

The bill defines "car-sharing service" as a membership based organization or business or division thereof which requires the payment of an application or membership fee and provides member access to motor vehicles:

- Only at locations that are not staffed by car-sharing service personnel employed solely for the purpose of interacting with car-sharing service members;
- Twenty-four hours per day, seven days per week;
- Only through automated means, which may include, but are not limited to, smartphone applications or electronic membership cards;
- On hourly or shorter increments;
- Without a separate fee for refueling the motor vehicle;
- Without a separate fee for minimum financial responsibility liability insurance; and
- Owned or controlled by the car sharing service or its affiliates.

The bill provides that the lease, rental, or usage of a motor vehicle from an airport location is not eligible for the imposition of the surcharge for car-sharing services in lieu of the standard rental car surcharge.

The Revenue Estimating Conference met on March 21, 2014, and projected this bill would have an insignificant negative fiscal impact on General Revenue, a negative $300,000 impact on state trust funds in Fiscal Year 2014-15, with a recurring negative $600,000 impact on state trust funds. See the fiscal section for additional detail.

The bill has an effective date of January 1, 2015.

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Current Situation

Rental Car Surcharge

Section 212.0606(1), F.S., imposes a surcharge of $2.00 per day or any part of a day upon the lease or rental of a motor vehicle licensed for hire and designed to carry less than nine passengers, regardless of whether the vehicle is licensed in Florida. The surcharge is included in the lease or rental price on which sales tax is computed and must be listed separately on the invoice. Businesses that collect rental car surcharge are required to report surcharge collections according to the county to which the surcharge was attributed.

The surcharge only applies to the first 30 days of the term of any lease or rental. If the lease is renewed, the first 30 days of the renewed lease is subject to the surcharge. If payment for the lease or rental of a motor vehicle is made in Florida, the surcharge applies. The surcharge is not imposed on leases or rentals to tax-exempt entities. Section 216.0606(4), F.S., exempts from payment of the surcharge a motor vehicle provided at no charge to a person whose motor vehicle is being repaired, adjusted, or serviced by the entity providing the replacement motor vehicle.

After deduction for administrative fees and the General Revenue Service Charge, the rental car surcharge is distributed as follows:

- 80 percent to the State Transportation Trust Fund (STTF);
- 15.75 percent to the Tourism Promotional Trust Fund; and
- 4.25 percent to the Florida International Trade and Promotion Trust Fund.

The proceeds of the rental car surcharge deposited into the STTF are allocated to each Department of Transportation (DOT) district for transportation projects, based on the amount of proceeds collected in the counties within each respective district.

Car-Sharing Services

Car-sharing is generally marketed as an alternative to conventional car rental or car ownership and exists in a number of forms.

> "Traditional carsharing provides members access to a vehicle for short-term daily use. Automobiles owned or leased by a carsharing operator are distributed throughout a network; members access the vehicles with a reservation and are charged per time and often per mile....
>
> Traditional carsharing is intended for short trips and as a supplement to public transit. Initial market entry in North America focused on the neighborhood carsharing model, characterized by a fleet of shared-use vehicles parked in designated areas throughout a neighborhood or municipality. In recent years, business models have advanced and diversified. Variations on the neighborhood model developed in North America include: business; college/university; government/institutional fleet; and public transit (carsharing provided at public transit stations or multi-modal nodes). Despite differences in target markets, these models share a similar organizational structure, capital ownership, and revenue stream.
>
> The next generation of shared-use vehicle services, which provide access to a fleet of shared-use vehicles, incorporates new concepts, technologies, and operational methods. These models represent innovative solutions and notable advances. They include one-way carsharing and personal vehicle sharing. One-way carsharing, also known as "free-floating" carsharing, frees

> users from the restriction of having to return a vehicle to the same location from which it was accessed. Instead, users leave vehicles parked at any spot within the organization's operating area, allowing for the possibility of one-way trips. The one-way model resembles more traditional forms of carsharing—except for the logistics of vehicle redistribution and the need for expanded vehicle parking.
>
> Personal vehicle sharing ... represents a more distinct model due to differences in organizational structure, capital stock, and liability. Personal vehicle sharing involves short-term access to privately-owned vehicles, enabling a lower operating cost and a wider vehicle distribution. ..."[1]

While car sharing began at the local, grassroots level, car-sharing services are now also provided by conventional rental car companies, such as Avis, Enterprise, and Hertz.[2]

Current Practice Relating to Surcharge
On September 17, 2012, the Department of Revenue (DOR) issued Technical Assistance Advisement 12A-022 in which the question presented to DOR was whether a member based car-sharing service is subject to the Florida rental car surcharge. The facts presented to DOR were as follows:

> "Taxpayer [the car-sharing service] offers a member based car-sharing service with a fleet of vehicles available for use by registered members at any time of the day, seven days a week. A member can reserve a vehicle before use, or simply locate one and access it. Each use is labeled as a "trip" and can last up to four consecutive days. A unique feature of Taxpayer's car-sharing service is members may, and often do, use a car for a much shorter period of time than typical car rentals. According to Taxpayer, the typical trip lasts twenty-five to 40 minutes, costing between $7 and $10 before taxes. Members are invoiced daily for all trips that occur and Taxpayer adds the rental car surcharge and sales tax to this invoice."

First noting taxpayer's assertion that it is not engaged in the "traditional" rental of cars, DOR concluded that the taxpayer is clearly renting cars, is engaged in the rental of motor vehicles and, therefore, the rental car surcharge does apply. DOR further cited its rule, Fla. Admin. Code 12A-16.002(3)(b): "When the terms of a lease or rental agreement authorize the lessee to extend the lease or rental beyond the initial lease term without executing an additional lease or agreement and without any action on the part of the lessor, the extension period will not be considered a new lease or rental."

Highlighting the fact that the taxpayer's members may make multiple trips in one day without executing any additional agreement and without any action required of the taxpayer, and that members are charged for every trip within the same twenty-four hour period on a single daily invoice, DOR concluded that the rental car "surcharge is due from Taxpayer's members once a day, regardless of the number of trips taken by a member in a twenty-four hour period." Therefore, car-sharing services must pay the $2.00 surcharge per day for each member who uses the car-sharing service that day.

It should be noted that use of car-sharing services is also subject to the state's sales and use tax.

Proposed Changes
The bill creates s. 212.0606(2), F.S., providing that if a member of a car-sharing service uses a motor vehicle pursuant to an agreement with a car-sharing service for less than 24 hours, in lieu of the daily rental car surcharge[3] a surcharge of 50 cents per use is imposed. If a member of a car-sharing service uses the same motor vehicle for 24 consecutive hours or more, the usual surcharge of $2 per day or any part of a day shall be imposed.

[3] This surcharge is imposed pursuant to s. 212.0606(1), F.S.

The bill defines "car-sharing service" as a membership based organization or business or division thereof which requires the payment of an application or membership fee and provides member access to motor vehicles:

- Only at locations that are not staffed by car-sharing service personnel employed solely for the purpose of interacting with car-sharing service members;
- Twenty-four hours per day, seven days per week;
- Only through automated means, which may include, but are not limited to, smartphone applications or electronic membership cards;
- On hourly or shorter increments;
- Without a separate fee for refueling the motor vehicle;
- Without a separate fee for minimum financial responsibility liability insurance; and
- Owned or controlled by the car sharing service or its affiliates.

The bill provides that the lease, rental, or usage of a motor vehicle for a location owned, operated, or leased by of for the benefit of an airport or airport authority is not eligible for the imposition of the surcharge for car-sharing services in lieu of the standard rental car surcharge.

The bill has an effective date of January 1, 2015.

B. SECTION DIRECTORY:

Section 1 Amends s. 212.0606, F.S., relating to the rental car surcharge.

Section 2 Provides an effective date.

II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:

The Revenue Estimating Conference met on March 21, 2014, and projected this bill would have an insignificant negative fiscal impact on General Revenue, a negative $300,000 impact on state trust funds in Fiscal Year 2014-15, with a recurring negative $600,000 impact on state trust funds. The following chart depicts these impacts by trust fund:

IV. AMENDMENTS/ COMMITTEE SUBSTITUTE CHANGES

On February 4, 2015, the Transportation & Highway Safety Subcommittee adopted one amendment and reported the bill favorably as a committee substitute. The amendment changed the effective date of the bill from July 1, 2014, to January 1, 2015.

On March 13, 2014, the Economic Affairs Committee adopted a strike-all amendment and reported the bill favorably as a committee substitute. The amendment changed the rental car surcharge from 8 cents per hour to 50 cents per use. The bill also conformed to the Senate language.

This analysis is written to the committee substitute as reported by the Economic Affairs Committee.

SUMMARY ANALYSIS

HM 625 serves as an application to Congress, pursuant to Article V of the U.S. Constitution, to call an Article V Convention of the states for the limited purpose of proposing a balanced budget amendment. This amendment would require that, in the absence of a national emergency, the total of all federal appropriations for any fiscal year would not exceed the total of all estimated federal revenues for that fiscal year, together with any related and appropriate fiscal restraints.

Legislative memorials are not subject to the Governor's veto power and are not presented to the Governor for review. Memorials have no force of law—they are mechanisms for formally petitioning the U.S. Congress to act on a particular subject.

This memorial does not have a fiscal impact.

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Present Situation

Methods of Amending the U.S. Constitution

Article V of the Constitution authorizes two methods for amending the Constitution: by Congress or by a constitutional convention.

Congressional Amendments

A constitutional amendment may be proposed by a two-thirds majority of both chambers in the form of a joint resolution. After Congress proposes an amendment, the Archivist of the United States is responsible for administering the ratification process under the provisions of 1 U.S.C. 106b. Since the President does not have a constitutional role in the amendment process, the joint resolution does not go to the White House for signature or approval. The Office of the Federal Register (OFR) assembles an information package for the states which includes copies of the joint resolution and the statutory procedure for ratification under 1 U.S.C. 106b. The Archivist submits the proposed amendment to the states for their consideration by sending a letter of notification and the OFR informational material to each Governor. The Governors then formally submit the amendment to their state legislatures.

When a state ratifies a proposed amendment, it sends the state action to the Archivist. A proposed amendment becomes part of the Constitution as soon as it is ratified by three-fourths of the states (38). The OFR verifies the 38 ratification documents and drafts a formal proclamation for the Archivist to certify that the amendment is valid and has become part of the Constitution. This certification is published in the Federal Register and U.S. Statutes at Large and serves as official notice that the amendment process has been completed.

Since 1789, Congress has proposed 33 amendments by this method, 27 of which have been adopted.

Constitutional Convention Amendments

An amendment may be proposed by a constitutional convention called for by two-thirds of the state legislatures (34). If 34 states apply, Congress must call an Article V Convention to consider and propose amendments. These proposed amendments must also be ratified by three-fourths of the states (38). This method has never been implemented; therefore, there is no precedent for the exact process and application requirements. Some of the issues concerning this process include procedures within the state legislatures; the scope and conditions of applications for a convention; steps in submitting applications to Congress; and the role of the state governors in the process.

The records of the Philadelphia Convention of 1787 demonstrate that the founders intended to balance Congress's amendatory power by providing the convention method to empower the people to propose amendments. Article V identifies these methods as equal and requires the same ratification for all proposed amendments.

Although never used in full, this method has been a useful tool to provoke congressional action. The most successful incidence of using the threat of a constitutional convention to induce change was the movement for the direct election of Senators, which prodded Congress to propose the 17th Amendment.

Spending Behavior of the Federal Government

The forecasted federal spending for fiscal year 2014 is $3.778 trillion. Mandatory spending will account for more than 60 percent ($2.3 trillion), supporting programs such as Social Security ($860 billion), Medicare ($524 billion), Medicaid ($304 billion), income support,[1] military retirement, and other congressionally established programs.[2] Also included in fiscal year 2014's mandatory spending is the $223 billion interest payment on the $17 trillion national debt.[3]

The remaining $1.48 trillion of the year's expenses will go towards discretionary spending as negotiated between Congress and the President. The Bipartisan Budget Act approves $1.012 trillion in discretionary spending, including $520.5 billion for Defense.[4] President Obama's budget proposal appropriates $1.242 trillion to run the rest of the federal government, including $618 billion for military expenditure.[5]

Before the recession in 2007, the Executive Office of Management and Budget (OMB) maintained federal spending at levels below 20 percent of GDP each year. Therefore, spending only grew as fast as the economy (about 3 percent per year). However, spending has been at higher levels since the recession, peaking at 24.3 percent of GDP in fiscal year 2012. Fiscal year 2014 spending is budgeted slightly lower at 22.4 percent of GDP. As the economy improves, the OMB forecasts that spending will drop to 21.2 percent of GDP by fiscal year 2018.[6]

Spending has increased since 2007 due to anti-recession stimulus spending; defense spending for Operation Enduring Freedom, Operation Iraqi Freedom, and Operation New Dawn; increased Social Security spending due to changing demographics; and more entitlement program spending as poverty rose.

Balanced budget amendment

A balanced budget amendment is a constitutional prohibition on a government's spending exceeding its income. Most states have adopted balanced budget provisions, but the federal government has not. Such an amendment would make it unconstitutional for the federal government to run annual budget deficits and may solve the persistent problem of deficits and increasing debt.

Most amendment proposals include additional restrictive elements to be imposed on the federal government beyond maintaining a balanced budget. Some common examples include the following:

- a requirement that the President submit a balanced budget to the Congress;
- provisions that allow some flexibility in times of war or economic recession provided that a congressional supermajority support the waiver;
- a provision requiring a supermajority vote of both houses to raise the debt ceiling;
- a cap on total spending unless waived by a supermajority of both houses;
- a limit on the total level of revenues unless waived by a supermajority of both houses;

[1] Food Stamps, Unemployment Compensation, Child Nutrition, Child Tax Credits, Supplemental Security for the blind and disabled, and Student Loans

[2] The amount for Mandatory programs is increasing thanks to the huge number of Baby Boomers who are reaching retirement age. The two major senior programs, Social Security and Medicare, went from 28% of the budget in FY 1988 to 37% of the budget in FY 2014. By FY 2023, the OMB projects that these two programs alone will rise to 40% of total spending.

[3] By 2023, interest payments on the national debt are expected to quadruple to $763 billion, making it the third largest budget item, after Social Security ($1.424 trillion) and Medicare ($867 billion). - a provision to prevent the courts from enforcing the amendment through tax increases;
- a provision assigning congressional responsibility to enforce the amendment through legislation.[7]

Proponents argue that as the legislative and executive branches are unwilling or unable to address the debt crisis through normal legislative procedures, only a constitutional constraint will be strong enough to lessen lawmakers' fiscally irresponsible over-spending. A constitutional requirement would impose needed accountability for fiscal policy. A 2005 national survey quantifying public support for possible constitutional amendments found that 76 percent of respondents favored a balanced budget amendment.[8]

Opponents argue that such an amendment could limit the ability of future policymakers to use fiscal policy to counteract recessions or respond to national emergencies. They view lack of political will as the cause of our fiscal imbalances and so a procedural change will not adequately resolve the issue. Furthermore, they fear that the political pressure could lead to budget gimmicks that meet only the letter, not the spirit, of the law.

A balanced budget amendment converges on the federal government's financial bottom line, which is the result of complex accounting rules covering the multi-faceted legislative process and priorities. Policy differences and lack of political consensus often contribute to fiscal irresponsibility, overspending, and increasing debt. Although a constitutional balanced budget amendment may rein in our national deficits and debt, it cannot resolve the underlying political disparities that caused them.

Effect of Proposed Changes

HM 625 serves as an application to Congress pursuant to Article V of the U.S. Constitution to call an Article V Convention of the states for the limited purpose of proposing a balanced budget amendment to the U.S. Constitution. This amendment would require that, in the absence of a national emergency, the total of all federal appropriations for any fiscal year would not exceed the total of all estimated federal revenues for that fiscal year, together with any related and appropriate fiscal restraints.

The memorial provides that its subject matter is to be considered the same as that of all presently outstanding balanced budget applications from other states. It is to be aggregated with those applications and tallied toward the required two-thirds of the states calling for a balanced budget amendment convention, but it should not be aggregated with any convention applications on any other subject.

Furthermore, the memorial constitutes a continuing application until at least two-thirds of the states apply for a balanced budget convention. HM 625 supersedes all previous Florida applications on the subject.

Copies of the memorial will be provided to the President of the United States, the President of the United States Senate, the Speaker of the United States House of Representatives, and each member of the Florida delegation to the United States Congress.

Legislative memorials are not subject to the Governor's veto power and are not presented to the Governor for review. Memorials have no force of law—they are mechanisms for formally petitioning the U.S. Congress to act on a particular subject. This memorial does not have a fiscal impact.

SUMMARY ANALYSIS

Florida imposes an annual tax on premiums collected by insurance companies doing business in the state. This tax applies to life, health, property and casualty, title insurance, and most other types of policies at a rate of 1.75%, with deductions allowed for reinsurance accepted, return premiums and assessments. It applies to self-insurance funds at a rate of 1.6%. It applies to annuities at a rate of 1%. It applies to wet marine and transportation insurance at a rate of 0.75% of gross underwriting profit, defined as net premiums minus net losses paid.

The bill provides that insurance premiums tax may not be imposed on any portion of a title insurance premium retained by a title insurance agent or agency. It also clarifies that this exemption does not impact the promulgation of title insurance rates by the Financial Services Commission.

The Revenue Estimating Conference met on February 17, 2014 and estimated that the bill would have a negative recurring impact on general revenues of $5.4 million beginning in fiscal year 2014-2015.

The effective date of the bill is July 1, 2014.

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Present Situation

Insurance Premiums Tax

Florida imposes an annual tax on premiums collected by insurance companies doing business in the state.[1] This tax applies to life, health, property and casualty, title insurance, and most other types of policies at a rate of 1.75%, with deductions allowed for reinsurance accepted, return premiums and assessments.[2] It applies to self-insurance funds at a rate of 1.6%.[3] It applies to annuities at a rate of 1%.[4] It applies to wet marine and transportation insurance at a rate of 0.75% of gross underwriting profit, defined as net premiums minus net losses paid.[5]

There are a number of credits allowed against insurance premiums tax liability. These include:

- 100% of corporate income tax paid pursuant to chapter 220, F.S.[6]
- 15% of salaries paid by the company to its Florida-based employees.[7]
- 50% of a community contribution made pursuant to the Community Contribution Tax Credit Program for enterprise zones.[8]
- 100% of donations made to eligible scholarship funding organizations pursuant to s. 1002.395.[9]

The sum of the credits granted for corporate income tax and employee salaries may not exceed 65% of the insurer's premium tax liability.[10]

Retaliatory Tax

When another state or foreign country levies certain taxes or fees, including insurance premiums tax, on Florida insurers in excess of the taxes and fees levied by Florida on insurers from such other state or foreign country, a retaliatory tax is charged.[11] Companies from the other state or foreign country are taxed using the same tax and fee structure that a similar Florida insurer operating in such state or foreign country would be charged.

Title Insurance

Title insurance companies insure owners of real property and others with an interest in real property against loss due to encumbrance, defective titles, invalidity, or adverse claim to title.[12] The Financial Services Commission, consisting of the Governor, Attorney General, Chief Financial Officer, and Commissioner of Agriculture and Consumer Services,[13] must adopt a rule setting the rates charged by title insurance companies and determining the minimum portion of those premiums retained by the title

IV. AMENDMENTS/ COMMITTEE SUBSTITUTE CHANGES

On March 13, 2014, the Finance & Tax Subcommittee adopted an amendment to this bill. The amendment removed language that moved some provisions related to wet marine and transportation insurance to a different place in statute. It also repeals some language to make clear that the tax exemptions in the bill do not impact the promulgation of title insurance rates.

This analysis reflects the above amendment.

A bill to be entitled

An act relating to tax on insurance premiums; amending s. 624.509, F.S.; revising provisions relating to premium taxes paid by insurers; providing that the tax does not apply to any portion of the title insurance premium retained by a title insurance agent or agency; amending s. 627.7711, F.S.; conforming provisions to changes made by the act; providing an effective date.

(2) "Premium" means the charge, as specified by rule of the commission, which ~~that~~ is made by a title insurer for a title insurance policy, including the charge for performance of primary title services by a title insurer or title insurance agent or agency, and incurring the risks incident to such policy, under the several classifications of title insurance contracts and forms~~, and upon which charge a premium tax is paid under s. 624.509~~. As used in this part or in any other law, with respect to title insurance, the word "premium" does not include a commission.

SUMMARY ANALYSIS

The bill requires the Commissioner of Education to establish a return on investment (ROI) rating system by January 31, 2015, in order to evaluate the extent to which public school and school districts use financial resources in a cost-effective manner to improve student performance relative to fiscal peers. The ROI rating must place the most weight on indicators designed to measure how dollars are being used to facilitate increased student academic performance.

The bill defines the terms "return on investment rating," "fiscal peers," and "core operating expenditure" for the purpose of determining return on investment ratings for schools and districts.

In addition, the commissioner must determine fiscal peers for each public school and school district for the purpose of comparing ROI ratings among similar districts, public schools, and charter schools.

The bill creates the Schoolhouse Funding Pilot Program for the purpose of giving pilot school principals increased authority over school budgets and human capital decisions and determining whether the increased authority positively impacts the return on investment for the principals' schools. The bill requires the commissioner to select at least 15 middle schools and 15 high schools to participate as pilot schools and establishes criteria for their selection. In addition, participation by a selected school is subject to district school board approval. The bill requires the Auditor General to audit and report any noncompliance by a participating district.

The bill also establishes requirements for the pilot program relating to participation in state assessment and school accountability systems, educator certification, background screening, and personnel evaluation. The bill also provides requirements with respect to employment contracts, personnel decisions, and distribution of state and federal funding.

The fiscal impact of the bill is indeterminate. *See* Fiscal Impact on State Government.

The bill is effective upon becoming law.

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Return on Investment

Present Situation

The K-20 performance accountability system maintained by the Department of Education (DOE) must measure student progress toward goals that include, among other things, quality efficient services as measured by evidence of return on investment.[1]

In addition, school report cards, including school report cards for alternative schools, must include, along with information regarding school improvement and performance, indicators of return on investment.

Effect of Proposed Changes

The bill requires the Commissioner of Education (commissioner) to establish a return on investment (ROI) rating system by January 31, 2015 which evaluates the extent to which public school and school districts use financial resources in a cost-effective manner to improve student performance relative to fiscal peers. The ROI rating must place the most weight on indicators designed to measure how dollars are being used to facilitate increased student academic performance.

The bill defines the term "return-on-investment rating," or "ROI rating," to mean a calculation developed by the commissioner which results in an annual ordinal rating for a public school and a school district that displays to the public the extent by which core operating expenditures have been used to positively impact student achievement. Ratings are assigned, as provided for under s. 1008.34(6), based on spending and student performance relative to a school's fiscal peers or a school district's fiscal peers.

The bill defines the additional following terms for the purpose of calculating a ROI rating:

- "Core operating expenditure" means the expenditure of general and special revenue funds, in accordance with the uniform chart of accounts included in the publication "Financial and Program Cost Accounting and Reporting for Florida Schools," in the functional categories of instruction and instructional support services and in the object categories of salaries, employee benefits, purchased services, and materials and supplies. The Commissioner of Education may classify other expenditures, funds, and functional and object categories as core operating expenditures.

- "Fiscal peers" means public schools and school districts that are of similar size and have similar average total cost-per-student funding in the Florida Education Finance Program, as determined by the commissioner. At a minimum, the commissioner shall take into consideration the following factors:
    - The Florida Price Level Index;
    - School size;
    - Student program cost factors; and
    - Geography.

[1] Section 1008.31(c)4., F.S. A statutory statement of legislative intent provides that that the K-20 education performance accountability system be established as a single, unified accountability system with multiple components, including, but not limited to, measures of adequate yearly progress, individual student learning gains in public school, school grades, and return on investment. Section 1008.31(1)(b), F.S.

In addition, the commissioner must determine fiscal peers for each public school and school district, as each ROI rating must be calculated relative to the performance of the fiscal peers of the school or school district. The bill requires the commissioner to assign the ROI ratings for all public schools and school districts in a sortable, easy-to-understand format that allows for comparison among districts, public schools, charter schools, and fiscal peers.

Beginning with the 2015-2016 school year, the commissioner must publish ratings on the Department of Education's (DOE) website when school report cards are published. Each school must provide a link to this information on its website and annually post a copy of its most recent ROI rating. Each school report card must include the ordinal ROI rating of the school and the school district.

The bill requires the commissioner to make every attempt to use aggregated student data that is already collected from public schools to develop the ROI rating. This includes, but is not limited to, data from:

- School report cards;
- Accountability measures, including the school accountability report;
- Profiles of school districts; and
- The state program cost reporting system.

The Schoolhouse Funding Pilot Program

Effect of Proposed Changes

The bill creates the Schoolhouse Funding Pilot Program for the purpose of giving pilot school principals increased authority over school budgets and human capital decisions and determining whether the increased authority positively impacts the return on investment for the principals' schools. The program is subject to annual appropriation as provided in the GAA. The bill defines the term "pilot school" to mean a public school that participates in the program.

The bill requires the commissioner to select a minimum of 15 high schools and 15 middle schools from throughout the state to participate in a two-year Schoolhouse Funding Pilot Program beginning with the 2015-2016 school year. To be eligible for selection, a middle or high school must:

- Have received a school grade of "C," "D," or "F" in the prior school year and have not received a school grade of "A" or "B" in the past five years; and
- Represent diverse student populations, including minority students, students receiving free or reduced-price lunches, and students with disabilities.

The DOE must measure the return on investment of each school upon its acceptance into the pilot program and annually thereafter.

The bill requires district school boards to approve a school's participation in the pilot program for a school in the district that is recommended by the commissioner. A district school board that refuses to allow a recommended school to participate must provide the commissioner with a detailed written explanation for the refusal.

The bill requires, subject to appropriation, principals, and if possible, assistant principals, of selected and approved schools to participate in a professional development program which focuses on improving student achievement; aligning standards, assessment, curriculum, and instruction; using data to drive instruction; and using best financial management practices to drive student achievement.

Under the pilot program, participating schools enjoy greater authority over managerial decisions in a manner analogous to charter schools, including decisions over allocation of specified funds. However,

the bill provides that state assessment, school accountability, educator certification, background screening, and personnel evaluation requirements still apply. The bill also provides requirements with respect to personnel decisions and distribution of state and federal funding. School districts that do not disburse state and federal funds to participating schools within 10 working days after receipt of the funding must pay the scheduled funding amount with interest at a rate of 1 percent per month calculated on a daily basis on the unpaid balance until a warrant for payment is issued.

In addition, the bill requires school districts to provide certain administrative and educational services to pilot schools, including transmittal of student performance data to each participating school in the same manner as provided to other schools in the district. A total administrative fee for the provision of such services must be calculated based upon up to 5 percent of the available funds for all students, except that if 75 percent or more of the students enrolled in the pilot school are exceptional students,[2] the 5 percent of those available funds must be calculated based on unweighted full-time equivalent students. A district may withhold up to a 5-percent administrative fee only for enrollment for 250 students or less. The bill requires the auditor general to audit and report any noncompliance by a participating district.

The bill charges the pilot school principal with selecting employees for the school and allows a pilot school to contract with its district for the services of district personnel. The bill provides that acceptance of employment at a pilot school constitutes leave from the district and that accrued seniority and benefits remain in place while the teacher is employed by the school. A school district may not require the resignation of an employee who desires to teach in a pilot school.

B. SECTION DIRECTORY:

Section 1. Amends s. 1008.02, F.S., defining the terms "core operating expenditure," "fiscal peers," and "return-on-investment rating."

[2] Under section 1003.01(3), F.S., an exceptional student is "any student who has been determined eligible for a special program in accordance with rules of the State Board of Education. The term includes students who are gifted and students with disabilities who have an intellectual disability; autism spectrum disorder; a speech impairment; a language impairment; an orthopedic impairment; an other health impairment; traumatic brain injury; a visual impairment; an emotional or behavioral disability; or a specific learning disability, including, but not limited to, dyslexia, dyscalculia, or developmental aphasia; students who are deaf or hard of hearing or dual sensory impaired; students who are hospitalized or homebound; children with developmental delays ages birth through 5 years, or children, ages birth through 2 years, with established conditions that are identified in State Board of Education rules."

A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:

   None.

2. Expenditures:

   Indeterminate. To the extent establishment of the return on investment rating and determination of fiscal peers requires development of additional data collection and reporting processes, there may be associated costs. However, because the bill requires the commissioner to make every attempt to use aggregated student data already collected by the DOE, any costs would likely be minimal.

IV. AMENDMENTS/ COMMITTEE SUBSTITUTE CHANGES

On March 18, 2014, the K-12 Subcommittee reported the PCS to HB 875 favorably. The PCS increases the number of schools that may participate as a pilot school from no more than 14 to at least 15 middle schools and 15 high schools. The PCS also removes eligibility for elementary schools to participate as a pilot school, restricting participation to middle schools and high schools that have received a school grade of "C," "D," or "F" in each of the past five years and that represent diverse student populations.

The PCS removes administration of the pilot program from the DOE and provides for continued local operation of participating schools. In addition, the PCS provides that participation in the pilot program by a selected school is subject to district school board approval. The PCS requires district school boards that withhold approval for a selected school to provide the commissioner with a detailed written explanation for its refusal. The PCS also requires the Auditor General to audit and report any noncompliance by a participating district.

The PCS also makes various technical changes.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 1008.02, Florida Statutes, is amended to read:

1008.02 Definitions.—As used in this chapter, the term:

(1) "Core operating expenditure" means the expenditure of general and special revenue funds, in accordance with the uniform chart of accounts included in the publication "Financial and Program Cost Accounting and Reporting for Florida Schools," in the functional categories of instruction and instructional support services and in the object categories of salaries, employee benefits, purchased services, and materials and supplies. The Commissioner of Education may classify other expenditures, funds, and functional and object categories as

core operating expenditures.

(2) ~~(1)~~ "Developmental education" means instruction through which a high school graduate who applies for any college credit program may attain the communication and computation skills necessary to successfully complete college credit instruction. Developmental education may be delivered through a variety of accelerated and corequisite strategies and includes any of the following:

(a) Modularized instruction that is customized and targeted to address specific skills gaps.

(b) Compressed course structures that accelerate student progression from developmental instruction to college-level coursework.

(c) Contextualized developmental instruction that is related to meta-majors.

(d) Corequisite developmental instruction or tutoring that supplements credit instruction while a student is concurrently enrolled in a credit-bearing course.

(3) "Fiscal peers" means public schools and school districts that are of similar size and have similar average total cost-per-student funding in the Florida Education Finance Program, as determined by the commissioner. At a minimum, the commissioner shall take into consideration the following factors:

(a) The Florida Price Level Index.

(b) School size.

(c) Student program cost factors.

(d) Geography.

(4) ~~(2)~~ "Gateway course" means the first course that provides transferable, college-level credit allowing a student to progress in his or her program of study.

(5) ~~(3)~~ "Meta-major" means a collection of programs of study or academic discipline groupings that share common foundational skills.

(6) "Return-on-investment rating" or "ROI rating" means a calculation developed by the commissioner which results in an annual ordinal rating for a public school and a school district that displays to the public the extent by which core operating expenditures have been used to positively impact student achievement. Ratings are assigned, as provided for under s. 1008.34(6), based on spending and student performance relative to a school's fiscal peers or a school district's fiscal peers.

Section 2. Subsection (5) of section 1008.34, Florida Statutes, is amended, subsections (6) through (8) are renumbered as subsections (7) through (9), respectively, and a new subsection (6) is added to that section, to read:

1008.34 School grading system; school report cards; district grade.—

(5) SCHOOL REPORT CARD.—The Department of Education shall annually develop, in collaboration with the school districts, a school report card to be provided by the school district to parents within the district. The report card must ~~shall~~ include

the school's grade, information regarding school improvement, an explanation of school performance as evaluated by the federal Elementary and Secondary Education Act (ESEA), 20 U.S.C. ss. 6301 et seq., and indicators of return on investment as provided in subsection (6). Each school's report card shall be published annually by the department on its website.

(6) RETURN-ON-INVESTMENT (ROI) RATING.—

(a) By January 31, 2015, the Commissioner of Education shall establish a ROI rating system. The ROI rating evaluates the extent to which public schools and school districts are using their financial resources in a cost-effective manner to improve student performance relative to their fiscal peers, as defined in s. 1008.02(3). The ROI rating must place the most weight on indicators designed to measure how dollars are being used to facilitate increased student academic performance. Student performance means student achievement and student learning gains on statewide, standardized assessments as provided for in this section.

(b) The commissioner shall determine fiscal peers, as defined in s. 1008.02(3), for each public school and school district. Each ROI rating shall be calculated relative to the performance of the fiscal peers of the school or school district.

(c) The commissioner shall assign the ordinal ROI ratings for all public schools and school districts in a sortable, easy-to-understand format that allows for comparisons among school

districts, public schools, public charter schools, and fiscal peers. Beginning with the 2015-2016 school year, the commissioner shall publish ratings on the Department of Education's website when school report cards are made publicly available. Each public school shall provide a link to this information on its website and annually post a copy of its most recent rating in a visible location.

(d) Beginning with the 2015-2016 school year, each school's report card shall include the ordinal ROI rating of the school and the school district.

(e) The commissioner shall make every attempt to use aggregated student data that is already being collected from public schools to develop the ROI rating, including, but not limited to, data from:

1. School report cards issued under this section.

2. Accountability measures, including the annual school accountability report required by ss. 1001.42(18) and 1008.345.

3. Profiles of school districts pursuant to ss. 1010.20 and 1011.60.

4. The state's program cost reporting system.

Section 3. Subsection (5) is added to section 1011.69, Florida Statutes, to read:

1011.69 Equity in School-Level Funding Act.—

(5) Subject to annual appropriation in the General Appropriations Act, the Schoolhouse Funding Pilot Program is created for the purpose of giving principals increased authority

over school budgets and human capital decisions and then determining whether the increased flexibility positively impacts the return on investment at that school, as that term is defined in s. 1008.02(6).

(a) Definitions.—As used in this subsection, the term:

1. "Pilot program" means the Schoolhouse Funding Pilot Program.

2. "Pilot school" means a public school that participates in the pilot program.

(b) Participating pilot schools.—

1. The Commissioner of Education shall select a minimum of 15 high schools and 15 middle schools from throughout the state to participate in a 2-year Schoolhouse Funding Pilot Program, beginning with the 2015-2016 school year. Participating pilot schools shall be selected as follows:

a. The school received a school grade of "C," "D," or "F" in the prior school year and has not received a school grade of "A" or "B" in the past 5 years.

b. The school represents diverse student populations, including minority students, students receiving free or reduced-price lunches, and students with disabilities.

2. The district school board must approve a school's participation in the pilot program for a school in the district that is recommended by the commissioner. If the district school board fails to approve a school for participation in the pilot program, the district school board must provide the commissioner

with a detailed written explanation for its refusal.

(c) Professional development.—The principal, and if possible the assistant principals, of a pilot school selected by the commissioner and approved by the district school board must participate in a professional development program, as provided in the General Appropriations Act. The professional development program must include leadership training that focuses on all of the following:

1. Improving student achievement.

2. Aligning standards, assessment, curriculum, and instruction.

3. Using data to drive instruction.

4. Using best financial management practices to drive student achievement.

(d) Assessment and accountability.—

1. A pilot school must participate in the student assessment program for public schools under s. 1008.22 and is subject to the school grading system under s. 1008.34.

2. The department shall measure the return on investment of each school upon its acceptance into the pilot program and annually thereafter in accordance with s. 1008.34(6).

(e) Funding.—A student enrolled in a pilot school shall be funded as if the student were in a basic program or a special program at any other public school within the school district.

1. A pilot school shall report its student enrollment to the district as required under s. 1011.62. The district shall

include each pilot school's enrollment in the district's report of student enrollment. When submitting student record information required by the Department of Education, a pilot school shall comply with the department's guidelines for electronic data formats. Each district shall accept electronic data that complies with the department's electronic format.

2. The amount of funding for students enrolled in a pilot school shall be the sum of the school district's operating funds from the Florida Education Finance Program as provided in s. 1011.62 and the General Appropriations Act, including gross state and local funds, discretionary lottery funds, and funds from the school district's current operating discretionary millage levy; divided by total funded weighted full-time equivalent students in the school district; multiplied by the weighted full-time equivalent students for the pilot school. A pilot school whose students or programs meet the eligibility criteria in law is entitled to its proportionate share of categorical program funds included in the total funds made available in the Florida Education Finance Program by the Legislature, including transportation funds if applicable. Total funding for each pilot school shall be recalculated during the year to reflect the revised calculations under the Florida Education Finance Program by the state and the actual weighted full-time equivalent students reported by the pilot school during the full-time equivalent student survey periods designated by the Commissioner of Education.

3. If the district school board is providing programs or services to students funded by federal funds, any eligible student enrolled in a pilot school in the school district shall be provided federal funds at the same level as is provided to students in the schools operated by the district school board. Pursuant to the federal Elementary and Secondary Education Act (ESEA), 20 U.S.C. ss. 7221-7225g, each pilot school shall receive all federal funding for which the school is otherwise eligible, including Title I funding, no later than 5 months after the pilot school begins the pilot program and within 5 months after any subsequent expansion of enrollment. Unless otherwise mutually agreed to by the pilot school and the district, and consistent with state and federal rules and regulations governing the use and disbursement of federal funds, the district shall reimburse the pilot school on a monthly basis for all invoices submitted by the pilot school using federal funds available to the district for the benefit of the pilot school, the pilot school's students, and the pilot school's students as public school students in the school district. Such federal funds include, but are not limited to, Title I, Title II, and Individuals with Disabilities Education Act (IDEA) funds. To receive timely reimbursement for an invoice, the pilot school must submit the invoice to the district at least 30 days before the monthly date of reimbursement set by the district. In order to be reimbursed, any expenditure made by the pilot school must comply with all applicable state and federal rules and

regulations, including, but not limited to, the applicable federal Office of Management and Budget circulars; the regulations of the United States Department of Education; and program-specific statutes, rules, and regulations. Such funds may not be made available to the pilot school until a plan is submitted to the district for approval of the use of the funds in accordance with applicable federal requirements. The district has 30 days to review and approve any plan submitted pursuant to this subparagraph.

4. Each district school board shall make timely and efficient payment and reimbursement to pilot schools and shall process paperwork required to access special state and federal funding for which they may be eligible. The district school board may distribute funds to a pilot school for up to 3 months based on the projected full-time equivalent student membership of the pilot school. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the pilot school for the remainder of the fiscal year. The payment shall be issued no later than 10 working days after the district school board receives a distribution of state or federal funds. If a warrant for payment is not issued within 10 working days after receipt of funding by the district school board, the school district shall pay to the pilot school, in addition to the amount of the scheduled disbursement, interest at a rate of 1 percent per month calculated on a daily basis on the unpaid balance from the

expiration of the 10 working days until such time as the warrant is issued.

(f) Services.—

1. A school district shall provide certain administrative and educational services to pilot schools. These services must include contract management services; full-time equivalent and data reporting services; exceptional student education administrative services; services related to eligibility and reporting duties required to ensure that school lunch services under the federal lunch program, consistent with the needs of the pilot school, are provided by the district at the request of the pilot school, that any funds due to the pilot school under the federal lunch program be paid to the pilot school if the pilot school begins serving food under the federal lunch program, and that the pilot school is paid at the same time and in the same manner under the federal lunch program as other public schools serviced by the district; test administration services, including payment of the costs of state-required or district-required student assessments; processing of teacher certificate data services; and information services, including equal access to student information systems that are used by public schools in the district in which the pilot school is located. Student performance data for each student in a pilot school, including, but not limited to, statewide test scores, standardized test scores, previous public school student report cards, and student performance measures, shall be provided by

the district to a pilot school in the same manner as they are provided to other public schools in the district.

2. A total administrative fee for the provision of such services shall be calculated based upon up to 5 percent of the available funds under paragraph (e) for all students, except that if 75 percent or more of the students enrolled in the pilot school are exceptional students as defined in s. 1003.01(3), the 5 percent of those available funds shall be calculated based on unweighted full-time equivalent students. However, a district may withhold up to a 5-percent administrative fee only for enrollment for 250 students or less. Pursuant to its authority under s. 11.45, the Auditor General shall audit and report any noncompliance by a participating district.

(g) Employees of pilot schools.—

1. A pilot school principal shall select the employees of the pilot school. A pilot school may contract with its school district for the services of personnel who are employed by the district.

2. Instructional personnel at a pilot school may choose to be part of a professional group that subcontracts with the district to operate an instructional program under the auspices of a partnership or cooperative that the instructional personnel collectively own. Under this arrangement, such personnel are not considered public employees for purposes of contract negotiations or for purposes of the Florida Retirement System.

3. An employee of a school district may take leave to

accept employment in a pilot school upon the approval of the district school board. While employed by the pilot school and on leave that is approved by the district school board, the employee may retain seniority accrued in that district and may continue to be covered by the benefit programs of that district if the pilot school and the district school board agree to this arrangement and its financing. A district may not require the resignation of an employee who desires to teach in a pilot school. This subparagraph does not prohibit a district school board from approving alternative leave arrangements consistent with chapter 1012.

4. A teacher who is employed by or under contract to a pilot school must be certified as required under chapter 1012. A pilot school may employ or contract with skilled selected noncertified personnel to provide instructional services or to assist instructional staff members as education paraprofessionals in the same manner as provided under chapter 1012 and as provided by State Board of Education rule. A pilot school may not knowingly employ an individual to provide instructional services or to serve as an education paraprofessional if the individual's certification or licensure as an educator is suspended or revoked by this state or any other state. A pilot school may not knowingly employ an individual who has resigned from a school district in lieu of disciplinary action with respect to child welfare or safety or who has been dismissed for just cause by any school district

with respect to child welfare or safety. The qualifications of teachers shall be disclosed to parents.

5.a. A pilot school shall employ or contract with employees who have undergone background screening as provided in s. 1012.32.

b. A pilot school shall disqualify instructional personnel and school administrators, as defined in s. 1012.01, from employment in any position that requires direct contact with students if the personnel or administrators are ineligible for such employment under s. 1012.315.

c. A pilot school shall adopt policies establishing standards of ethical conduct for instructional personnel and school administrators. The policies must require all instructional personnel and school administrators, as defined in s. 1012.01, to complete training on the standards; establish the duty of instructional personnel and school administrators to report alleged misconduct by other instructional personnel or school administrators that affects the health, safety, or welfare of a student and procedures for such reporting; and include an explanation of the liability protections provided under ss. 39.203 and 768.095.

d. A pilot school or an employee of a pilot school may not enter into a confidentiality agreement regarding terminated or dismissed instructional personnel or school administrators, or personnel or administrators who resign in lieu of termination, based in whole or in part on misconduct that affects the health,

safety, or welfare of a student and may not provide instructional personnel or school administrators with employment references or discuss such persons' performance with prospective employers in another educational setting without disclosing such misconduct. Any part of an agreement or contract that has the purpose or effect of concealing misconduct by instructional personnel or school administrators which affects the health, safety, or welfare of a student is void, is contrary to public policy, and may not be enforced.

e. Before employing instructional personnel or school administrators in any position that requires direct contact with students, a pilot school must conduct employment history checks of each such person's previous employers, screen such person using the educator screening tools described in s. 1001.10(5), and document the findings. If unable to contact such person's previous employer, the pilot school must document efforts to contact the employer.

Section 4. Paragraphs (a) and (d) of subsection (1) of section 1003.621, Florida Statutes, are amended to read:

1003.621 Academically high-performing school districts.—It is the intent of the Legislature to recognize and reward school districts that demonstrate the ability to consistently maintain or improve their high-performing status. The purpose of this section is to provide high-performing school districts with flexibility in meeting the specific requirements in statute and rules of the State Board of Education.

(1) ACADEMICALLY HIGH-PERFORMING SCHOOL DISTRICT.—

(a) A school district is an academically high-performing school district if it meets the following criteria:

1.a. ~~Beginning with the 2004-2005 school year,~~ Earns a grade of "A" under s. 1008.34(8) ~~1008.34(7)~~ for 2 consecutive years; and

b. Has no district-operated school that earns a grade of "F" under s. 1008.34;

2. Complies with all class size requirements in s. 1, Art. IX of the State Constitution and s. 1003.03; and

3. Has no material weaknesses or instances of material noncompliance noted in the annual financial audit conducted pursuant to s. 218.39.

(d) In order to maintain the designation as an academically high-performing school district pursuant to this section, a school district must meet the following requirements:

1. Comply with the provisions of subparagraphs (a)2. and 3.; and

2. Earn a grade of "A" under s. 1008.34(8) ~~1008.34(7)~~ for 2 years within a 3-year period.

However, a district in which a district-operated school earns a grade of "F" under s. 1008.34 during the 3-year period may not continue to be designated as an academically high-performing school district during the remainder of that 3-year period. The district must meet the criteria in paragraph (a) in order to be

redesignated as an academically high-performing school district.

Section 5. Paragraph (a) of subsection (2) of section 1011.64, Florida Statutes, is amended to read:

1011.64 School district minimum classroom expenditure requirements.—

(2) For the purpose of implementing the provisions of this section, the Legislature shall prescribe minimum academic performance standards and minimum classroom expenditure requirements for districts not meeting such minimum academic performance standards in the General Appropriations Act.

(a) Minimum academic performance standards may be based on, but are not limited to, district grades determined pursuant to s. 1008.34(8) ~~1008.34(7)~~.

Section 6. This act shall take effect upon becoming a law.

Developmental education may be delivered through a variety of accelerated and corequisite strategies and includes any of the following:

(a) Modularized instruction that is customized and targeted to address specific skills gaps.

(b) Compressed course structures that accelerate student progression from developmental instruction to college-level coursework.

(c) Contextualized developmental instruction that is related to meta-majors.

(d) Corequisite developmental instruction or tutoring that supplements credit instruction while a student is concurrently enrolled in a credit-bearing course.

(2) "Gateway course" means the first course that provides transferable, college-level credit allowing a student to progress in his or her program of study.

(3) "Meta-major" means a collection of programs of study or academic discipline groupings that share common foundational skills.

The commissioner may specify expenditures, funds, and functional and object categories as operating expenditures.

(5) "Return-on-investment rating" or "ROI rating" means a calculation developed by the commissioner which results in an annual ordinal rating for a public school and a school district that displays to the public the extent by which operating expenditures have been used to positively impact student performance. Ratings shall be assigned, as provided in s. 1008.34(6), based on operating expenditures and student performance.

Section 2. Subsection (5) of section 1008.34, Florida

Student performance means student learning gains on statewide, standardized assessments as provided for in this section.

(b) Schools shall be grouped for comparison as determined by the commissioner.

(c) The commissioner shall assign the ordinal ROI ratings for all public schools and school districts in a sortable, easy-to-understand format that allows for comparisons among school districts and public schools. SUMMARY ANALYSIS

Florida imposes an annual tax on premiums collected by insurance companies doing business in the state. This tax applies to life, health, property and casualty, title insurance, and most other types of policies at a rate of 1.75% on the gross amount of premium, with deductions allowed for reinsurance accepted, return premiums, assessments, and various credits. It applies to self-insurance funds at a rate of 1.6%. It applies to annuities at a rate of 1%. It applies to wet marine and transportation insurance at a rate of 0.75% of gross underwriting profit, defined as net premiums minus net losses paid.

The bill provides that insurance premiums tax on bail bond premiums shall be calculated as 1.75% of bail bond premiums excluding any portion of the premium retained by bail bond agents or managing general agents. Other credits and exemptions applicable to insurance premiums tax may still be applied as under current law.

The Revenue Estimating Conference met on March 7, 2014 and estimated this bill would have a cash and recurring impact of -$0.7 million to general revenue beginning in fiscal year 2014-2015.

The bill provides an effective date of January 1, 2015.

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Present Situation

Insurance Premiums Tax

Florida imposes an annual tax on premiums collected by insurance companies doing business in the state.[1] This tax applies to life, health, property and casualty, surety, title insurance, and most other types of policies at a rate of 1.75% on the gross amount of premium, with deductions allowed for reinsurance accepted, return premiums and assessments.[2] It applies to self-insurance funds at a rate of 1.6%.[3] It applies to annuities at a rate of 1%.[4] It applies to wet marine and transportation insurance at a rate of 0.75% of gross underwriting profit, defined as net premiums minus net losses paid.[5]

There are a number of credits allowed against insurance premiums tax liability. These include:

- 100% of corporate income tax paid pursuant to chapter 220, F.S.[6]
- 15% of salaries paid by the company to its Florida-based employees.[7]
- 50% of a community contribution made pursuant to the Community Contribution Tax Credit Program for enterprise zones.[8]
- 100% of donations made to eligible scholarship funding organizations pursuant to s. 1002.395.[9]

The sum of the credits granted for corporate income tax and employee salaries may not exceed 65% of the insurer's premium tax liability.[10]

Retaliatory Tax

When another state or foreign country levies certain taxes or fees, including insurance premiums tax, on Florida insurers in excess of the taxes and fees levied by Florida on insurers from such other state or foreign country, a retaliatory tax is charged.[11] Companies from the other state or foreign country are taxed using the same tax and fee structure that a similar Florida insurer operating in such state or foreign country would be charged.

Bail Bonds

When a person is charged with a crime in this state, they may seek pre-trial release. One method of seeking release is by applying for bail.[12] After a bail determination hearing, the court may grant the defendant monetary bail. Such bail can be satisfied by a surety bond presented by a qualified individual, group of individuals, or a bail bond agent licensed under chapter 648, F.S.[13] Such surety bonds serve as a guarantee by the surety that the defendant will appear at all necessary hearings.[14]

Licensed bail bond agents are required to charge a premium in exchange for granting the surety bond.[15] Bail bond agents are subject to Section I of the Insurance Code contained in chapter 627, F.S., which requires that their rates be filed with and approved by the Office of Insurance Regulation (OIR).

Licensed bail bond agents or licensed managing general agents retain up to 93.5% of the premium, and the insurance company retains the remainder.[16] Unlike other types of insurance companies, domestic bail bond providers file their required financial reports to the OIR, based on premiums collected *net* of any amounts retained by agents.[17] However, current law requires that the reporting and payment of insurance premium taxes and related excise taxes under ss. 624.509, 624.5091, and 624.5092, F.S., is calculated using *gross* bail bond premiums.[18]

Proposed Changes

The bill provides that insurance premiums tax on bail bond premiums shall be calculated as 1.75% of net bail bond premiums (i.e., excluding any portion of the premium retained by bail bond agents or managing general agents), as reported to the OIR. Other credits and exemptions applicable to insurance premiums tax may still be applied as under current law.

Additionally, it removes language from s. 624.4094(5), F.S., relating to calculation of insurance premiums tax on gross bail bond premiums, to conform to the changes detailed above.

B. SECTION DIRECTORY:

Section 1. Amends section 624.4094, F.S., repealing the provision that insurance premium taxes on bail bond premiums shall not be calculated based on premiums collected but excluding any portion of the premium retained by a bail bond agent.

Section 2. Amends section 624.509, F.S., to provide that insurance premiums tax on bail bond premiums shall be calculated as 1.75% of bail bond premiums but excluding any portion of the premium retained by a bail bond agent or managing general agent.

Section 3. Provides an effective date of January 1, 2015.

IV. AMENDMENTS/ COMMITTEE SUBSTITUTE CHANGES

On March 20, 2014, the Finance & Tax Subcommittee adopted a strike-all amendment to the bill. The amendment applied the exemption to both foreign and domestic companies, and changed the effective date to January 1, 2015. The analysis has been updated to reflect these changes.

A bill to be entitled

An act relating to bail bond premiums; amending s. 624.4094, F.S.; repealing a provision separating the calculation of insurance premium taxes from financial reporting for bail bond premiums; amending s. 624.509, F.S.; specifying the amount of direct written premiums for bail bonds for the purpose of calculation of certain taxes; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (5) of section 624.4094, Florida Statutes, is amended, and subsection (1) of that section is republished, to read:

624.4094 Bail bond premiums.—

(1) The Legislature finds that a significant portion of bail bond premiums is retained by the licensed bail bond agents or licensed managing general agents. For purposes of reporting in financial statements required to be filed with the office pursuant to s. 624.424, direct written premiums for bail bonds by a domestic insurer in this state shall be reported net of any amounts retained by licensed bail bond agents or licensed managing general agents. However, in no case shall the direct written premiums for bail bonds be less than 6.5 percent of the total consideration received by the agent for all bail bonds written by the agent. This subsection also applies to any

determination of compliance with s. 624.4095.

~~(5) This section does not affect the reporting or payment of insurance premium taxes under ss. 624.509, 624.5091, and 624.5092, and the insurance premium tax and related excise taxes shall continue to be calculated using gross bail bond premiums.~~

Section 2. Subsection (1) of section 624.509, Florida Statutes, is amended, to read:

624.509 Premium tax; rate and computation.—

(1) In addition to the license taxes provided for in this chapter, each insurer shall also annually, and on or before March 1 in each year, except as to wet marine and transportation insurance taxed under s. 624.510, pay to the Department of Revenue a tax on insurance premiums, premiums for title insurance, or assessments, including membership fees and policy fees and gross deposits received from subscribers to reciprocal or interinsurance agreements, and on annuity premiums or considerations, received during the preceding calendar year, the amounts thereof to be determined as set forth in this section, to wit:

(a) An amount equal to 1.75 percent of the gross amount of such receipts on account of life and health insurance policies covering persons resident in this state and on account of all other types of policies and contracts (except annuity policies or contracts taxable under paragraph (b) and bail bond policies or contracts taxable under paragraph (c)) covering property, subjects, or risks located, resident, or to be performed in this

state, omitting premiums on reinsurance accepted, and less return premiums or assessments, but without deductions:

1. For reinsurance ceded to other insurers;

2. For moneys paid upon surrender of policies or certificates for cash surrender value;

3. For discounts or refunds for direct or prompt payment of premiums or assessments; and

4. On account of dividends of any nature or amount paid and credited or allowed to holders of insurance policies; certificates; or surety, indemnity, reciprocal, or interinsurance contracts or agreements.~~; and~~

(b) An amount equal to 1 percent of the gross receipts on annuity policies or contracts paid by holders thereof in this state.

(c) An amount equal to 1.75 percent of the direct written premiums for bail bonds excluding any amounts retained by licensed bail bond agents or licensed managing general agents.

Section 3. This act shall take effect January 1, 2015.

BILL #: HB 943 Department of Revenue's Certified Audit Program

SUMMARY ANALYSIS

Section 213.285, Florida Statutes, F.S., establishes a Certified Audit Program as a cooperative effort between the Department of Revenue and the Florida Institute of Certified Public Accountants. The program allows taxpayers to hire qualified CPA firms to review their tax compliance for the tourist development taxes imposed by ss. 125.0104 and 125.0108, F.S, and the sales and use tax imposed by ch. 212, F.S.

To encourage participation in the program, taxpayers who undergo a certified audit receive a statutorily guaranteed waiver of all penalties, abatement of the first $25,000 of interest, and an additional 25 percent of any interest liability in excess of the first $25,000 if that audit reveals additional liability. A taxpayer may not currently participate in the certified audit program if they are currently under audit or have received a written notice of intent to audit.

The bill allows taxpayers to participate in the certified audit program after they have received a notice of intent to audit. The amount of interest abated for such taxpayers is reduced to the first $15,000 and 15 percent of any amount over $15,000. The bill also increases the amount of interest that is abated for participating taxpayers who have not received a notice of intent to audit to an abatement of the first $50,000 of interest plus 50 percent of any amount over $50,000.

On February 28, 2014, the Revenue Estimating Conference estimated that allowing taxpayers to enter the certified audit program after receiving a notice of intent to audit would have a recurring impact of -$1.4 million to General Revenue and a recurring impact of -$0.3 million to local governments. Impacts will not begin until fiscal year 2015-2016. The interest abatement changes for the current program will have an indeterminate fiscal impact of unknown direction.

The effective date is July 1, 2014.

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Present Situation

The Department of Revenue ("DOR") routinely audits businesses in this state to determine if state taxes were collected, reported, and paid correctly. DOR begins the audit process by mailing a taxpayer a Notification of Intent to Audit Books and Records ("notice of intent").[1] This notice identifies the audit period and taxes to be examined. The types of records needed may include, but are not limited to: federal income tax returns, Florida tax returns, depreciation schedules, general ledgers and journals, property records, cash receipt and disbursement journals, purchase and sales journals, sales tax exemption or resale certificates, and documentation to verify amounts entered on tax returns. An audit may extend back three years.[2]

To encourage voluntarily compliance by taxpayers, s. 213.285, F.S., establishes a Certified Audit Program as a cooperative effort between DOR and the Florida Institute of Certified Public Accountants. The program allows taxpayers to hire qualified CPA firms to review their tax compliance for the tourist development taxes imposed by ss. 125.0104 and 125.0108, F.S, and the sales and use tax imposed by ch. 212, F.S.[3]

To encourage participation in the program, taxpayers who undergo a certified audit receive a statutorily guaranteed waiver of all penalties, abatement of the first $25,000 of interest, and an additional 25 percent of any interest liability in excess of the first $25,000 in cases where the audit reveals additional liability.[4] These incentives are not available where tax was collected but not remitted to the state. Additionally, except in cases of fraud or misrepresentation, DOR will not audit a taxpayer who uses the program for the same tax years that the certified audit reviewed.

A taxpayer may not participate in the certified audit program if they are currently under audit or have received a written notice of intent to audit from DOR.

To conduct a certified audit a CPA must possess an active Florida CPA license, attend a 2.5-day training seminar, and pass an examination to be certified. For a firm to be eligible to conduct certified audits, several additional requirements must be met. The firm must be a licensed audit firm with the Florida Board of Accountancy, have received a timely on-site peer review, and must conduct the audits using agreed-upon procedures. A staff member of the firm must have completed DOR-provided training on Florida multi-tax software.[5]

To be eligible to provide a certified audit service to a taxpayer, the qualified CPA firm must also be independent with respect to that taxpayer, pursuant to the guidelines established by Florida Board of Accountancy.[6]

When the certified audit project was authorized by the Legislature in 1998, a sunset provision was included of July 1, 2002. The program was made permanent in 2003.[7]

Proposed Changes

The bill allows taxpayers to participate in the certified audit program after they have received a notice of intent to audit from DOR. The time limits for administering a certified audit in that situation are modified, giving the taxpayer an additional 30 days to submit a proposed audit plan. Within 90 days after the submittal of the proposed audit plan, the department shall designate the agreed-upon procedures for that audit. The certified auditor has 285 days from the date of the notice of intent to audit to timely complete the audit.

The amount of interest that is abated for such taxpayers is $15,000 plus 15 percent of any amount over $15,000.

The bill also increases the amount of interest that is abated for participating taxpayers who have not received a notice of intent to audit, increasing the abatement to the first $50,000 of interest plus 50 percent of any amount over $50,000.

The bill codifies into statute the current rule[8] that the certified audit program only applies to the sales and use tax and the tourist development tax.

B. SECTION DIRECTORY:

Section 1. Amends s. 213.21, F.S., to adjust the amount of interest abated.

Section 2. Amends s. 213.285, F.S., to allow taxpayers who have received a notice of intent to audit to participate in the certified audit program, providing procedures for such participation, codifying the applicable taxes.

Section 3. Amends s. 213.053, F.S., conforming changes.

Section 4. Providing an effective date.

II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:

   On February 28, 2014, the Revenue Estimating Conference estimated that allowing taxpayers to enter the certified audit program after receiving a notice of intent to audit would have a recurring impact of -$1.4 million to General Revenue. B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

local governments. Impacts will not begin until fiscal year 2015-2016. The interest abatement changes for the current program will have an indeterminate fiscal impact of unknown direction.

2. Expenditures:

None.

C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

Taxpayers who take advantage of the certified audit program may see their tax liability decrease due to the abatement of interest and waiver of penalties. CPAs who are certified by DOR to conduct such audits will see additional demand for their services should the expanded eligibility lead to more participation.

D. FISCAL COMMENTS:

Increased participation in the certified audit program should free up resources to allow DOR to conduct more audits and collect additional taxes from noncompliant taxpayers whose liability would have otherwise gone undetected.

III. COMMENTS

A. CONSTITUTIONAL ISSUES:

1. Applicability of Municipality/County Mandates Provision:

The county/municipality mandates provision of Art. VII, section 18, of the Florida Constitution may apply because this bill may cause local governments to receive lower collections from local option sales taxes; however, an exemption may apply as the negative impact to local governments may be insignificant.

However, the department may exclude a taxpayer from a certified audit or may limit the taxes or periods subject to the certified audit if ~~on the basis that~~ the department has previously conducted an audit, ~~that it~~ is in the process of conducting an investigation or other examination of the taxpayer's records, or for just cause determined solely by

the department.

(d) ~~(c)~~ Notice of the qualification of a taxpayer for a certified audit tolls ~~shall toll~~ the statute of limitations provided in s. 95.091 with respect to the taxpayer for the tax and periods covered by the engagement.

(e) ~~(d) Within 30 days after receipt of the notice of qualification from the department,~~ The qualified practitioner shall contact the department and, within the following periods, shall submit a proposed audit plan and procedures for review and agreement by the department:

1. For a taxpayer who requests to participate in the certified audit program before the department has issued the taxpayer a written notice of intent to conduct an audit, within 30 days after receipt of the notice of qualification from the department; or

2. For a taxpayer who requests to participate in the certified audit program after the department has issued the taxpayer a written notice of intent to conduct an audit, within 60 days after the department issued the taxpayer the notice of intent to conduct the audit.

The department may extend the time for submission of the plan and procedures for reasonable cause. The qualified practitioner shall initiate action to advise the department that amendment or modification of the plan and procedures is necessary if ~~in the event that~~ the qualified practitioner's inspection reveals that

(f) If the taxpayer has been issued a written notice of intent to conduct an audit but submits a proposed audit plan and procedures in accordance with subparagraph (e)2. within 90 days after the notice of intent was issued to the taxpayer, the department shall designate the agreed-upon procedures to be followed by the qualified practitioner in the certified audit.

(5) Upon the department's designation of the agreed-upon procedures to be followed by the practitioner in the certified audit, the qualified practitioner shall perform the engagement and ~~shall~~ timely submit a completed report to the department. (6) The department shall review the report of the certified audit and shall accept it when it is determined to be complete. Once the report is accepted by the department, the department shall issue a notice of proposed assessment reflecting the determination of any additional liability reflected in the report and shall provide the taxpayer with all

In cases where the report indicates an overpayment has been made, the taxpayer shall submit a properly executed application for refund to the department. Otherwise, the certified audit report is a final and conclusive determination with respect to the tax and period covered. An ~~No~~ additional assessment may not be made by the department for the specific taxes and period referenced in the report, except upon a showing of fraud or misrepresentation of material facts and except for adjustments made under s. 198.16 or s. 220.23. BILL #: CS/HB 7069 PCB EDC 14-01 Early Learning and Child Care Regulation

SUMMARY ANALYSIS

Currently, the state-funded early learning programs, i.e., the School Readiness and Voluntary Prekindergarten Education (VPK) programs, are delivered by a diverse range of providers, including public schools, licensed child care providers, licensed-exempt child care providers, and nonpublic schools. The child health and safety standards applicable to each provider type and the degree to which minimum levels of health and safety are inspected and enforced vary widely. Among other things, the bill increases early learning provider health and safety requirements and personnel quality by requiring:

- Private providers to be licensed or, if the provider is a licensed-exempt faith-based provider or nonpublic school, agree to substantially comply with specified health and safety standards and submit to inspections by the Department of Children and Families (DCF) or local licensing agency.
- Providers to notify parents of health and safety violations and prominently post citations that result in disciplinary action and inspection reports on the premises.
- That providers with Class I violations in the previous year be denied program eligibility unless certain requirements are met.
- By January 1, 2016, personnel to be at least 18 years of age and hold a high school diploma (or equivalent), with exceptions.
- By January 1, 2015, personnel to be trained in first aid and cardiopulmonary resuscitation, with exceptions.
- Personnel to be trained in developmentally appropriate practices aligned to the age and needs of children served by the personnel.
- The Office of Early Learning (OEL) to develop online training on the School Readiness program performance standards and provider personnel to complete the training.

Several bill provisions effect child care regulation in general. Among other things, the bill adds failure to report child abuse as a disqualifying offense for child care employment and requires employment history checks; prohibits licensed child care providers who have been disciplined for serious licensing violations from transferring ownership to relatives in order to remain in business; requires family day care homes (FDCH) to conspicuously post their license or registration on the premises; and requires substitutes for operators of registered FDCHs to meet the same training requirements as substitutes in licensed homes.

The bill reduces regulatory burdens on state agencies and child care providers by authorizing Early Learning Coalitions (ELC) to allow private providers to determine child eligibility for the VPK program; requiring ELCs, OEL, and DCF to cooperate in reducing paperwork and duplicative regulations; expanding DCF's authority to conduct abbreviated inspections; and extending to large family child care homes certain protections regarding zoning, property insurance, and utility rates currently available to FDCHs. Among other terminology changes, the bill directs the Division of Law Revision and Information to change the name of the School Readiness Program to the Child Care and Development Program.

The bill has a significant fiscal impact upon DCF due to the increased regulatory workload. Nonpublic schools and license-exempt faith-based providers of state-funded early learning programs may experience increased costs associated with increased health and safety regulation. *See* Fiscal Analysis & Economic Impact Statement.

The bill takes effect July 1, 2014

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Early Learning and Child Care Regulation

Present Situation

Florida's Office of Early Learning (OEL)[1] provides state-level administration for two state-funded early learning programs serving preschool age children – the School Readiness program and the Voluntary Prekindergarten Education (VPK) program. Both programs differ in purpose and utilize a variety of providers to deliver program services, such as licensed and unlicensed child care providers and public and nonpublic schools.[2] The Florida Department of Children and Families' Office of Child Care Regulation (DCF), as the agency responsible for the state's child care provider licensing program, regulates child care providers that provide early learning programs.[3]

School Readiness Program

The School Readiness program provides subsidies for child care services and early childhood education for children of low-income families; children in protective services who are at risk of abuse, neglect, or abandonment; and children with disabilities. The School Readiness Program is a state-federal partnership between OEL and the Office of Child Care of the United States Department of Health and Human Services.[4] The School Readiness program receives funding from a mixture of state and federal sources, including the federal Child Care and Development Fund (CCDF) block grant, the federal Temporary Assistance for Needy Families (TANF) block grant, and general revenue and other state funds.[5] The program is administered at the county or regional level by early learning coalitions (ELC).[6]

In order to be eligible to deliver the School Readiness program, a provider must be:

- A licensed child care facility;
- A licensed or registered family day care home (FDCH);
- A licensed large family child care home (LFCCH);
- A public school or nonpublic school;
- A license-exempt faith-based child care provider;
- A before-school or after-school program; or

[1] In 2013, the Legislature established the Office of Early Learning in the Office of Independent Education and Parental Choice within the Department of Education (DOE).The office is administered by an executive director and is fully accountable to the Commissioner of Education but shall independently exercise all powers, duties, and functions prescribed by law, as well as adopt rules for the establishment and operation of the school readiness program and the Voluntary Prekindergarten Education Program. - An informal child care provider authorized in the state's CCDF plan.[7]

Voluntary Prekindergarten Education Program

The VPK program is a voluntary, free prekindergarten program offered to eligible four-year old children in the year before admission to kindergarten.[8] Children enrolled in the VPK program receive instruction in emergent literacy and mathematics skills necessary for kindergarten readiness.[9] A child must be a Florida resident and attain four years of age on or before September 1 of the academic year to be eligible for the VPK program. Parents may choose either a school-year or summer program offered by either a public school or private prekindergarten provider.[10] A parent enrolling a child in the VPK program must complete and submit an application to the ELC. Thus, public school and private prekindergarten providers do not determine child eligibility for the program.[11]

Local oversight of individual VPK program providers is split, with ELCs providing administration over programs delivered by private prekindergarten providers and school districts administering public school VPK programs.[12] Each district school board determines which district schools will offer the school-year and summer VPK programs and such schools must register with the ELC.[13]

The VPK program may be offered by either a private prekindergarten provider or a public school. To offer the VPK program, a private prekindergarten provider must be a:

- Licensed child care facility;
- Licensed FDCH;
- Licensed LFCCH;
- Nonpublic school; or
- License-exempt faith-based child care provider.[14]

In addition, a private prekindergarten provider must:

- Be accredited by an accrediting association that is a member of either the National Council for Private School Accreditation, or the Florida Association of Academic Nonpublic Schools, or be accredited by the Southern Association of Colleges and Schools, the Western Association of Colleges and Schools, the North Central Association of Colleges and Schools, the Middle States Association of Colleges and Schools, or the New England Association of Colleges and

- Hold a current Gold Seal Quality Care designation;[16] or
- Be licensed and demonstrate to the ELC that the provider meets the VPK program's statutory requirements.[17]

Unlicensed (registered) FDCHs and informal child care providers are not eligible to offer the VPK program.[18]

Child Care Personnel and Instructor Qualifications

An application for a child care personnel position with a licensed child care facility, FDCH, or LFCCH must require the applicant to disclose, under penalty of perjury, whether he or she has ever worked for a provider that has had its license denied, revoked, or suspended in any state or jurisdiction or if he or she, individually, has been the subject of a disciplinary action or been fined while so employed.[19] Child care employers must conduct employment history checks on prospective employees.[20] The law generally requires all employers of employees who are subject to background screening requirements to furnish copies of personnel records of employees and former employees, including records of termination or disciplinary actions, when requested by other employers. The law shields such employers from any liability resulting from such release of employment records, unless the employer maliciously falsifies the records.[21]

Child care personnel employed by licensed child care facilities, licensed and registered FDCHs, LFCCHs, licensed-exempt child care providers, and nonpublic schools and VPK program instructors employed by public schools, must undergo Level 2[22] background screening.[23] The Level 2 screening requirement for public school VPK program instructors differs with the screening requirements for other public school instructional personnel. Such personnel are screened against a distinct list of 59 disqualifying offenses.[24]

Currently, the minimum age for employment as child care personnel is 16 years of age.[25] The minimum age for employment in an instructional capacity with a public school district is 18 years of age.[26] Licensed child care facility personnel, licensed and registered FDCH operators, and LFCCH operators must complete introductory child care training and .5 unit of continuing education which includes, among other things, early literacy and language development.[27] Introductory training for licensed child

care facility personnel and LFCCH operators includes developmentally appropriate practices courses for serving infants and toddlers, preschoolers, school-age children, and special needs children.[28] There is no requirement that introductory training or continuing education address emergent numeracy skills or that personnel take developmentally appropriate practices courses aligned to the specific age group or child classification to which they are assigned.

A licensed child care facility must have at least one employee on site who is trained in first aid and cardiopulmonary resuscitation (CPR). Operators of licensed FDCHs and LFCCHs and their substitutes must also be trained in these techniques.[29] First aid and CPR training are not required for registered FDCH operators and their substitutes.

Currently, the training requirements for substitutes for licensed FDCH operators differentiate between substitutes who work 40 hours or more per month from those who work less. Substitutes who work 40 hours or more per month must take a 30-clock-hour introductory child care course; a .5 continuing education unit early literacy course, and first aid and CPR training. Substitutes who work less than 40 hours per month must take a 6-clock-hour child care rules and regulations course. These training requirements do not apply to substitutes working in registered FDCHs.[30]

The law specifies minimum allowable educational credentials for VPK program instructors, which vary depending on whether they work for a private or public school provider or teach during a school year or summer program. Such credentials include the child development associate credential, various education and early childhood-related associates or bachelor's degrees, or a Florida professional teaching certificate.[31] There is no requirement that other child care personnel employed by a VPK program provider or School Readiness program provider hold a high school diploma.

The law requires OEL to develop and adopt standards and benchmarks that address the age-appropriate progress of children in the development of school readiness skills. These standards must be aligned with the performance standards adopted for children in the VPK program and must address:

- Approaches to learning.
- Cognitive development and general knowledge.
- Numeracy, language, and communication.
- Physical development.
- Self-regulation.[32]

Each ELC must provide professional development to School Readiness program teachers regarding the OEL-adopted performance standards.[33]

Child Health and Safety

State-funded early learning programs are delivered by a diverse range of providers, including licensed child care providers, licensed-exempt child care providers, public schools, and nonpublic schools. The child health and safety standards applicable to each provider type and degree to which minimum levels of health and safety are inspected and enforced vary widely.

Licensed Providers

DCF issues licenses to child care facilities, FDCHs, and LFCCHs. A county may designate a local licensing agency to license such providers if its licensing standards meet or exceed DCF's standards. Five counties have established local licensing agencies – Broward, Hillsborough, Palm Beach, Pinellas, and Sarasota.[35]

Child care provider licenses must be renewed annually.[36] Licensure is optional for FDCHs; however, homes that choose not to be licensed must annually register with DCF or the local licensing agency, as applicable. A county may by ordinance require that FDCHs be licensed. Fifteen counties have enacted such ordinances -- Brevard, Broward, Clay, Duval, Hernando, Hillsborough, Manatee, Miami-Dade, Nassau, Palm Beach, Pasco, Pinellas, Polk, Sarasota, and St. Johns.[37] Among other things, licensed child care facilities, FDCHs, and LFCCHs must annually provide information to parents regarding the influenza virus during the months or August and September.[38]

DCF conducts inspections of all licensed child care providers to determine initial and renewal licensure and periodically assess continued compliance with licensing standards. Licensed child care facilities are inspected three times annually. LFCCHs and licensed FDCHs are inspected twice annually. In each case, the first inspection is an announced initial or renewal licensing inspection. Subsequent inspections are unannounced.[39]

Licensed child care facilities are inspected based upon 354 total licensing standards in 63 categories. Licensed FDCHs are inspected based upon 261 total standards in 38 categories. LFCCHs are inspected based upon 321 total standards in 55 categories.[40] Legislation enacted in 1996 directed DCF and local licensing agencies to develop and implement a plan to eliminate duplicative and unnecessary inspections and implement an abbreviated inspection plan for providers with no Class I or Class II violations in a two-year period.[41] DCF's abbreviated inspection plan is only applicable to child care facilities. Abbreviated inspections consist of 39 of the 63 categories of standards and only the initial or renewal licensing inspection is a full inspection.[42]

Prior to 2010, DCF and the Department of Health (DOH) shared responsibility for health/safety inspections of child care facilities. However, legislation enacted that year removed child care facility inspections from the purview of DOH. *See, e.g.,* ss. 17 and 18, ch. 2010-161, L.O.F.; Memorandum of Agreement between DCF and DOH (April 16, 1997).

DCF rule classifies licensing violations as follows:

- Class I violations are the most serious in nature, pose an imminent threat to a child including abuse or neglect and which could or does result in death or serious harm to the health, safety or well-being of a child.
- Class II violations are less serious in nature than Class I violations, and could be anticipated to pose a threat to the health, safety or well-being of a child, although the threat is not imminent.
- Class III violations are less serious in nature than either Class I or Class II violations, and pose a low potential for harm to children.[43]

Class I violations include serious threats to health and safety, e.g., failure to report child abuse, child abuse by child care personnel, leaving children alone with personnel who have not been background screened, transporting children in vehicles without enough seat belts, and leaving a child in a vehicle while on a field trip.[44]

Licensed Child Care Provider Standards By Class of Violation			
Provider Type	**Class I**	**Class II**	**Class III**
Child Care Facility	21 standards	104 standards	229 standards
Family Day Care Home	28 standards	83 standards	150 standards
Large Family Child Care Home	31 standards	96 standards	194 standards

An OEL review of 2012-13 DCF child care licensing inspection results indicates that 106 providers of the School Readiness or VPK programs were issued Class I violations. Since the initial review of the data, eight of the child care providers closed leaving 98 providers with a total of 118 Class I violations. Class I violations were issued for:

- Leaving unscreened individuals alone to supervise children: 25
- Failure to report child abuse: 19
- Inadequate supervision of children in care: 19
- Exceeding vehicle capacity or available child restraints while transporting children: 17
- The number of children in care exceeding licensed capacity: 8
- Misrepresentations by provider personnel to inspectors: 7
- Leaving a child behind in a vehicle: 6
- Use of prohibited forms of discipline: 6
- Records indicating an active employee was convicted of a disqualifying offense: 4

The law authorizes DCF and local licensing agencies to impose sanctions on child care providers for licensing violations and other misconduct. Sanctions include license suspension or revocation, fines, probation. When cause exists to impose sanctions, DCF or the local licensing agency must provide written notice to the licensee stating the grounds for the sanction and, if requested, grant a hearing on the matter.[46] The law requires the owner of a licensed child care facility to notify parents of each child in

care regarding any transfer of ownership of the facility. The new owner must apply for a new license.[47] The law does not prohibit the owner of a licensed child care facility from transferring ownership to a relative after having his or her license suspended or revoked or after suspension or revocation proceedings are initiated by DCF or a local licensing agency.

The requirements regarding notifying parents of licensure status and violations vary by child care provider type:

- Each child care facility and LFCCH must conspicuously display on the premises its license.[48]
- Each child care facility must post conspicuously on the premises any citations that resulted in disciplinary action for one-year after its effective date.[49]
- Child care facilities, FDCHs, and LFCCHs must distribute to parents a DCF-developed brochure indicating the licensure status of the provider and that information about the provider's compliance with applicable state and local requirements (including violations) can be obtained by telephoning DCF or the local licensing agency.[50]

These requirements are inapplicable to license-exempt faith-based providers and nonpublic schools. Such providers delivering the School Readiness program must annually complete a health and safety checklist, which must be posted prominently on the premises where parents can view it. The check list must be submitted to the ELC, but the ELC does not have authority to investigate and verify the accuracy of the information therein.[51]

Registered Family Day Care Homes

A registered FDCH must annually register with DCF by submitting the following information:

- The name and address of the home, name of the operator, and number of children served.
- Proof of a written plan to provide a substitute for the operator that includes the name, address, and telephone number of the substitute.
- Proof of screening and background checks.
- Proof that the operator has completed the 30-hour introductory child care training course, as evidenced by passage of a competency examination, and continuing education.
- Proof that immunization records are kept current.[52]

Substitutes for the operator of a registered FDCH are not currently required to complete any training.[53] Operators of FDCHs must annually complete a health and safety self-evaluation checklist. The checklist must be signed by the operator and provided to parents as certification that specified health and safety standards are being met. There is no requirement that the checklist be submitted to DCF, nor does DCF have authority to inspect registered FDCHs.[54]

License-Exempt Faith-Based Providers

Child care facilities that are an integral part of a church or parochial school and accredited by an organization which requires compliance with published health, safety, and sanitation standards are exempt from licensure. DCF does not have authority to investigate whether the accreditor of a faith-

based provider actually conducts site visits or otherwise enforces compliance with its health and safety standards.[55]

Public and Nonpublic Schools

The law requires each public and nonpublic school facility to obtain an environmental health inspection by the local county health department[56] and fire safety inspection by the local fire authority prior to opening and operating in Florida.[57] Sanitation and safety standards for public and nonpublic school facilities are prescribed in State Board of Education rule and county health departments apply these standards when inspecting facilities.[58] For public schools, the law requires that these inspections be conducted periodically.[59] The law is silent regarding the frequency of inspections for nonpublic schools and the Department of Education (DOE) does not verify that nonpublic schools obtain inspections, unless the nonpublic school participates in a state-funded school choice scholarship program, in which case the school must annually submit a compliance form to DOE documenting annual health and fire inspections.[60]

Prior to opening, nonpublic schools must also obtain a signed inspection report from the county or city electrical, plumbing, and building department certifying that the school facility meets local standards for educational facilities. If a public or nonpublic school serves or caters food, Department of Health food safety standards apply and a food permit is required. The local county health department permits and inspects food service at all educational facilities.[61]

Nonpublic school programs for children who are at least three years of age, but under five years of age, must substantially comply with minimum child care standards for licensed child care facilities. The law defines "substantial compliance" to mean "that level of adherence which is sufficient to safeguard the health, safety, and well-being of all children under care. Substantial compliance is greater than minimal adherence but not to the level of absolute adherence. Where a violation or variation is identified as the type which impacts, or can be reasonably expected within 90 days to impact, the health, safety, or well-being of a child, there is no substantial compliance."[62]

DCF or a local licensing agency must enforce substantial compliance with the standards to protect child health and safety. Enforcement mechanisms include corrective action plans, fines, and seeking a court order to close a school if conditions there pose a threat to child safety. DCF and local licensing agencies must take measures to eliminate duplicative inspections and unnecessary regulation, as practicable. Nonpublic school personnel who misrepresent or fail to disclose information regarding qualification for the licensing exemption or misuse criminal and juvenile delinquency records obtained in employee background screening may be subjected to criminal penalties.[63] The "substantial compliance" requirement has only been implemented in four counties.[64]

Effect of Proposed Changes

Currently, the state-funded School Readiness and VPK programs are delivered by a diverse range of providers, including public schools, licensed child care providers, licensed-exempt child care providers, and nonpublic schools. The child health and safety standards applicable to each provider type and degree to which minimum levels of health and safety are inspected and enforced varies widely. This bill holds all providers of state-funded early learning programs accountable to high standards of health and safety and site inspections. It also increases the qualifications and training for child care personnel employed by such providers. The bill empowers parents to make informed child care decisions by requiring that early learning providers cited for health and safety violations notify parents regarding violations. Lastly, while the bill increases health and safety requirements for some providers, a number of the bill's provisions reduce regulatory burdens on state agencies and child care providers.

The bill makes several terminology changes in statutory sections amended by the bill:

- The "School Readiness program" is changed to the "Child Care and Development program."
- References to "school readiness" are changed to "child care and development."
- "Family day care home" is changed to "family child care home."
- References to "family day care" are changed to "family child care."

The Division of Law Revision and Information is directed to prepare a reviser's bill for the 2015 general session to change these terms anywhere else they appear in the Florida Statutes.

Existing terminology is used in the Effect of Proposed Changes section of this bill analysis to avoid confusion.

Health, Safety, and Welfare

The bill maintains eligibility to offer the School Readiness program for public schools, licensed child care facilities, licensed FDCHs and LFCCHs, license exempt faith-based providers, and nonpublic schools. The bill removes registered FDCHs and informal providers as eligible School Readiness program providers.

The bill maintains eligibility to offer the VPK school year program for licensed child care facilities, licensed FDCHs, LFCCHs, license-exempt faith-based providers, and nonpublic schools and the existing requirement that unlicensed providers either be accredited by an authorized accreditor or hold a Gold Seal Quality Care Designation. U.S. Department of Defense (DOD)-certified child development centers operating on military installations are added as a new class of eligible private provider.

The bill requires each School Readiness or VPK program provider to comply with basic health and safety standards and specifies the manner for achieving such compliance. For licensed child care providers, this requirement is met through compliance with applicable licensing standards. For public schools, this requirement is met through compliance with existing public school health and safety requirements. The bill does not specify standards for child development centers operating on military bases. Health and safety in these centers is regulated according to standards adopted by DOD, which, among other things, require centers to be inspected at least four times annually.[65]

Most significantly, license-exempt faith-based providers and nonpublic schools must demonstrate substantial compliance with specified child care licensing standards, i.e, standards related to supervision, transportation, access, health, food and nutrition, personnel screening, and records. The bill grants DCF and local licensing agencies, as applicable, authority to inspect any portion of a license-exempt provider's or a nonpublic school's facility in which early learning programs are delivered.

[65] 10 U.S.C. s. 1794; *see, e.g.,* Army Regulation 608-10.

The bill authorizes DCF or a local licensing agency, as applicable, to issue a certificate of substantial compliance to license-exempt faith-based providers and nonpublic schools that offer the VPK or School Readiness programs. Such a school or provider must obtain the certificate in order to offer the programs. The school or provider must pass a site inspection prior to issuance of the certificate. The certificate is valid for one year and must be renewed annually.

The statutory definition of "substantial compliance" is revised to apply directly to license-exempt faith-based and nonpublic school providers of state-funded early learning programs. Under the bill, "substantial compliance" means "that level of adherence to adopted standards which is sufficient to safeguard the health, safety, and well-being of all children under care." These new requirements may not be applied in a manner that limits or excludes the curriculum provided by a faith-based provider or nonpublic school. The substantial compliance requirement may not be construed to authorize the state, its officers, local licensing agencies, or any ELC to exceed the regulatory authority granted by the bill.

A public school or private School Readiness program provider and private VPK program provider must be denied program eligibility if it has been cited for a class I violation in the 12 months prior to seeking eligibility. An existing provider that is cited for a class I violation may not have its eligibility renewed for a period of 12 months. These requirements do not apply if OEL determines that the violation was reported by the provider and the employee responsible for the violation was terminated or the violation was corrected by the provider. Additionally, such providers must notify parents electronically or in writing when cited for a Class I violation. Notice of Class I violations must be provided within 24 hours of receiving the citation. The bill also requires providers to post citations that result in disciplinary action and inspection reports on the premises in an area visible to parents. Such citations must remain posted for a period of one year. Each inspection report must remain posted until the next inspection report is available, at which time the provider must post the new report. OEL is directed to develop and implement best practices for providing parental notifications, including those related to violations, in a parent's native language if the parent's native language is a language other than English.

The bill prohibits the owner of a child care facility, FDCH, or LFCCH from transferring ownership to a relative if the owner has had his or her license suspended or revoked by DCF, has received notice from DCF that reasonable cause exists to suspend or revoke the license, or has been placed on the U.S. Department of Agriculture National Disqualified list. The bill defines "relative" to mean father, mother, son, daughter, grandfather, grandmother, brother, sister, uncle, aunt, cousin, nephew, niece, husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half brother, or half sister.

The bill revises the requirement that licensed child care facilities and FDCHs and LFCCHs provide influenza information to parents during August and September each year. Instead, such information must be provided to parents upon enrollment of the child. Thus, children who enroll after August or September will get this information.

Child Care Personnel and Instructors

The bill revises several training requirements and employment qualifications applicable to child care personnel employed by early learning program providers:

- Beginning January 1, 2016, child care personnel employed by a School Readiness provider or private VPK provider must be at least 18 years of age and hold a high school diploma (or equivalent).
- Beginning January 1, 2015, School Readiness provider personnel and private VPK program instructors must complete training in infant and child first aid and CPR within 30 days of employment. Individuals hired on or after January 1, 2015, must complete this training, as a condition of employment, within 30 days of employment.

- School Readiness and VPK program personnel who supervise children must complete the applicable DCF developmentally appropriate practices course within 30 days of being assigned to supervise an age group of children for which such course has not been completed.
- OEL must develop online training on the School Readiness program performance standards and provider personnel must complete the training.

The new minimum age and diploma requirements will not apply to personnel who are not responsible for supervision of children or under direct supervision by a qualified staff member. The CPR/First Aid requirement will not apply to personnel who are not responsible for supervision of children. The bill's changes to training requirements increase the likelihood that individuals caring for children in state-funded early learning programs are able to respond to emergencies that threaten child safety; have basic reading, writing, and speaking ability necessary to teach early literacy skills; and receive training aligned to the age and needs of children served.

Several bill provisions affect all child care personnel while others impact personnel employed by a specified provider classification. Failure to report child abuse is added as an employment disqualifier for all child care personnel statewide, including School Readiness and VPK program personnel and instructors. The bill eliminates Level 2 screening for public school provider employees and instead subjects them to the background screening requirements applicable to public school instructional personnel.

The bill also clarifies the process child care employers must use to conduct employment history checks on prospective employees. Before employing child care personnel, the employer must conduct employment history checks of each of the personnel's previous employers and document the findings. If unable to contact a previous employer, the employer must document efforts to contact the employer.

The bill adds a requirement that introductory child care and continuing education trainings for personnel serving in licensed child care facilities, FDCHs, and LFCCHs include instruction regarding emergent numeracy skills. This change better aligns this training with skills taught in the School Readiness and VPK programs.

Early Learning Program and Child Care Administration

The bill requires VPK program providers to provide parents information about the provider's program such as child development information, expectations for parent engagement, the daily schedule, and the attendance policy. School Readiness and VPK program provider attendance policies must include procedures for contacting a parent on the second consecutive day a child is absent for which the reason is unknown. The bill expands eligibility for the School Readiness program currently granted to children with disabilities aged three to five to include such children age birth to five.

The bill provides that a charter school that is authorized to provide the VPK program in its charter is part of the school district's VPK program and subject to district oversight. Charter schools not so authorized may still provide the VPK program, but must do so as a private provider.

The bill reduces regulatory burdens on child care providers and state agencies by:

- Authorizing ELCs to allow private providers to determine child eligibility for and enroll children in the VPK program. These providers must maintain enrollment records and ELCs may audit the records in order to detect fraud or errors.
- Requiring ELCs, OEL, and DCF to cooperate in reducing paperwork and duplicative regulation regarding the VPK program.
- Clarifying that worker's and unemployment compensation requirements do not apply to early learning providers who are exempt under state and federal law.
- Eliminating the requirement that School Readiness program providers add the local ELC as an additional insured on its liability insurance policy.

- Expanding DCF's authority to conduct abbreviated inspections to include FDCHs and LFCCHs. These inspections currently apply only to licensed child care facilities with no class 1 or 2 violations in a two year period.

The bill specifically authorizes OEL to hire a general counsel and inspector general. The duties of the Early Learning Advisory Council (ELAC)[66] are revised to specify that it must provide written input to OEL's executive director regarding early learning program administration, efficient use of funding, professional development, and ELC plans. The bill also charges the executive director with responsibility to call ELAC meetings and determine appropriate levels of administrative support for ELAC.

The bill requires OEL to conduct a two-year pilot project to study the impact of assessing the kindergarten readiness of VPK program participants who are English Language Learners (ELL) in both English and Spanish. Under the pilot, OEL will administer the Florida Assessments for Instruction in Reading and an appropriate assessment in Spanish. OEL must examine the results of the assessments and report its findings annually to the Governor, President of the Senate, and Speaker of the House of Representatives. The purpose of the pilot project is to better ascertain the capabilities and kindergarten readiness of ELLs, which may otherwise be masked by their lack of English proficiency.

The bill also contains several glitch fixes requested by OEL, which, generally speaking, align state law with federal law, the state CCDF plan, or existing administrative practices. Additionally, the bill authorizes ELCs to use School Readiness program quality improvement funds to provide financial support to providers and their staff for, among other things, obtaining a license or accreditation and CPR and first aid training.

Family Day Care Homes and Large Family Child Care Homes

The bill requires each FDCH to conspicuously post its license or registration on the premises in an area viewable by parents. The bill also repeals obsolete provisions requiring DCF to conduct a media campaign to inform the public regarding registration and other operational requirements related to FDCHs. This requirement dates back to early codification of FDCHs and has been fulfilled.[67]

The bill codifies the training requirements in DCF rule for licensed FDCH substitutes, which differentiate between substitutes who work 40 hours or more per month from those who work less. The bill requires substitutes in registered FDCHs to complete the same training as substitutes in licensed FDCHs. Currently, there are no training requirements for such substitutes.

Current law provides special benefits to FDCHs regarding zoning, property insurance, and utility rates that are not provided to LFCCHs, likely because LFCCHs were codified after these provisions were enacted.[68] The law prohibits:

- Counties and municipalities from requiring that FDCHs be commercially zoned;
- Property and casualty insurers from canceling residential insurance coverage solely because the residence operates as a FDCH; and
- Utilities from charging FDCHs commercial utility rates.[69]

The bill extends these zoning, insurance, and utility rate benefits to LFCCHs.

II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:

   Consistent with DCF's current authorization to collect fees for the licensure of child care facilities, it's expected an additional $70,800 in revenue may be generated to mitigate the expenditure impact of the bill.

2. Expenditures:

   The bill expands DCF's workload by requiring the inspection of license-exempt faith-based providers and nonpublic schools. It is expected that DCF will need an additional 18.00 full-time equivalent positions and $1,046,284 to address these additional regulatory functions as outlined in the following chart[70]:

Position and FTE Required	Recurring FTE Costs	Nonrecurring FTE Costs	FY 2014-15 Fiscal Impact
Licensing Counselor - 14	$ 804,485	$ 3,773	
Licensing Counselor Supervisor - 2	$ 130,931	$ 3,773	
Senior Attorney - 2	$ 170,349	$ 3,773	
TOTAL FTE - 18	$ 1,105,765		
LESS: Licensing Fee Revenue	($70,800)		
TOTAL Cost to DCF	**$1,034,965**	**$ 11,319**	**$ 1,046,284**

B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

[70] Based upon DCF's bill analysis dated February 27, 2014, and on file with staff of the Health Care Appropriations Committee

1. Revenues:

   None.

2. Expenditures:

   The bill extends to LFCCHs the protections that FDCHs currently receive regarding zoning requirements, insurance coverage, and utility rates. Under the bill:

   - Local governments are prohibited from requiring that LFCCHs be commercially zoned;
   - Property and casualty insurers are prohibited from canceling residential insurance coverage because the residence operates as a LFCCH; and
   - Utilities are prohibited from charging LFCCHs commercial utility rates.

   The extent to which local governments require LFCCHs to be commercially zoned, property insurers require LFCCHs to obtain additional coverage, and utility companies charge LFCCHs commercial rates is unknown. In order to qualify for licensure as a LFCCH, the home must operate as a licensed FDCH in the two years prior to seeking licensure as a LFCCH. It appears that most local governments, insurers, and utility companies do not treat LFCCHs any differently than FDCHs. There are currently 2,941 licensed FDCHs and 429 LFCCHs operating in Florida. Given the small number of LFCCHs that will receive these protections under the bill, the fiscal impact on counties, municipalities, property insurers, and utility companies is likely minimal.

C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

The bill authorizes DCF to charge an inspection fee to nonpublic schools and license-exempt faith-based providers of state-funded early learning programs in order to enforce substantial compliance with minimum health and safety standards. The fee must be sufficient to cover costs and may not exceed that charged for child care licensure. Currently, the licensing fee for a child care facility is $1 per child, based on the licensed capacity of the facility, with a minimum fee of $25 and a maximum fee of $100 per facility.[71]

Protections regarding zoning requirements, insurance coverage, and utility rates provided to LFCCHs may result in cost savings. Other bill provisions with positive financial implications on private sector child care providers include:

- Clarifying that worker's and unemployment compensation requirements do not apply to early learning providers who are exempt under state and federal law.
- Eliminating the requirement that School Readiness program providers add the local ELC as an additional insured on its liability insurance policy.

D. FISCAL COMMENTS:

None.

III. COMMENTS

A. CONSTITUTIONAL ISSUES:

1. Applicability of Municipality/County Mandates Provision:

   Not Applicable. This bill does not appear to affect county or municipal governments.

2. Other:

   None.

[71] Section 402.315(3)(a), F.S.

B. RULE-MAKING AUTHORITY:

The bill authorizes DCF to adopt rules to define and enforce substantial compliance with minimum child care health and safety standards by license-exempt faith-based child care providers and nonpublic schools. This includes the adoption of minimum standards and procedures for inspection and disciplinary actions.

The bill requires DCF to adopt rules establishing criteria and procedures for abbreviated inspections and inspection schedules which provide for both announced and unannounced inspections

C. DRAFTING ISSUES OR OTHER COMMENTS:

None.

IV. AMENDMENTS/ COMMITTEE SUBSTITUTE CHANGES

On February 20, 2014, the Education Committee adopted three amendments and reported the proposed committee bill favorably. The amendments added provisions:

- Providing that School Readiness program providers with class I violation must be denied eligibility to offer the program.
- Requiring OEL to develop and implement best practices for providing parental notifications in a parent's native language to a parent whose native language is a language other than English.
- Establishing a two-year pilot project to study the impact of assessing the kindergarten readiness of English Language Learners participating in the VPK program in both English and Spanish.

On March 24, 2014, the Education Appropriations Subcommittee adopted eight amendments and reported the bill favorably as a committee substitute. The amendments added provisions:

- Requesting that the Division of Law Revision and Information change the phrase "family day care" to "family child care."
- Limiting the regulatory authority of local licensing agencies to enforce substantial compliance with minimum child care standards by nonpublic schools and licensed-exempt faith-based child care providers participating in the VPK program or School Readiness program.
- Authorizing DCF and local licensing agencies, as applicable, to issue a certificate of substantial compliance to nonpublic schools and license-exempt faith-based providers participating in the VPK program or School Readiness program.
- Authorizing OEL to allow VPK program or School Readiness program providers that are cited with a Class I violation to remain eligible to offer the programs if they self-reported and corrected the violation.

The amendments removed provisions revising the Rilya Wilson Act and those requiring FDCH substitutes to complete the same training requirements as the operator. Instead, the amendments codified the training requirements in DCF rule for licensed FDCH substitutes, which differentiate between substitutes who work 40 hours or more per month from those who work less. The amendments also required substitutes in registered FDCHs to complete the same training as substitutes in licensed FDCHs.

This bill analysis is drafted to the committee substitute, as passed by the Education Appropriations Subcommittee.

Section 13. Section 627.70161, Florida Statutes, is amended to read:

627.70161 Residential property insurance coverage; family child ~~day~~ care homes and large family child care homes ~~insurance~~.—

(1) PURPOSE AND INTENT.—The Legislature recognizes that family child ~~day~~ care homes and large family child care homes fulfill a vital role in providing child care in Florida. It is the intent of the Legislature that residential property insurance coverage should not be canceled, denied, or nonrenewed solely because child ~~on the basis of the family day~~ care services are provided at the residence. The Legislature also recognizes that the potential liability of residential property insurers is substantially increased by the rendition of child care services on the premises. The Legislature therefore finds that there is a public need to specify that contractual liabilities associated ~~that arise in connection~~ with the operation of a ~~the~~ family child ~~day~~ care home or large family child care home are excluded from residential property insurance policies unless they are specifically included in such coverage.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Child care" means the care, protection, and supervision of a child, for a period up to ~~of less than~~ 24 hours a day on a regular basis, which supplements parental care, enrichment, and health supervision for the child, in accordance with his or her individual needs, and for which a payment, fee,

or grant is made for care.

(b) "Family child ~~day~~ care home" has the same meaning as provided in s. 402.302(8) ~~means an occupied residence in which child care is regularly provided for children from at least two unrelated families and which receives a payment, fee, or grant for any of the children receiving care, whether or not operated for a profit~~.

(c) "Large family child care home" has the same meaning as provided in s. 402.302(11).

(3) CHILD ~~FAMILY DAY~~ CARE; COVERAGE.—A residential property insurance policy shall not provide coverage for liability for claims arising out of, or in connection with, the operation of a family child ~~day~~ care home or large family child care home, and the insurer shall be under no obligation to defend against lawsuits covering such claims, unless:

(a) Specifically covered in a policy; or

(b) Covered by a rider or endorsement for business coverage attached to a policy.

(4) DENIAL, CANCELLATION, REFUSAL TO RENEW PROHIBITED.—An insurer may not deny, cancel, or refuse to renew a policy for residential property insurance solely on the basis that the policyholder or applicant operates a family child ~~day~~ care home or large family child care home. In addition to other lawful reasons for refusing to insure, an insurer may deny, cancel, or refuse to renew a policy of a family child ~~day~~ care home or large family child care home provider if one or more of the

following conditions occur:

(a) The policyholder or applicant provides care for more children than authorized for family child ~~day~~ care homes or large family child care homes by s. 402.302;

(b) The policyholder or applicant fails to maintain a separate commercial liability policy or an endorsement providing liability coverage for ~~the~~ family child ~~day~~ care home or large family child care home operations;

(c) The policyholder or applicant fails to comply with the family child ~~day~~ care home licensure and registration requirements specified in s. 402.313 or the large family child care home licensure requirements specified in s. 402.3131; or

executive director of the office.

(8) Hire an inspector general who reports directly to the executive director of the office and to the Chief Inspector General pursuant to s. 14.32.

(9) By July 1, 2016, develop and implement, in consultation with early learning coalitions and providers of the Voluntary Prekindergarten Education Program and the child care and development program, best practices for providing parental notifications in the parent's native language to a parent whose native language is a language other than English.

Section 15. Subsection (4) of section 1002.53, Florida Statutes, is amended to read:

1002.53 Voluntary Prekindergarten Education Program; eligibility and enrollment.—

(4)(a) Each parent enrolling a child in the Voluntary Prekindergarten Education Program must complete and submit an application to the early learning coalition through the single point of entry established under s. 1002.82 or to a private prekindergarten provider if the provider is authorized by the early learning coalition to determine student eligibility for enrollment in the program.

The Office of Early Learning may authorize alternative methods for submitting proof of the child's age in lieu of a certified copy of the child's birth certificate.

(c) If a private prekindergarten provider has been authorized to determine child eligibility and enrollment, upon receipt of an application, the provider must:

1. Determine the child's eligibility for the program and be responsible for any errors in such determination.

2. Retain the original application and certified copy of the child's birth certificate or authorized alternative proof of age on file for at least 5 years.

The early learning coalition may audit applications held by a private prekindergarten provider in the coalition's service area to determine whether children enrolled and reported for funding by the provider have met the eligibility criteria in subsection (2).

(d) ~~(c)~~ Each early learning coalition shall coordinate with each of the school districts within the coalition's county or multicounty region in the development of procedures for enrolling children in prekindergarten programs delivered by public schools, including procedures for making child eligibility determinations and auditing enrollment records to

(1) Each early learning coalition shall administer the Voluntary Prekindergarten Education Program at the county or regional level for students enrolled under s. 1002.53(3)(a) in a school-year prekindergarten program delivered by a private prekindergarten provider. (b) The private prekindergarten provider must provide basic health and safety on its premises and in its facilities. For a public school, compliance with ss. 1003.22 and 1013.12

For a child care facility, a licensed family child care home, or a large family child care home, compliance with s. 402.305, s. 402.313, or s. 402.3131, respectively, satisfies this requirement. f. A baccalaureate or higher degree in family and child science and at least 480 hours of experience in teaching or providing child care services for children any age from birth through 8 years of age;

g. A baccalaureate or higher degree in elementary education if the prekindergarten instructor has been certified to teach children any age from birth through grade 6, regardless of whether the instructor's educator certificate is current, and if the instructor is not ineligible to teach in a public school because his or her educator certificate is suspended or revoked; or

h. A credential approved by the department as being equivalent to or greater than a credential described in sub-subparagraphs a.-f. The department may adopt criteria and procedures for approving such equivalent credentials.

2. The prekindergarten instructor must successfully complete an emergent literacy training course and a student performance standards training course approved by the office as meeting or exceeding the minimum standards adopted under s. 1002.59. The provider shall indemnify the coalition to the extent permitted by s. 768.28.

(l) The private prekindergarten provider shall be denied initial eligibility to offer the program if the provider has been cited for a Class I violation in the 12 months before

seeking eligibility. An existing provider that is cited for a Class I violation may not have its eligibility renewed for 12 months. This paragraph does not apply if the Office of Early Learning determines that the violation was reported by the provider and the employee responsible for the violation was terminated or the violation was corrected by the provider.

(m) The private prekindergarten provider must deliver the Voluntary Prekindergarten Education Program in accordance with this part and have child disciplinary policies that prohibit children from being subjected to discipline that is severe, humiliating, frightening, or associated with food, rest, toileting, spanking, or any other form of physical punishment as provided in s. 402.305(12).

~~(c) An associate's or higher degree in child development;~~

~~(d) An associate's or higher degree in an unrelated field, at least 6 credit hours in early childhood education or child development, and at least 480 hours of experience in teaching or providing child care services for children any age from birth through 8 years of age; or~~

~~(e) An educational credential approved by the department as being equivalent to or greater than an educational credential described in this subsection. The department may adopt criteria and procedures for approving equivalent educational credentials under this paragraph.~~

~~(5) Notwithstanding paragraph (3)(b), a private prekindergarten provider may not participate in the Voluntary Prekindergarten Education Program if the provider has child disciplinary policies that do not prohibit children from being subjected to discipline that is severe, humiliating, frightening, or associated with food, rest, toileting, spanking, or any other form of physical punishment as provided in s. 402.305(12).~~

(7) If a coalition disenrolls children from the child care and development ~~school readiness~~ program due to lack of funding or a change in eligibility priorities, the coalition must disenroll the children in reverse order of the eligibility priorities listed in subsection (1) beginning with children from families with the highest family incomes. A notice of disenrollment must be sent to the parent and child care and development ~~school readiness~~ program provider at least 2 weeks before disenrollment or the expiration of the current child care authorization, whichever occurs first, to provide adequate time for the parent to arrange alternative care for the child. SUMMARY ANALYSIS

The bill creates s. 288.11625, F.S., the Professional Sports Facility Incentive Program (program) process to provide state funding for the public purpose of constructing, reconstructing, renovating, or improving a professional sports facility. The program will be administered by the Department of Economic Opportunity (DEO). Annual distributions of state funds will be made by the Department of Revenue (DOR).

The bill allows municipalities and counties to expend portions of the local government half-cent sales tax for reimbursing the state as required by the program.

The bill adds the program to the list of economic development programs subject to review by the Office of Economic and Demographic Research (EDR) and the Office of Program Policy Analysis and Government Accountability (OPPAGA) by January 1, 2015.

The bill creates a new application, review, and approval process for funding sports facilities, but does not require any expenditure of funds. It also caps the total potential annual distributions at $12 million in General Revenue funds. Such distributions will be contingent upon future approval by the Legislature and enactment by general law approved by the Governor.[1]

The bill has an effective date of July 1, 2014.

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Present Situation

Professional Sports in Florida

There are nine major professional sports teams based in Florida covering each of the major professional sports leagues; the National Football League (NFL), Major League Baseball (MLB), National Basketball Association (NBA), and National Hockey League (NHL). The oldest major professional sports franchise in the state is the Miami Dolphins (NFL). The Dolphins franchise began play in 1966. The newest major professional sports team in the state is the Tampa Bay Rays (MLB) baseball franchise. The Rays franchise began play in 1998. The Miami Marlins (MLB), Tampa Bay Buccaneers (NFL), Jacksonville Jaguars (NFL), Orlando Magic (NBA), Miami Heat (NBA), Tampa Bay Lightning (NHL), and Florida Panthers (NHL) all play their home games in the state. MLB's Spring Training Grapefruit League is also based in Florida, with 15 teams claiming the state as their second home for preseason training and exhibition games.[2]

Beginning in 2015, the state will be home to a tenth major professional sports team when the Orlando City Soccer Club begins play as the 21st Major League Soccer (MLS) franchise.[3] Plans for a future franchise in Miami have also been announced by the league.[4] MLS is the premier professional soccer organization in the United States, having been launched in 1996 and boasting eight franchises valued at over $100 million.[5]

State Incentives for Professional Sports Teams

Section 288.1162, F.S., provides the procedure by which professional sports franchises in Florida may be certified to receive state funding for the purpose of paying for the acquisition, construction, reconstruction, or renovation of a facility for a new or retained professional sports franchise. Local governments, non-profit, and for-profit entities may apply to the program.

DEO is responsible for screening and certifying applicants for state funding.[6] An applicant qualifying as a new professional sports franchise must be a professional sports franchise that was not based in Florida prior to April 1, 1987. Applicants qualifying as retained professional sports franchises must have had a league-authorized location in the state on or before December 31, 1976, and be continuously located at the location.[7] The number of certified professional sports franchises, both new and retained, is limited to eight total franchises.[8]

For both new and retained franchises, DEO must confirm and verify the following:

- A local government is responsible for the construction, management, or operation of the professional sports franchise facility, or holds title to the property where the facility is located.[9]
- The applicant has a verified copy of a signed agreement with a new professional sports franchise for at least 10 years, or for 20 years in the case of a retained franchise.[10]
- The applicant has a verified copy of the approval by the governing body of the NFL, MLB, NHL, or NBA authorizing the location of a new franchise in the state after April 1, 1987, for new professional sports franchises, or verified evidence of a league-authorized location in the state on or before December 31, 1976, for a retained professional sports franchise.[11]
- The applicant has projections demonstrating a paid annual attendance of over 300,000 annually.[12]
- The applicant has an independent analysis demonstrating that the amount of sales taxes generated by the use or operation of the franchise's facility will equal or exceed $2 million annually.[13]
- The city where the franchise's facility is located, or the county if the facility is in an unincorporated area, has certified by resolution after a public hearing that the application serves a public purpose.[14]
- The applicant has demonstrated that it has provided, or is capable of providing, financial or other commitments of more than one-half of the costs incurred or related to the improvement or development of the franchise's facility.[15]

Any applicant that meets the above mentioned criteria, as verified by DEO, is eligible to receive monthly payments from the state in the amount of $166,667 for not more than 30 years totaling $2,000,004 annually.[16]

State funding may only be used for the public purposes of paying for the acquisition, construction, reconstruction, or renovation of a facility for a new or retained professional sports franchise; reimbursing associated costs for such activities; paying or pledging payments of debt service on bonds

issued for such activities; funding debt service reserve funds, arbitrage rebate obligations, or other amounts payable with respect to bonds issued for such activities; or refinancing the bonds.[17] The state may only pursue recovery of funds if the Auditor General finds that the distributions were not expended as required by statute.[18]

No facility may be certified more than once, and no sports franchise can be the basis for more than one certification unless the previous certification was withdrawn by the facility or invalidated by DEO before any funds were disbursed under s. 212.20(6)(d), F.S.[19]

As of February 17, 2014, there were eight certified professional sports franchise facilities in Florida. The facilities and the payment distribution for each, as provided by the Department of Revenue, are listed below:

Effect of Proposed Changes

The bill creates s. 288.11625, F.S., the Professional Sports Facility Incentive Program. The purpose of the program is to provide state funding under s. 212.60(6)(d)6.f., F.S., for the public purpose of constructing, reconstructing, renovating, or improving a professional sports facility.

Application Process

Applicants must be a unit of local government or an entity that is responsible for construction, management, or operation of a pro sports facility. A professional sports franchise (beneficiary) is eligible to apply under certain circumstances. DEO is directed to establish procedures and application forms to be used by program applicants and accept applications between June 1 and November 1 of each year. The bill gives DEO 60 days to complete its evaluation and notify the applicant in writing of its decision to recommend that the Legislature fund the project or deny the application. Applicants not approved by the Legislature, but recommended for funding by DEO may update a previously submitted application and re-apply.

The applicant must provide an independent analysis (Expected Sales Tax Analysis) by a state-certified public accountant (CPA) that provides an estimate of the new incremental state sales taxes generated

[17] Section 288.1162(5), F.S.
[18] Section 288.1162(7), F.S.

by sales at the facility above the average annual amount of state sales taxes generated by sales at the facility during the preceding 36-month period (estimate).

Evaluation Process

Before recommending an applicant for funding to the Legislature, DEO must first verify that all of the following requirements are met:

- The applicant is responsible for the project.
- If the applicant is a beneficiary, then a local government holds title to the property on which the facility is located.
- If the applicant is a local government, then the local government has an exclusive intent agreement to negotiate in this state with the beneficiary.
- The local government in whose jurisdiction the facility is located has passed a resolution after public hearing in support of the project.
- Neither the applicant nor the beneficiary have previously defaulted or failed to meet the requirements of a sports-related program within ch. 288, F.S.
- The applicant is not a Major League Baseball spring training facility, a Professional Golf Hall of Fame facility, or an International Game Fish Association World Center facility.
- The applicant has demonstrated a commitment to employing Florida residents and firms, and purchasing locally available building materials whenever possible.
- If the applicant is a local government, then they have a signed agreement with a beneficiary for use of the facility.
- If the applicant is a beneficiary, then they must enter into an agreement with DEO that requires them to repay any state funds disbursed, plus a five percent penalty should they cease to be the facility's primary tenant before their agreement expires, and to pay for VISIT Florida-approved advertising at the facility.
- The total project cost must be at least $100 million, with more than half the funding coming from private sources.
- The applicant has provided the Expected Sales Tax Analysis. DEO must consult with DOR or EDR to verify the analysis and may consult with DOR or EDR to develop a standard calculation for estimating new incremental state sales taxes generated by sales at the facility and adjustments to annual distributions.

By February 1 of each year, DEO will provide evaluations of all recommended applications, in ranked order, to the Governor, the President of the Senate, and the Speaker of the House of Representatives for final approval. Rankings will be determined by the project's ability to produce a significant positive economic impact within the state based on the following criteria:

- The ability of the project to provide a positive return on the state's investment.
- The proposed use of state funds.
- The length of time that a beneficiary has agreed to use the facility.
- The percentage of total project funds provided by the applicant, the percentage of total project funds provided by the beneficiary, and the total amount of private or in-kind contributions to the project.
- The number and type of "signature events"[21] the facility is likely to attract during the duration of the agreement with the beneficiary.

[21] Signature events are defined as sporting events that create a significant positive economic impact within the state, and enhances that status of the state as a premier sports tourism destination. Signature events include, but are not limited to, NFL Super Bowls, College Football Playoff games, college football bowl games, professional sports all-star games, international sporting events and tournaments, and professional motorsports events.

- The anticipated increase in average annual ticket sales and attendance at the facility due to the project.
- The potential to attract out-of-state visitors to the facility.
- The multiuse capabilities of the facility.
- The facility's projected employment of state residents, contracts with firms based within the state, and purchases of locally available building materials.
- The amount of positive advertising or media coverage the facility generates.
- The estimate provided in the Expected Sales Tax Analysis.
- The size and scope of the project and number of temporary and permanent jobs that will be created as a direct result of the project.

DEO may not recommend more than one annual distribution for any applicant, facility, or beneficiary at a time.

Legislative Approval

In order to receive a distribution through this program, an applicant must be approved by the Legislature and enacted by general law approved by the Governor.[22]

An applicant whose application is recommended by DEO but not approved by the Legislature may reapply and update any information in the original application as required.

Certification and Contract

An applicant approved by the Legislature and certified by DEO must enter into a contract with the department that:

- Specifies the terms of the state's investment.
- States the criteria that the certified applicant must meet in order to remain certified.
- States that the certified applicant is subject to decertification as recommended by DEO and approved by the Legislature.
- Requires the certified applicant to submit both analyses outlined in the bill.
- Specifies information that the certified applicant must report to DEO.
- Requires that the certified applicant reimburse the state each year that the Expected Sales Tax Analysis demonstrates the amount of new incremental state sales taxes generated by sales at the facility is less than the annual distribution amount.
- Includes any other provisions deemed prudent by DEO.

Annual Distribution of State Funds

DEO shall determine the annual distribution a certified applicant may receive based on the estimate of new incremental states sales taxes provided in the Expected Sales Tax Analysis. A certified applicant may receive up to 75 percent of the estimate or $2 million, whichever is less.

Before the sixth annual distribution is made by DOR, the certified applicant must submit to DEO an analysis (Initial Comparison Analysis) prepared by an independent CPA comparing the actual amount of new incremental state sales taxes generated by sales at the facility since certification to the sum of the first five annual distributions. DEO may consult with DOR to verify the Initial Comparison Analysis.

Annually, beginning with the sixth annual distribution, the certified applicant must submit to DEO an analysis (Annual Comparison Analysis) prepared by an independent CPA comparing the actual amount

[22] S. 8, Art. III of the State Constitution.

of new incremental state sales taxes generated by sales at the facility over the previous 12-month period to the most recent annual distribution. DEO may consult with DOR to verify each Annual Comparison Analysis.

In any 12-month period when total annual distributions for all certified applicants equal $12 million or more, DEO may not certify new annual distributions for any additional certified applicants.

DOR will begin annual distributions within 60 days of notification from DEO that an applicant is certified.

Approved Use of Funds

A certified applicant may only use state funds for the following purposes:

- Constructing, reconstructing, renovating, or improving a facility.
- Reimbursing costs associated with constructing, reconstructing, renovating, or improving a facility.
- Paying or pledging for the payment of debt service on, or to fund debt service reserve funds, arbitrage rebate obligations, or other amounts payable associated with bonds issued for the construction or renovation of a facility.

Reports

By November 1 of each year, a certified applicant must submit to DEO any required information for inclusion in the report the department will provide to the Legislature by February 1. Every three years, DEO must verify that a certified applicant is meeting the program requirements. If they are not, DEO must notify the Governor and Legislature of the requirements not being met and recommend future action as part of the report due February 1. DEO will consider exceptions that may have prevented the certified applicant from meeting the requirements of the program if they include force majeure events or a significant economic downturn.

Audits

Every five years, beginning in 2020, the Auditor General will conduct audits to verify the Annual Comparison Analyses, and to verify that the annual distributions are being expended as required. The findings will be reported to DEO. If the Auditor General finds that the annual distributions are not expended as required, then DOR must be notified.

Repayment of Distributions

A certified applicant may be subject to repayment of state funds if:

- The beneficiary has broken the terms of its agreement with a local government. A beneficiary must reimburse the state for funds that have been distributed, plus a five percent penalty, if the beneficiary no longer occupies or uses a facility as the facility's primary tenant before the agreement expires.
- DEO has determined that an applicant has submitted any false or misleading information. The applicant must reimburse the state for funds that have been distributed, plus a five percent penalty.
- The amount of new incremental state sales taxes generated by sales at the facility that is less than the sum of the first five annual distributions as demonstrated in the Initial Comparison Analysis. The certified applicant must reimburse the state for the difference between state funds that have been disbursed and actual new state sales taxes generated by sales at the facility, plus a five percent penalty, if such determination is made.
- The actual new incremental sales taxes generated by sales at the facility during the most recent 12-month period was less than the annual distribution as demonstrated in the Annual Comparison Analysis. This applies to the sixth annual distribution and all subsequent annual distributions.

Halting of Payments

The applicant may request to halt future annual distributions by providing DEO with written notice at least 20 days prior to the next annual distribution payment. DEO must notify DOR to halt future payments.

DEO will direct DOR to halt future disbursements to any certified applicant that has not made reimbursements as required by the program in a timely manner.

Other Changes

The bill amends s. 212.20, F.S., to allow applicants certified under the program to receive monthly payments from DOR equal to $1/12^{th}$ the amount certified by DEO. It also places a $12 million cap on the total amount that may be distributed annually by DOR to certified applicants.

The bill amends s. 218.64, F.S., to allow municipalities and counties the option to expend portions of the local government half-cent sales tax for the purpose of reimbursing the state as a condition of the contract terms required for this program.

The bill amends s. 288.0001, F.S., to add this program to the list of economic development programs scheduled to be reviewed by EDR and the OPPAGA by January 1, 2015.

(d) An applicant that is certified under this section does not require legislative approval in any subsequent year in order to continue to receive distributions of state funding authorized pursuant to that certification.

(7) DISTRIBUTIONS.—

(a) The Department of Revenue shall begin distributions within 60 days after notification of initial certification by the department.

(b) The department shall determine the amount of the first five annual distributions to be disbursed to a certified applicant before receipt of the analysis required under paragraph (c). However, a certified applicant may not receive an annual distribution amount under this paragraph that exceeds 75 percent of the estimated new incremental state sales taxes generated by sales at the facility or $2 million, whichever is less.

(c) Before the sixth annual distribution, as near to such distribution as determined practicable by the department by rule, a certified applicant shall submit to the department an analysis prepared by an independent certified public accountant

The department shall verify the analysis. The department may consult with the Department of Revenue to verify the analysis.

(d) The amount of a sixth or subsequent annual distribution to be disbursed to a certified applicant shall be determined by the department based on the estimate of the amount of new incremental state sales taxes that the facility is expected to generate annually in excess of the baseline amount as a result of the project provided pursuant to subparagraph (3)(d)2. However, a sixth or subsequent annual distribution to a certified applicant may not exceed 75 percent of the estimated amount of new incremental state sales taxes generated by sales at the facility or $2 million, whichever is less.

(e) The department may not certify new distributions for additional certified applicants if total distributions for all certified applicants equal or exceed $12 million in any 12-month period.

(a) Constructing, reconstructing, renovating, or improving a facility or reimbursing such costs.

(b) Paying or pledging the payment of debt service on, or to fund debt service reserve funds, arbitrage rebate obligations, or other amounts payable with respect thereto; bonds issued for the construction or renovation of such facility; or for the reimbursement of such costs or the refinancing of bonds issued for such purposes.

(a) If a beneficiary breaks the terms of its agreement with a certified applicant and relocates to another venue or no longer occupies or uses the facility as the facility's primary tenant, the beneficiary shall reimburse the state for state funds that have been distributed, plus a 5-percent penalty.

(b) If the department determines that a certified applicant has submitted information or made a representation that is false, misleading, deceptive, or otherwise untrue, the certified applicant shall reimburse the state for state funds that have been distributed, plus a 5-percent penalty.

(c) A certified applicant shall reimburse the state in an amount equal to the sum of the first five annual distributions less 75 percent of the actual new incremental state sales taxes generated by sales at the facility since certification of the applicant, plus a 5 percent penalty.

(d) Beginning with the sixth annual distribution, a certified applicant shall reimburse the state each year in an amount equal to the annual distribution received less 75 percent of the actual new incremental state sales taxes generated by

sales at the facility during the most recent 12-month period.

(e) If a certified applicant is unable or unwilling to reimburse the state as required by paragraphs (b), paragraph (c), or paragraph (d), the department may place a lien on the certified applicant's facility. If the applicant is a municipality or county, it may reimburse the state using local government half-cent sales tax distributions as provided in s. 218.64(3). Reimbursements shall be sent to the Department of Revenue for deposit into the General Revenue Fund.

(10) REPORTS.—

(a) By February 1 of each year, the department shall submit an annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The report shall include the department's recommendations submitted for legislative approval under paragraph (4)(b) and any other information required to be submitted pursuant to this subsection.

(b) On or before November 1 of each year, a certified applicant approved to receive state funds under this section shall submit to the department any information required by the department. The department shall summarize this information for inclusion in its annual report submitted under paragraph (a).

(c) Every 3 years after the first month that a certified applicant receives a monthly distribution, the department shall verify that the applicant is meeting the program requirements. If the applicant is not meeting program requirements, the

department shall notify the Governor, the President of the Senate, and the Speaker of the House of Representatives of the requirements not being met and shall recommend future action as part of the department's annual report submitted under paragraph (a). The department shall consider any extenuating circumstances that may have prevented the applicant from meeting the program requirements, such as a force majeure event or a significant economic downturn.

(11) AUDITS.—Every 5 years beginning in 2020, the Auditor General shall conduct audits pursuant to s. 11.45 to verify the independent analyses required under paragraph (7)(c) and to verify that distributions were expended in accordance with this section. The Auditor General shall report the findings to the department. If the Auditor General determines that a distribution was not expended in accordance with this section, the Auditor General shall notify the Department of Revenue, which may pursue recovery of the distribution under the laws and rules that govern the assessment of taxes.

(12) HALTING OF PAYMENTS.—

(a) A certified applicant may request to halt future distributions by providing the department with written notice at least 20 days before the next monthly distribution payment. Upon receiving such notice, the department shall immediately notify the Department of Revenue to halt future payments.
